

## Local Government Association

# designing and delivering an excellent LAA

Tuesday 18 September 2007

Key themes covered by this conference will include:

&#61607;One year on from the White Paper: How far has central government advanced commitments set out in the White Paper? Are we on track to deliver the 'deal' of a new performance framework? What are councils doing to progress this agenda? What are the barriers to progress that still remain?

&#61607;Dealing with the challenges ahead: What is the role of LSPs in ensuring the design and delivery of excellent LAAs? How do LSPs need to develop to fulfill this role? How are LSPs already making a difference?

&#61607;Getting the negotiation process to work for you: What lessons have been learned from the feasibility testing process? What is the role of the council, an LSP partner, a Government Office and central government in developing an area's LAA?
