

Walsall Council

Walsall Children's Services

Report to: Schools Forum

Date: 13 March 2012

Subject: Technical updates to the Scheme for Financing Schools and the School Finance Regulations 2012.

Contact: Julie Taylor (julie.taylor@walsallcs.serco.com)

Purpose of the report: To make the Schools Forum aware of the technical changes to the school funding framework in respect of the 2012-13 financial year.

Recommendation: The Schools Forum to note the contents of the report and the updated Scheme for Financing Schools, attached as Appendix 1.

1. Introduction

- 1.1 As you are aware the government is developing a new funding regime for schools and Academies, with a view to the first part of the new system being implemented from 1 April 2013. Therefore, in anticipation of the future changes, only a few minor technical amendments will be introduced to the current school funding arrangements in relation to next year.

2. Directed Revision to the Scheme for Financing Schools

- 2.1 The government requires every Local Authority to make the directed revisions to its Scheme for Financing Schools 2012. As these are directed revisions, there is no formal consultation with schools, or formal Schools Forum approval needed. Section 2.2 details the directed revisions.

2.2 Best Value

- 2.2.1 The government believes that it is important for schools to achieve value for money, but that this can be demonstrated in other ways than a written statement. The Local Authority must remove any requirement in its scheme for schools to submit a statement of Best Value with their budget plan.

2.2.2 Efficiency and value for money (replaces current Best Value section)

The updated scheme must include the following provision, which imposes a requirement on schools to achieve efficiencies and value for money, to optimise their resources and invest in teaching and learning; taking into account purchasing, tendering and contracting requirements. See section 2.10 of the updated scheme which is attached as Appendix 1.

2.3 Financial Management Standard in Schools (FMSiS)/Schools Financial Value Standard (SFVS)

- 2.3.1 The Local Authorities must remove from its scheme the requirements relating to the Financial Management Standard in Schools (FMSiS). A directed revision to schemes requiring schools to meet FMSiS was introduced in 2007. The Government has introduced the Schools Financial Value Standard (SFVS) as a much simpler replacement for all maintained schools. Information on the new SFVS was published in July 2011.

- 2.3.2 The scheme must include a provision, which makes it mandatory for all local authority maintained schools to complete the SFVS assessment form on an annual basis and submit a signed copy to their Authority. SFVS will also apply to all local authority maintained nursery schools and Pupil Referral Units that have a delegated budget. Section 2.23 of Appendix contains the new SFVS requirements for all maintained schools and PRUs with delegated budgets.

2.4 General Teaching Council

- 2.4.1 The Local Authority must remove from the scheme requirements relating to payments of General Teaching Council (GTC) fees. The GTC was abolished by the Education Act 2011 with effect from 1st April 2012.

2.5 Fraud

- 2.5.1 The scheme must include a provision, which requires schools to have a robust system of controls to safeguard themselves against fraudulent or improper use of public money and assets. A new section has been added to the Walsall Scheme at 2.24 containing the prescribed text, see Appendix 1.

3. Amended statutory guidance – community facilities power

- 3.1 For staff employed under the community facilities power, currently the default position is that staff related dismissal or premature retirement costs must be met by the governing body, but not from the delegated budget. However the Government has amended the statutory guidance to allow a governing body to meet premature retirement and dismissal costs from the delegated budget in cases where the governors are satisfied that this will not interfere to a significant extent with the performance of any duties imposed on them by the Education Acts. Annex 7 of the Walsall Scheme for Financing Schools has been amended to reflect these changes.

The regulations now state:

(7) Where a local education authority incur costs—

(a) in respect of any premature retirement of any member of the staff of a maintained school who is employed for community purposes, or

(b) in respect of the dismissal, or for the purpose of securing the resignation, of any member of the staff of a maintained school who is employed for those purposes,

they shall recover those costs from the governing body except in so far as the authority agree with the governing body in writing (whether before or after the retirement, dismissal or resignation occurs) that they shall not be so recoverable.

(7A) Any amount payable by virtue of subsection (7) by the governing body of a maintained school in England to the local authority may be met by the governing body out of the school's budget share for any funding period if and to the extent that the condition in subsection (7B) is met.

(7B) The condition is that the governing body are satisfied that meeting the amount out of the school's budget share will not to a significant extent interfere with the performance of any duty imposed on them by section 21(2) or by any other provision of the Education Acts.

(9) Where a person is employed partly for community purposes and partly for other purposes, any payment or costs in respect of that person is to be apportioned between the two purposes; and the preceding provisions of this section shall apply separately to each part of the payment or costs.

4. The School Finance (England) Regulations 2012

- 4.1 The Schools Finance Regulations define the non-schools education budget, the schools budget, the central expenditure and the individual schools budget and require local authorities to determine budget shares for schools maintained by them using the appropriate formula.
- 4.2 There are three significant changes from the schools funding framework under the 2012 regulations.

1. Where a pupil who is eligible for the Pupil Premium is permanently excluded from one school and admitted to another, provision is made for the budget shares of both schools to be adjusted by an amount which equates to the appropriate portion of that premium.

Adjustments will be made for the number of complete weeks remaining in the funding period from the relevant date of the exclusion, which is the sixth day following the date of the actual exclusion.

Funding adjustments will also be made for the Pupil Premium when an eligible pupil leaves a school for reasons other than permanent exclusion and is receiving education funded by a local authority other than at a school which is maintained by that authority.

2. The regulations now allow the remission of boarding fees for pupils registered at Academies to be charged to the schools budget.
3. The changes to the Minimum Funding Guarantee in respect of the powers of the Schools Forum and the Secretary of State were detailed in a previous report to the Forum on 31 January 2012, Education Funding Announcement 2012.

5. Summary and Recommendations

- 5.1 This report summarises the main technical changes to School Funding framework for 2012-13. A briefing note has been placed on TheWELL to make Walsall schools and Academies aware of these changes.
- 5.2 The Schools Forum is asked to note the content of the report and the attached updated Scheme for Financing Schools to come into effect 1 April 2012. The 2012 Scheme for Financing Schools will also be published on TheWELL.

