CGR	C5b Healthcare Organisations ensur	e that b)	clinical care and treatment are carried out u	under Supe	rvisior	and	Leadership.
A-468	There are mechanisms in place to ensure that all staff involved in delivering clinical care and treatment receive appropriate supervision.	31 Jul 2005	30/Sep/2005: In all areas of nursing services in the tPCT, nurses have reporting mechanisms to more senior nurses and subsequently to the Nurse Director. Senior nurses in all areas form the Nurse Professional Forum (Chaired by the Nurse Director) which discusses all issues pertaining to the profession, develops models of working and develops and approves policies and procedures for dissemination to the nursing workforce via discipline-specific groups and the Mental Health Nurse Forum (chaired by the Head of Mental Health Nursing). Specialist nurses are also managed by a senior nurse (also on the forum) and use evidence bases in their own specialist areas to ensure that best practice is disseminated. They and the clinical nurse specialists for education conduct individual and service audits, pick up issues and problems and devise mechanisms to address them. As part of this work and linked to Agenda for Change the KSF is being developed such that career pathways are in place in all areas. Heads of the AHPs have similar processes for each profession. A Clinical Practice Development Strategy for Community Nurses is in place. Heads of AHPs' have similar processes for each profession.	Completed	Low	10	Director / Deputy Chief Executive) Margaret Willcox (Director of Mental Health) Sam Ramaiah (Director of Public Health / Medical Director)
A-469	Clinical Leadership is supported and developed across all Disciplines.	31 Jul 2005	29/Jun/2005: The new management structure ensured that all nurses have direct links to appropriate clinical leadership (e.g. DNs for DNs, HVs for HVs etc - including mental health and learning disability nurses in their own professional groups. All clinical leads for nurses report to the Nurse Director, thus ensuring the clinical leadership. All AHPs have reporting links to their head of profession. See also A468.	Completed	Low	7	Terry Mingay (Nurse Director / Deputy Chief Executive) Margaret Willcox (Director of Mental Health)
A- 1101	Mental Health specific evidence	31 Jul 2005	14/Oct/2005: Progress included in above information	Completed	Low	2	2 Karen Williams (General Manager for Service Development)

CGR	352 C5c Healthcare Organisations ensu	re that c) Cli	inicians continuously update skills and ted	hniques re	levant	to the	eir clinical work
A-471	Clinical professionals from all disciplines have access to and participate in activities to update the skills and techniques relevant to their clinical work.	31 Jul 2005	06/Jul/2005: Appraisal and personal development planning is systemised throughout the organisation with links to training plans on an organisation wide and departmental basis. Clinical Nurse Specialists for Education (CNS-Educ) are based in the training department to form the professional and education links. Specialist nurses develop education programmes in their own areas and with the CNS-Educ have processes in place to train staff and check competences. Heads of Mental Health and Learning Disability Nursing develop programmes required in their areas. Consultants are appraised annually by Medical Director, then in turn they appraise the Associate Specialists and junior Medical staff. SHOs' complete documentation and their Educational Supervisors complete three reports a year. SHOs' also have to regularly update their official log books, which they take from one rotation to another. CNS for Education and Development (DNs') training needs analysis is linked to block contract. There is also a robust inhouse training programme linked to PDP's - updated 3 monthly. Staff Nurse assessment programme developed following information gathered from staff nurse appraisals. Induction Programme developed for all Community Nurses. Final placement programme developed incorporating, recruitment initiatives for newly qualified staff. Links with academic centres and external facilitators to provide staff update and specialist training e.g. Palliative Care. AHPs' have in-house training programmes and access to training via BBC funds.	Completed	Low	11	P Terry Mingay (Nurse Director / Deputy Chief Executive) (Lead nurses) Margaret Willcox (Director of Mental Health)

