

## **Council – 12 November 2018**

### **Review of Polling Districts and Polling Places 2018**

**Service:** Electoral Services

**Wards:** All

#### **1. Summary**

- 1.1 The purpose of this report is to present the Acting Returning Officers proposals on changes to polling districts and polling places following the 2018 Review.

#### **2. Recommendation**

- 2.1 That the acting Returning Officer's proposed changes to polling districts and polling places, contained in Appendix A to this report, be approved.

#### **3. Background information**

- 3.1 The Acting Returning Officer's representation reflects only minor changes. Most of the changes are purely administrative. For example, where the Council currently has two polling districts whereby voters attend one polling station with a single ballot box - it is proposed to merge the two polling districts and re-name them as a single polling district. In addition, there are planned changes to the location of polling stations previously used for the elections in 2018. Polling District LG previously located at Church Office, CE Primary, Clayhanger, Brownhills is no longer available and will be re-located to Clayhanger Methodist Church Hall. Polling Station GB is being re-located from a temporary polling station at Morrisons car park, Willenhall to the Community room at St Giles Flats, Rose Hill, Willenhall.
- 3.2 Under the provisions of the Electoral Registration and Administration Act 2013, a local authority must carry out and complete a review of all the polling places and districts for UK Parliamentary elections in its area within the period of 16 months beginning from 1<sup>st</sup> October 2013, and the period of 16 months beginning with 1<sup>st</sup> October of every fifth year after that. The reason for this is to align the reviews with the 5 year Parliamentary periods, and the five year cycle for UK Parliamentary boundary reviews implemented by the Parliamentary Voting System and Constituencies Act 2011.
- 3.3 This review is primarily concerned with polling districts and polling places for those parts of the UK Parliamentary constituencies that lie within the council's boundaries. However, the review will also apply to the local government elections in the borough as the locations of polling districts and polling places have and will be the same for both types of elections, as the constituency boundaries are currently aligned with councils ward boundaries.

Polling district – a geographical area created by the sub-division of a constituency or ward into smaller parts. There are no size constraints.

Polling place – not defined in law but taken to be a small area, such as a building or the grounds of a school etc. If council does not define a polling place, then by default the polling district becomes the polling place. This is the approach council has previously adopted for most polling districts as it gives the Returning Officer a lot more flexibility to locate the polling station, especially if time is short in the build up to an election.

Polling station – the place where polling actually takes place and it is located in the polling place. It is the Returning Officer's responsibility to determine how many polling stations are required for each polling place. Note, that a polling place can be located outside its polling district.

3.4 There are 140 polling districts in the three parliamentary constituencies within the borough. The review has to be transparent, which means the council is required to publish all submissions, correspondence, reasons why decisions have been made and minutes of all meetings.

3.5 As part of the review process council must;

- Seek to ensure that all electors in the constituency have such reasonable facilities for voting as are practical in the circumstances; and
- Seek to ensure that as far as is reasonable and practicable the polling places are accessible to those who are disabled

#### **4. Publicity and Submissions**

4.1 The Council is required to publicise the review and seek submissions.

4.2 All correspondence relating to the review was uploaded to the Council's website. This includes the Acting Returning Officer's proposals, the formal Notice and a submission form that can be downloaded. A link to the website was also emailed to every councillor and MP. A hardcopy of the ARO's proposals were also posted to the aforementioned.

4.3 The Council has to actively seek representations from such persons as it thinks have particular expertise in relation to access to premises or facilities for persons who have different forms of disability. This information was sent to the following organisations:

- Action on Hearing Loss
- Headway Black Country
- Healthwatch Walsall

- Pelsall Physically Handicapped Persons Association
- Walsall Community Transport
- Walsall Deaf Peoples Centre
- Walsall Society for the Blind
- Bloxwich Community Partnership- Stan Ball Abbotts Street.
- Midland Mencap-Walsall Disability Hub

4.4 The submission period was two months commencing on the 7 August and closing on 5 October 2018. No formal submissions have been received.

4.5 An informal submission was received from Councillor Harrison regarding the temporary polling station at Tintern Crescent, currently in Polling District DE. The station is located on a piece of grass next to the railway station car park. Councillor Harrison advised that the area is due to be turned into a much needed extension to the car park in October this year and that she would not want to see any new car spaces being taken up by the polling station.

4.6 Whilst the council will no longer use Tintern Crescent, officers have visited Abbey Primary School in Glastonbury Crescent, Bloxwich. The school is contained within the same polling district (DE). The Head teacher and Chair of Governors have agreed to allow the council to use a room in the school for election purposes. Therefore, the polling station for polling district DE shall be moved to the school for future elections.

## **5. Transparency / appeals**

5.1 The Council is required by law to give reasons for its decisions in respect of the designation of polling districts / places. In addition, it must publish;

- All correspondence sent to any person whom the authority thinks has particular expertise
- All representations made by any person in connection with the review
- The minutes of any meeting held by the Authority where details of the review have been considered
- Details of the actual designations of polling districts / places as a result of the review
- Details of where the results of the review have been published.

5.2 The decision(s) of the Council can also be appealed to the Electoral Commission by not less than thirty electors in the constituency, any person who made representations to council during the review or any person who is not an elector in the constituency who the Commission feels has sufficient interest in the accessibility of disabled persons to polling places in the area.

5.3 It is important to note that the outcome of an election cannot be questioned simply because any party to the review failed to comply with all or any aspects of the review process.

## 6. Financial Implications

- 6.1 There are savings of approximately £5500.00 to be made as a result of not using temporary buildings as polling stations at two polling districts in the Borough.