Walsall Children's Services Scheme for Financing Schools 2012

"My Walsall, my future"

- 1. Introduction**
 - 1.1 The funding framework; main features
 - 1.2 The role of the scheme
 - 1.2.1 Application of the scheme to the Authority and maintained schools
 - 1.3 Publication of the scheme
 - 1.4 Revision of the scheme
 - 1.5 Delegation of financial powers to the head teacher
 - 1.6 Maintenance of schools (school maintained by the local authority)

- 2. Financial Controls**
 - 2.1 Application of financial controls to schools
 - 2.2 Provision of financial information and reports
 - 2.3 Payment of salaries; payment of bills
 - 2.4 Control of assets
 - 2.5 Accounting policies (including year-end procedures)
 - 2.6 Writing off debts
 - 2.7 Basis of accounting
 - 2.8 Submission of budget plans
 - 2.9 Submission of Financial Forecasts
 - 2.10 Efficiency and value for money
 - 2.11 Virement
 - 2.12 Audit: General
 - 2.13 Separate external audits
 - 2.14 Audit of voluntary and private funds
 - 2.15 Register of business interests
 - 2.16 Purchasing, tendering and contracting requirements
 - 2.17 Application of contracts to schools
 - 2.18 Central funds and earmarking
 - 2.19 Spending for the purposes of the school
 - 2.20 Capital spending from budget shares
 - 2.21 Leasing of Equipment
 - 2.22 Notice of Concern
 - 2.23 Schools Financial Value Standard (SFVS)
 - 2.24 Fraud

- 3. Instalments of Budget Share; Banking Arrangements**
 - 3.1 Frequency of instalments
 - 3.2 Proportion of budget share payable at each instalment
 - 3.3 Interest clawback
 - 3.3.1 Interest on late budget share payments
 - 3.4 Budget shares for closing schools
 - 3.5 Bank and building society accounts
 - 3.5.1 Restrictions on accounts
 - 3.6 Borrowing by schools

4. The Treatment of Surplus and Deficit Balances Arising in Relation to Budget Shares

- 4.1 The right to carry forward surplus balances
- 4.2 Controls on surplus balances
- 4.3 Bond scheme
- 4.4 Obligations to carry forward deficit balances
- 4.5 Planning for deficit balances
- 4.6 Interest on balances
- 4.7 Writing off deficit balances
- 4.8 Balances of closing and replacement schools
- 4.9 Licensed Deficits

5. Income

- 5.1 Income from lettings
- 5.2 Income from fees and charges
- 5.3 Income from fund-raising activities
- 5.4 Income from the sale of assets
- 5.5 Administrative procedures for the collection of income
- 5.6 Purposes for which income may be used

6. The Charging of School Budget Shares

- 6.1 General provision
- 6.1.2 Charging of salaries at actual cost
- 6.1.3 Circumstances in which charges may be made by the LA without consent of the Governing Bodies
- 6.2 General Teaching Council

7. Taxation

- 7.1 Value Added Tax
- 7.2 CIS (Construction Industry Taxation Scheme)

8. The Provision of Shares and Facilities by the Authority

- 8.1 Provision of services from centrally retained budgets
- 8.2 Time-scales for the provision of services bought back from the LA using delegated budgets
- 8.2.1 Packaging
- 8.3 Service level agreements
- 8.4 Teachers' Pension

9. PFI/PPP (Private Initiative/Private Public Partnerships) Clauses

- 10. Insurance**
- 10.1 Insurance cover
- 11. Miscellaneous**
- 11.1 Right of access to information
- 11.2 Liability of governors
- 11.3 Governors' expenses
- 11.4 Responsibility for legal costs
- 11.5 Health & Safety
- 11.6 Right of attendance for head of finance
- 11.7 Delegation to new schools
- 11.8 Optional delegation
- 11.9 Monitoring of Special Educational Needs
- 11.10 Whistleblowing
- 11.11 Child Protection
- 11.12 Interest on Late Payments
- 12. Responsibility for Repairs and Maintenance**
- 13. Extended Schools**
- 13.1 - 2 Introduction
- 13.3 - 5 Consultation with the LA – financial aspects
- 13.6 - 8 Funding agreements
- 13.7 - 10 Supply of financial information
- 13.11 - 12 Audit
- 13.13 - 16 Treatment of income and surpluses
- 13.17 - 18 Health and safety matters
- 13.19 - 21 Insurance
- 13.22 - 24 Taxation
- 13.25 - 27 Banking

List of Annexes

- Annex 1** List of Schools
- Annex 2** List of Approved Banks and Building Societies
- Annex 3** Responsibility for Repairs and Maintenance
- Annex 4** Whistleblowing Policy
- Annex 5** Teachers pension scheme
- Annex 6** Notice of Concern – Example Areas of Concern
- Annex 7** Redundancy and premature retirement
- Annex 8** Time table of Key Documents

THE OUTLINE SCHEME

References to ‘the Act’ are to the School Standards & Framework Act 1998

1 INTRODUCTION

1.1 The Funding Framework: Main Features

The Local Schools Budget and Individual Schools Budget

The funding framework which replaces Local Management of Schools is based on the legislative provisions in sections 45-53 of The School Standards and Framework Act 1998.

Under this legislation, local authorities determine for themselves the size of their Schools Budget and *their non-education budget* – although at a minimum a local authority must appropriate its entire Dedicated Schools Grant to their Schools Budget. The categories of expenditure which fall within the two budgets are prescribed under regulations made by the Secretary of State, but included within the two, taken together, is all expenditure, direct and indirect, on an authority’s maintained schools except for capital and certain miscellaneous items. Local authorities may centrally retain funding in the Schools Budget for purposes defined in regulations made by the Secretary of State under s.45A of the Act. The amounts to be retained centrally are decided by the authority concerned, subject to any limits or conditions (including gaining the approval of their School Forum or the Secretary of State in certain instances) as prescribed by the Secretary of State. The balance of the Schools Budget left after deduction of centrally retained funds is termed the Individual Schools Budget (ISB). Expenditure items in the *non-schools education budget* must be retained centrally (although earmarked allocations may be made to schools).

The Formula

Local authorities must distribute the ISB amongst their maintained schools using a formula which accords with regulations made by the Secretary of State, and enables the calculation of a budget share for each maintained school. This budget share is then delegated to the governing body or the school concerned, unless the school is a new school which has not yet received a delegated budget, or the right to a delegated budget has been suspended in accordance with section 51 of The School Standards and Framework Act 1998. The financial controls within which delegation works are set out in the scheme in accordance with section 48 of the Act and regulations made under that section. All proposals to revise the scheme must be approved by the schools forum, though the authority may apply to the Secretary of State for approval in the event of the forum rejecting a proposal or approving it subject to modifications that are not acceptable to the authority.

Financial Procedures

Subject to provisions of the scheme, governing bodies of schools may spend budget shares for the purposes of their school and any additional purposes prescribed by the Secretary of State in regulation made under s.50 of the Act.

("Section 50 has been amended to provide that amounts spent by a governing body on providing community facilities or services under section 27 of the Education Act 2002 are treated as if they were amounts spent for the purpose of the school (s50(3A) of the Act).

Detailed procedures for schools are set out in the authority's Finance Resource Advisory Service Guidelines (FRAS Guidelines)..

Suspension of Delegation

The authority may suspend a school's right to a delegated budget if the provisions of the Scheme for Financing Schools (or rules applied by the scheme) have been substantially or persistently breached, or if the budget share has not been managed satisfactorily. A school's right to a delegated budget share may also be suspended for other reasons (section 17 of the Act).

