10% of districts in the country (33rd in 2015, 30<sup>th</sup> in 2010 and 45<sup>th</sup> in 2007).

Census 2021 data demonstrates a Walsall population of 258,478, 49.2% of the population are male with 50.8% female. Currently, Walsall has around 117k units of which 24% are housing provider owned and 76% privately owned, (Source, Live tables on dwelling stock (including vacants) - GOV.UK)

Of the 76% privately owned, it is estimated that around 13.4k are privately rented which accounts for around 15% of the privately owned stock. Overall housing growth (5.4%) has just about kept up with household growth (6.3%) between 2011 and 2021 (ONS population projections) and household size has shifted from 2.49 to 2.51 (Black Country SHMA 2021). 15.7% of households in Walsall, are single person households who have one person aged less than 66 years, in comparison 12.6% of single households are aged 66 years and over. (Source: Census 2021, ONS)

The east of the Borough has an older population and a slower growth (<1% in 9 years). Conversely the centre, south & west of the borough continues to see rapid population growth and a much younger population, such as Blakenall wards with a median age of 31 and a growth of 7.8% compared to 2011. In comparison Aldridge Central and South has a median age of 48 and a growth rate compared to 2011 of 12%. (Source: Joint Strategic Needs Assessment, Walsall).

Under 16s now account for 22.4% of the Walsall population, and over 65s, 17.6%. Walsall's dependency ratio has continued to rise with 0.65 dependants: 1 working age adult in 2019 (England 0.57). There are estimated to be 9000 additional over 60s by 2031. (Source: Office for National Statistics).

85.2% of Walsall's population were born in the UK, whilst 14.8 were born in another country. The minority ethnic population (i.e. all those who identify as other than White British) has increased from fewer than 1 in 4 residents in 2011 to 1 in 3 in 2021 (Figure 1)

Figire 1: Ethnic Profile Walsall	2021	2011
White	71.4%	78.8%
Asian	18.7%	15.2%
Black	4.6%	2.3%
Mixed	3.3%	2.7%
Other	2.1%	0.8%
White British	67.4%	76.9%
Minority Ethnic	32.6%	23.1%

61% of the population is of working age, broadly in line with the national figure. 76% are classed as economically active, slightly below both the regional and national averages. Of the households that have at least one person aged 16 to 64, 14% are classed as workless (12k) and as revealed elsewhere in this document lack of labour market access is a regular component of homeless households in the borough<sup>[1]</sup>. 27% of the working age population have an NVQ Level 4 or above, this compares to a regional figure of 39% and a national figure of 44%.

	16 out of the 18 that favoured no change were consultees that curre liable for council tax on a property that would have been subject premium under the proposed rules.				
	Of the four that were in favour of introducing the premium on 'second homes' were in the affected list 3 would have been affected by the changes.				
	roducing the premium on ould have been affected shed properties				
	All of those in favour of introducing both changes were from consultees that would not be affected by the proposed changes.				
	In addition one response raised concerns that they felt the proposals would be unfair to married couples compared to unmarried couples and that the proposals could lead to extra charges to parents helping children onto the property ladder.
