Cabinet – 21 March 2007

Corporate financial performance 2006/07

Portfolio: Councillor John O'Hare – Resources

Service: Corporate finance

Wards: All

Key decision: No

Forward plan: No

Summary of report

The RAG status of this report is amber as the forecast revenue outturn is an overall modest overspend of c £0.7m (0.12%) of the current gross budget. But several actions are underway, which if successful are expected to improve this position. This is an improvement on the previously reported position to January Cabinet of c £0.6m. A year end capital surplus of c £6.9m @ 31.3.07 is forecast, which is expected to be largely carried forward into 2007/08 to fund slippage on approved capital projects.

Recommendations

- 1. That the following currently predicted year end forecasts be noted:
 - a net revenue overspend of up to £0.7m (0.12% of the current gross budget).
 - a surplus of c £6.9m on the capital programme which is largely expected to be carried forward into 2007/8.
- 2. To note that action is being taken to seek to improve the current forecast outturn;
- 3. To note that a number of carry forward requests may be approved under the council's approved protocol within the Medium Term Financial Strategy, resulting in a revised overspend of c £1.2m, which is within the predictions previously outlined and which has been taken into account in the replenishment of reserves in setting the 2007/08 budget.

Resource and legal considerations

Managers are required to deliver their service targets and improvements within budget. Small variations are normal and insignificant on a gross revenue budget (excluding internal charges) of £611.23m. **Table 1** shows the impact of the predicted year-end position on general reserves. Work is underway to reduce the forecast overspend. Action plans have been received from most overspending services and their impact is included within the report.

General Reserves

If currently predicted overspends arise, prior to approval of carry forwards, year end general reserves would be c £4.9m. Where positive action has already been identified by services it is reflected in this report. The potential risks to the forecast outturn are identified later in this report.

| TABLE 1: PREDICTED YEAR END POSITION 2006/7 | | | | |
|--|--------------|--|--|--|
| REASON | 2006/7 £M | | | |
| General reserves as at 31.03.06 (post-audit) | -5.260 | | | |
| Plus: planned contribution to reserves | -0.355 | | | |
| Sub total | -5.615 | | | |
| Predicted revenue overspend (appendix 1) | 0.705 | | | |
| Estimated general reserves @ 31.03.07 | 4.910 | | | |

Earmarked Reserves and Central Contingency

Central contingency for 2006/7 is £0.37m. **Appendix 2** shows how this and the earmarked reserves are planned to be spent. The full impact of the recovery of carry forward overspends from 2005/6 to 2006/7 is also included within the predicted outturn.

Citizen impact

The 2006/07 policy-led budget is aligned with activity in service plans. Investment is targeted at service improvement, stability and user demand. Demonstration of financial stability and sound financial management promotes public confidence and credibility

Community safety

None directly associated with this report.

Environmental impact

None directly associated with this report.

Performance and risk management issues

Managers are required to deliver service and improvement targets on time, to standard and within budget. The performance management system uses a red, amber, green (RAG) indicator to show the current status. The current position is amber, requiring corrective action. Action is being taken by all overspending services.

Risk management is embedded in budget preparation, monitoring and forecasting to enable potential budget variances and risks to be identified early and addressed. The figures in this report represent the most likely outcomes based on currently available information.

A number of assumptions have been made in the forecast figures by managers, including that corrective action plans continue to deliver reductions as planned. There are risks attached to this, which are highlighted in **Appendix 3** that could impact adversely on the current position, and which require continued active management.

Equality implications

None directly associated with this report.

Consultation

The report is prepared in consultation with relevant managers and executive directors.

Vision 2008

Robust financial management enables the council to maintain financial stability and ensure best value allocation of resources. Budgets are also linked to vision headings to deliver key priorities as part of the budget setting process via decision conferencing.

Background papers

Various financial working papers.

12 March 2007

REVENUE BUDGET

Managers currently reporting overspends are taking action to bring spending back into line with the budget. The main areas of variance and the reasons for them are:

Regeneration + £0.1m

- Planning and building control (+£0.09m) and land charges (+£0.24m) will be overspent due to predicted lower income from fewer planning applications and search requests. However, Regeneration is committed to reducing this overspend by £0.2m.
- Markets income reduction (+£0.1m) resulting from the decline in the market sector and current works. This is offset by underspends within urban regeneration.
- WBSP (-£0.2m) due to additional NRF and LAA grant income.