CGR3	C6 Healthcare Organisations cooper managed and met.	ate with eac	ch other and Social Care Organisations to	ensure tha	t patiei	nts' in	dividual needs are properly
4-474	The Healthcare Organisation has systems in place to ensure Health and Social Care Organisations cooperate with each other.	31 Jul 2005	13/May/2005: Senior members of the Organisation meet monthly with partners from Health and Social care in Health and Social Care Partnership Board, and at User Group Partnership Boards - Older people, children's, Learning Disabilities, Younger Adults. These groups develop strategies which are signed off by Partnership Executive Groups which in turn report to a Joint Executive team (Director of Social Services and Chief Execs of PCT and Hospital Trust). The PCT contributes through the above procedures to all joint strategies. Wherever possible services are delivered in multi agency, multidisciplinary ways. Examples include the Intermediate Care Team, the Stroke Team, the Child and Adolescent Mental Health Team, the Mental Health Crisis Team, services for Looked After Children, Child Protection Services. The user group partnership boards also carry out the functions of the Local Implementation Teams which are therefore multidisciplinary and multi agency. Other LITs (cancer and diabetes, for example) are also MD and MA.	Completed	Medium	10	Paul Jennings (Chief Executive) Terry Mingay (Nurse Director / Deputy Chief Executive)
-475	The Healthcare Organisation works with relevant partner agencies to ensure that patients' individual needs are properly met and managed.	31 Jul 2005	29/Jun/2005: Wherever possible and relevant processes are in place to work with partner organisations to identify and manage individuals needs. Systems are robust in several areas e.g. Children's Services (including CAMHS which has a multi-agency Strategy that sets out aims and objectives to meet the comprehensive CAMHS by 2006). Mental Health Services for adults, older peoples services and learning disability services where person centred planning is well established. The development of the single assessment process is well developed and increasing the relationship with partner agencies in management of care needs.	Completed	Low	8	Paul Jennings (Chief Executive) Terry Mingay (Nurse Director / Deputy Chief Executive)
A- 1098	Mental Health specific evidence	31 Jul 2005	04/Oct/2005: Progress /evidence as above	Completed	Low	17	Karen Williams (General Manager for Service Development)

-489	The Healthcare Organisation supports and involves staff in Organisational and Personal Development Programmes	31 Jul 2005	09/May/2005: There is an expectation that Staff and Managers participate in appraisal on an annual basis which should involve the production of a Personal Development Plan. New IPR training for managers commenced in May it incorporates The Knowledge and Skills Framework part of Agenda for Change. From this year the training department will be collecting and monitoring data on the ethnicity, gender, age and disability status of staff accessing training programmes.	Completed	Medium	12	2 Julie Cooper (Director of Human Resources & Workforce Development) Jane Bayliss (Head of Education & Training)
·-490	The Healthcare Organisation ensures that staff from minority groups have access to Organisational and Personal Development Programmes to help address under representation in different parts of the workforce.	31 Jul 2005	05/Jul/2005: The tPCT is monitoring access to training in relation to ethnic grouping. A new external nomination form with appropriate demographic data has been developed. This data will be monitored quarterly.	Completed	Medium	3	Julie Cooper (Director of Human Resources & Workforce Development) Jacqueline Webley (Diversity Manager)

CGR367 C9 Healthcare Organisations have a systematic and planned approach to the management or records to ensure that, from the moment a record is created until its ultimate disposal, the Organisation maintains information so that it serves the purpose it was collected for and disposes of the information appropriately when no longer required.

A-491 The Healthcare Organisation has systems in place to ensure records are managed in accordance with the Information Governance Toolkit.

31 Jul 2005

12/Apr/2005: Policies and procedures are being prepared as appropriate to comply with the Information Governance Agenda. Connecting for Health have stated that the compliance of an organisation with Information Governance should show continued improvement. The tPCT scored approximately 48%(amber rating) this year. An action plan has been produced to ensure we do improve in all areas by next year.

The health records and records management is directed by the Record Steering Group. Also see evidence from Risk Management Standard Level 1A and 1B.

CGR397 C19 Healthcare Organisations ensure that patients with emergency health needs are able to access care promptly and within nationally agreed timescales, and all patients are able to access services within national expectations on access to services

A-459 The healthcare organisation ensures that patients are able to access its services within nationally agreed timescales and expectations. THIS STANDARD WILL BE MEASURED UNDER EXISITING TARGETS AND THE NEW NATIONAL TARGETS ASSESSMENT

31 Jul 2005

06/May/2005: This standard will be measured under the existing targets and new national targets assessments. Practices have been monitoring their access and profiling their demand and capacity since wave 2 of the Primary Care Collaborative. A number of national and local workshops were attended to redesign services based on the profiling of demand and capacity.

A number of practices implemented nurse triage (telephone or face-to-face) whilst participating in the Primary Care Collaborative.

