The Relevant Authorities (Disclosable Pecuniary Interests) Regulations 2012

Specified pecuniary interests

The pecuniary interests which are specified for the purposes of Chapter 7 of Part 1 of the Localism Act 2011 are the interests specified in the second column of the following:

Subject	Prescribed description
Employment, office, trade, profession or vocation	Any employment, office, trade, profession or vocation carried on for profit or gain.
Sponsorship	<p>Any payment or provision of any other financial benefit (other than from the relevant authority) made or provided within the relevant period in respect of any expenses incurred by a member in carrying out duties as a member, or towards the election expenses of a member.</p> <p>This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Regulations (Consolidation) Act 1992.</p>
Contracts	<p>Any contract which is made between the relevant person (or a body in which the relevant person has a beneficial interest) and the relevant authority:</p> <p>(a) under which goods or services are to be provided or works are to be executed; and</p> <p>(b) which has not been fully discharged.</p>
Land	Any beneficial interest in land which is within the area of the relevant authority.
Licences	Any licence (alone or jointly with others) to occupy land in the area of the relevant authority for a month or longer.
Corporate tenancies	<p>Any tenancy where (to a member's knowledge):</p> <p>(a) the landlord is the relevant authority;</p> <p>(b) the tenant is a body in which the relevant person has a beneficial interest.</p>
Securities	<p>Any beneficial interest in securities of a body where:</p> <p>(a) that body (to a member's knowledge) has a place of business or land in the area of the relevant authority; and</p> <p>(b) either:</p> <p>(i) the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body; or</p> <p>(ii) if the share capital of that body is more than one class, the total nominal value of the shares of any one class in which the relevant person has a beneficial interest exceeds one</p>

	hundredth of the total issued share capital of that class.
--	--

Schedule 12A to the Local Government Act, 1972 (as amended)

Access to information: Exempt information

Part 1

Descriptions of exempt information: England

1. Information relating to any individual.
2. Information which is likely to reveal the identity of an individual.
3. Information relating to the financial or business affairs of any particular person (including the authority holding that information).
4. Information relating to any consultations or negotiations, or contemplated consultations or negotiations, in connection with any labour relations matter arising between the authority or a Minister of the Crown and employees of, or office holders under, the authority.
5. Information in respect of which a claim to legal professional privilege could be maintained in legal proceedings.
6. Information which reveals that the authority proposes:
 - (a) to give any enactment a notice under or by virtue of which requirements are imposed on a person; or
 - (b) to make an order or direction under any enactment.
7. Information relating to any action taken or to be taken in connection with the prevention, investigation or prosecution of crime.
8. Information being disclosed during a meeting of a Scrutiny and Performance Panel when considering flood risk management functions which:
 - (a) Constitutes a trades secret;
 - (b) Its disclosure would, or would be likely to, prejudice the commercial interests of any person (including the risk management authority);
 - (c) It was obtained by a risk management authority from any other person and its disclosure to the public by the risk management authority would constitute a breach of confidence actionable by that other person.

Part 1 – Public Session

- 1. Apologies**
- 2. Substitutions**
To receive notice of any substitutions for a Member of the Committee for the duration of the meeting.
- 3. Declarations of Interest**
- 4. Local Government (Access to Information) Act, 1985 (as amended):**
To agree that the public be excluded from the private session during consideration of the agenda items indicated for the reasons shown on the agenda.
- 5. Minutes**
To approve and sign the minutes of the meeting held on 20 February 2025.
(Enclosed – Pages 1-6)
- 6. Black Country Healthcare NHS Foundation Trust – Quality Account Update**
To receive an update on Black Country Healthcare NHS Foundation Trust on its Quality Accounts.
(Enclosed – Pages 7-18)
- 7. All Age Carers Strategy 2024-2027**
To receive a report on the All Age Carers Strategy 2024-2027.
(Enclosed – Pages 19-65)
- 8. Health Inequalities Working Group – Final Report**
To receive the final report of the Health Inequalities Working Group.
(To follow)
- 9. Recommendation Tracker**
To review progress with recommendations from previous meeting.
(Enclosed – Pages 66-70)
- 10. Areas of Focus and Forward Plans**
To review the Committee Work Programme and the Forward Plans for Walsall Council and the Black Country Joint Executive Committee.
(Enclosed – Pages 71-80)

11. Date of next meeting

To note that the date of the next meeting will be set at annual Council on 21 May 2025.

Minutes of the Social Care and Health Overview and Scrutiny Committee held in the Conference Room 2, Walsall Council House

Thursday, 20 February 2025 at 6.02PM

Committee Members present:

Councillor K. Hussain (Chair)
Councillor M. Coulson
Councillor T. Jukes
Councillor R. Martin
Councillor A. Nawaz
Councillor A. Parkes
Councillor L. Rattigan
Councillor V. Waters

Portfolio Holder:

Councillor K. Pedley – Adult Social Care

Officers Present:

Kerrie Allward – Executive Director for Adult Social Care (Walsall Council) (*In person*)

Dr Nadia Inglis – Director of Public Health (Walsall Council) (*In person*)

Andrew Osborn – Director of Commissioning (Walsall Council) (*Online*)

Jack Thompson – Democratic Services Officer (Walsall Council) (*In person*)

Tapiwa Mtemachani - Director of Transformation, Partnership and Population Health Academy (Healthier Futures – Black Country Integrated Care System) (*Online*)

Joe Chadwick-Bell – Chief Executive Officer of Walsall Health Care NHS Trust (*Online*)

138 **Apologies**

The Chair welcomed all those attending the meeting.

Apologies were received from Committee Members, Councillors: J. Chapman, R. Martin and W. Rasab.

139 **Substitutions**

There were no substitutions for this meeting.

140 **Declarations of Interest and Party Whip**

There were no declarations of interest or party whip for the duration of the meeting.

141 **Local Government (Access to Information) Act 1985 (as amended)**

There were no agenda items requiring the exclusion of the public.

142 **Minutes**

A copy of the Minutes of the meeting held on the 23 January 2025 were submitted [annexed].

The Democratic Services Officer informed the Committee that Dr Harinder Bagri was omitted from the list of those in attendance.

Resolved

That the minutes of the meeting held on the 23 January 2025, a copy previously having been circulated be amended to include Dr Harinder Bagri in the attendance list, before being approved and signed by the Chair as a true and accurate record.

143 **Revised Integrated Care Strategy Outlined 2025-2028**

At the invitation of Chair, Tapiwa Mtemachani outlined the presentation on the Integrated Care Partnership Revised Integrated Care Strategy 2025-2028 [see annexed].

Tapiwa informed the Committee that the Revised Integrated Care Strategy was an update to the previous strategy created in 2023, incorporating updated guidance for individual care systems and feedback from Health and Wellbeing Boards and local Healthwatch's. Developed over several meetings with the

Integrated Care Partnership (ICP) and agreed upon in January 2025, the Strategy focused on three priority areas: Prosperity, Population Health, and Prevention. It emphasized the importance of strengthening shared data across organizations and collaborative working. Additionally, it considered the implications of the devolution white paper on Local Authorities and Strategic Authorities' interaction with the health system. Further work on ICP governance was necessary, and steps were being taken to outline the implementation and monitoring of the strategy.

A discussion took place on the presentation, in which the following points were made:

- Core20PLUS5 model was an NHS framework used to inform actions to reduce health inequalities.
- One of the crosscutting themes was mental health, the strategy did not specifically cover how to make improvements in this area, but strategy specific work would take place with the Black Country Healthcare NHS Foundation Trust to improve mental health care.
- Vaping was included in the strategy alongside other behavioural indicators such as tobacco products and alcohol.
- The Strategy used a population health management approach to identify specific health challenges in population groups.
- The ICP first had to understand the current primary care offer in relation to smoking cessation and then offer support for those people through secondary care routes.
- The impact of the COVID-19 Pandemic was stark, and this was reflected in the data used in the Strategy.
- The ICP needed to gain further understanding the illnesses affecting the population and explore the lived experiences of those with the illnesses.
- The Strategy went further than the current proposed shift to prevention than planned by national government as the Strategy was more proactive in understanding the local populations health and how this understanding could be used to help target prevention.
- Resource issues in the NHS are continuing, however there were opportunities to share best practice across the Black Country to help maximise the funds and improve efficiencies.
- More work was needed to identify those with hypertension (high blood pressure) through community pharmacies.
- Previous successful schemes with diabetes could be adapted for hypertension as an example of targeted prevention.
- There had been an increase in NHS health checks however it was recognised that there had been disparities in the uptake of them.
- Work was being undertaken by Public Health to improve men's mental wellbeing.

Resolved

That the Committee note the Revised Integrated Care Strategy Outlined 2025-2028 presentation.

144 **Home Carers (domiciliary care) – Update on the current position with Adult Social Care commissioned homecare in the Borough.**

The Director of Commissioning, Andrew Osborn, went through a presentation on the home carers [see annexed]. The following points were highlighted:

Andrew informed the Committee that the Council had a large number of home care providers, which ensured that there were not long waits for care; however, it was more difficult to obtain specialized care. There were issues with the quality of providers due to lower funding in the Borough. Many of the providers were not yet rated by the Care Quality Commission (CQC), making it harder to determine the best placement for residents. The Council proposed an alternative approach to the commissioning of at-home care. The Council's Market Position Statement for Social Care would be provided to Committee Members at a later date.

The Portfolio Holder for Adult Social Care added that he was proud of the where Adult Social Care was and that the Council had been able to award an above average uplift to commissioned care providers. Additionally, he added he believed that home was the best place someone needing care as it enables them to maintain their independence. The Council could not control the rate at which the CQC carried out inspections of service providers, but it was aiming to streamline the number of care providers to facilitate more personal care for residents in line with the aims of the CQC.

A discussion took place between Members and Officers on the presentation, the following key points of the discussion were:

- The Council was taking an active approach to using assistive technology in care such as sensor arrays, but it was important that the initial conversation with residents took place in relation to general home improvements.
- The Council was in the process of creating an adult social care workforce strategy and was working with Walsall College on this, including mapping out career pathways in care.
- The future predicted demand of adult social care was worrying. The Council was working on ways to maximise funding by focusing on strength-based practices to help mitigate future demand.
- The Council had trialled geographic based contracts for care but they had run into capacity issues which then required them to use other providers.
- The new approach being outlined by the Council did not mean that costs of care would rise and it was possible that it could save the Council money.
- During the COVID-19 pandemic the Council had maximised the number of carers provided it uses.
- The Council was exploring using locality-based teams of care workers with providers working together to provide more consistent care, but this new approach needed to be tested.

- Carers who know the residents they cared for were more efficient than the ones who don't and could offer care in a less intrusive way.
- There was still more work to do before the Council could decommission providers, but it wanted to move to having fewer higher quality providers.
- The vast majority of care workers were paid the national living wage apart from those delivering more specialised care.
- NHS nurses were paid more than care workers with better terms of employment.
- The increase in the national minimum wage and employer contributions to National Insurance had put significant pressure on Adult Social Care system.
- Zero hours contracts for care workers were not conducive to the new model the Council was aiming to adopt.
- There needed to be the removal of the view that becoming a carer was the employment of last resort.
- The Council was looking into adopting its own local quality standards with providers so they could carry out their own self assessments.
- The Council worked with Healthwatch to assess providers.
- The Council estimated that there were 2000 international recruits working in care in the Borough, but not all these will be working for Council commissioned providers.
- Some care providers had struggled as they had over recruited from overseas and had not had an increase in business to utilise them and some had had their licenses revoked.
- The level of formal complaints about care was low.
- The transitions (those moving from the childrens to the adults estate) cohort was a concern as many of those coming into the adults system had more complex needs. Work was being carried out with childrens services to facilitate meeting families earlier to prepare for transitions.
- The Council had high rates regionally of direct payments for care and the Council was working to update its process to make it easier for residents to access funding.

