6. **EQUAL OPPORTUNITY IMPLICATIONS**

NOT APPLICABLE

7. **ENVIRONMENTAL IMPACT**

The management of Walsall's tree cover through the administration of the Tree Preservation Order system has positive implications in protecting trees for their visual and environmental benefits. Removal of protected trees is often necessary because trees have a finite lifespan and may also cause nuisance or damage. In these instances the Council has to decide whether the removal of protected trees is justified. In the event that felling a tree is permitted, the Council can secure replacement planting to maintain tree cover.

8. **WARD(S) AFFECTED**

The Tree Preservation Order 22 of 2010 is located within the Streetly.

9. **CONSULTEES**

Owners and near neighbours were sent copies of the Tree Preservation Order and invited to make representations to the Council in either opposition or support of this Tree Preservation Order. Any response is described within the report.

10 **REPORT DETAIL**

10.1 The Tree Preservation Order No 22 of 2009 was made on 15th December 2009. The trees are visually prominent and are protected for the following reasons:

- The trees form a prominent landscape feature in the local area and will continue to contribute to landscape quality in the future.
- The trees add to the amenity and visual diversity of the immediate area.
- The trees are potentially at risk from a development and making a Tree Preservation Order will discourage the premature removal of important trees.
- The Council's Unitary Development Plan identifies policies for protection of the trees and green spaces.

10.2 The minimum six week period allowed for objection to the Order expired on 26th January 2010. No representations have been received.

10.3 The Committee is therefore recommended to confirm Tree Preservation Order No 22 of 2009 in its unmodified form.
