Dear Mr. Rooney,

Further to your communication attached, I would like the following to be on record.

- 1) On the evening of 12th April, the police attended my personal home and spoke to me face-to-face, proving I couldn't be operating the clubhouse of Walsall Wood Community FC and would like this removing from any record.
- 2) The police on this evening also attended the clubhouse before my home at Walsall Wood Community FC and found or saw no evidence of the clubhouse being operated.
- 3) I completely refute the that clubhouse was being operated against any regulations that are enforced and there is no proof to state differently.
- 4) All keys are now with myself and any assistance to either yourselves or the police, I will happily oblige.

Kind regards,

Justin Hodgin
Chairman
Walsall Wood Community FC

Illegal 'lock in' broken up at football club in

Walsall

*** UPDATE | We've issued a further two fines as our investigation into a 'lock-in' at Walsall Wood Football Club last weekend continues.

We've been reviewing the events of Saturday evening, (5 December) and have discovered that a club official was present when we had to force our way in. It's also understood that another was there shortly before we arrived.

Two £1,000 fines were issued over the weekend and our licensing review continues.

Chief Superintendent Andy Parsons, from Walsall police, said: "We've been criticised for our actions last weekend, but Walsall is in tier three restrictions and this was a reckless breach when the virus is still prevalent and harming our communities.

"We believe it was a pre-planned party, which was not only illegal, but increased the risk of the infection being passed on.

"We're fully aware this is a really difficult time for people, but we won't be able to control this disease and return to a sense of normality if we allow such events. We are not trying to spoil people's fun and celebrations. We are doing our bit to help save lives from a virus which has claimed many.

"The vast majority are following the guidelines and having to make personal sacrifices.

"So we must make a stand when we do come across blatant, and unnecessary, breaches such as this. It is unacceptable and we will take action." ***

Our officers broke up an illegal 'lock in' at a football club in Walsall at the weekend.

We've received several reports since April, that Walsall Wood football club on Lichfield Road, Walsall Wood, has been secretly opening and not complying with Covid-19 restrictions.

There have been several unsuccessful attempts to get into the club, and efforts made to speak to the key holders and committee members over the past few months. It's thought that the people inside have watched us arrive on their CCTV and then quickly closed the shutters and turned off the lights and music before we can get in.

Further enquires were carried out regarding the club's CCTV, which we discovered had been deleted.

Local officers thought the club was open at the weekend, so they surrounded the premises just before 7pm on Saturday evening (5 December). They saw the rear shutter coming down and the lights inside being switched off.

We visited the home of the chairman in an attempt to get access into the club. He was unable to provide addresses of key holders and denied having keys which would allow us entry into the club. So we were left with no alternative than to force entry.

While attempting to cut through various padlocks the people inside starting chanting, they switched the lights and music back on and continued to defiantly party.

Officers from our operational support unit were called to assist, they had to cut the shutter doors open with an angle grinder and then force the door open.

We issued 17 £200 fixed penalty notices to the people inside and a £1000 fine to the organiser.

A review of their licence is now underway.

Chief Inspector Rod Rose, from Walsall police said "This was a blatant breach of the current tier 3 restrictions in place in Walsall.

"We believe the club have been flouting the rules throughout the pandemic and have attempted to outsmart us when we've previously attended.

"While they may think it's harmless fun, their actions were reckless and are endangering lives.

“We understand the frustrations of people who are wanting to socialise - especially in the run up to Christmas - but the government restrictions are in place to reduce the spread of the virus and keep people safe.

“We’re committed to doing that in Walsall and I’d urge anyone with any similar concerns to contact us via Live Chat on our website or by call us on 101.”

Walsall Wood FC – Official Statement

Further to the statement made by West Midlands Police regarding the events at our club on Saturday 5th December 2020, we would like to make the following statement:

Walsall Wood FC can confirm that the police did attend our club on Saturday evening to find a number of people inside the club, when they should not have been there.

The club can confirm that no club officials or club staff were on site at the time and therefore we are conducting our own internal investigation, regarding the event and we are awaiting information from the police to conclude these.

In the police statement it states that following a visit to my home, I refused to give the police keys for entry and refused to give details of key holders, which I completely refute. I informed police that I did not hold keys to the club and in fact gave them the names of the people who held keys. I can also confirm that the police did not try and contact these people after the information was given. I have also spoken to our committee members and none of these were contacted either.

Also, in the statement from West Midlands Police, it stated we have been issued a fine and our license is under review, this is the first time we have heard this. We have called the police every day since the event and we have yet to have a response.

We are also in the process of asking the police for information of the other events since April that they have reported to have occurred at the club; apart from one visit where they was no evidence of any wrong doing, we are completely unaware of any other instances and would welcome any information that then have so we can again do our own investigation.

We do take this pandemic seriously and we will take all necessary action as we do not condone what has happened.

We have reviewed our onsite security and taken all necessary action so that this type of occurrence will not happen again.
