(1) That approval be given to the Scrutiny Panel's recommendations, with the exception of spending £0.100m on facility improvements, and that an update report be received after 6 months (as per Scrutiny's recommendation). At this point officers will be able to assess the outcome of the Scrutiny recommendations and hence better understand the future financial risk, and have a clearer view of the Council's own budgetary situation for 2011/12 to provide context. A monitoring report will be presented to Cabinet in June 2010.

(2) That it be noted that any decision made will have an impact on the draft revenue budget for 2010/11 onwards as no increase in resources or savings targets are included in the draft proposals.