Neighbourhood Services -£0.14m

- Street pride waste management (-£0.1m) mainly due to a reduction in volume of waste disposed, fleet (-£0.18m) reduction in costs of leased vehicles.
- Asset management (+£0.1m) additional costs occurred from security patrols and boarding up of 2 redundant building awaiting demolition offset by small underspends.
- Engineering and transportation (-£0.3m) due to additional section 74 and car park income and vacancy management.
- Leisure and culture (+£0.16m) under recovery of income on Illuminations, closure costs of study support team and additional costs of new electoral legislation partly offset by general operational costs within the first stop shop.
- Sport and operational services (+£0.2m) introduction of new Government legislation on healthy eating has increased food costs and affected take up of meals in primary schools. This is partly offset by underspend on sports development projects and vacancy management.
- Public protection (-£0.1m) due to vacancy management, additional income from registrars and a reduction in sampling fees and removal of travellers costs.

Corporate Services - £1.28m

- Finance (-£0.12m) mainly due to savings on salaries and external audit core fees partly offset by a shortfall in income within financial information systems.
- Revenue and benefits (-£0.24m) increase in housing benefit payment recovery and vacancy management partly offset by additional agency staff costs.
- Human resources and development (HR) (-£0.2m) due to a planned transformation project continuing into 2007/08 and requested to be carried forward to fund the costs. (OD) (-£0.2m) additional job advertising and grant income and slippage of the training plan.
- Business support (-£0.2m) savings in vacancy management and increased efficiencies over 2006/07 targets.
- Performance management (-£0.2m) due to vacancy management, reduction in audit fees, supplies and services.
- Council wide services (-£0.2m) various underspends.

Children and Young People + £0.47m

- Children's services (+£0.3m) due to increased costs of maintaining family contact for looked after children, challenging staffing efficiency targets, increased costs of family assistants and additional direct payments partly offset by a reduction in contract levels and payments.
- Print and design (+£0.49m) although work has been undertaken to reduce costs and increase income, these are not predicted to be sufficient to balance the budget in 2006/07. The above figure includes a charge of £0.09m to correct a stock accounting error from 2004/05 and the carried forward overspend of £0.08m from 2005/06. A review of the Print & Design function continues.
- Youth Service (-£0.16m) due to delays in recruitment in vacant posts.

Social Care and Inclusion + £1.56m

An overspend of c£2m is currently predicted but an action plan is in place which
is expected to reduce this to c £1.5m by the end of the year. Whilst the corrective
action plan has been delivered and has mitigated the overspend, the position has
worsened by £0.67m since last SLT report due to reduced recovery of debt
charges and additional income shortfalls. This also includes extra costs of
learning disability reprovision packages that are currently under investigation.

Carry forward of underspends from 2006/07 to 2007/08

A number of carry forward requests have been received so far. In reviewing the level of available balances, including the replenishment included in the 2007/08 approved budget, carry forward of slipped projects and planned underspends via sound financial management in the region of £0.5m is expected to be approved, resulting in a net overspend position at year end of c£1.2m. This can be accommodated from balances, with the opening working balance of £4.6m achieved in full. This is subject to the current outturn position of £0.7m overspend not worsening. Cabinet will be asked to endorse the level of carry forwards when the final outturn is available in June 2007.

CAPITAL PROGRAMME 2006/07

Mainstream funded

The mainstream capital programme currently shows unallocated resources of c£6.92m (**Table 2**). This assumes that capital schemes will continue as currently predicted by project managers.

| TABLE 2 : MAINSTREAM PROGRAMME | | |
|---|--------|--|
| PROGRAMME | £m | |
| | 00.000 | |
| Capital Programme approved by Cabinet 6 March 2006 | 22.226 | |
| Approved slippage | 8.421 | |
| Adjustment to budget for schemes now funded by mainstream not grant | 5.520 | |
| Total revised programme | 36.167 | |
| EXPENDITURE | | |
| Actual expenditure as at 31 January 2007 | 17.828 | |
| Balance remaining at year (from cashflow forecasts) | 11.420 | |
| Total forecasted capital expenditure for year | 29.248 | |
| | | |
| Surplus/(shortfall) in forecasted mainstream programme | 6.919 | |

