Walsall Metropolitan Borough Council

Year ending 31 March 2016

9 November 2015

Ernst & Young LLP

Contents

1.	Innovating your audit to drive quality and value
2.	About the audit approach

This report is made solely to the Audit Committee of Walsall Metropolitan Borough Council in accordance with our terms of engagement. Our work has been undertaken so that we might state to the Audit Committee and management of Walsall Metropolitan Borough Council those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Audit Committee and management of Walsall Metropolitan Borough Council for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

The Terms of Appointment for auditors are issued by Public Sector Audit Appointments under powers delegated by the Secretary of State for Communities and Local Government. The Terms set out additional requirements that auditors must comply with, over and above those set out in the Code of Audit Practice issued by the National Audit Office.

1. Innovating your audit to drive quality and value

At the heart of the EY audit is a relentless focus on quality

The EY audit is focused on quality and is bound by a service approach that is connected, responsive and insightful.

- Connected with the right people in the right locations, building trust and enriching relationships.
- Responsive a desire and commitment to be proactive, visible and timely.
- Insightful sharing EY experiences and a point of view tailored to our clients, thereby advancing their thinking.

Your EY audit will bring you the confidence, transparency and perspective critical in today's complex and challenging public sector environment.

Confidence

Feel confident in your financial reporting through a high quality audit that is tailored to the local government and sector and is focused on identifying risk.

- ► Feel confident in your financial reporting: deliver high-quality, reliable and relevant reporting enabled by EY Canvas, our state-of-the-art global on-line audit platform that supports our teams to focus on your risks.
- Understand your business risks: gain a clearer view and understanding of your risks, brought to you by our teams using EY Helix, our suite of data analytics discussed in the following page.
- Increase your stakeholders' confidence: safeguard your reputation and increase the confidence of stakeholders as you make decisions based on risk-focused information, provided by our consistent audit.

Transparency

Have visibility of the audit with our transparent audit approach.

- ► Enhanced efficiency: updates on the status of the audit and improved means of communication, delivered through one on-line platform, EY Canvas.
- Manage audit risk: a clearer view of the audit and identified risks, by teams using a consistent methodology and one on-line audit platform.
- Prompt issue resolution: deal with issues with a no surprises approach.

Perspective

We use our audit tools to deliver meaningful insights.

- Anticipate and respond to market trends: leverage the strength of EY's global networks through our Government and Public Sector insights.
- Meaningful insights into your business delivered by our teams using EY Helix our suite of data analytics.
- ► Gain another perspective: understand business improvement opportunities identified through our benchmarking capabilities, expertise and constructive challenge.

➤ Evolve for the future: receive insights and perspectives on matters such as culture, sustainability and corporate governance to help to shape your reporting and business for the future.

Making the audit even better and more relevant

EY Canvas

EY Canvas links all team members through one global methodology and one global audit platform to deliver one seamless audit. In addition, EY Canvas enables us to deliver you a high quality audit by:

- Allowing us to better identify your risks, appropriately respond to those risks so we can report findings back to you promptly.
- Supporting centralised planning and monitoring of the audit.
- Quickly customising our audit approach to support the ever-evolving regulatory environment.
- Providing us with the ability to show you a dashboard of the audit status in real-time.
- Allowing us to capture, flag and share audit findings as they arise.

EY Helix - our global suite of data analytics

EY Helix, our suite of analytics, enables us to deliver you a high quality audit by:

- Providing you with greater confidence in your financial reporting as we identify business insights, hidden patterns and trends in your financial data.
- Allowing us a deeper understanding of your business by analysing larger populations of audit relevant data, to present a fuller picture of what happened and identify the risks that matter.
- ldentifying *trends and anomalies* in your processes and controls helping direct our investigative effort in the right areas.
- ▶ Delivering *relevant feedback and insights* during the audit, so you can optimise your business processes and controls.
- Saving your team *valuable time and effort through* our integrated data capture and extraction tools.

2. About the audit approach

2.1 Context for the audit

Our Audit Plan will cover the work that we plan to perform to provide you with:

- Our audit opinion on whether the financial statements of Walsall Metropolitan Borough Council (the Council) give a true and fair view of the financial position as at 31 March 2016 and of the income and expenditure for the year then ended; and
- A statutory conclusion on the Council's arrangements to secure economy, efficiency and effectiveness (the Value for Money conclusion).

When planning the audit we take into account several key inputs:

- The Council's objectives and strategies and the related business and financial risks relevant to the financial statements.
- Developments in financial reporting, auditing and corporate governance standards.
- ▶ The quality of systems and processes.
- ▶ Changes in the Council's operating and the wider regulatory environment.
- Matters that management or the Audit Committee consider to be significant in relation to the financial statements and that they have requested we pay particular attention to.

