**CORPORATE AND PUBLIC SERVICES FINANCIAL PERFORMANCE – FORECAST
REVENUE AND CAPITAL OUTTURN FOR 2017/18**

Ward(s) All

Portfolio: Councillor Sean Coughlan – Leader of the Council
Councillor Jeavons – Deputy Leader and Regeneration
Councillor Shires – Community, Leisure and Culture
Councillor Jones – Clean and Green
Councillor Diane Coughlan – Social Care
Councillor Chambers – Personnel and Business Support / Agenda for Change

Summary of report

This report summarises the forecast revenue and capital financial position for 2017/18, based on the position to December 2017, for services within the remit of the Corporate and Public Services Overview and Scrutiny Committee.

The position is a forecast revenue underspend of £984k and on capital the forecast is that £410k of the £82,795k budget will be under spent and £9,323k requested to be carried forward.

Reason for scrutiny

To inform the committee of the forecast financial position for 2017/18 to allow the scrutiny of the financial performance of the services within the panel's remit.

Recommendation

To note that the forecast 2017/18 year end financial position for services under the remit of this committee is as follows:

1. Revenue **underspend of £984k**, net of the use of and transfers to earmarked reserves and implementation of action plans.
2. A capital **underspend of £410k**, plus a proposed **carry forward of £9,323k**

Resource and legal considerations

The council is required to set a balanced budget and requires services to operate within their approved budget allocation. Any variances are required to be managed as far as is reasonably possible. The revenue and capital financial monitoring is reported quarterly to overview and scrutiny committees along with corrective action plans when variances arise. All accounting entries are undertaken in line with the required corporate and statutory accounting guidance and standards.

Citizen impact

Resource allocation is aligned with service activity and is undertaken in accordance with the council's corporate plan priorities.

Environmental impact

Services within the remit of this overview and scrutiny committee have a direct influence and impact on the environment.

Performance management

Financial performance is considered alongside service targets. Managers are required to deliver their service targets within budget, wherever possible. Corrective action plans were put in place to mitigate overspends where possible, with any remaining variances against budget identified in the report. Work continues to bring the outturn in line with the budget.

Equality Implications

Services consider equality issues in setting budgets and delivering services. Irrespective of budgetary pressures the council must fulfil its equal opportunities obligations.

Consultation

Consultation was undertaken as part of the budget setting process and throughout the financial year on the financial position and reporting thereof.

1 Forecast Revenue Outturn 2017/18

1.1 The forecast revenue outturn for 2017/18 for the services under the remit of the Corporate and Public Services Overview and Scrutiny Committee is an underspend of **£984k**, net of the use of earmarked reserves. The forecast revenue outturn shown is based on actual information from the Oracle system as at the end of December 2017, and discussions with managers regarding year end forecast and achievement of approved savings.

1.2 **Table 1** below shows the forecast outturn for each service.

- 1.3 The key column is the right hand column showing the bottom line final variance position (totalling £984k). This is after use of various reserves detailed below and in appendix 1.
- 1.4 The predicted outturn includes use of reserves of **£6,830k** (where approval has been given by Cabinet for additional funds for specific services) and transfer to reserves of **£2,085k**. A breakdown of reserves is detailed in **Appendix 1**.
- 1.5 The following provides an analysis of the primary reasons for the forecast material variances;
- Clean and Green - Additional income from W2R, under spend on disposal costs and performance fee for HWRC, and vacant posts.
 - Information, Communication and Technologies – The under spend relating to Print and Design is a result of reduced demand meaning savings on outwork and materials budgets and vacant posts across ICT.
 - Integrated Facilities Management – mainly due to cost pressures in relation to centralised maintenance and redundant buildings, offset by underspends in centralised energy and additional income in catering.
 - Leisure, Culture & Operations - Over spends mainly on Outdoor Adventure Centre, Active Living Centres and Bereavement, offset by under spend on salaries, supplies and income from Forest Arts
 - Money Home Job – underspend due to additional overpayment recovery income and vacant posts.
 - Planning, Engineering & Transportation – Shortfall in planning income combined with demand led costs for gully cleansing.
 - Regeneration and Development – Shortfall of income across markets and engineers time and unachieved Asset Management savings. This is offset by additional income from shops and commercial.

Appendix 2 provides a detailed breakdown by service area of reasons for variances.

- 1.6 **Appendix 3** details the risks associated with this forecast which has been calculated as £353k. Risks are items that are uncertain at present and therefore are not included in the overall forecast. If circumstances change and any of these risks become probable, it will then form part of the overall forecast, and actions will need to be identified and implemented to offset any resulting pressure.
- 1.7 Included within the approved budget for 2017/18 are £8,836k of savings relating to services within the remit of this committee. An update on the achievement of 2017/18 approved savings is reported monthly to CMT as part of the corporate performance report. Any savings that are not forecast to be achieved in year are required to have alternative savings identified and are managed closely through the relevant service management teams and in liaison with the relevant portfolio holder.

Savings of £133k have been identified as not being achieved, as follows:

- Retaining staff following closure of the banking hall – £60k. An approved carry forward from 2016/17 is available to manage this.
- Asset Management saving unlikely to be achieved in 2017/18 - £55k.
- Change to provision of out of hours for Community Protection Service - £13k. Payment stopped w/e 5th November – mitigated through vacant posts.
- Cease retirement awards - £5k.

2 Capital Outturn 2017/18

2.1 The forecast capital outturn for 2017/18 for the schemes under the remit of this committee (as at the end of December 2017) is subject to a capital **carry forward of £9,323k**. This is mainly due to the re-profiling of spend on Smarter Workplaces, Integrated Facilities Management refurbishment projects (Council House rewiring and Civic Centre heating); Library redesign, Digital data storage and Finance Systems. The position is summarised in **table 2** below.

2.2 In addition, a **Capital underspend totalling £410k** relates to the following schemes:

- Aids and Adaptations (£405k)
- Gas Holders Strategic Land Acquisition (£5k)

2.3 Note that the overspend on Health and safety / essential works (£245k) will be funded from the underspend on Aids and adaptations.