The tPCT has implemented an Access Contingency service for GP and nurse appointments. The tPCT has commissioned a Phlebotomy LES to create additional capacity within Primary Care, the Walk-In Centre and has extended the domiciliary service to reduce the phlebotomy referrals to secondary care).

The tPCT has implemented an Access Contingency service for GP and nurse appointments.

CGR41		and national	nd managed disease prevention and hea plans with particular regard to reducing itted infections.				
	The healthcare organisation collects, develops and analyses information to understand the current and future health and healthcare needs of the local population, reflecting health inequalities.	31 Jul 2005	12/May/2005: The organisation carries out epidemiological, corporate and comparative health needs assessments using the Stevens and Raftery approach. The corporate approach involves members of the public as well as professionals. The needs assessments are carried for the department, for other departments within the organisation and for other organisations. This is ongoing; the organisation is continually collecting and analysising information to understand the healthcare needs of the local population. New reports and needs assessments are currently being commissioned.	Completed	Low	3	Sam Ramaiah (Director of Public Health / Medical Director) John Linnane (Deputy Director of Public Health)
	The healthcare organisation sets priorities for disease prevention and health promotion by using information about the health and healthcare needs of the population and evidence of effectiveness.	31 Jul 2005	18/May/2005: Whilst there is no over arching Health Promotion/Inequalities strategy each individual health promotion programme/service have annual action/development plans each of which contributes to improving health and reducing health inequalities. These include Smoking Cessation, 5 a Day, CHD (through the NDC funded Healthy Hearts Project), Sexual Health, Drugs, Alcohol and Health Action Zone programme. The HAZ programme looks specifically at health inequality issues and funds projects to address these in response to local need and national plans/targets. The tPCT has recently developed a Primary Prevention Strategy and Obesity Strategy. However, following organisational restructure and consequently the development of a Health Promotion Unit, it is envisaged that an overarching strategy will be developed in the forthcoming months. All individual health promotion services/programmes are developed in accordance with best practice and evidence of effectiveness from NICE, the HDA, and experience from other successful national and local programmes. The Primary Prevention Strategy includes an evidence base document for the evidence of effectiveness for programmes relating to reducing smoking, increasing physical activity and healthy eating. The Performance Review Process and 2004 DPH Annual Report is part of a health equity process. This and local health needs assessments, such as the cancer needs assessment and BREATHE project are used to inform planning for priorities through the LDP process. This process assists the development of priorities for action locally in context of national policy.	Completed	Medium	6	Sam Ramaiah (Director of Public Health / Medical Director) John Linnane (Deputy Director of Public Health)

A-528	The healthcare organisation commissions and/or provides locally appropriate evidence-based disease prevention and health promotion programmes and services to meet the requirements of the NSFs and national and local plans.	31 Jul 2005	o3/Oct/2005: There is ongoing action to address this standard via the tPCT Public Health Performance Review Group, therefore this action never actually completes as it is vital that services and programmes are continuously monitored and evaluated. The Performance Review Group monitors and evaluates disease prevention and health promotion services and programmes which are designed to meet national plans/targets and local needs. The group draws together all the work being carried out locally in a structured way, systematically reviewing performance. Designated leads and key individuals take the discussions and information back to relevant groups, including the tPCT board as appropriate. The group meet for its annual planning meeting in July 2005 and reviewed action against each target and service plan setting priority areas for action for the year. The Public Health Annual Report, which is due to be published in September 2005, also monitors services and programmes, outlines current activity and disseminates best practice. Both the information contained within the report and the discussions at the performance review group are fed into relevant groups including the LDP planning process. This process is further supported through specific local implementation team's (Cancer, CHD, Diabetes etc) who have representation from prevention service leads to monitor local health promotion services and programmes to ensure they are delivering in accordance with national priorities, local need and are evidence based. Borough wide involvement in the monitoring and evaluation of disease prevention and health promotion services and programmes is done via the local strategic partnership, specifically the health and social care partnership and the tPCT local implementation from a range of partners including the tPCT, Acute Trust and Local Authority.	Completed	Low	2	Stella Forsdike (Director of Commissioning & Performance) Catherine Boneham (Patient & Public Involvement Lead)
A-529	The healthcare organisation implements policies and practice to support healthy lifestyles among the workforce.	31 Jul 2005	12/May/2005: This data is broken down, where relevant, by demographic profile, including ethnicity, gender, age, socio-economic group and geographical location. The 2004 Annual Report and Occasional Report, Who we are and how we live looking at the 2001 Census and Lifestyle Survey illustrate this.	Completed	Low	2	Sam Ramaiah (Director of Public Health / Medical Director) Julie Cooper (Director of Human Resources & Workforce Development)

