**Draft Revenue Budget and Capital Programme 2018/19 – 2021/22**

**Ward(s)** All

**Portfolios:** All - specifically in relation to Resources and Transformation -  
Cllr M Bird – Leader of the Council  
Cllr A Andrew – Regeneration (Money Home Job)  
Cllr G Perry – Community Leisure and Culture (Partnerships)  
Cllr A Harris – Personnel and Business Support

**Executive Summary:**

The draft revenue budget and capital programme, as reported to Cabinet on 24 October 2018, includes the latest medium term financial outlook for the four year period from 2018/19 to 2021/22.

This report provides the budget report in full, plus the respective extracts of the draft budget proposals under the remit of the Scrutiny Overview Committee in relation to the Resources and Transformation directorate for consideration.

Feedback from this Committee on the draft proposals will be reported back to Cabinet on 12 December 2018. This will inform the final draft budget to be considered by Cabinet on 13 February 2019 to be recommended to Council on 28 February 2019. Any changes to Cabinet's December draft revenue budget proposals as a result of equality impact assessments and consultation will be fed into the final budget report.

**Reason for scrutiny:**

To enable consultation of the draft budget proposals, including those services within the remit of this Committee, and for any feedback to be reported back to Cabinet on 12 December 2018.

**Recommendations:**

**That:**

1. The Committee is recommended to consider the draft revenue budget and capital programme as reported to Cabinet on 24 October 2018.
2. The Committee is recommended to consider the draft revenue budget and capital programme attached that relate to the remit of this committee
3. The Committee are asked to note that consultation will be undertaken on all new 2019/20 policy savings shown in appendix 3a (and all council options referred to in Appendix 5a of the budget report), and that feedback will be presented to Cabinet on 12 December 2018.

**Background papers:**

Various financial working papers.

### **Resource and legal considerations:**

Cabinet on 24 October 2018 were presented with a list of proposed revenue savings and investments for consultation, and indicative revenue cash limits.

The full Cabinet report is attached, and can also be accessed at the following link: [Draft Budget](#)

The report to Cabinet referred to a policy saving of £109k for the 'review of contracts within Toxic Trio for perpetrator and counselling services' at Appendix 5a, and that a policy paper was not required due to a separate cabinet decision. A policy paper has since been produced, which can be located on the consultation page of the internet : [Policy Paper - Toxic Trio](#)

### Savings proposals

A number of the 2019/20 savings were part of the budget plan approved by Council in February 2018, the majority of which were operational (implemented through officer delegations). These are approved and are included within the directorate cash limit at **appendix 1** - these savings total £6.06m for services within the remit of this committee. This includes £5.00m for Walsall Proud Programme, which will be allocated to services once confirmed.

There is a further £0.17m of policy savings requiring consultation (**appendix 3a** – those with a direct impact on services and which require an Executive decision to proceed) and £0.17m of new operational savings (**appendix 3b** – savings which officers have delegations to implement).

As a council, we anticipate a further £13.94m of savings required in 2020/21 and £7.56m in 2021/22. It is expected that the refreshed transformation programme (Walsall Proud Programme as reported to Cabinet on 24 October 2018) will incorporate an organisational wide programme of change activity, with the breadth and pace of this being such that this will contribute significantly to delivering the required savings in 2020/21 and 2021/22.

### Investment / cost pressures

A number of investment / cost pressures have been identified and included in the draft budget proposals. Those relating to the remit of this Committee are shown as **Appendix 2**.

### Capital Programme

Capital programme resources are limited. The financing for capital investment is heavily reliant on grants and other funding received from the Government, with the remaining flexibility through capital receipts and borrowing.

Despite the above difficulties, significant investment is planned and funded over the four years 2018/19 to 2021/22. The council is able to fund existing commitments and

has, through prioritisation of bids and resources and sound treasury management, been able to support new investment into key services, and areas of capital investment need.

The capital programme is presented in two parts:

- Council funded programme - funded by the council's own resources, through borrowing, revenue contributions and receipts. **Appendix 4** summarises those schemes relating to the remit of this committee.
- Externally funded programme - funded from capital grants and third party contributions. **Appendix 5** summarises those schemes relating to the remit of this committee.

### **Council Corporate Plan Priorities:**

In order to meet the council's purpose and vision, the council will be focussing its' energy over the next four years on the following key priorities, recognising that it must do so with decreased and decreasing resources and concentrating efforts on those most in need:

- **Economic growth** for all people, communities and businesses.
- **People** have increased independence, improved health and can positively contribute to their communities.
- **Internal Focus** – all council services are efficient and effective.
- **Children** have the best possible start and are safe from harm, happy, healthy and learning well.
- **Communities** are prospering and resilient with all housing needs met in safe and healthy places that build a strong sense of belonging and cohesion.

### **Citizen impact:**

Details of potential impact are reviewed alongside the equality impact assessment of each savings proposal.

### **Environmental impact:**

The impact on the environment is considered in all savings proposals.

### **Performance management:**

Financial performance is considered alongside service performance. Managers are required to deliver their services within budget and there are comprehensive arrangements in place to monitor and manage this.

### **Reducing inequalities:**

Service managers have regard to equalities delivering services and identifying saving options. Equality impact assessments are being undertaken as required prior to final recommendations being made to Council on the budget, along with any mitigating actions. The majority of the savings are based upon the review of needs and how that need is met within statutory requirements.

### **Consultation:**

Consultation is an integral part of the corporate budget process and ongoing arrangements are in hand to consult with a wide range of stakeholders as appropriate (i.e. councillors, residents, service users, business sector, voluntary and community organisations, etc.). This is outlined in the budget report to Cabinet on 24 October 2018.

Feedback from consultation, including those from this committee, will be presented to Cabinet for their consideration. Any changes to the draft budget proposals, including arising from consultation, will be reported to a future meeting of the Committee.
