Waste Targets

The Governments waste strategy aims to minimise the production of waste and either recycle, compost or recover value from as much of what remains as is practicable. This approach is reflected through BVPI's, DEFRA's PSA targets and statutory performance standards for 2003/04 and 2005/06. Walsall's recycling target for 2005/06 is to recycle 24% of waste.

The UK is under a legal obligation through the European Landfill Directive to make a significant reduction in the amount of biodegradable municipal waste (BMW) sent to landfill.

- By 2010 BMW must be reduced to 75% of the total BMW (by weight) produced in 1995;
- By 2013 BMW must be reduced to 50% of the total BMW (by weight) produced in 1995;
 and
- By 2020 BMW must be reduced to 35% of the total BMW (by weight) produced in 1995.

Walsall Council recycled or composted 11.4% of domestic waste during the 2002/03 financial year which increased to 14.7% for 2003/04. Further action is required to achieve the statutory target of 24% for 2005/06.

- The service should be fully operational from around 101,000 properties across the borough by April next year.
- The council cannot collect green boxes from people living in flats and maisonettes, but around 6,000 such households will get a mini-recycling centre outside their building to recycle glass bottles, jars and drinks cans – paper cannot be collected because of the fire risk.

Education Presentations

- There are 94 primary schools and 20 secondary schools in the Walsall borough.
- The aim is to make contact with all of the schools either by personal visit or letter offering a tailored power
 point presentation and then maintain ongoing contact with promotional events and reminder leaflets.
- Schools visited this year;