Publishing of Budget Statements

The authority is obliged to publish each year a statement setting out details of its planned Schools Budget *and other expenditure on children's services*, showing the amounts to be centrally retained, the budget share for each school, the formula used to calculate those budget shares, and the detailed calculation for each school. After each financial year the authority must publish a statement showing out-turn expenditure at both central level and for each school, and the balances held in respect of each school.

The detailed publication requirements for financial statements and for schemes are set out in regulations, but each school will receive a copy of the scheme and any amendment, and each year's budget and outturn statements so far as they relate to that school or central expenditure.

Regulations also require a local authority to publish their scheme and any revisions to it on a website accessible to the general public, by the date that any revisions come into force, together with a statement that the revised scheme comes into force on that date.

1.2 The role of the scheme

The Walsall Scheme for Financing Schools sets out the financial relationship between the authority and its maintained schools. The scheme contains requirements relating to financial management and associated issues, binding on both the authority and schools.

Governing Bodies of all schools maintained by the LA must operate within this framework. The scheme contains guidance and directions to enable schools to execute their delegated financial powers appropriately.

1.2.1 Application of the Scheme to the LA and maintained schools

The scheme applies to all community, nursery, special, voluntary, foundation (including trust) and foundation special schools maintained by the authority, whether they are situated in the area of the authority or situated elsewhere. It does

not apply to schools situated in the authority's area which are maintained by another authority. The scheme does not apply to Academies. Because PRUs are not maintained schools within the meaning of s.20(7) of the Act, the scheme does not apply to PRUs..

1.3 Publication of the scheme

As a minimum, the scheme will be published on a website which is accessible to the general public and revised versions of the scheme will be published by the date that the revisions come into force, together with a statement that the revised scheme comes into force on that date.

1.4 Revision of the scheme

Any proposed revisions to the scheme will be the subject of consultation with all maintained schools before they are submitted to the Schools Forum for their approval.

1.5 Delegation of financial powers to the head teacher

A Governing Body should consider the extent to which it wishes to delegate its financial powers to the head teacher, and to record its decision (and any revisions) in the minutes of the Governing Body.

However, it is for each school's Governing Body to determine the levels of financial delegation to the head teacher. The suggestions above might be considered too low for larger schools, and therefore increased.

The first and any subsequent formal budget plans for a particular financial year must be approved by the governing body or by a committee of the Governing Body.

Detailed guidance setting out the terms of reference for schools is contained in the Finance Resource Advisory Service Guidelines (FRAS Guidelines) to a more appropriate level.

1.6 Maintenance of schools (School Maintained by LA)

The LA is responsible for maintaining the schools covered by the scheme, and this includes the duty of defraying all the expenses of maintaining them (except in the case of a voluntary school where some of the expenses are, by statute, payable by the Governing Body). Part of the way an authority maintains schools is through the funding system put in place under sections 45 to 53 of The School Standards and Framework Act 1998.

2 FINANCIAL REQUIREMENTS; AUDIT

2.1 Application of financial controls to schools

In the management of their delegated budgets all schools must abide by the Council's requirements on financial controls and monitoring. The detailed requirements and procedures can be found within FRAS Guidelines, which include the Council's regulations and standing orders

2.2 Provision of financial information and reports

Unless the LA has notified a school that in its view the school's financial position requires more frequent submission, see 2.16 Notice of Concern, or the school is in its first year of operation, the school must provide, in addition to the governors Formal Budget Plan, two further returns to the authority which must detail anticipated and actual expenditure and income as at the end of August and December. A proforma to be used for the submission of the information will be made available to schools. The requirement to provide additional information does not apply to schools which are part of an on-line financial accounting system operated by the LA.

Schools operating their own bank account must comply with the financial procedures set out in Section 3 of the scheme.

2.3 Payment of salaries; payment of bills

The LA offers a payroll service to schools on a buy-back basis. Details can be found within the Traded Services Portfolio published annually by the LA. Schools buying into the LA payroll service receive a comprehensive service including all tax and statutory returns and pension administration. Schools administering their own payroll or buying in from an external provider must satisfy themselves that all statutory requirements are being met.

The LA also offers a transaction service to schools to enter payments onto the LA financial system, or schools may enter their own invoice payments directly into the LA system. Alternatively schools may apply for an external bank account to process payments through an external financial management information system. In such circumstances the school must comply with the LA's VAT guidance and make separate claims to the LA for reimbursement of VAT.

2.4 Control of assets

Each school is required to maintain an inventory of its moveable non-capital assets, in a form determined by the Authority, and setting out the basic authorisation procedures for disposal of assets. However, schools are free to determine their own arrangements for keeping a register of assets worth less than £50. They must keep a register in some form. Details setting out the basic procedures for the disposal of assets can be found within the FRAS Guidelines.

2.5 Accounting Policies (including year-end procedures)

All schools are required to abide by procedures issued by the LA; these will vary according to the systems operated by schools, which are reflected in the FRAS Guidelines.

2.6 Writing off debts

The scheme allows for Governing Bodies to recommend the write off of debts up to a maximum limit of £2,500. In these cases, details must be forwarded in the first instance to Chief Finance Officer.

The list will subsequently be forwarded to the Head of Finance of the LA who is the Council's delegated officer for writing off such debts. A formal list for write off will then be prepared and actioned.

Debts of over a £1000 proposed for write off will be the subject of a report to Head of Finance of the LA. Therefore Governing Bodies will be required to write to the Chief Finance Officer detailing the debt and requesting that a report can be prepared.

2.7 Basis of accounting

Schools are free to use their own financial software to administer their accounts, however schools must be able to furnish the LA with reports on the basis required and schools are required to meet the costs of modifications needed in the provision of the information to the LA.

In accordance with the authority's corporate financial standards all goods and services received in a financial year must be accounted for within that financial year. All outstanding invoices as at close down must be accounted for via the accruals process. To satisfy external audit requirements documented evidence is required to support all such transactions.

2.8 Submission of budget plans

Schools are required to submit a formal budget plan, approved by the governing body or by a committee of the governing body no later than 1st June. This must include a detailed breakdown of planned income and expenditure for the year and the assumptions underpinning the budget plan (see next paragraph). The format of the plan is specified by the LA in the FRAS Guidelines and takes account of the requirements of the Consistent Financial Reporting (CFR) framework, as prescribed by government regulations. The LA will continue to offer guidance to schools on assumptions likely to be the same for all schools, e.g. on inflation.

In addition, schools can take into account estimated surplus/deficits as at the previous 31st March in their budget plan.

For schools who purchase financial services from an external agency or have in-house finance officers, supporting budget documentation will be required by the LA, e.g. detailed staffing budgets, inflation factors, etc.