Resolved

- That the Committee note the contents of the report.
- That the Adult Social Care rates uplift to providers be provided to the Committee.
- That the Committee write to the Mayor of the West Midlands Combined Authority to request the free public transport be offered to carers.

145 Recommendation Tracker

The Democratic Services Officer outlined the Recommendation Tracker. Highlighting that the in communication with colleagues from the Black Country Integrated Care Board and the Chair, the information requested on NHS

commissioned dentistry would be presented in a report in the next municipal year to allow all the information requested by Members to collated.

Resolved

That the Committee note the Recommendation Tracker.

146 Areas of Focus and Forward Plans

The Democratic Services Officer outlined the Areas of Focus. Highlighting that the pathways to independence item scheduled for the next meeting (3 April 2025), with the agreement of the Chair, would be presented to the Committee in the new municipal year.

The Democratic Services Officer relayed that the Black Country Healthcare NHS Foundation had offered to present an update to their Quality Accounts at the next meeting.

Resolved

That the Areas of Focus be noted.

147 Date of next meeting

The date of the next meeting would be the 3 April 2025.

There being no further business, the meeting terminated at 19:34.

Signed:

Our 2024/2025 Quality Improvement Priorities Highlights

Inpatient Transformation Programme – Culture of Care Standards Quality Improvement programme

Community Transformation Programme- implement in line with the NHS Long Term Plan

System leadership in partnership with health partners of Right care – Right Person

Implement and prepare for the CQC regulatory Single Assessment Framework

Implement the Patient and Carer Race Equality Framework (PCREF)

Develop our new Clinical Strategy in 2024 to plan for our future

Right Care Right Person Background

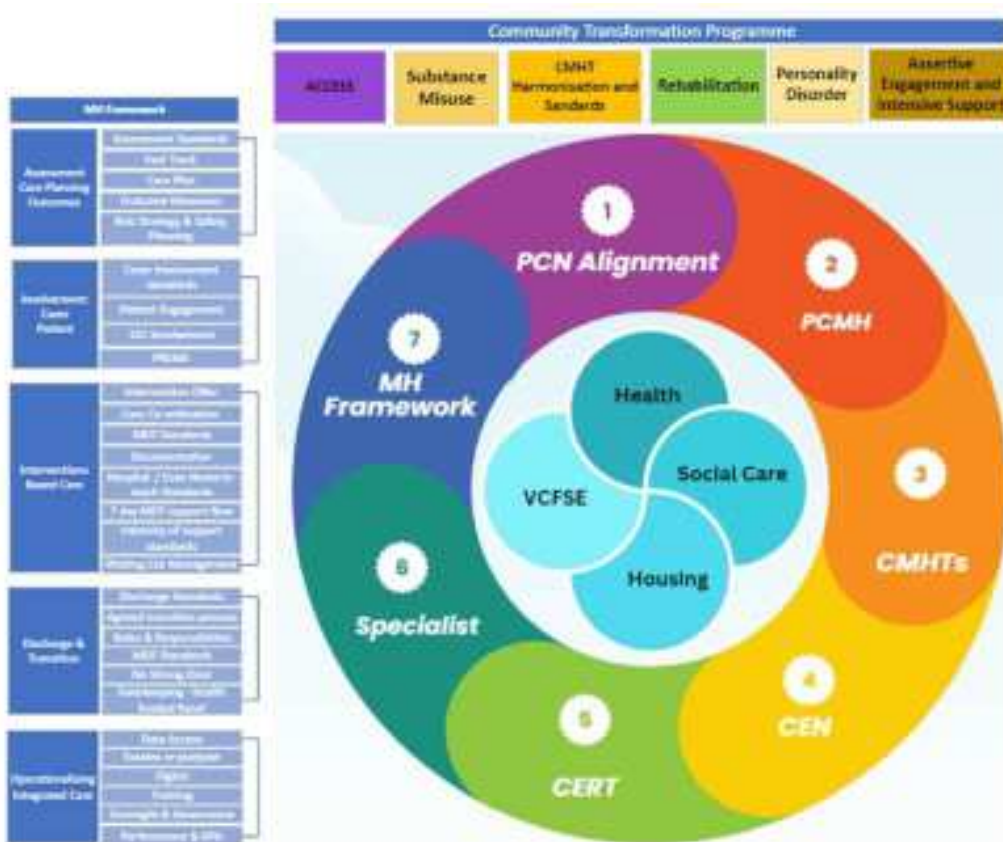

- RCRP is a nationally agreed approach designed to ensure people of all ages who have health and social care needs are responded to by the right person with the right skills, training and experience to meet their needs.
- BCHFT in our system lead role for RCRP have been working collaboratively with partner agencies across the Black Country and West Midlands Police (WMP) jurisdiction to develop and implement the Right Care, Right Person (RCRP) guidance and programme of work.

Early Outcomes

- 48 x S136 MHA detentions in the Black Country- **4% reduction** against the average from 2023.
- 8 x S136 MHA detentions prevented by 24/7 MH UCR- **57% prevention** rate against the number of call received prior to detention.
- 29 referrals of persons detained under S136 MHA without contacting 24/7 MH UCR prior to detention.
- **£120,000 system savings** due to 12 detentions prevented since the launch in November 2024.
- Reduction on inappropriate S136 MHA detentions, and use of EDs as Places of Safety for the detained persons- 15-50% reduction in S136 MHA detentions recorded across England and Wales as a result of RCRP.

Community Transformation 2024/5

To ensure sustainable community and Primary Care services that meet the needs of the local population, the national framework and the Black Country Priorities, the transformation programme has had to focus on ensuring a strong infrastructure.

As a result, year 2024-2025 will allow for a focus on embedding, developing and delivering transformational work, including seeking better systems solutions to shared challenges.

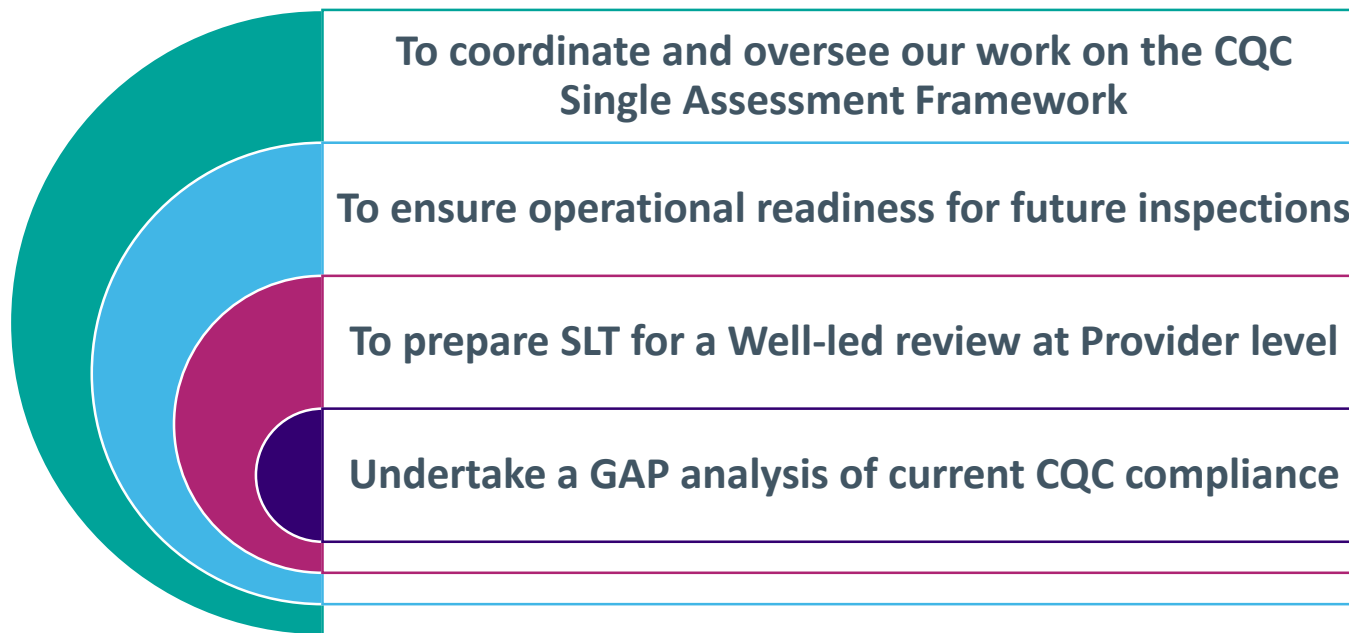

Further embedding the models;

- Working to ensure consistency in CMHT practices
- Strengthening the dual diagnosis offer in community
- Integration between Primary Care, Community and the Voluntary Sector offer
- Development of ways of working with the voluntary sector to ensure seamless support and continuous learning
- Quarterly reviews of the current model to ensure a clear performance process, learning and further development
- Supporting a robust and safe process to manage waiting lists and develop further in-reach
- Review of skills and training, ensuring we are utilising the national offer
- Supporting the introduction of 7 day working

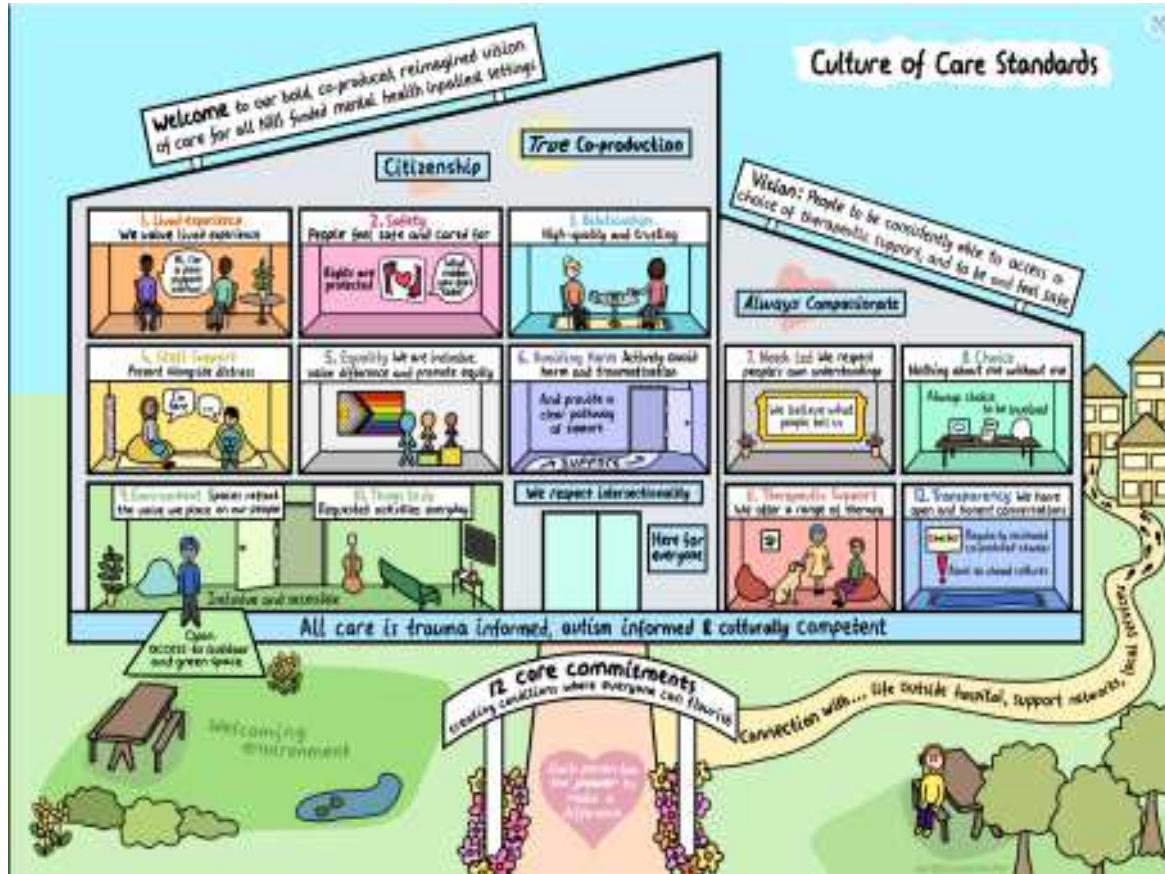

CQC Single Assessment Framework

The Single Assessment Framework (SAF) is the new comprehensive approach introduced by the Care Quality Commission (CQC) to assess and monitor the quality of health and social care services. It represents a significant shift in the regulatory landscape, aiming to streamline and unify the assessment process across all health and social care providers.