Prudential Programme

In line with the treasury management strategy, in 2005/06 £4.1m additional unsupported borrowing was used as a more effective source of funding than capital receipts. This allowed capital receipts of c £15.25m to be carried forward in line with the approved capital programme. Once again in 2006/07 whether to use unsupported borrowing or capital receipts will be considered in light of prevailing markets and the corporate financial position.

| TABLE 3 : PRUDENTIAL PROGRAMME | |
|--|--------|
| RESOURCES | £m |
| Unsupported borrowing | 8.866 |
| Resources brought forward from 2005/6 | 3.162 |
| Total estimated resources | 12.028 |
| EXPENDITURE | |
| Actual expenditure as at 31 January 2007 | 7.442 |
| Balance remaining for year (from cashflow forecasts) | 2.311 |
| Total forecasted capital expenditure for year | 9.753 |
| | |
| Surplus/(shortfall) in forecasted prudential resources | 2.275 |

Capital Receipts

Table 4 details the anticipated level of receipts and use of receipts in 2006/07. It is planned to carry forward c£9.1m of capital receipts to support the 2007/08 capital programme.

| TABLE 4 : CAPITAL RECEIPTS 2006/07 | | | | | |
|---|-----------|-----------|--|--|--|
| Funding | Actual £m | Target £m | | | |
| | | | | | |
| Capital receipts brought forward from 2005/06 | 15.247 | 9.103 | | | |
| Receipts received to date 2006/07 | 1.872 | 0.000 | | | |
| Additional receipts expected to be received | 5.271 | 8.300 | | | |
| Total capital receipts as at 31.12.06 | 22.390 | 17.403 | | | |
| Use of capital receipts 2006/07 | 13.305 | 12.364 | | | |
| Capital receipts carry forward to 2007/08 | 9.085 | 5.039 | | | |

Non-mainstream funded

The non-mainstream capital programme currently shows an unfinanced debtor of c£2.9m to be carried forward to 2007/8 (**Table 5**). In general, grant income is received after the expenditure takes place so a time lag of funding is expected and accounted for. Continual monitoring is undertaken to ensure that grant is being claimed and received on a regular basis. It is important to note that no scheme will be allowed to start unless an approval from the funding provider has been received to ensure that there will be no call on mainstream resources.

| TABLE 5 : NON-MAINSTREAM FUNDED | | | |
|---|--------|--|--|
| RESOURCES | £m | | |
| Grant received as at 31 January 2007 | 28.371 | | |
| Forecasted grant to be received by 31 March 2007 | 3.339 | | |
| Total forecasted resources | 31.710 | | |
| EXPENDITURE | | | |
| Actual expenditure as at 31 January 2007 | 20.547 | | |
| Balance remaining for year (from cash flow forecasts) | 9.394 | | |
| Total forecasted capital expenditure for year | 29.941 | | |
| Unfinanced debtors brought forward from 2005/06 | 4.682 | | |
| Unfinanced debtors to be carried forward to 2007/08 | -2.913 | | |
| Total capital commitment | 31.710 | | |
| Surplus/(shortfall) in forecasted non- mainstream resources | 0.000 | | |

Leasing

Leasing minimises the call on capital resources by spreading the cost over a number of years, financing the cost from revenue. Services bid for c £8.38m of capital expenditure to be financed by leasing in 2006/7. £1.18m of the leasing provision has been used to date and it is planned that a further £0.82m will be used in the current financial year.

| TABLE 6 : LEASING PROGRAMME | £m |
|---|-------|
| Resources available | 8.375 |
| Leasing provision used as at 31 January 2007 | 1.184 |
| Leasing provision forecasted to be used by 31 March2007 | 0.818 |
| Surplus/(shortfall) in leasing programme | 6.373 |

NB: this does not result in surplus capital resources

The prudential system allows borrowing to fund the purchase of leased items. This expenditure would be treated as capital rather than revenue expenditure and mean the council would buy the assets outright. The decision to lease or buy depends on several variables such as the cost of borrowing and the residual value of the asset at the end of its leased life. Prior to each drawdown, our leasing advisors produce a report and recommendations as to which financing approach is most appropriate. A vigorous evaluation is then carried out before a decision to lease or buy is made, ensuring vfm.

Capital Contingency

A capital central contingency is held of £.025m. To date £0.09m has been utilised.