The LA, where appropriate, will ensure that the formal budget plan of each school is entered onto the council's financial systems within 30 days of receipt.

To assist in efficient planning, the LA will supply those schools not operating via the councils financial systems with a copy of the income and expenditure data which it holds. This information will be provided on a termly basis.

To reflect changes in financial circumstances, schools are free to submit a revised budget plan to the LA at 31st October in each financial year.

2.9 Submission of Financial Forecasts

The authority requires schools to submit a financial forecast covering each year of a multi-year period for which schools have been notified of budget shares beyond the current year. In requiring this information the authority will be in a position to ensure schools are undertaking appropriate financial planning.

In addition such forecasts will provide:

- Evidence that schools are taking timely action to manage falling rolls and a reducing budget;
- Support for the Authority's Balance Control Mechanism; (see 4.2) and
- Evidence in support of a school's deficit recovery plan where required. (see 4.10)

2.10 Efficiency and value for money

Schools must seek to achieve efficiencies and value for money, to optimise the use of their resources and to invest in teaching and learning, taking into account the Authority's purchasing, tendering and contracting requirements outlined in section 2.16.

It is for heads and governors to determine at school level how to secure better value for money.

2.11 Virement

A virement is the transfer of funding between one budget head and another after the budget has been approved, in order to meet emerging budget pressures..

Governing bodies are free to vire budgets at any time, but must ensure that there is sufficient resource in the original budget head to meet known commitments or statutory provision.

In order to ensure the efficient running of the school, governing bodies are encouraged to delegate some of this responsibility to the Head teacher and/or

others, so that virement up to a predetermined amount may take place without further consultation with the governing body (see paragraph 1.5).

2.12 Audit: General

The accounts of a school, being part of the overall accounts of the Council, will be subject to internal and external audit.

Under section 151 of the Local Government Act 1972 and the Accounts and Audit Regulations, the Corporate Board Director (Resources) shall maintain an effective internal audit of the accounts of the Council. In so doing, the Chief Internal Auditor shall review, appraise and report on:

- the economy, efficiency and effectiveness of financial and other management controls;
- the extent of compliance with, relevance and financial effect of, established policies, plans and procedures;
- the extent to which an organisation's assets are accounted for and safeguarded from losses of all kinds arising from:
 - fraud and other offences;
 - waste, extravagance, inefficient administration, poor value for money or any other cause; and
 - the suitability and reliability of financial and other data produced within the organisation.

All schools under the scheme are required to co-operate with the Council's internal audit regime.

2.13 Separate external audits

Walsall MBC's external auditors shall undertake such reviews of financial and other operations in schools as they deem necessary, for the discharge of their statutory functions. All schools under this scheme are required to co-operate with the external audit regime.

A Governing Body may spend funds from its budget share to obtain external audit certification of its accounts, separate from any LA internal or external audit process. There is no expectation by the Secretary of State that routine annual external audit at school level of budget share expenditure should be a usual feature of the funding system, however schools are not prevented from seeking an additional source of assurance at their own expense.

2.14 Audit of voluntary and private funds

Schools must provide the Council with audit certificates in respect of voluntary and private funds held by schools, and of the accounts of any trading organisations controlled by the school. A school refusing to provide audit certificates to the LA as required will be in breach of the scheme and the LA will take action on this basis. Further details of procedures relating to non-Authority funds can be found in the FRAS Guidelines.

The purpose of such a provision is to allow the LA to satisfy itself that public funds are not being misused. The LA may not seek to impose through the scheme a right to audit such funds themselves or otherwise access the accounts of private funds. Access to the accounts of such funds by other agencies is a matter for them. Any other requirement as to audit of such funds is a matter for those making the funds available, and any Charity Commission requirements.

The Consistent Financial Reporting framework requires that private funds under the control of the governing body be included.

2.15 Register of business interests

The Governing Body of each school must have a register which lists for each member of the Governing Body, and the head teacher of the school, any business interests they or any member of their immediate family have. Each governing body is required to keep the register up to date with notification of changes through annual review of entries, and to make the register available for inspection by officers of the LA, governors, staff and parents.

Any governor or member of staff should not be involved in any discussion or voting on a decision in which they have an interest. Detailed information outlining the suggested format of such a register can be found within the FRAS Guidelines.

2.16 Purchasing, tendering and contracting requirements

Schools must abide by the Council's financial regulations and standing orders in purchasing, tendering and contracting matters. This includes a requirement to assess in advance, where relevant, the health and safety competence of contractors, taking into account of the Council's policies and procedures. However, schools may disregard any provision of these regulations, which would otherwise require them:

- to do anything incompatible with any of the provisions of the scheme, or any statutory provision, or any EU Procurement Directive;
- to seek LA officer countersignature for any contracts for goods or services for a value below **£60,000** in any one year;
- to select supplies only from an approved list;

or would permit schools to seek fewer than three tenders or quotations in respect of any contract with a value exceeding **£10,000** in any one year, subject to specified listed exceptions.

Schools may nominate suppliers for inclusion on lists of approved suppliers.

A countersignature requirement relates to the total value of an order. Schools and the LA should not attempt to artificially aggregate or disaggregate orders to avoid or impose the requirement.

2.17 Application of contracts to schools

It is the right of schools to opt out of a Council arranged contract except where:

Although governing bodies are empowered under paragraph 3 of schedule 10 to the School Standards and Framework Act 1998 to enter into contracts, in most cases they do so on behalf of the LA as maintainer of the school and the owner of the funds in the budget share. (This is the main reason for allowing LAs to require LA countersignature of contracts exceeding a certain value). Other contracts may be made solely on behalf of the governing body, when the governing body has clear statutory obligations – for example contracts made by aided or foundation schools for the employment of staff.

2.18 Central funds and earmarking

The LA may make sums available to schools from central funds, in the form of allocations which are additional to, and separate from, the schools' budget share. Such allocations will be subject to conditions setting out the purpose or purposes for which the funds may be used and may for example be sums for SEN or other initiatives from the central expenditure of the Schools Budget or other authority budget.

Separate accounting mechanisms may be required to establish that the schools' spending is consistent with the purpose for which it was given. The LA will require any unspent monies to be returned at the financial year-end, or within the period over which schools are allowed to use the funding if different.

The LA is barred from making any deduction, in respect of interest costs to the LA, from payments to schools of devolved specific or special grant.

2.19 Spending for the purposes of the school

Although s.50(3) allows governing bodies to spend budget shares for the purpose of the school, this is subject to regulations made by the Secretary of State and any provisions of the scheme. As well as the various standard provisions the LA can propose its own restrictions on this freedom, arising from local circumstances as required. By virtue of s.50 (3A) (which came into force 1 April 2011) amounts spent by governing bodies on community facilities or services under section 27 of the Education Act 2002 will be treated as if spent for any purposes of the school.