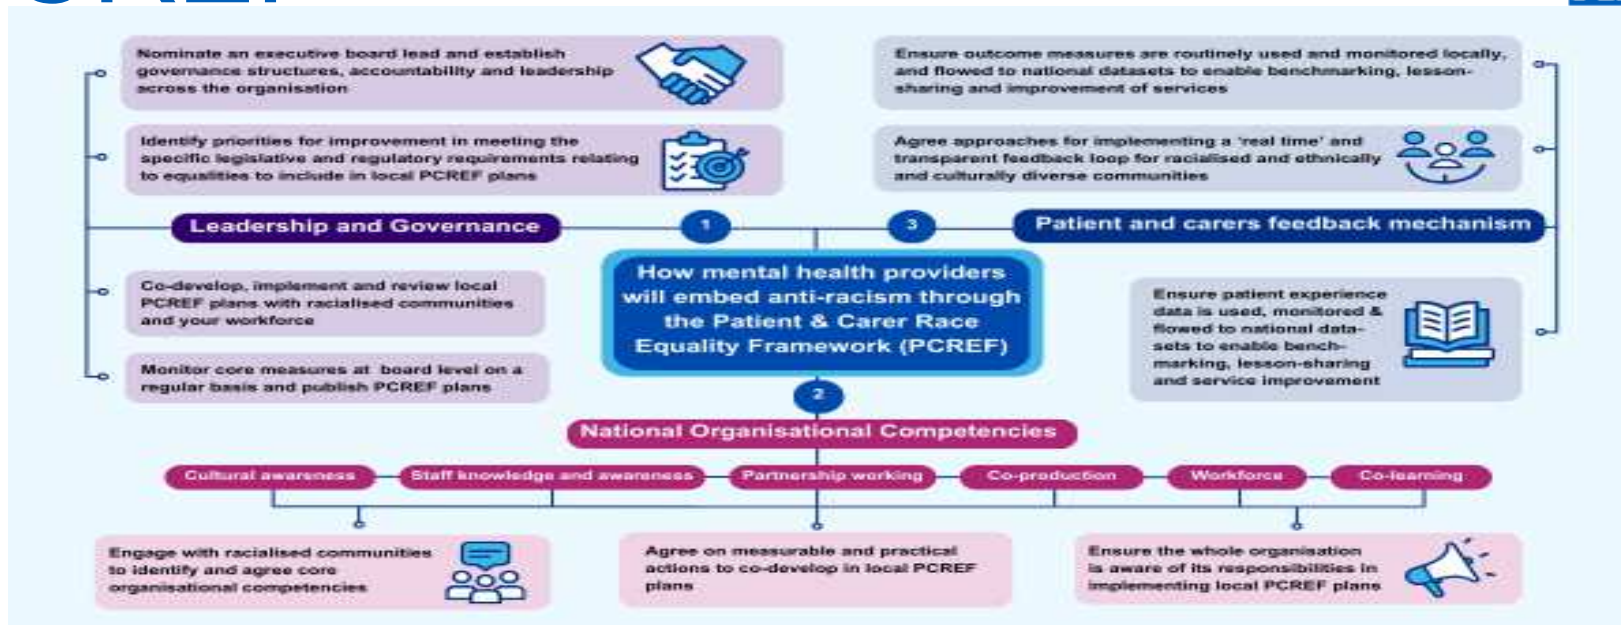

Culture of Care

Deliverable	Timescale	Lead	Complete
Identify Four Wards to Join Culture of Care	Aug 2024	Carolyn Green / Divisional Directors of Nursing	
Attend Launch Event	August 2024	Trust Leads	
Attend First Two Workshops	September / October 2024	Ward Leads	
Commence work on first Projects	October 2024	Ward Leads	

System partnership events are in place to support co-development of the PCREF improvement plan with registrations from across BCH services, community and local authority. Community members are part of the design and deliver of these events.

LECs from have been involved in feeding back on PCREF.

Restraints are greatest in Black service users but additional work is needed with local teams to understand the reasons for this.

PCREF briefing sessions are regularly help to provide opportunities to develop local ideas and support PCREF champions in teams connect with others.

Carers were involved through a coproduction event.

Data confirms hypothesis that black and Asian communities are under-represented in CAMHS services and over represented in MHA detentions when compared to the population.

Work with LeDeR leads across commissioning and ICB to develop a dataset to identify inequalities that could advance health equity for patients from racialized communities with a LD and their carers.

Our Commitment to Walsall

New Hospital Opens at our Dorothy Pattinson Site

Patients and staff have transferred from the much-loved but outdated Bloxwich Hospital to new state-of-the-art facilities.

The 25 private ensuite rooms for older adults that we are providing, replace dormitories, improve patient privacy and dignity, and improve infection control. They will offer a safer, more dignified, and recovery-focused environment for those in need.

There are expanded therapy and activity spaces, modern ward layouts to improve patient safety and light-filled communal areas, creating a calm and home-like environment.

This represents the culmination of many years' work and would not have been possible without the vision and drive of our clinicians, estates, finance teams and others in our Trust.

We are now able to provide the most modern facilities available to patients not just in the Black Country but across the country. They will not only improve the working environment for staff but also provide a more therapeutic setting for patients, helping to reduce behaviours that challenge and enhance our person-centred approach to care delivery.

Black Country Healthcare HEROES

*Increasing our Staff

3rd April 2025

Title of the Report: All Age Carers Strategy 2024-2027

Ward(s):

Portfolios: Councillor Pedley – Adult Social Care
Councillor Elson – Children and Young People

1. Aim

- 1.1 The Strategy was approved at Cabinet on 12 February 2025.
- 1.2. The aim is to present to Scrutiny the All-Age Carers Strategy plan to be co-delivered by Adult Social Care commissioning and Children’s Services.
- 1.3. The aim of this strategy is to highlight the role of Carers in Walsall and outline our strategic intentions for improving the wellbeing of Carers living in the borough by helping them access quality services when they need it, and in a way that works best for them.

2. Recommendations

- 2.1. That Scrutiny acknowledge the Walsall All Age Carers Strategy 2024-2027 is a joint and collaborative strategy across Adult and Children’s Services.
- 2.2. That Scrutiny provide feedback of Walsall All Age Carers Strategy 2024-2027.

3. Report detail – know

Context (Background)

- 3.1 The Care Act 2014 defines a Carer as ‘An adult who provides or intends to provide care for another adult (adult needing care)’ Section 10 (3) Care Act 2014’. And NHS England defines a Carer as ‘Anyone who looks after a family member, partner or friend who needs help because of their illness, frailty, disability, a mental health problem or an addiction and cannot cope without their support.
- 3.2 Carers provide unpaid care alongside their other responsibilities, with people often putting their lives on hold to provide care for a loved one, friend, neighbour or relative. This care could be for a few hours a day or more and could be around the clock care. Anyone can become a Carer.
- 3.3 Carers often say they did not choose or plan to become Carers, and caring responsibilities can arise unexpectedly without any training, knowledge, or preparation. People do it out of love, kindness or a sense of duty. Many people do not see themselves as Carers because they are simply doing what they can for a relative, a friend or a neighbour who needs them because of their disability or illness.

- 3.4 The local authority has a responsibility to identify and support young carers. These responsibilities are set out in the Children’s Act 1989 (as amended by the Children & Families Act 2014) and under the Care Act 2014. The latter introduced new rights for young carers to ensure young carers and their families are identified and their needs for support are assessed.
- 3.5 Young Carers are children and young people under the age 18 who provide regular and ongoing care and emotional support to a family member who is physically or mentally disabled or misuses substances.
- 3.6 Under section 63 of the Care Act the Local Authority must assess the needs of a young carer who is approaching the age of 18 when:
- a. It appears that the young carer has needs for Support; and
 - b. It appears that the young carer is likely to have needs for Support after becoming 18.

Know (Report Detail)

- 3.7 Key statistics about Carers in Walsall:
- There were 26,415 unpaid Carers in Walsall in 2021
 - This represents 10% of the total population in the Borough
 - The majority of unpaid Carers are woman (66%)
 - The largest group of Carers is aged between 45-64 years of age
 - There are currently 276 young Carers from the age of 8 – 21 years of age
 - Over 60% of young Carers are female
 - The largest group of young Carers are aged 13 – 15 years old
 - Around 60% of Carers provide care for 20 hours or more per week
 - 35% of Carers in Walsall provide over 50 hours of care each week
 - The economic value of unpaid care is estimated to be around £605 million per year
 - Around 60% of Carers provide care for a spouse or partner
- 3.8 It was agreed at EDMT on 8 August 2024 to develop a 3 year ‘All Age Carers Strategy 2024-2027,’ and that Adult Social Care and Children’s Services should collaborate to coproduce the strategy.
- 3.9 Adult Social Care Commissioning and Children’s services worked collaboratively to align and integrate their individual strategies to co-produce the All-Age Carers Strategy. The Draft All-Age Carers Strategy was presented at EDMT on 09 October 2024 and presented at Children’s DMT on 24 October 2024. Where it was signed off.
- 3.10. This strategy builds on the progress made over recent years in identifying and improving the experience and wellbeing for Carers. Carers of all ages have shared their experiences of what caring is like and what support they need. These views have shaped and informed the priorities in the strategy.
- 3.11. This strategy has been developed through a process of coproduction and ongoing communication with Carers, Carer’s Hub, the voluntary sector, Walsall Young Carers service and other key stakeholders.
- 3.12. Both Adult Social Care and Walsall young carers service support carers of all ages and through the All-Age Carers strategy have set 6 priorities in line with the Care Act 2014.

- Priority 1 - Identification and Recognition
- Priority 2 - Improving the health and well-being of unpaid Carers

- Priority 3 - Improving information, advice and guidance to Carers
- Priority 4 - Supporting Carers to have a good life outside of caring, as well as after caring ('Time for Me')
- Priority 5 - Improving Carers Assessment and Support
- Priority 6 - Crisis management and professional awareness.

- 3.13. In order to effectively address the gaps that exist in meeting the needs of carers in Walsall and to implement the strategic priorities within the strategy, the development of a delivery plan identifying the stages of work required over the next three years, considering the financial challenges the local authority and health service are currently under, is being developed.
- 3.14. We will introduce a robust governance structure and Carers Matter Partnership Board, where partners and Carers will be represented. The Board will oversee the delivery of the strategic priorities within the Strategic Delivery Plan. The Commissioning Manager (CBS) will have overall responsibility for its delivery via the All-Age Carers Steering Group which will report to the Carers Matter Partnership Board.

4. Financial information

Currently we are working on the delivery plan for the strategy. Until this is completed the financial implications are unknown. Once this is completed it will be clearer what the potential financial envelope required will be if any and how it will be resourced.

5. Reducing Inequalities

To identify any anticipated impact on residents, service users and staff an Equality Impact Assessment will be completed.

6. Decide

- 6.1. A copy of the All-Age Carers Strategy is attached (Please see appendix 1)
- 6.2. A copy of the Priorities and detail 2024-2027 is attached (Please see appendix 2)

7. Respond

- 7.1. To help support the delivery of this strategy, we will work in partnership with Carers, Walsall Children's Service, Health and Adult Social Care, Walsall Together, statutory and voluntary agencies to provide the local steer for the commissioning and development of Carer services and the Carer Offer within Walsall.
- 7.2. Delivery Plan 2024-2027 is currently being devised will be discussed and agreed within the All-Age Carers Steering Group and brought back to CMT in spring 2025.