By considering these inputs, our audit is focused on the areas that matter and by focusing on the areas that matter, our feedback is more likely to be relevant to the business.

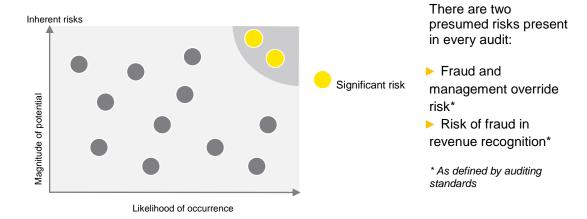

Our audit will also include the mandatory procedures that we are required to perform in accordance with applicable laws and auditing standards.

2.2 Financial Statement Risks

We analyse the risks inherent in your external influences, operational activities and financial risks for the Council and our knowledge of other factors that may impact the Council's financial statements.

These outputs are compared with the risks identified through your own risk management process and mapped to the financial statements where applicable. This risk assessment process will help inform the focus our audit work for the year ending 31 March 2016.

Of the financial statement risks identified, we are required by Auditing Standards to consider whether any of the risks identified are 'significant' risks to our Council audit. Auditing standards define significant risks as those with a high likelihood of occurrence and, if they were to occur, could result in a material misstatement of the consolidated financial statements, as set out graphically below:

In addition to the significant risks, there may be other financial statements risks that require attention. Our Audit Plan will set out our approach to addressing all these risks.

2.3 Economy, efficiency and effectiveness

The Local Audit and Accountability Act 2014 provided the Comptroller and Auditor General with the power to issue guidance to auditors which may explain or supplement the provisions of the Code of Audit Practice. This was a role previously undertaken by the Audit Commission.

This guidance is issued in the form of Auditor Guidance Notes and the 2014 Act requires auditors to comply with this guidance.

The NAO is currently consulting on a draft AGN regarding auditors' work on value for money arrangements. The consultation closes 30 September 2015 in advance of the guidance being issued in November 2015 and will apply to audits from 2015/16 onwards.

The National Audit Office's consultation on auditors' work on Value for Money Arrangements is available to view at: www.nao.org.uk/code-audit-practice/guidance-and-information-for-auditors/. The draft guidance "seeks to:

- ► Take forward the existing guidance, evolving the approach to reflect changing circumstances for public sector organisations and the new 2015 Code of Audit Practice
- Update the definitions of the 'proper arrangements' on which auditors will make their judgements.
- Maintain a focus on a risk-based approach to auditors' work, but strengthen guidance in relation to the identification of significant risks and work required to address them.
- Update the criteria against which auditors will evaluate bodies' arrangements, and better align them with arrangements on which bodies are already required to report.
- Set out more fully the range of reporting options available to auditors and set out the reporting expectations at key stages during the audit.
- Clarify the options available to auditors when issuing their statutory conclusion, and how auditors might approach making judgements on whether to qualify their conclusions.
- Maintain an element of sector specific information, helping auditors to understand the key developments and risks in the sectors covered by the guidance."

We will inform the Audit Committee and management of the outcome of this consultation, the impact on our audit approach and any change to proposed audit fees.

2.4 Your audit team

The engagement team is led by Hassan Rohimum, who has significant experience of local authority audits. Hassan is supported by Mark Surridge, a Senior Manager who will be responsible for the day-to-day direction of our audit and the key point of contact for the Director of Finance.

Our audit team also includes a number of specialists to assist us with our procedures, including specialists in pensions, tax and IT. Where appropriate we will also leverage wider expertise from within the firm. For example: we have a firm wide local government audit network to share best practice, identify common issues and to develop a consistent audit approach.

2.5 Timetable of communication and deliverables

We have set out below a timetable showing the key stages of the audit, including the VFM work and the Whole of Government Accounts. The timetable includes the deliverables we have agreed to provide to the Council through the Audit Committee's cycle in 2015/16.

From time to time matters may arise that require immediate communication with the Audit Committee and we will discuss them with the Committee Chair as appropriate.

Following the conclusion of our audit we will prepare an Annual Audit Letter to communicate the key issues arising from our work to the Council and external stakeholders, including members of the public.

Audit phase	Timetable	Audit committee timetable	Deliverables
High level planning	November	November 2015	Audit Strategy
Risk assessment and interim testing of routine processes and controls	December 2015	February 2016	Audit Plan
Year-end audit	July 2016		
Completion of audit	July / August 2016	September 2016	Report to those charged with governance via the Audit Results Report
			Audit report (including our opinion on the financial statements; and overall value for money conclusion).
			Audit completion certificate
	4	7	Reporting to the NAO on the Whole of Government Accounts return.
Conclusion of reporting	October 2016	October 2016	Annual Audit Letter

In addition to the above formal reporting and deliverables we will seek to provide practical business insights and updates on regulatory matters.