Under s.50(3)(b) the Secretary of State may prescribe additional purposes for which expenditure of the budget share may occur. He has done so in the School Budget Shares (Prescribed Purposes) (England) Regulations 2002 (SI 2002/378), which have been amended by the School Budget Shares (Prescribed Purposes) (England) (Amendment) Regulations 2004 (SI 2004/444). These allow schools to spend their budgets on pupils who are on the roll of other maintained schools.

2.20 Capital spending from budget shares

The scheme allows Governing Bodies to use budget shares to meet the cost of capital expenditure on the school premises. This includes expenditure by the

Governing Body of a voluntary aided school on work which is their responsibility under paragraph 3 of Schedule 3 of the Act. However, if there is expected capital expenditure from the budget share the governing body must notify the LA; and it must take into account any advice from the Director of Children's Services as to the merits of the proposed expenditure if it exceeds the figure of £15,000 (or some higher sum). Where the premises are owned by the LA, or the school has voluntary controlled status, then the governing body should seek the consent of the LA to the proposed works, but such consent can be withheld only on health and safety grounds.

The reason for these requirements is to help ensure compliance with the current School Premises Regulations, DfE Construction Standards, and health and safety legislation.

These requirements would not affect expenditure from any capital allocation made available by the LA outside the delegated budget share.

2.21 Leasing of Equipment

2.21.1 Operating Lease

Under an operating lease the Lessor will retain a significant interest in the residual value of the asset. The Lessor will not recover the whole of his capital investment from the rentals. A profit will only be achieved if the asset is sold or re-leased.

Criteria for an operating Lease is as follows;

- The term of the agreement must be short enough for the estimated value of the equipment at the end of the agreement period to be at least 10% of its original cost, and this should be specified in the agreement. As an example, an agreement for a large, heavily used photocopier should probably not exceeded three years
- The agreement must NOT give an automatic right to continue with the lease at the end of the agreement period, although this could subsequently be arranged at an open market rental.

Leasing, rental or other deferred payment arrangements for equipment such as photocopiers and telephone systems must not conflict with the Council's Standing Orders regarding financial and operational leases.

In addition, schools should give careful consideration before committing future years' budget provision.

2.21.2 Finance Lease

In many ways a finance lease is similar to hire purchase except that the Lessee never acquires title to the equipment. A finance lease effectively transfers to the Lessee most of the risks and rewards of ownership but without making him the legal owner. The Lessor will expect to recover during the lease period the capital cost of the asset plus interest plus a profit margin.

- Finance leases are in substance borrowing and therefore schools are not empowered to enter into such leases without specific approval from Financial Services, Accountant responsible for leasing on the Financial Reporting Team (Telephone 01922 652960).

In essence schools are strongly advised to always seek an operating lease rather than a finance lease, and before entering into any leasing or rental agreement seek advice from the Capital Programming & Consolidation Team. They will be able to advise on the most appropriate agreement for your needs, particularly in terms of cost.

2.22 Notice of Concern

The authority may issue a notice of concern to the governing body of any school it maintains where, in the opinion of the Chief Finance Officer and the Director of Children's Services, the school has failed to comply with any provisions of the scheme, or where actions need to be taken to safeguard the financial position of the local authority or the school.

The notice will set out the reasons and evidence for it being made and will place on the governing body restrictions, limitations or prohibitions in relation to the management of funds delegated to it. Annex 7 – Areas of Concern.

Dependant on the level of financial concern, some or all of the following restrictions will be applied to the governing body and school:

- insisting that relevant staff undertake appropriate training to address any identified weaknesses in the financial management of the school;
- insisting that an appropriately trained/qualified person chairs the finance committee of the governing body;
- placing more stringent restrictions or conditions on the day to day financial management of a school than the scheme requires for all schools – such as the provision of monthly accounts to the local authority;
- insisting on regular financial monitoring meetings at the school attended by local authority officers, which may include attendance at governors meetings;
- requiring a governing body to buy into a local authority's financial management systems; and
- imposing restrictions or limitations on the manner in which a school manages extended school activity funded from within its delegated budget share – for example by requiring a school to submit income projections and/or financial monitoring reports on such activities.

The notice of concern will clearly state what the requirements are and the way in which and the time by which such requirements must be complied with in order for the notice to be withdrawn. It will also state the actions that the authority may take where the governing body does not comply with the notice.

A notice of concern will not be used in place of withdrawal of financial delegation where that is the appropriate action to take, however it will provide a way of making a governing body aware of LA concerns short of withdrawing delegation and the actions a governing body must take to avoid withdrawal.

Where a dispute arises between the LA and a school to whom a notice has been issued, the matter will be referred to the Schools Forum to aid resolution.

2.23 Schools Financial Value Standard (SFVS)

All local authority maintained schools (including nursery schools and Pupil Referral Units (PRUs) that have a delegated budget) must demonstrate compliance with the Schools Financial Value Standard (SFVS) and complete the assessment form on an annual basis. It is for the school to determine at what time in the year they wish to complete the form.

Governors must demonstrate compliance through the submission of the SFVS assessment form signed by the Chair of Governors. The form must include a summary of remedial actions with a clear timetable, ensuring that each action has a specified deadline and an agreed owner.

Maintained schools that did not achieve the Financial Management Standard in Schools (FMSiS) must submit the form to the local authority before 31 March 2012, and annually thereafter.

All other maintained schools with a delegated budget must submit the form to the local authority before 31 March 2013 and annually thereafter.

2.24 Fraud

All schools must have a robust system of controls to safeguard themselves against fraudulent or improper use of public money and assets.

The governing body and head teacher must inform all staff of school policies and procedures related to fraud and theft, the controls in place to prevent them; and the consequences of breaching these controls. This information must also be included in induction for new school staff and governors.

3 INSTALMENTS OF THE BUDGET SHARE; BANKING ARRANGEMENTS

3.1 Frequency of instalments

It is the Council's intention to make available budget share instalments on a monthly basis to schools operating either local or external bank accounts. However, a small weighting will be applied to the first and last instalment of externally held accounts, see 3.2.

3.2 Proportion of budget share payable at each instalment

Where schools opt for an external bank account the governing body must indicate to the LA whether its wishes to include resources to meet employee costs or not. The proportion of the budget share will be made available to governing bodies under the principles listed below:

- **External Bank Account including employee costs** – The sum of CFR income codes I01, I02 and I03, i.e. the budget share determined via the funding formula, will be paid into a governing body's specified bank account in payments equal to 1/12th, except for April where the instalment will be enhanced by 1/36th and the following March where the instalment will likewise be reduced by 1/36th.
- **External Bank Account excluding employee costs** – The sum of CFR income codes I01, I02 and I03, i.e. the budget share determined by the funding formula, will be calculated and have deducted from it the school's estimate of salary costs. The amount net of these costs will be paid into a specified bank account in payments equal to 1/12th. Should LA monitoring of a school's spending on salaries reflect an increase over the school's initial estimates, the payment into the bank account will be amended accordingly.