8. Review

Reviews to take place through the All-Age Carers steering group

Introduction

The purpose of this strategy is to highlight the role of Carers in Walsall and outline our intentions for improving the wellbeing of Carers living in the borough.

Our partnership with Carers, young Carers and their families, partner agencies, providers, health colleagues and community voluntary sector organisations is of paramount importance to deliver on the priorities highlighted in this strategy. Carers could be looking after someone who is a family member, partner or friend and need support to maintain their wellbeing and to support them in their caring role. We know that the support Carers give is unpaid, underestimated and often undervalued. In this document we have set out our strategic aims and priorities to support:

- Unpaid Carers
- Young adult Carers
- Young Carers

that are caring for family or friends living in Walsall. This strategy builds on the progress made over recent years in identifying and improving the experience and wellbeing for Carers. We are incredibly grateful to the Carers who have shared their experiences of what caring is like and what support they need. These views have shaped and informed the intentions in this strategy. We have included both national and local priorities with details of the proposed actions over the next 3 years. This strategy has been developed through a process of co-production and ongoing communication with Carers, our Carer's Hub, the voluntary sector, Walsall Young Carers service and other key stakeholders. We promise to support you and acknowledge and recognise your caring role in Walsall. We aim to improve our understanding of the needs of our Carers, and from this, help to design, shape and improve services in Walsall to meet these needs. Walsall will be a place where Carers are recognised, valued, and supported. Carers will be able to achieve their full potential, live their lives with confidence and resilience and access quality services when they need it, and in a way that works best for them.

We want Walsall Carers to be able to live a healthy and fulfilling life outside of their caring role.

We would like to thank any Carers in Walsall for the difference that they make to people's lives in Walsall.

Our commitment to Carers

As the Executive Directors of Adult and children, we are proud to acknowledge the vital role that Carers play in our community. The selfless dedication and tireless work of Carers is essential in supporting our residents to live with dignity in their own homes, and we are extremely grateful for their contribution. Our Carers Vision sets out an ambitious 3-year plan to build on our current work and improve further the identification, support and recognition for Carers across the borough. We are committed to identifying and supporting more Carers, to improve their wellbeing and quality of life. The Council remains committed to delivering a range of measures to support Carers in Walsall. These include increased access to information, advice, and practical support, as well as training, education, and respite services. We are passionate about ensuring that Carers are recognised, valued and supported in every way possible. The Council is dedicated to working with Carers to ensure that they receive the help they need to maintain their own wellbeing, and to continue caring for their loved ones, friends and neighbours. Finally, we would like to express our deep appreciation for the contribution that Carers make to our communities, and we assure all Carers in Walsall that we remain committed to providing the support they need to continue their vital work.

We recognise the crucial importance of identifying and supporting young Carers in our Borough, ensuring their unique needs are met. Through active listening and engagement, we have understood what is essential to them in providing effective support. Our strategy is designed to help young Carers thrive, reach their potential, and make a successful transition to adulthood. By prioritising their wellbeing and offering targeted resources, we aim to create an environment where our young Carers are empowered and can continue to flourish.

We look forward to working with Carers to achieve our vision of a caring and supportive community for all.

Kerrie Allward
Executive Director - Adult Social Care

Colleen Male
Executive Director - Children's Services

Thank You

It's only right to start by thanking Walsall's Carers – of all ages - for the invaluable role they play in our community.

It's because of their dedication and hard work, that many of our most vulnerable residents can continue to live with dignity, in their own homes, supported by people they know and trust.

The council recognises the immense contributions that Carers make to our society 365 days a year, 24/7, and we remain committed to supporting you.

Caring can be a demanding and challenging role, and we want to assure all Carers that the council will remain here to offer the help and support you may need.

We know that our Carers are a diverse group of people, and it's important that the support they receive is useful to them and their circumstances.

We want our Carers to be able to access information, advice, and practical assistance easily, without any extra fuss, so they can do what they do, whilst also looking after themselves and their wellbeing.

It's quite simple – we want our Carers to receive the recognition, respect, and support they deserve, and we are committed to achieving this in every way possible.

Thank you for everything you do, and continue to do, for those you care for.

Councillor Keir Pedley
Portfolio Holder for Adult Social Care

Councillor Stacie Elson
Portfolio Holder for Children's Services

Who is considered to be a Carer

A Carer is anyone who looks after a family member, partner or friend who needs help because of their illness, frailty, disability, a mental health problem or an addiction and cannot cope without their support. The care they give is unpaid. If you are under the age of 18 you are defined as a young Carer.

Many Carers don't see themselves as Carers and it takes them an average of two years to acknowledge their role as a Carer. It can be difficult for Carers to see their caring role as separate from the relationship they have with the person for whom they care, whether that relationship is as a parent, child, sibling, partner, or a friend. It's likely that every one of us will have caring responsibilities at some time in our lives with the challenges faced by Carers taking many forms. Many Carers juggle their caring responsibilities with work, school and study and other family and social commitments. Some are not known to be Carers. They don't tell relatives, friends or health and care professionals about their responsibilities because of a fear of separation, guilt, pride or other reasons.

This means that the sort of roles and responsibilities that Carers have to provide varies widely including emotional as well as practical support. They can range from help with everyday tasks such as getting out of bed and personal care such as bathing, to emotional support such as helping someone cope with the symptoms of a mental illness. (Definition – NHS England 2024) Young Carers can have a wide range of caring roles and responsibilities, including house work, healthcare, intimate personal care and wider tasks such as translating for non-English speaking family members or managing the family budget. (Hidden from view – the Carers society 2013)

Many people do not see themselves as Carers because they are simply doing what they can for a relative, a friend or a loved one who needs them because of their disability or illness. Carers often put their lives on hold to provide care for a loved one, friend or relative. This care could be for a few hours a day or more and could be around the clock care.

Anyone can become a Carer. Carers tell us that often they do not choose or plan to become Carers, and caring responsibilities can arise unexpectedly without any training, knowledge, or preparation. People carry out their caring role out of love, kindness or a sense of duty for the cared for person who could not cope without this 'necessary and ongoing care.

National Context

According to Carers UK, nationally:

- 42% of Carers do not find it easy to access information and advice
- 8% of unpaid Carers in England are approaching their local authority for help
- 65% of Carers agreed that the increase in the cost of living was having a negative impact on their physical and/or mental health

Headline Facts & Figures

- Carers UK estimates there are 13.6 million unpaid Carers in the UK
- 1.4 million Carers provide more than 50 hours of care per week
- Carers save the economy £132 billion per year
- 40% of Carers have given up work to provide unpaid care
- 1 in 7 people in the workplace are also Carers
- 2/3rds of Carers are aged 51+

These statistics are often to the detriment of the Carer:

- 27% of unpaid Carers have bad or very bad mental health, rising to 31% for those caring for more than 50 hours a week, or for over 10 years
- More than three quarters of all Carers (79%) feel stressed or anxious, 49% feel depressed and half (50%) feel lonely.

Young Carers

- In the last census data (2011) there were 166,363 young Carers in England
- 2024 school census data said 53,976 pupils were recorded as young Carers, this is a low representation with 72% of schools across the country saying they do not have any young Carers.

The Children's Society report (Hidden from View 2013) shared:

- 1 in 12 young Carers spend more than 15 hours a week looking after a parent or sibling
- 1 in 20 young Carers said they missed school because of their caring responsibilities
- On average young Carers miss or cut short 48 school days a year
- The average annual income for families with a young Carer is £5,000 less than families who do not have a young Carer.
- 26% of young Carers said they have been bullied at school because of their caring role (Carers trust 2017)
- 97% of young Carers do not receive transition support, when they become adult carers

Our Duty For Adult Carers

Key principles of the Care Act 2014 that link to duties of local authorities in supporting unpaid Carers.

- A carer has the right to request an assessment under Section 10 of the Act and the local authority has the duty to undertake an appropriate and proportionate assessment if there is an appearance of need.
- The purpose of the carer's assessment is to identify with the carer their personal outcomes, existing needs, and impact of the caring role on their individual wellbeing.
- A carer's assessment must also seek to establish if the caring role is sustainable and if the carer is willing and able to care for the adult needing care.
- The carer should have been provided with appropriate information and advice to enable them to work towards their priorities and personal outcomes, having been supported to identify their existing or potential set of personal strengths.
- Upon completion of a carer's assessment, the local authority should have a full picture of the carer's needs, priorities, and personal outcomes.
- The local authority must provide the carer with a copy of their assessment and their eligibility determination.

The local authority has a responsibility to identify and support young Carers. These responsibilities are set out in the Children's Act 1989 (as amended by the Children & Families Act 2014) and under the Care Act 2014.

Walsall Council has a responsibility to follow Ofsted guidance and:

- Identify children and young people in need of help and protection, including young Carers.
- Complete assessments that are timely and result in direct help for families and sustainable progress for children
- There is a clear focus on promoting Carers' wellbeing and taking account of the impact caring has on all aspects of their lives.

- Councils must provide and maintain an information and advice service for all Carers about what can be done to help them (and those they care for) prevent, reduce or delay the development of longer-term needs for care and support, and to help them look after their own wellbeing.
- A young carers assessment must consider the young carers wishes and aspirations as well as their needs for leisure, support with education, and future employment opportunities.
- A young carers assessment will identify and put in place measures to reduce the caring role and reduce any negative impacts it has.
- A Carer's eligibility for an assessment is based solely on them having the 'appearance of need' for care and support. Councils must offer an assessment on this basis.
- Eligibility for support is based solely on whether the Carer's role has (or is likely to have) a 'significant impact' on their wellbeing and as a result they are unable to achieve one or more of the wellbeing outcomes described in the Care Act; this is a lower threshold than the person being cared for, whose eligibility is based on being unable to achieve two or more of these outcomes.
- There are no requirements for Carers to be providing substantial and regular amounts of care, or for a set number of hours, to be eligible for an assessment or support. This is important where Carers may be providing care that fluctuates over time.
- Carers must be given a written copy of a council's decision about their eligibility for support.
- Carers eligible for support must get a support plan, including a personal budget "sufficient to meet their care and support needs" that can be spent in a number of ways. Carers must always be offered the option of taking some, or all, of their personal budget as a direct payment
- Young adult Carers receive transition assessments as they approach adulthood, to enable a 'whole family' approach to providing assessment and support as they become adult Carers

Proof

- Since April 2015 young Carers have been entitled to an assessment of their needs from the local authority to assess and support children and young people from taking on excessive or inappropriate care. If young carers have inappropriate or excessive caring responsibilities they may be identified as children in need under the terms of the childrens act and the family may be offered additional support by Childrens services.

The Care Act 2014 defines a Carer as ‘An adult who provides or intends to provide care for another adult (adult needing care)’ Section 10 (3) Care Act 2014”

NHS England defines a Carer as ‘Anyone who looks after a family member, partner or friend who needs help because of their illness, frailty, disability, a mental health problem or an addiction and cannot cope without their support. The care they give is unpaid’.

Carers provide unpaid care alongside their other responsibilities, with people often putting their lives on hold to provide care for a loved one, friend, neighbour or relative. This care could be for a few hours a day or more and could be around the clock care. Anyone can become a Carer.

Carers tell us that often they do not choose or plan to become Carers, and caring responsibilities can arise unexpectedly without any training, knowledge, or preparation. People do out of love, kindness or a sense of duty.

Many people do not see themselves as Carers because they are simply doing what they can for a relative, a friend or a neighbour who needs them because of their disability or illness.

