Subject: Fw: 498-500 pleck road premises license application

CAUTION: This email originated from outside of the council. Do not click links or open attachments unless you are sure the content is safe.

I refer to the application for a premises licence for the above premises.

Currently there is insufficient information within the application to demonstrate that the public safety objective will be adequately promoted.

I am led to believe that the original building regulations application to convert the flats above the shop did not complete and was not issued with a final certificate.

My concerns are regarding confirmation of the fire separation standards between the chicken shop and the flats above and the standard of the fire alarm system.

I have requested further information from the application but unfortunately I do not have this information at present.

Due to the reasons set out above, The Fire Authority hereby makes representation to the application.

The representation will not be withdrawn until the Fire Authority is satisfied that the Public Safety Objective will be adequately promoted in respect of the application.

Should you require any further information or clarification of my decision, please do not hesitate to contact me.

Regards

Neil Aston-Baugh