Schools operating this type of external bank account must provide to the LA, by the end of February preceding the beginning of the financial year, their estimated salary costs for the next financial year.

For schools wishing to operate under local banking facilities the following in-house options are offered:

- **Non-Bank Account – use of the Oracle Finance System** – the governing body will have paid into their schools 'in-house' council bank account 1/12th of their budget share as determined by the funding formula.

3.3 Interest claw-back

The LA will not currently be operating interest claw-back.

3.3.1 Interest on late budget share payments

Any interest paid to a school because of a late budget share payment must at least be at the current Bank of England rate.

3.4 Budget shares for closing schools

The budget shares for closing schools will be made available in instalments on a monthly basis net of estimated pay costs, even where other arrangements were previously used, until closure.

In order to reduce the possible risk of excessive spending by governing bodies of schools which are closing, the Authority will:

- require the submission of a formal budget plan by 1st May (regardless of the date given to other schools);
- require the submission of monthly budget monitoring reports if the financial risk of a deficit budget, at the point of closure, rests with the local authority;
- ensure that an officer from the LA will attend all relevant meetings of the Governing Body in the year of closure; and
- require all orders for items of expenditure in excess of £500 to be countersigned by the school's Finance Resource Advisory Consultant.

3.5 Bank and building society accounts

The Council intends to maintain a range of financial facilities and support to enable all schools to manage their delegated budgets effectively. It is the Authority's intention to continue to operate local banking facilities, these include Oracle Finance System and the Extended Imprest facility.

All maintained schools, however, are free to opt for their own external bank account, into which their budget share instalments are paid (paragraph 3.2).

Whilst detailed guidance relating to schools responsibilities in respect of all aspects of bank account arrangements can be found in the FRAS Guidelines, schools should make a note of the points listed below:

External Banking Arrangements

A new bank arrangement may only be effective from the beginning of each financial year after giving 4 months notice.

Schools without bank accounts cannot have one until any deficit balance is cleared.

Where schools have such accounts they shall be retain all interest earned on the account.

Bank charges generated will be debited to the account. The opening and operation of bank accounts will be subject to the conditions laid out in the Authority's Financial Regulations.

If a school opens an external bank account the LA will, if the school desires, transfer immediately to the account an amount agreed by both school and LA as the estimated surplus balance held by the LA in respect of the school's budget share, on the basis that there is then a subsequent correction when accounts for the relevant year are closed.

Local Banking Arrangements

Schools wishing to take up the in-house option - Extended Imprest - may do so, with notice of two months prior to the beginning of the financial year, however any deficit balance must be cleared by the close of the preceding *financial year*.

3.5.1 Restriction on accounts

Schools wishing to operate external banking facilities can use any bank or building society approved by the Council's Treasury Management policy. An up to date list of such institutions can be obtained by reference to the Head of Financial Services.

Any school closing an account and opening another must select the new bank or building society from the approved list.

The scheme allows schools to have accounts for budget share purposes which are in the name of the school rather than the Council. However, if a school has such an account, the account mandate should provide that the LA is the owner of the funds in the account; that it is entitled to receive statements; and that it can take control of the account if the school's right to a delegated budget is suspended by the LA.

The LA can continue to have arrangements negotiated with certain banks whereby the accounts are in the name of the LA but specific to each school, and offer such arrangements to schools.

Budget share funds paid by the LA and held in school accounts remains LA property until spent (s.49(5) of the Act).

LA employees and school employees are authorised signatories for school bank accounts. Governors who are not members of staff are barred from being signatories.

3.6 Borrowing by schools

Governing bodies may only borrow money with the written permission of the Secretary of State.

Schools are barred from using credit cards, which are regarded as borrowing. However the LA encourages schools to use *debit cards or purchase cards*, which can be a useful means of facilitating electronic purchase.

Further details can be found in the Finance Resource Advisory Service Guidelines.

4 THE TREATMENT OF SURPLUS AND DEFICIT BALANCES ARISING IN RELATION TO BUDGET SHARES

4.1 The right to carry forward surplus balances

Schools are allowed to carry forward from one financial year to the next any shortfall in expenditure relative to the school's budget share for the year plus/minus any balance brought forward from the previous year. In addition, a school's surplus balance as at 1st April (i.e. the first day of a new financial year) is equal to that at 31st March i.e. of the last day of the previous financial year.

The amount of a surplus balance would be shown in the relevant outturn statement published in accordance with directions given by the Secretary of State under s.251

of Apprenticeships, Skills and Learners (ASCL) Act 2009 (although there may be commitments against any figures shown in such a statement).

4.2 Reporting on and control on the use of surplus balances

Balance Control Mechanism - Surplus balances held by schools, as permitted under this scheme, are subject to the restrictions listed below with effect from 1 April 2010.

- a. the authority shall calculate by 31 May each year the surplus balance, if any, held by each school as at the preceding 31 March. For this purpose the balance will be the recurrent balance as defined in the Consistent Financial Reporting Framework;
- b. the authority shall deduct from the calculated balance any amounts for which the school has a prior year commitment to pay from the surplus balance;
- c. the authority shall then deduct from the resulting sum any amounts which the governing body of the school has declared to be assigned for specific purposes permitted by the authority, and which the authority is satisfied are properly assigned. To count as properly assigned, amounts must not be retained beyond the period stipulated for the purpose in question, without the consent of the Authority. In considering whether any sums are properly assigned the Authority may also take into account any previously declared assignment of such sums but may not take any change in planned assignments to be the sole reason for considering that a sum is not properly assigned.
- d. if the result of steps a-c is a sum greater than the prescribed sector percentage (see below) of the budget share for the financial year just ended, or £10,000 (where that is greater than any percentage threshold), then the authority shall deduct from the following years budget share an amount equal to the excess.

Sector thresholds to be applied are for:

Secondary - 5%

Primary & Special with resources less than 1.399 million - 8%

Primary & Special with resources between 1.4 million & 2 million - 7%

Primary & Special with resources over 2 million - 6%

Funds held in relation to a school's exercise of powers under section 27 of the Education Act 2002 (community facilities) will not be taken into account unless added to the budget share surplus by the school as permitted by the authority, see para. 14.15.

The total of any amounts deducted from schools' budget shares by the authority under this provision are to be applied to the Schools Budget of the authority.

4.3 Bond Scheme

Schools have the opportunity to voluntarily loan to the LA, for an agreed period, a proportion of their year end balances. Participating schools are paid an appropriate rate of interest on the value of the sum loaned to the LA.