A-530	Systems are in place for monitoring, evaluating and disseminating findings in relation to disease prevention and health promotion programmes and services.	31 Jul 2005	18/May/2005: A system for monitoring, evaluating and disseminating findings is in place through routine and ad-hoc reports/research and the public health performance review group. Although, the process continues to be reviewed as required. The Director of Public Health Annual Reports and the Our Healthier Nation Reports monitor services which are designed to meet national targets and local needs. The Public Health Performance Review Group monitors and evaluates disease prevention and health promotion services and programmes which are designed to meet national plans/targets and local needs. The group draws together all the work being carried out locally in a structured way, systematically reviewing performance. Designated leads and key individuals take the discussions and information back to relevant groups, including the tPCT board as appropriate. Through the Public Health Annual Reports and Public Health Performance Review Group designated leads and key individuals take the discussions and information back to relevant groups, including the PCT board as appropriate, feeding the findings from monitoring and evaluation fed back into the LDP planning process. This process is further supported through specific Local Implementation Team's (Cancer, CHD, Diabetes) who have representation from prevention service leads to monitor local health promotion services and programmes to ensure they are delivering in accordance with national priorities, local need and are evidence based. Borough wide involvement in the monitoring and evaluation of disease prevention and health promotion services and programmes is done via the Local Strategic Partnership, specifically the Health and Social Care Partnership and tPCT Inequalities Forum, all of which have representation from a range of partners including the tPCT, Acute Trust and Local Authority. Extra evidence can be found on http://www.walsall.wmids.nhs.uk/pct/PublicHealthpublications.	Completed	Low	10	Sam Ramaiah (Director of Public Health / Medical Director) John Linnane (Deputy Director of Public Health)

A-531	The healthcare organisation has the capacity and capability to systematically and effectively deliver their public health responsibilities.	31 Jul 2005	12/May/2005: The capacity and capability to systematically and effectively deliver the public health responsibilities is ongoing. The Director of Public Health Annual Report for 2004 is an equity profile of all the major health inequality targets across Walsall. The findings and gaps identified in this report have been incorporated into the LDP planning this year. To progress the audit cycle, a Public Health Performance Review Group has also been established to look at all the key Public Health Targets. This group is responsible for monitoring and reviewing the equity profile, ensuring that progress is being made towards all the key targets. Action plans will be developed and monitored by the group around gaps or areas of concern.	Completed	High		Paul Jennings (Chief Executive) Sam Ramaiah (Director of Public Health / Medical Director)	
CGR4	CGR411 C24 Healthcare Organisations protect the public by having a planned, prepared and, where possible, practiced response to incidents and emergency situations which could affect the provision of normal services.							
A-532	The healthcare organisation has up to date plans to deal with major incidents and emergency situations that are compliant and tested in accordance with national guidance.	31 Jul 2005	04/Oct/2005: e plans are due for update in July 2005 but may be subject to amendment following the recent appointment of Health Emergency Planning Officer, Mr Gary Evans. Update 2005 expected in October 2005. The plans will be tested in a major exercise to take place before April 2006. This standard is continually updated.	Completed	Low	Ę	Sam Ramaiah (Director of Public Health / Medical Director) Nicholas Pugh (Consultant in CDC & Public Health)	
A-533	The healthcare organisation works with key partner organisations in the preparation and testing of major incident plans.	31 Jul 2005	29/Jul/2005: Partnership improved with the appointment of a Health Emergency Planning Officer, jointly funded by Walsall MBC, the Manor hospital, and Walsall tPCT.	Completed	Low	3	Sam Ramaiah (Director of Public Health / Medical Director) Nicholas Pugh (Consultant in CDC & Public Health)	
A-534	The healthcare organisation has identified the financial resources needed to respond to incidents and emergency situations that could affect the provision of normal services.	31 Jul 2005	29/Jul/2005: There is always the promise of contingency tPCT funding to respond to these incidents	Completed	Low	2	Sam Ramaiah (Director of Public Health / Medical Director) Nicholas Pugh (Consultant in CDC & Public Health)
