Overview

Walsall Insight, is a resource intended to provide a data-driven overview of the Walsall borough

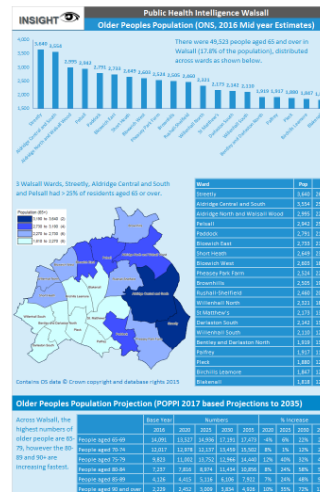

- JSNA / Publications
- Open Data (transparency, FOI requests)
- Data i.e. Demographic, Economic etc.
- Maps / Profiles

Population

Walsall has an overall estimated population of **281,293** (ONS, mid-2017). It is predicted to increase by 5.9% over 10 years, from 274,200 in 2014 to 290,200 in 2024. Like many areas, the predicted growth of Walsall's older population (> 65) is higher than this at 12.4%. There has already been an 8.8% increase in births in Walsall between 2012 and 2017. Therefore, planning to meet the needs of a growing number of a younger population as well as a growing number of older people is incorporated within our key strategic priorities, while recognising that the proportion of residents likely to be economically active is projected to fall.

Insight • Key Topics • Publications • News • Contact Us • Useful Links

The Health and Social Care Act 2012 establishes health and wellbeing boards as a forum where key leaders from the health and care system work together to improve the health and wellbeing of their local population and reduce health inequalities.

Amongst other duties, the Boards will bring together clinical commissioning groups and councils to develop a shared understanding of the health and wellbeing needs of the community. They will undertake the Joint Strategic Needs Assessment (JSNA) and develop a joint strategy for how these needs can be best addressed. This will include recommendations for joint commissioning and integrating services across health and care.

Executive Summary JSNA Refresh (2016)

The Walsall Executive Summary JSNA Refresh report provides an update on the progress of the JSNA; which areas are seeing improvement, those that are deteriorating & what has been added to the JSNA in response.

- Cultural mix
- Growing ageing population
- Gap in life expectancy for men & women across borough

Recent reductions in infant mortality positive, need to maintain and/or improve further to narrow the gap

Positive direction of travel for attainment but more to do to narrow the gaps and improve rankings with statistical neighbours

Obese 4 and 5 year olds (reception) **worsened** 12.6% and gap widening with national

Chapter 3 – CYP maximize capabilities - Positives / Challenges

Positive direction of travel for attainment but more to do to narrow the gaps and improve rankings with statistical neighbours

A **quarter** of 10 & 11 year olds (year 6) obese

U18 conception rates **gradually reducing** & **narrowing gap** with national (30.0 & 18.8 respectively)

LAC Rate of children in care is increasing (98 per 10,000 under 18s in 2017, compared to 95 previous year. Higher than national and regional rates (62 and 75 respectively))

Chapter 4 – My money, my home, my job - Positives / Challenges

Statutory homelessness trends recently **declined** (from 18 households in 2016/17 to 13 in 2017/18) & below regional & national levels

Following **large reductions** in 2013/14, **unemployment count** has remained fairly **stable** over the last couple of years (3%, just above national levels).

1 in 4 children are living in poverty and large **disparities** across the borough (39% in Blakenall to 3% in Streetly)

Chapter 5 – Healthy & sustainable places - Positives / Challenges

Link between **COPD & PM2.5** concentrations in the West of the borough

'Move-it' membership being utilised (referrals medically (23.3%); over 60s (22.9%); low incomes 20%)

Increase over recent months in **'youth' violence** & **'public place' violence** for Walsall

Chapter 6 – Physical health & mental wellbeing - Positives / Challenges

Trends for admissions to hospital for **obesity** (primary/secondary diagnosis) **increasing & considerably higher** in Walsall than regionally and nationally

Around **14.5%** of Walsall adults **smoke**, a **reduction** from 21.9% in 2011 & women **smoking at time of delivery** trends have **reduced** over the years from 19.8% in 2010/11 to 13.2% in 2017/18

sports

leisure

cultural activities

MCW referred over **400 clients** & **improvements** seen in their **mental wellbeing**

Chapter 7 – Reducing burden of preventable disease, disability & death - Positives / Challenges

Cancer trends have **reduced** in line with national & regional rates for males & females, more recently, **gap has widened** **Screening rates** are consistent and **high for breast & cervical**, further improvements for **bowel** screening needed

Positive **downward trends** for CVD (heart disease & stroke) - 163.0 in 2001-03 to 91.9 in 2012-14 with a **slight increase** in recent years to 99.1 in 2015-17

Emergency hospital admissions have **increased** over recent years, Walsall having experienced a **slight decrease** since 2014/15. Average diagnosed age is 67 years, **majority of admission spells** in 2017 were for **70-79 age group (37%)**

Chapter 8 – Healthy ageing & independent living - Positives / Challenges

Hip fracture rates in people aged 65+ **increased** to a rate of 651 in 2016/17 compared to the previous year of 610 and are **higher than national rates**

Recorded dementia prevalence for those 65+ is **above national**, Sept 2017 peaked at 4.6% (4.3% for England)

Fuel poverty higher in Walsall than regionally & nationally – 2016 rates rose to 14.4 (compared to 13.2 previous year)

Adult Social care Survey (ASCS) responses suggest **quality of life has remained broadly static** over the last 3 years (score of 18.8 out of 21 in 2017/18)

Home deaths for those aged 85+ have **increased** with Walsall above the national (19.0% and 16.4% respectively, 2016, ONS)