The loans will be used by the LA to finance capital schemes and projects, including repairs, maintenance or improvements to school premises identified in consultation with schools during the annual review of outstanding repair and improvement works, from which schools will benefit.

There are no circumstances in which schools will be denied access to their balances.

Full details regarding the Bond Scheme are included in the FRAS Guidelines.

4.4 Obligations to carry forward deficit balances

Unplanned deficits will be carried forward and become a 'first call' on the following year's budget of the school, except where discussions between the school and the LA conclude that it would be unreasonable for the school to be required to recover the whole of that deficit from one financial year. Any agreement reached between the school and the LA on this type of issue must include a plan, stating how the governors intend to bring their school back to a balanced financial position over more than one financial year.

The deficit balance will be shown on the outturn statement published under section 251 of the ASCL Act 2009, (although this will be shown gross of committed expenditure and therefore appear lower than would otherwise be the case).

4.5 Planning for deficit budgets

Schools covered by the scheme are not permitted to deliberately plan for a deficit and are required to keep spending within the resources available to them year on year.

Where a governing body is unable to set a balanced budget they are required to apply for a licensed deficit in accordance with the conditions as set out in Section 4.10.

4.6 Interest on balances

4.6.1 Payment of Interest on Surplus Balances

Where a school 'bank' with the LA, interest will be paid on surplus balances at the prevailing Bank Base Rate minus 1%.

Interest is calculated and credited on a monthly basis.

4.6.2 Charging of Interest on Deficit Balances

- Schools will not be charged interest on year-end deficit balances, providing they have agreed a financial recovery plan with the LA.
- Where a financial recovery plan has not been agreed, or where the period of recovery as laid down in 10 above has been exceeded, then the LA may charge interest as the prevailing base rate on deficit balances.

4.7 Writing off deficits

The Authority cannot write off any deficit balance of any school.

4.8 Balances of closing and replacement schools

When a school closes, any balance (whether surplus or deficit) reverts to the LA. Under the direction of the Secretary of State balances cannot be transferred to any other school, even when the school is a successor to the closing school, except that a surplus transfers to an academy where a school converts to academy status under section 4(1)(a) of the Academies Act 2010.

Allocation regulations made under section 47 of The Act make provision for the LA to make allocations to a replacement school (s) which have the effect of giving them the benefit of additional sums which are equal to or less than the balances of the relevant closing school (s). The regulations also provide for the amount of extra funding for the new school (s) can be reduced to recognise the deficit of a preceding school, but they do not allow a sum equal to the deficit to be set against any 'normal' funding of the new school – that is the elements of funding it would receive anyway if it was not new.

(See also 3.4 Budget shares for closing schools).

4.9 Licensed Deficit

Schools covered by the Scheme may not usually plan deficit budgets, except where governing bodies have prior written approval from the Director of Children's Services and in the following circumstances:-

- where a school has problems arising from serious leadership and management difficulties;
- unforeseen circumstances beyond the control of the Governing Body and Head teacher;
- dealing with the budget difficulties in one financial year would seriously disadvantage the pupils of the school;
- elimination of the underlying budget deficit; and
- investment or other service improvement/development(s) as set out in the School Improvement Plan

The School may apply for a licensed deficit. The Director of Children's Services will approve the proposals for dealing with any deficit agreed.

The maximum length over which a school may repay their deficit (i.e. reach at least a zero balance) shall be 3 years, not including the financial year in which the deficit first occurred.

The minimum deficit which may be agreed shall be £10,000 and the maximum 15% of a school's Annual Budget Share.

No interest will be charged on licensed deficits.

These figures will be reviewed annually.

Progress in dealing with deficit will be monitored by:

- (i) The governing body submitting a deficit recovery plan for the recovery of the deficit. (The Financial Recovery Plan will be required to demonstrate that a school can operate within balance in subsequent years. Generally, Recovery Plans relying on the exclusive use of the balances to resolve a deficits are unlikely to be acceptable);
- (ii) The head teacher submitting written progress termly to the Schools Finance Resource Consultant during the period of deficit.
- (iii) The governing body reporting annually to the Director of Children's Services.

5 INCOME

5.1 Income from lettings

The Authority allows schools to retain income from lettings of the school premises which would otherwise accrue to the LA, subject to alternative provisions arising from any joint use or PFI/PPP arrangements. This enables schools to cross-subsidise lettings for community and voluntary use with income from other lettings provided that there is no net cost to the schools budget share. Schools are required to have regard to directions issued by the authority as to use of school premises, as permitted under the Act for various categories of schools. Income from lettings of school premises should not be paid into voluntary or private funds held by the school.

Schools are reminded that directions are contained in the FRAS Guidelines for schools as to the use of school premises.

5.2 Income from fees and charges

Schools may retain income from fees and charges except where a service is provided by the LA from centrally retained funds. However, schools are required to have regard to the policy statements on charging produced by the LA. These statements are contained in the FRAS Guidelines. Income from boarding charges is collected on behalf of the LA and should not exceed that needed to provide board and lodgings for the pupils concerned.

5.3 Income from fund-raising activities

Schools may retain income from any fund-raising activities and events.

5.4 Income from the sale of assets

Schools may retain the proceeds of sale of assets except in cases where the asset was purchased with non-delegated funds (in which case it should be for the LA to decide whether the school should retain the proceeds), or the asset concerned is land or buildings forming part of the school premises and is owned by the LA.

5.5 Administrative procedures for the collection of income

The FRAS Guidelines contain details of the procedure for the collection of income.

5.6 Purposes for which income may be used

Any income received from the sale of assets purchased with delegated funds may only be spent for the purposes of the school and therefore should be included in a schools budget plan.

6 THE CHARGING OF SCHOOL BUDGET SHARES

6.1 General provision

The LA may charge the budget share of a school, without the consent of the governing body, **only** in circumstances expressly permitted by the scheme. Where a charge is deemed necessary, the LA will consult the school in advance of the said charge, notifying the school of the reasons for the charge, the amount and when it is to be debited.

Any dispute regarding charges can be referred to the Director for Children's Services, in the first instance.

Although the right of LAs to protect their financial position from liabilities caused by the action or inaction of governing bodies by charging budget shares is well established, the Government is anxious to ensure that schools are clearly aware of the circumstances in which this may happen. A list of the circumstances in which such charging is permitted is detailed below.

Schools are reminded that the LA cannot act unreasonably in the exercise of any power given by the scheme or it may be the subject of a direction under section 496 of the Education Act 1996.

6.1.2 The Authority is required to charge the salaries of school based staff to school budget shares at actual cost.

6.2 Circumstances in which charges may be made by the LA without consent of the Governing Body

6.2.1 Premature Retirement, Dismissal and Resignation Costs – Costs for premature retirement, resignation or dismissal of an employee are held centrally. Where costs have been incurred by the LA without its prior written agreement, a school's budget share will be charged by the amount which the costs exceed any amount agreed by the LA.

