Subject: Riga West Bromich Road Application

Dear Sir/Madam

I am aware I am a day late writing this. However, I have been very unwell.

I object to the extended hours, we already have anti social behaviour issues in this area. Extended hours will increase to that. Also, there is a number of off licenses in this area, within a 5 step walking distance, allowing extended hours will lead to competition and more applications for extended hours from others.

Many residents have objected and do not see the need for such late opening hours in a residential area. There are other options available for people that meet any needs they have.

I hope this is taken into consideration. Constantly this area has issues of gang fights, speeding and driving of cars during the night, residents sleep is being affected, the last thing they want is more issues.

Kind Regards
Cllr Ditta