Caring In Walsall

- There were 26, 415 unpaid Carers in Walsall in 2021
- This represents 10% of the total population in the Borough
- The majority of unpaid Carers are woman (66%)
- The largest group of Carers are aged between 45-64 years old

There are currently 276 young Carers from the age of 8 – 21 years old in Walsall

- Over 60% of our young Carers are female
- The largest group of young Carers are aged 13 – 15 years old

Impact Caring has on you

As part of the development of this strategy there has been consultation and engagement with carers and commissioned providers and usage of National Surveys. The Survey of Adult Carers is a statutory biennial survey, carried out by local authorities across England on behalf of NHS Digital. The survey seeks the opinions of Carers aged 18 or over, on a number of topics that are considered to be indicative of a balanced life alongside their unpaid caring role. It used to monitor the impact of the national Carers strategy.

- The survey was comprised of **31** individual questions, **1** of which were bespoke to Walsall in order to obtain local intelligence.
- There are **26,415** known unpaid Carers in the borough living in Walsall.
- **1,534** Carers were known to Walsall Adult Social Care during the survey eligibility period of 01/09/2022 to 31/08/2023. Of these, **521** received a Carers assessment and/or review within the 12-month window and were therefore sent a copy of the survey. **1013** declined an assessment and were therefore ineligible to be surveyed.

Of the **521** Carers in receipt of an assessment and/or review during the period:

- **349** received information and advice only (of which replacement care provided to the cared-for person in **182** cases).
- **172** received no direct support (of which replacement care provided to the cared-for people in **121** cases).

A summary of the findings from the people who responded to the 2023-24 survey are:

- Response rate is the lowest since the survey was commissioned in 2012-13
- Overall satisfaction with Adult Social Care services has increased by 3.8%
- Carers reported quality of life has decreased by 0.6%
- The proportion of Carers who find it easy to find information about services has increased by 0.9%
- The proportion of Carers who report they have been included or consulted in discussions about the person they care for has decreased by 7.6%
- The proportion of Carers who reported they had as much social contact as they wanted increased by 2.5%

Respondents were encouraged to offer suggestions/comments, some of which can be found later in this section.

- 56% of Carers did not feel supported
- 59% said they did not know where to turn for information or advice
- Some Carers describe their role as a “24/7 job” with 75% of Carers reported feeling stressed as a result of their caring role.
- Carers have reported a sense of loss and grief for the life they had before starting caring
- Carers feel they did not have enough time to take care of their own health
- 78% of Carers reported that they did not feel their contribution to a society as a Carer was valued

What you have told us

- 60% of Carers reported that their caring role has had a negative impact on their physical health and 70% reported it had a negative impact on their mental health
- 54% of Carers reported that their caring role had become more difficult as a result of the pandemic
- 70% of Carers have they had lost touch with friends or found it difficult to maintain connections as a result of their caring role.
- 62% of Carers reported that they have experienced a loss of income

Carer / Respondent suggestions from recent consultation

“Need to speak to a person not a machine, telling you “will be in touch in the next 24-28 hours”

“Initial aids or help is good but fades after a few months, because I suffer with anxiety and depression, I lack the motivation to seek out help. Therefore, a monthly check in service could prove useful as sometimes when I have my dark periods talking to someone would be good”

“If the social services would be more helpful, efficient and supportive it would be very nice”

The Carer experience

“I am tired and feel I just cant cope as a Carer anymore”

“As I’m getting older I find it harder to look after my husband when I’m by myself. We are very grateful in what social services do for us but when there is a problem it is hard to speak to someone especially in the finance department. I’m still waiting for someone to call back and I have been trying to speak to someone since August to explain to me about the contribution we have got to pay because I think it’s wrong”

“Carers are the forgotten, neglected group who save the NHS and indeed the country millions of pounds every year looking after relatives, young or elderly whilst having to put their own lives and the lives of their partners on hold and can only imagine what they may have enjoyed or achieved throughout all those lost years”

“Fatigue is a cause of stress that affects my well being. Uncertain about the future”

“I am stressed, tired and lonely because I am not having enough rest”

“The service I have received has been very good but like most things takes time and a lot of back and forth to get things sorted out. Other than that well done from my point and thanks for the help”

Positive reviews

"I have had great support from the social worker who was assigned to my mum- she was extremely helpful and compassionate. She also provided a lot of help about benefits etc"

The comments i have to give a truly blessing in disguise, how to lift my wife when she falls, if she falls, I can humbly say I have had support I never knew existed.
The work is good and I hope that I stay in good health myself and thank all Carers and council officials from the bottom of my heart"

"The help of Walsall Council has been very good. No complaints at the moment. Thank you all"

"I found social services always happy to help out in any situation. We have passion for care company and are very good"

"I didn't feel the support service was good in Sandwell as I never had a Carers assessment. I did manage to be offered a Carers assessment when moving house and under Walsall Council. I am very pleased with the care I received in finding my mom a suitable home, although I did get to a stage where my mom's care caused me alot of stress and pressure not having suitable support until a social worker was involved there at a cross stage"

Negative reviews

"I felt that I had no control social services took over and giving me no option or anything"

"No communication from one department to another, just passing the buck as the saying goes and getting nowhere. So stressful"

"I had to go through so many numbers and was passed around before i got any advice"

"Contact from social services was minimal, time consuming and lacked in appropriate support"

"I desperately need a holiday. Social services promised to find respite care but failed on the 2 occasions I requested it in the last 12 months"

Proof

What's going well?

What you have told us about the support you receive...

- “Thank you for this its appreciated”.
- “Thank you for the phone call its nice to know someone cares”.
- “Keep up the good work”.
- “She thanked us so much and said we had been a brick and that it was so good to talk to people who are interested and understand things. She said she loved us to bits!”
- “Thank you for all of your help and signposting for the information”.
- “Thank you ever so much for all your ongoing support and updates. I really appreciate it”.

Some of the things you have told us you need...

We will look to embed these into our priorities and delivery plans

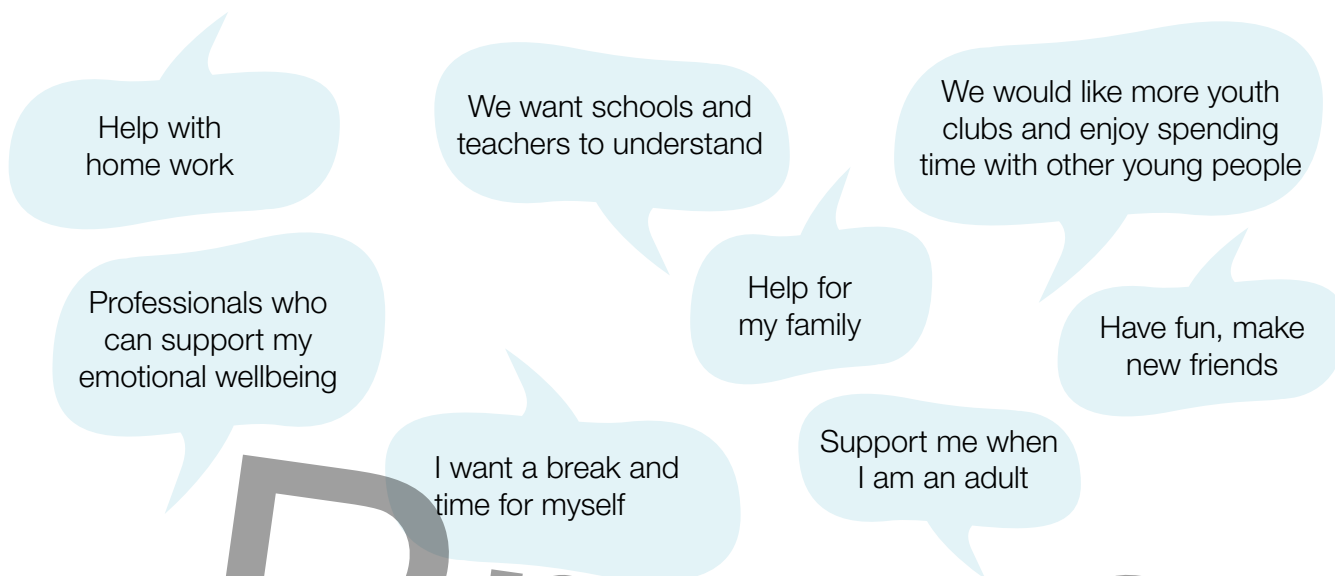

- “A visit or telephone call to advise on the help and benefits available to Carers.”
- “I feel council departments could learn from charitable organisations, in particular such as Age UK and Carers UK, who offer considerable information with regard to Carers. Perhaps adult social care departments could work more closely with these excellent charities, for the benefit of Carers.”
- “I think it would be useful if there was a number that a Carer could ring when feeling down and be able to speak to someone because sometimes you can feel completely alone and not wanting to put on family, just to talk things through. Sometimes that’s just enough, no more is needed.”
- “People disappear and you end up repeating your story over and over again.”
- “Access to Compliments and Complaints process – How can I give a compliment?”
- “A leaflet of benefits or of contacts which may be helpful would be good. Not everyone has the internet!”
- “There is some assistance available but it’s very difficult to get hold of.”
- “I need my own assessment and review... what was right for me 2 years ago isn’t now.”
- “Caring for someone is not easy at times so when you do need advice from services it is a little frustrating when your calls aren’t answered and you have to do the chasing. Also I don’t think you are always told about all the services that are available to yourself and the person you care for.”
- “Improvements to health and social care systems are needed urgently. I have felt unsupported and uncared for when trying to provide my mom with care. Funding was always being mentioned as a barrier to improve care.”
- “The importance of someone remaining within the home environment is the main desire of so many cared for people, but today it feels more driven by the financial needs of councils, rather than the Carer’s observation of the situation in which they find themselves and the wellbeing and safety of the person being cared for.”

The voice of Walsall Young Carers

We regularly consult with our young Carers to evaluate the service they receive and make sure they have access to the right support for their caring roles.

During young Carers action day we asked our young Carers what support and services were important to them. They shared:

Walsall Young Carers have agreed the following actions with young Carers practitioners:

Be aware	Listen
Increase the awareness and identification of young Carers and their needs.	To what young Carers and their families have to say. Improve the assessment and support of young Carers and their families
Work together	Have fun
Strengthen partnerships with services supporting young Carers. (we call this a multi agency approach)	Create opportunities for young Carers, providing support and positive things to do.

Our promise to young Carers:

- Young Carers have the same rights as other children and young people.
- Young Carers should be recognised and valued for their contribution to their families and society.
- Young Carers should be involved in the planning and delivery of services that affect them.
- Young Carers should have access to appropriate information, advice, and support.
- Young Carers should have the opportunity to enjoy a life outside their caring role.
- Young Carers should be protected from harm and exploitation.
- Young Carers should be supported to achieve their full potential.
- Young adult Carers are supported with transition

Our promise to Young Carers in Walsall has been implemented within the 6 key priorities for Carers.

Our Key Priorities for Carers

We want Walsall Carers to be able to live a healthy and fulfilling life outside of their caring role. We want to improve the quality of life for Carers. Walsall Borough Council's All age Carers Strategy links to:

- Adult Social Care Commissioning Strategy where there is a strategic commissioning intention focused upon unpaid Carers. Commissioning Intention 4 - "We will improve our Carers support offer" This commissioning intention aims to enhance the Walsall Carers support offer, ensuring that unpaid Carers receive comprehensive, tailored support that recognises their invaluable contribution, promotes their wellbeing, and strengthens their ability to provide care. It will address the diverse needs of Carers, improve their resilience and ensure they have everything they need to provide and experience quality care.
- Walsall's Early Help Partnership Strategy, Approach and Response to Children, Young People & their Families.

