## 105/16 Managerial Controls on Financial Spend in Adult Social Care

Before the Committee considered the report, the Vice-Chair reminded Members of the Committee's remit and that questions should be limited within the scope of the Committee remit. It was the Audit Committee's responsibility to seek assurances on the relevant controls in place to manage the budget. The detail behind this was the responsibility of the relevant Scrutiny Committee.

A report was submitted:-

(see annexed)

The Executive Director of Adult Social Care presented the report and highlighted the salient points contained therein.

The report set out that the Adult Social Care directorate had been experiencing ongoing pressures, mainly linked to the demand for significant packages and placement costs. This position had regularly been reported to the Social Care and Health Overview and Scrutiny Committee, with the most recent update presented to the Committee, for the forecast year end position as at the end of September, 2016, predicting revenue over-spend of £4.809m. This would be dependent on the implementation of the remaining undelivered action plan items (£0.136m), the use of reserves of (£1.813m), and the transfer to reserves of £0.448m. Without the successful implementation of the in year action plan and transfers to or from approved reserves the overspend would be £7.584m.

In particular, the Executive Director of Adult Social Care highlighted what additional measures she had implemented to help keep the

budget on-track and sought any comments / suggestions / ideas as to other initiatives which could also be explored.

The Executive Director of Adult Social Care responded to a number of questions by Members in relation to if it was the Authority's intention to reduce care hours in the future and what the reason was behind the 'overpaying' as detailed in 3.12 of the report.