Improving the quality of life for Carers is important to us because:

- We want to recognise the contribution they make. We know they play a vital role in supporting individuals who have physical or mental health needs, disabilities or age-related conditions. We want to acknowledge and recognise the valuable contribution they make to the independence and wellbeing of those they care for and society.
- We want to promote wellbeing. Caring for a loved one has multiple demands so we need to work to prevent burnout, stress and exhaustion by ensuring there is an 'offer' so Carers can maintain their own health and resilience and achieve their full potential.
- We want to be able to enhance the quality-of-care Carers provide by ensuring they have the skills and knowledge to manage complex care tasks, navigate the system and address the changing needs of the person they care for.
- We want to promote independence to ensure people remain living in their own homes for as long as possible. We want to make sure Carers are prevented from needing to use residential and nursing care where it is appropriate and safe to do so.
- We want to facilitate social inclusion to help Carers connect with others who are in similar situations, reducing common feelings of isolation and to provide emotional support/solidarity. Carers should have the opportunity to enjoy a life outside their caring role.
- We want to enable choice and control so Carers can make informed decisions about their caring role and the services they may wish to access. We want to ensure Carers can assert their rights, voice their concerns and navigate the system effectively. Young Carers should have access to appropriate information, advice, and support.
- We want to make sure Carers have financial sustainability by alleviating the monetary burden they may experience, ensuring they have the resources to sustain their important role.
- Young Carers have the same rights as other children and young people and should be protected from harm and exploitation.
- Carers should be involved in the planning and delivery of services that affect them.
- We want to facilitate social inclusion to help Carers connect with others who are in similar situations, reducing common feelings of isolation and to provide emotional support/solidarity.
- We want to enable choice and control so Carers can make informed decisions about their caring role and the services they may wish to access. We want to ensure Carers can assert their rights, voice their concerns and navigate the system effectively.
- We want to make sure Carers have financial sustainability by alleviating the monetary burden they may experience, ensuring they have the resources to sustain their important role.

Moving forward, and using Carer and partner organisation feedback, we have set out 6 key priorities to deliver upon. These are:-

Priority 1: Identification and Recognition

- We heard that it is important that we identify and recognise people with caring responsibilities. We aim to identify and recognise more unpaid Carers within Walsall. Many Carers provide care within a family network and do not want or need additional support. We know that many Carers and young people do not think of themselves as a 'Carer'. However, some Carers need support to prevent the escalation of their own needs, and those of the person they look after. We aim to identify Carers early, this will help to ensure Carers know where to go to when they require support, keeping them well for longer and helping to avoid crisis which necessitates involvement from statutory services.
- We will raise awareness, promote our Walsall Carers offer and young Carers service, train professionals in NHS, adult social care and other agencies to identify, champion and work with Carers. We particularly want to improve our links with hospitals, GP practices and education to promote support for Carers and raise the profile of caring. We will also utilise annual calendar events such as Carers Week, National Young Carers action day and Carers Rights Day.
- We will work with partners across the statutory, and the community and voluntary sector to ensure that Carers if they wish to, are identified earlier and provided with information, advice, guidance, and support. We will ensure that Carers continue to be involved as expert partners in the designing, commissioning, and evaluating of Carers services. Carers will be well informed and able to exercise choice in relation to the support services available to them.
- Carers are valued and respected as expert partners in the care of the person they look after. We will support former Carers and recognise that Carers need support to rebuild their lives after their caring commitment ends.
- Work with schools to ensure the school census figures reflect young Carers identified in Walsall Council.
- Continue the Young Carers Champion Roles with partners and the delivery of Walsall young Carers multi agency action group with partners
- We will continue to promote Walsall young Carers Identification card scheme with partners
- We will collaborate with partners throughout Walsall to identify and provide support to underrepresented young Carers who currently do not utilise available services.

Priority 2: Improving the health and well-being of unpaid Carers

- You told us that improving opportunities for Carers to maintain good wellbeing is essential to supporting Carers in their caring role. We will support Carers health, mental health and wellbeing to enable them to remain mentally and physically well.
- Our partnership work through Walsall Together aims to better support people and the communities they live in, so they can manage their own health and wellbeing needs, prevent ill health and live happier lives.
- The Walsall Wellbeing Outcomes Framework provides the infrastructure for our partnership to plan, report, and account for its activity. It will be used as a mechanism for analysing progress towards improved population wellbeing whilst simultaneously integrating it into all partnership activity.

- We intend to work in partnership with Carers, health and adult social care colleagues, the voluntary sector and employers to support Carers to maintain good physical and mental health, and to help Carers to carry on caring.
- Walsall Wellbeing Outcomes Framework which was created in 2023 following extensive engagement and consultation within the Borough. (<https://walsalltogether.co.uk/our-work/resilient-communities/walsallwellbeing-outcomes-framework>).
- We will encourage Carers to be known to their GP practice in order that appropriate support can be offered when required. We will encourage the training and development of Carer Champions and Young Carers champions within our GP practices across the Borough.
- We will develop a culture where professionals working with the cared for, acknowledge and respond to the needs of Carers to maintain their health and wellbeing before reaching the point of crisis.
- We will promote and raise awareness around Carers Rights and legislation across the Borough, ensure mechanisms are in place to ensure more employers are made aware of an employee with caring responsibilities and that employers can take simple, but effective action to enable Carers to balance their caring and employment responsibilities. Where possible we will aim to influence businesses to consider what flexible working practices might help both the employer and employee, recognise and supporting Carers in the wider community and society, raising awareness of caring among the wider population in order to build Carer friendly communities.
- Carers tell us that they need flexible working arrangements and better care for the person they care for to enable them to remain in employment. We will aim to become an exemplar employer leading by example and increasing the knowledge of our partners and businesses of issues that affect Carers. We will encourage the adoption of Carer friendly practices. We will also support former Carers to adjust to a life after caring. We will develop a Walsall Carers Charter with the voice of Walsall Carers. Its purpose is to be a statement of values, standards and principles that outlines Walsall's commitment to supporting Carers. It will cover various themes that will be defined by Carers, partners from health, Walsall Together, adult social care, the Council and voluntary sector. It will be promoted with all organisations and settings across Walsall to help support Carers and ensure that any future services are designed to better support Carers to continue in their caring role.
- We recognise the emotional demands on Carers and will offer Carers their own assessment and Care Plan and young adult Carers transition plan. Which will support Carers with the demands of caring. Improving wellbeing is a key area within our Carers assessment process. We will also promote wellbeing assessments through our commissioned and partner organisations. We will review Care Plans on at least an annual basis to ensure they continue to meet Carers needs.
- We will support Young Carers to have the same rights as other children and young people.

Priority 3: Improving information, advice and guidance to Carers

- You told us of the importance of having access to good quality information, advice and guidance about support services available in the Borough. You explained that this is key to enabling Carers to have choice and control and to be able to continue to care. We aim to improve access to clear, concise relevant information in a range of formats for our population that will help to avoid, reduce or delay the need for assessment and more intensive support. Information will be provided on a range of topics, including navigating the care system, accessing benefits, and managing their own health and well-being.

- We will use relevant sources of information across the Borough, within our Walsall Connected sites and other partner venues including GP practices, across the Internet through various digital platforms and social networking as well as through our new Wellbeing Directory which was introduced earlier in 2024. We will ensure that information is reliable, easily accessible and up to date which gives Carers the best chance of knowing what is on offer in their communities to support them at any stage in their caring journey.
- We will keep up-to-date with technological opportunities by developing and improving digital resources as a primary source of information, and utilising social networks to empower and enable collaboration within communities.
- As well as for Carers themselves, it is of paramount importance that we make information available for professionals and any agencies who come into contact with Carers.
- We will ensure that we signpost Carers who want more information about benefits, grants and financial management to relevant financial support and advice.
- We will review our personalisation offer for Carers to enable them to have more influence over their lives and increased flexibility around how they use the resources they are eligible for. For example, through direct payments.
- Increase the identification and awareness of young Carers by updating Walsall council Young Carers website and access to young Carers services
- We will continue to build partner relationships through Walsall young Carers multi agency action group offering services and support to young Carers and their families

Priority 4: Supporting Carers to have a good life outside of caring, as well as after caring ('Time for Me')

- We heard from you that being able to take a break (Time for Me) from caring responsibilities and having the opportunity to work and access education and leisure opportunities are vital areas of support to Carers. We aim to give Carers a break from their caring responsibilities, allowing them to recharge and pursue their own interests and needs. Carers should be able to maintain their social relationships with family, friends and others. Remaining socially connected has an impact on our mental and physical health, therefore, identifying and developing opportunities for Carers to meet others, either in the same situation or otherwise, is a key focus.
- We will support Carers to be able to access social and leisure interests away from their caring role as they choose. We will improve our offer to provide flexible options that enable choice and value for money and where possible look towards discounts for Carers as well as considering the introduction of a Carers lanyard to help show empathy, raise awareness and offer support
- We will have fun! Providing young Carers with access to our young Carers groups and enrichment activities. Creating new opportunities and positive things to do including family days, activities within the school holidays and Young Carers festival
- We will Provide a young adult Carers group to support young people transitioning to adult Carers
- We will support Carers through putting them in touch with the Carers Hub and our commissioned and non-commissioned services available in the Borough in order to establish new connections and a wider support network
- We will promote digital solutions such as through digital apps and social media, to enable Carers to form and sustain new networks of support. Hopefully this will lead to good support and fewer experiences of Carers feeling isolated.

- We will continue to support Carers to have a break from their caring role in a way that suits them to enable them to continue to work and to continue with their interests outside of their caring role. We will continue to ensure that Carers are aware of opportunities for them to participate in their communities or interests and support them to be able to do this. We will extend our support so Carers can remain in work, training and or education if they wish.
- For Carers whose role as a Carer has come to an end, we will link them to relevant support which could be bereavement support, support around their mental health as well as the wider Walsall Carers Offer. For some former Carers, there may be aspirations around providing care in their community or pursuing training or employment opportunities in the care sector.
- As sensitively as possible, we want to support former Carers to return them back to their life of their personal aspirations prior to becoming a Carer

Priority 5: Improving Carers Assessment and Support

- Through the discharge of the council's legal duties to adult Carers, we will improve how we identify the specific needs, challenges, and preferences of unpaid Carers, ensuring that support services are tailored to their individual circumstances and direct payments are applied if applicable.
- We will review (and amend as necessary) our current Carers assessment and support arrangements (including self-assessments) to ensure the most effective and affordable support arrangements are in place to deliver support to Carers equitably across Walsall. We will endeavour that the need for Carers to repeat their story is kept to a minimum.
- We will improve our partnership working and encourage Carer support providers to work together in true collaboration with each other for the benefit of Walsall Carers.
- We will continue to promote and explain Carers rights to an assessment and routinely offer one on the identification of need-suggest removal as carers assessment would identify need, explaining the benefits of an assessment to the Carer. Where an assessment identifies eligible needs, we will look to meet these with support from their local community in the first instance, avoiding the need for statutory provision wherever possible.
- We will offer information, advice and guidance to all Carers, as well as signposting to support from their local community.
- We will seek to increase the number of Carers who have their own Carers Assessment and recognise that needs change and therefore support will need to be reviewed. All Carers who have a Carer's assessment will be offered the choice to be referred to our Carers Hub for further advice, information and support and/or to be signposted to other appropriate support organisations.
- We will support Young adult Carers from 16 years of age with a transition assessment and plan to support their role as an adult Carer
- As previously mentioned, we will also promote wellbeing assessments through our commissioned and partner organisations.
- We will conduct an assessment for any child or young person identified as a Carer, considering their wishes and aspirations and implementing steps to lessen the caring role and its negative impacts. The assessment will include family members using a whole-family approach.
- We will look to co-produce with Carers of all ages to improve our Carers Assessments and support offered

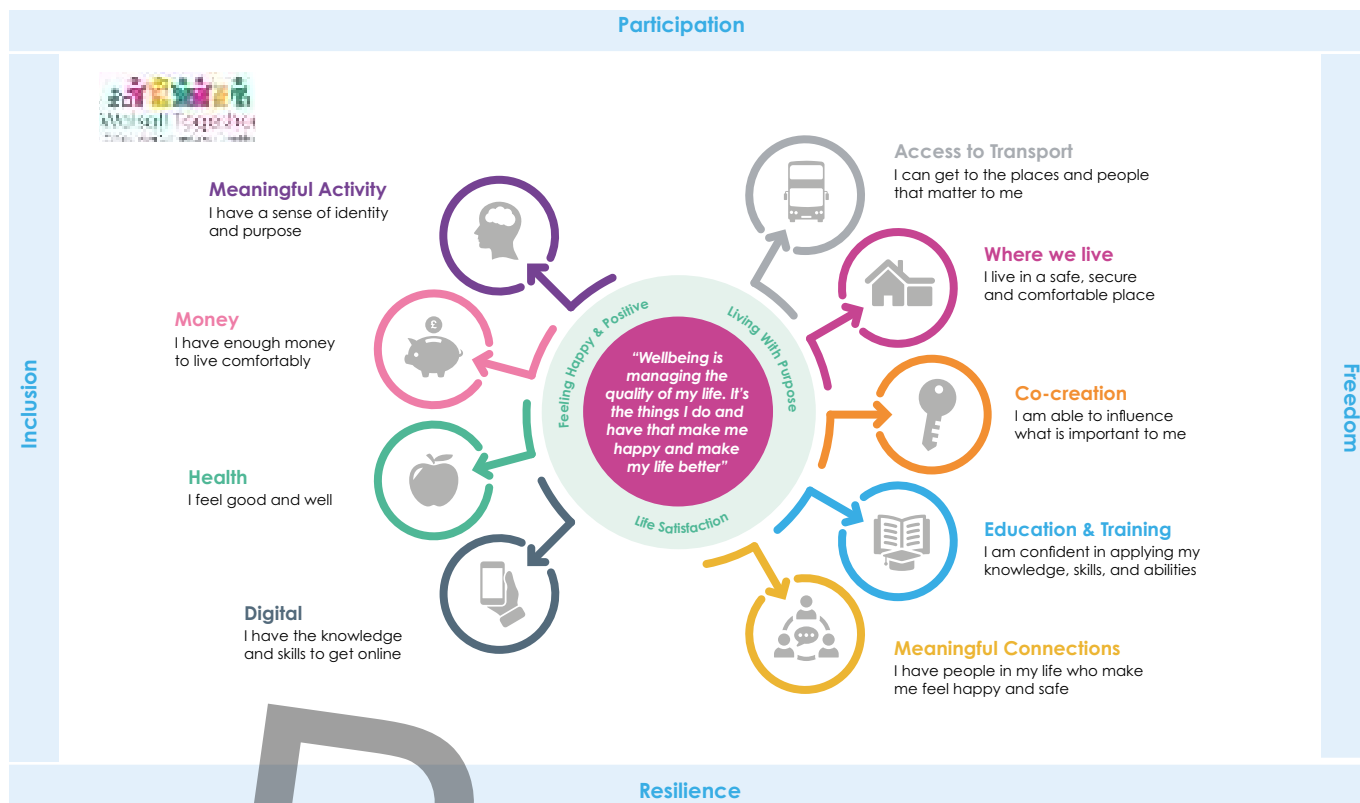

Priority 6: Crisis management and professional awareness

- You told us that we need to do more to support Carers at point of crisis. We know that many Carers are able to manage their caring responsibilities independently of help from statutory agencies and have established family networks whom they can call on in a crisis. However, some do not have robust contingency arrangements and may need support.
- We aim to provide support to help Carers to plan effectively should a crisis occur and provide a prompt response and support in the event of such a situation.
- We will aim to ensure that professionals are trained and skilled in order to recognise a potential crisis and help to put arrangements in place to prevent one occurring. We will raise awareness with the promotion of Carer Champions within the Borough to raise the profile of unpaid Carers.
- We will ensure that Carers know where they can get help in the event of a crisis and our respite offer is clear. We will ensure that Carers who are eligible can access a break from caring and provide this in a cost-effective manner, doing the best we can within the resources available.
- We will ensure that robust arrangements are in place so that, in the event of a crisis, responses from Adult Social Care and partners are prompt, provide reassurance and show respect towards the feelings of the Carer and the cared for person.
- Young Carers practitioners will support young Carers and their families. If we have any concerns for young people and their family we will discuss this with young Carers and access the appropriate support through Walsall children's services and partners

Proof

The Walsall Wellbeing Outcomes Framework

- We will encourage Carers to be known to their GP practice in order that appropriate support can be offered when required. We will encourage the training and development of Carer Champions within our GP practices across the Borough.
- We will develop a culture where professionals working with the cared for, acknowledge and respond to the needs of Carers to maintain their health and wellbeing before reaching the point of crisis.
- We will promote and raise awareness around Carers Rights and legislation across the Borough, ensure mechanisms are in place to ensure more employers are made aware of an employee with caring responsibilities and that employers can take simple, but effective action to enable Carers to balance their caring and employment responsibilities. Where possible we will aim to influence businesses to consider what flexible working practices might help both the employer and employee, recognise and supporting Carers in the wider community and society, raising awareness of caring among the wider population in order to build Carer friendly communities.
- Carers tell us that they need flexible working arrangements and better care for the person they care for to enable them to remain in employment. We will aim to become an exemplar employer leading by example and increasing the knowledge of our partners and businesses of issues that affect Carers. We will encourage the adoption of Carer friendly practices. We will also support former Carers to adjust to a life after caring. We will develop a Walsall Carers Charter with the voice of Walsall Carers. Its purpose is to be a statement of values, standards and principles that outlines Walsall's commitment to supporting Carers. It will cover various themes that will be defined by Carers, partners from health, Walsall Together, adult social care, the Council and voluntary sector. It will be promoted with all organisations and settings across Walsall to help support Carers and ensure that any future services are designed to better support Carers to continue in their caring role.
- We recognise the emotional demands on Carers and will offer Carers their own assessment and Care Plan which will support Carers with the demands of caring. Improving wellbeing is a key area within our Carers assessment process. We will also promote wellbeing assessments through our commissioned and partner organisations. We will review Care Plans on at least an annual basis to ensure they continue to meet Carers needs.

If we deliver on our strategy, our aspirations and priorities...

As a Carer....

- I can meet with people who are also Carers so we can share our experiences and support each other.
- I will be treated with respect and dignity. My voice will be heard in planning what support I would like/need.
- I can live the life I want and do the things that are important to me as independently as possible.
- I will feel valued as a Carer for the contribution that I make to my community.
- I will be supported to manage my own well being in a way that makes sense to me.
- I will feel safe and supported to understand and manage the risks to me as a Carer.
- I will have access to respite care and other support services that will allow me to take a break from my caring responsibilities when needed.
- I know who to contact if something goes wrong.
- I will be offered my own Carers assessment.
- I will be treated with respect, dignity and feel valued and respected by professionals for the person I support.
- I will have a better choice of good quality affordable services for the person I care for.
- I will feel valued as a Carer for the contribution that I make to my community.
- I have a co-produced Carers Plan that sets out how I can be as active as I want to be and involved in my community.
- I will have a say in planning and monitoring future services as an expert with lived experience.
- I will know the Carers allowances I can claim and will receive the financial support that I am entitled to.
- I can maintain my links with family, friends and my community.
- I can live the life I want and do the things that are important to me as independently as possible.
- I have a plan for the future that helps me feel confident my cared for person will be OK.
- I will be supported as a former Carer.
- I will have reliable good quality support that help my cared for person live well and stay independent.
- I can access support in a timely way.
- I will know that the person I support will be supported as well.
- I can get information and advice that helps me as a Carer and is up to date and provided in a way that I can understand.
- I can get information and advice about my well being and how I can be as well as possible – physically, mentally, and emotionally.
- I will be aware of the activities, social groups, leisure, and learning opportunities in my community that can support me, as well as health and care services.
- I will know what my rights are and can get information and advice on what I need.
- I will have the same rights as other young people and children
- I will be supported to transition from a young Carer to an adult Carer
- I will be supported to achieve my full potential within education

Governance

'To help support the delivery of this strategy, we will work in partnership with Carers, Walsall Children's service, health and adult social care, Walsall Together and statutory and voluntary agencies to provide the local steer for the commissioning and development of Carer services and the Carer Offer within Walsall.

- We will also be mindful of the implementation of local and national priorities and strategies. We envisage that through building upon our strong approach to partnership working, adult Carers will have more support, choice and control to have a life of their own alongside their caring role.
- In order to effectively address the gaps that exist in meeting the needs of Walsall Carers and to implement the strategic priorities within this strategy, the following stages of work will need to be undertaken over the next three years, taking into account the financial challenges that the local authority and health service are currently under.
- We will introduce a robust governance structure and Carers Matter Partnership Board, where partners and Carers will be represented. The Board will oversee the implementation of the strategic priorities highlighted within the strategy with a clear 'Strategic Delivery Plan.'
- We will look to co-produce delivery of the Strategy with all stakeholders including Carers
- The Carers Matter Partnership Board will oversee and take responsibility for the implementation of the Carers strategic delivery plan across multi organisations across Walsall.
- Task and Finish groups will be formed to ensure the development and success of the strategic priorities identified within the delivery plan. Clear links to any commissioned services and the Walsall Carers Hub will be made
- Walsall young Carers action group will continue to meet and work in partnership supporting strategic priorities identified within the delivery plan.

What Next?

- We will introduce the Carers Matter Partnership Board which will develop an action plan setting out how we will deliver upon each of the priorities outlined in this strategy.
- We will continue to build partnerships to support young Carers through our multi agency – Young Carers action Group
- We will regularly monitor and review progress against the action plan and our aspirations to support Carers within Walsall.
- Our ambition is to work with partners including Carers to progress an all-age multi-agency Carers strategy across Walsall.
- We will continue to promote the importance of caring and the value of Carers, celebrating the contribution that Carers make to our community.
- By delivering upon the priorities outlined in this strategy we aim to ensure that Carers in Walsall receive the support and recognition they deserve.

We want Walsall Carers to be able to live a healthy and fulfilling life outside of their caring role.

All Age Carers Strategy

Our Priorities 2024-2027

Walsall Council

Priority 1: Identification and Recognition

- 1.1 We heard that it is important that we identify and recognise people with caring responsibilities. We aim to identify and recognise more unpaid Carers within Walsall. Many Carers provide care within a family network and do not want or need additional support. We know that many Carers and young people do not think of themselves as a 'Carer'. However, some Carers need support to prevent the escalation of their own needs, and those of the person they look after. We aim to identify Carers early, this will help to ensure Carers know where to go to when they require support, keeping them well for longer and helping to avoid crisis which necessitates involvement from statutory services.
- 1.2 We will raise awareness, promote our Walsall Carers offer and young Carers service, train professionals in NHS, adult social care and other agencies to identify, champion and work with Carers. We particularly want to improve our links with hospitals, GP practices and education to promote support for Carers and raise the profile of caring. We will also utilise annual calendar events such as Carers Week, National Young Carers action day and Carers Rights Day.
- 1.3 We will work with partners across the statutory, and the community and voluntary sector to ensure that Carers if they wish to, are identified earlier and provided with information, advice, guidance, and support. We will ensure that Carers continue to be involved as expert partners in the designing, commissioning, and evaluating of Carers services. Carers will be well informed and able to exercise choice in relation to the support services available to them.
- 1.4 Carers are valued and respected as expert partners in the care of the person they look after. We will support former Carers and recognise that Carers need support to rebuild their lives after their caring commitment ends.
- 1.5 Work with schools to ensure the school census figures reflect young Carers identified in Walsall Council.
- 1.6 Continue the Young Carers Champion Roles with partners and the delivery of Walsall young Carers multi agency action group with partners
- 1.7 We will continue to promote Walsall young Carers Identification card scheme with partners
- 1.8 We will collaborate with partners throughout Walsall to identify and provide support to underrepresented young Carers who currently do not utilise available services.

Priority 2: Improving the health and well-being of unpaid Carers

- 2.1 You told us that improving opportunities for Carers to maintain good wellbeing is essential to supporting Carers in their caring role. We will support Carers health, mental health and wellbeing to enable them to remain mentally and physically well.
- 2.2 Our partnership work through Walsall Together aims to better support people and the communities they live in, so they can manage their own health and wellbeing needs, prevent ill health and live happier lives.
- 2.3 The Walsall Wellbeing Outcomes Framework provides the infrastructure for our partnership to plan, report, and account for its activity. It will be used as a mechanism for analysing progress towards improved population wellbeing whilst simultaneously integrating it into all partnership activity.
- 2.4 We intend to work in partnership with Carers, health and adult social care colleagues, the voluntary sector and employers to support Carers to maintain good physical and mental health, and to help Carers to carry on caring.
- 2.5 Walsall Wellbeing Outcomes Framework which was created in 2023 following extensive engagement and consultation within the Borough. (<https://walsalltogether.co.uk/our-work/resilient-communities/walsallwellbeing-outcomes-framework>).
- 2.6 We will encourage Carers to be known to their GP practice in order that appropriate support can be offered when required. We will encourage the training and development of Carer Champions and Young Carers champions within our GP practices across the Borough.
- 2.7 We will develop a culture where professionals working with the cared for, acknowledge and respond to the needs of Carers to maintain their health and wellbeing before reaching the point of crisis.
- 2.8 We will promote and raise awareness around Carers Rights and legislation across the Borough, ensure mechanisms are in place to ensure more employers are made aware of an employee with caring responsibilities and that employers can take simple, but effective action to enable Carers to balance their caring and employment responsibilities. Where possible we will aim to influence businesses to consider what flexible working practices might help both the employer and employee, recognise and supporting Carers in the wider community and society, raising awareness of caring among the wider population in order to build Carer friendly communities.
- 2.9 Carers tell us that they need flexible working arrangements and better care for the person they care for to enable them to remain in employment. We will aim to become an exemplar employer leading by example and increasing the knowledge of our partners and businesses of issues that affect Carers. We will encourage the adoption of Carer friendly practices. We will also support former Carers to adjust to a life after caring. We will develop a Walsall Carers Charter with the voice of Walsall Carers. Its purpose is to be a statement of values, standards and principles that outlines Walsall's commitment to supporting Carers. It will cover various themes that will be defined by Carers, partners from health, Walsall Together, adult social care, the Council and voluntary sector. It will be promoted with all organisations and settings across Walsall to help support Carers and ensure that any future services are designed to better support Carers to continue in their caring role.
- 2.10 We recognise the emotional demands on Carers and will offer Carers their own assessment and Care Plan and young adult Carers transition plan. Which will support Carers with the demands of caring. Improving wellbeing is a key area within our Carers assessment process. We will also promote wellbeing assessments through our commissioned and partner organisations. We will review Care Plans on at least an annual basis to ensure they continue to meet Carers needs.
- 2.11 We will support Young Carers to have the same rights as other children and young people.

Priority 3: Improving information, advice and guidance to Carers

- 3.1 You told us of the importance of having access to good quality information, advice and guidance about support services available in the Borough. You explained that this is key to enabling Carers to have choice and control and to be able to continue to care. We aim to improve access to clear, concise relevant information in a range of formats for our population that will help to avoid, reduce or delay the need for assessment and more intensive support. Information will be provided on a range of topics, including navigating the care system, accessing benefits, and managing their own health and well-being.
- 3.2 We will use relevant sources of information across the Borough, within our Walsall Connected sites and other partner venues including GP practices, across the Internet through various digital platforms and social networking as well as through our new Wellbeing Directory which was introduced earlier in 2024. We will ensure that information is reliable, easily accessible and up to date which gives Carers the best chance of knowing what is on offer in their communities to support them at any stage in their caring journey.
- 3.3 We will keep up-to-date with technological opportunities by developing and improving digital resources as a primary source of information, and utilising social networks to empower and enable collaboration within communities.
- 3.4 As well as for Carers themselves, it is of paramount importance that we make information available for professionals and any agencies who come into contact with Carers.
- 3.5 We will ensure that we signpost Carers who want more information about benefits, grants and financial management to relevant financial support and advice.
- 3.6 We will review our personalisation offer for Carers to enable them to have more influence over their lives and increased flexibility around how they use the resources they are eligible for. For example, through direct payments.
- 3.7 Increase the identification and awareness of young Carers by updating Walsall council Young Carers website and access to young Carers services
- 3.8 We will continue to build partner relationships through Walsall young Carers multi agency action group offering services and support to young Carers and their families

Priority 4: Supporting Carers to have a good life outside of caring, as well as after caring ('Time for Me')

- 4.1 We heard from you that being able to take a break (Time for Me) from caring responsibilities and having the opportunity to work and access education and leisure opportunities are vital areas of support to Carers. We aim to give Carers a break from their caring responsibilities, allowing them to recharge and pursue their own interests and needs. Carers should be able to maintain their social relationships with family, friends and others. Remaining socially connected has an impact on our mental and physical health, therefore, identifying and developing opportunities for Carers to meet others, either in the same situation or otherwise, is a key focus.
- 4.2 We will support Carers to be able to access social and leisure interests away from their caring role as they choose. We will improve our offer to provide flexible options that enable choice and value for money and where possible look towards discounts for Carers as well as considering the introduction of a Carers lanyard to help show empathy, raise awareness and offer support
- 4.3 We will have fun! Providing young Carers with access to our young Carers groups and enrichment activities. Creating new opportunities and positive things to do including family days, activities within the school holidays and Young Carers festival
- 4.4 We will Provide a young adult Carers group to support young people transitioning to adult Carers
- 4.5 We will support Carers through putting them in touch with the Carers Hub and our commissioned and non-commissioned services available in the Borough in order to establish new connections and a wider support network
- 4.6 We will promote digital solutions such as through digital apps and social media, to enable Carers to form and sustain new networks of support. Hopefully this will lead to good support and fewer experiences of Carers feeling isolated.
- 4.7 We will continue to support Carers to have a break from their caring role in a way that suits them to enable them to continue to work and to continue with their interests outside of their caring role. We will continue to ensure that Carers are aware of opportunities for them to participate in their communities or interests and support them to be able to do this. We will extend our support so Carers can remain in work, training and or education if they wish.
- 4.8 For Carers whose role as a Carer has come to an end, we will link them to relevant support which could be bereavement support, support around their mental health as well as the wider Walsall Carers Offer. For some former Carers, there may be aspirations around providing care in their community or pursuing training or employment opportunities in the care sector.
- 4.9 As sensitively as possible, we want to support former Carers to return them back to their life of their personal aspirations prior to becoming a Carer

Priority 5: Improving Carers Assessment and Support

- 5.1 Through the discharge of the council's legal duties to adult Carers, we will improve how we identify the specific needs, challenges, and preferences of unpaid Carers, ensuring that support services are tailored to their individual circumstances and direct payments are applied if applicable.
- 5.2 We will review (and amend as necessary) our current Carers assessment and support arrangements (including self-assessments) to ensure the most effective and affordable support arrangements are in place to deliver support to Carers equitably across Walsall. We will endeavour that the need for Carers to repeat their story is kept to a minimum.
- 5.3 We will improve our partnership working and encourage Carer support providers to work together in true collaboration with each other for the benefit of Walsall Carers.
- 5.4 We will continue to promote and explain Carers rights to an assessment and routinely offer one on the identification of need-suggest removal as carers assessment would identify need, explaining the benefits of an assessment to the Carer. Where an assessment identifies eligible needs, we will look to meet these with support from their local community in the first instance, avoiding the need for statutory provision wherever possible.
- 5.5 We will offer information, advice and guidance to all Carers, as well as signposting to support from their local community.
- 5.6 We will seek to increase the number of Carers who have their own Carers Assessment and recognise that needs change and therefore support will need to be reviewed. All Carers who have a Carer's assessment will be offered the choice to be referred to our Carers Hub for further advice, information and support and/or to be signposted to other appropriate support organisations.
- 5.7 We will support Young adult Carers from 16 years of age with a transition assessment and plan to support their role as an adult Carer
- 5.8 As previously mentioned, we will also promote wellbeing assessments through our commissioned and partner organisations.
- 5.9 We will conduct an assessment for any child or young person identified as a Carer, considering their wishes and aspirations and implementing steps to lessen the caring role and its negative impacts. The assessment will include family members using a whole-family approach.
- 5.10 We will look to co-produce with Carers of all ages to improve our Carers Assessments and support offered

Priority 6: Priority 6: Crisis management and professional awareness

- 6.1 You told us that we need to do more to support Carers at point of crisis. We know that many Carers are able to manage their caring responsibilities independently of help from statutory agencies and have established family networks whom they can call on in a crisis. However, some do not have robust contingency arrangements and may need support.
- 6.2 We aim to provide support to help Carers to plan effectively should a crisis occur and provide a prompt response and support in the event of such a situation.
- 6.3 We will aim to ensure that professionals are trained and skilled in order to recognise a potential crisis and help to put arrangements in place to prevent one occurring. We will raise awareness with the promotion of Carer Champions within the Borough to raise the profile of unpaid Carers.
- 6.4 We will ensure that Carers know where they can get help in the event of a crisis and our respite offer is clear. We will ensure that Carers who are eligible can access a break from caring and provide this in a cost-effective manner, doing the best we can within the resources available.
- 6.5 We will ensure that robust arrangements are in place so that, in the event of a crisis, responses from Adult Social Care and partners are prompt, provide reassurance and show respect towards the feelings of the Carer and the cared for person.
- 6.6 Young Carers practitioners will support young Carers and their families. If we have any concerns for young people and their family we will discuss this with young Carers and access the appropriate support through Walsall children's services and partners

FORWARD PLAN OF KEY DECISIONS

**Council House,
Lichfield Street,
Walsall, WS1 1TW**
www.walsall.gov.uk

3 MARCH 2025

FORWARD PLAN

The forward plan sets out decisions that are termed as “key decisions” at least 28 calendar days before they are due to be taken by the Executive (Cabinet). Also included on the plan are other decisions to be taken by the Cabinet (“non-key decisions”). Preparation of the forward plan helps the Council to programme its work. The purpose of the forward plan is to give plenty of notice and an opportunity for consultation on the issues to be discussed. The plan is updated each month with the period of the plan being rolled forward by one month and republished. Copies of the plan can be obtained from Democratic Services, Walsall MBC, Council House, Walsall, WS1 1TW Craig.Goodall@walsall.gov.uk and can also be accessed from the Council’s website at www.walsall.gov.uk. The Cabinet is allowed to make urgent decisions which do not appear in the forward plan, however, a notice will be included on the agenda for the relevant Cabinet meeting which explains the reasons why.

Please note that the decision dates are indicative and are subject to change. Please contact the above addressee if you wish to check the date for a particular item.

The Cabinet agenda and reports are available for inspection by the public 7 days prior to the meeting of the Cabinet on the Council’s website. Background papers are listed on each report submitted to the Cabinet and members of the public are entitled to see these documents unless they are confidential. The report also contains the name and telephone number of a contact officer. These details can also be found in the forward plan.

Meetings of the Cabinet are open to the public. Occasionally there are items included on the agenda which are confidential and for those items the public will be asked to leave the meeting. The forward plan will show where this is intended and the reason why the reports are confidential. Enquiries regarding these reasons should be directed to Democratic Services (Craig.Goodall@walsall.gov.uk).

“Key decisions” are those decisions which have a significant effect within the community or which involve considerable expenditure or savings. With regard to key decisions the Council’s Constitution states:

- (1) A key decision is:
 - (i) any decision in relation to an executive function which results in the Council incurring expenditure which is, or the making of savings which are, significant, having regard to the Council’s budget for the service or function to which the decision relates or
 - (ii) any decision that is likely to have significant impact on two or more wards within the borough.
- (2) The threshold for “significant” expenditure/savings is £500,000.
- (3) A decision taker may only make a key decision in accordance with the requirements of the Executive Procedure Rules set out in Part 4 of this Constitution.