6.2.2 Other expenditure incurred to secure resignations where a school has not followed LA advice.

6.2.3 Awards by courts or out of court settlements and industrial tribunals against the LA arising from action or inaction by the governing body contrary to the LA's advice will be chargeable to a school budget share. (Advice given to governing bodies of aided schools will take proper account of section 60(5) of the Act.)

Awards may sometimes be against the governing body directly and would fall to be met from the budget share. Where the LA is joined with the governing body in the action and has expenditure as a result of the governing body not taking LA advice, the charging of the budget share with the LA expenditure protects the LA's position.

6.2.4 Premises – Where the LA incurs expenditure in carrying out health and safety work or capital expenditure for which the LA is liable where funds have been delegated to the governing body for such work, but the governing body has failed to carry out the required work.

6.2.5 Expenditure by the LA incurred in making good defects in building work funded by capital spending from budget shares, where the premises are owned by the LA or the school has voluntary controlled status.

6.2.6 Insurance – Any expenditure incurred by the LA in insuring its own interests in a school where funding has been delegated but the schools has failed to demonstrate that it has arranged cover at least as good as that which would be arranged by the LA. See 10.1 insurance cover.

6.2.7 Service Level Agreements – A schools budget share will be charged as a result of monies due for services provided to the school, where a disputes procedure, as set out in a Service Level Agreement, finds in favour of the LA.

6.2.8 Penalties from Statutory Agencies – Recovery of penalties imposed on the LA by the Board of Inland Revenue, the Contributions Agency or HM Revenue and Customs, Teachers Pensions the *Environment Agency* or other regulatory authorities as a result of the negligence of a school will be recovered from that

school's budget share. For example where an under payment of VAT by the LA has occurred as a result of errors made on financial returns submitted by a school.

- 6.2.9 Correction of LA errors** – Errors made by the LA in charges to a school budget share, such as pension contributions, either debits or credits, will be corrected. However, if the error dates back several years the LA will consider whether such action is reasonable.
- 6.2.10 Transport Costs** – A charge will be made should additional transport costs be incurred by the LA arising from decisions by the Governing Body on the length of the school day, and there has been a failure to notify the LA of non-pupil days resulting in unnecessary transport costs.
- 6.2.11 Legal Costs** – Any legal costs which are incurred by the LA as a result of the Governing Body not accepting the advice of the LA (see also section 11).
- 6.2.12 Health and Safety** – Where funding for the required training for staff employed by the LA has been delegated but the necessary training not carried out by a school, the costs of necessary health and safety training will be debited.
- 6.2.13 Contract for Borrowing** – The compensation paid to a lender where a school enters into a contract for borrowing beyond its legal powers, and the contract is of no effect, will be charged to a school budget share.
- The LA wishes to remind schools that, where appropriate, advice will be given.
- 6.2.14** Cost of work done in respect of teacher pension remittance and records for schools using non-LA payroll contractors, the charge to be the minimum needed to meet the cost of the Authority's compliance with its statutory obligations.
- 6.2.15** Costs incurred by the LA in securing provision specified in a statement of SEN where the governing body of a school fails to secure such provision despite the delegation of funds in respect of that statement.
- 6.2.16** Costs incurred by the LA due to submission by the school of incorrect data.
- 6.2.17** Recovery of amounts spent from specific grants on ineligible purposes.
- 6.2.18** Costs incurred by the LA as a result of the governing body being in breach of the terms of a contract.
- 6.2.19** Costs incurred by the LA or another school as a result of a school withdrawing from a cluster arrangement, for example where this has funded staff providing services across the cluster.

7 TAXATION

7.1 Value Added Tax

The Council's VAT procedures for schools are contained in the FRAS Guidelines.

In summary, schools must not attempt to register for VAT in connection with activities involving the use of a budget delegated under the Scheme for Financing Schools. The Council remains entitled to reclaim VAT under section 33 of the VAT Act 1994, in respect of VAT paid out on goods and services purchased from those delegated budgets.

For any school operating external banking arrangements, the submission of a VAT return to the Council on a monthly basis will be a requirement. This will ensure the Council's ability to meet our specially agreed (with HM Revenue and Customs) claim periods during a financial year.

For schools operating external banking, their VAT will be reimbursed when the Council is reimbursed by HM Revenue and Customs.

Expenditure incurred by the governors of a voluntary aided school when carrying out their statutory responsibility to maintain the external fabric of their buildings. See also section 13 – community facilities.

All records relating to VAT must be retained for six years and be available for inspection by HM Revenue and Customs. If Customs and Excise raise any assessments, penalties and interest charges against the school, it will be the responsibility of that school to bear the charges incurred.

7.2 CIS (Construction Industry Taxation Scheme)

The scheme requires schools to abide by procedures issued by the Authority in connection with CIS, and these are contained in the FRAS Guidelines.

8 THE PROVISION OF SERVICES AND FACILITIES BY THE AUTHORITY

8.1 Provision of services from centrally retained budgets

The LA will determine on what basis centrally funded services will be provided to schools. Although ordinarily premature retirement compensation and redundancy payments may not be considered as services, the scheme encompasses payments in these areas.

However, the Council will be unable to discriminate in its provision of services on the basis of categories of schools except where:

- funding has been delegated to some schools or
- such discrimination is justified by difference in statutory duties

8.2 Time-scales for the provision of services bought back from the LA using delegated budgets

While advice from the government states there is no minimum period for buying facilities, although arrangements lasting less than two years may well be uneconomic. It is the Authority's intention to offer services under buy back arrangements for a minimum period of one year and a maximum of three years from the date of the agreement. Contracts for the supply of catering services may have longer periods applied to them, to a maximum of five years initially.

For those schools who request delegation of premises and liability insurance, it is envisaged that an insurance facility will be offered to schools who request it on a yearly basis.

When a service is provided for which expenditure is not retainable centrally by the LA under the regulations made under section 45A of the Act, it must be offered at prices which are intended to generate income which is no less than the cost of providing those services. The total cost of the service must be met by the total income, even if schools are charged differentially.

This provision complements the implied requirements of the regulations on central retention of funds. It is recognised that absolute break-even or profit is not always achievable over fixed financial years, however it is for the LA to show that any charging policy can reasonably be expected to avoid central subsidy of services.

8.2.1 Packaging

All services will be offered to schools on a service by service basis, but they may also be offered as packages of services. Packages of services will not be offered in such a way so as to unreasonably restrict schools' freedom of choice.

8.3 Service level agreements

When purchasing services from the LA, schools will have at least one month to consider the terms of agreements. Service level agreements will be in place by 31st January each year to become effective for the following financial year.

8.3.1 The terms of any service level agreement for a service or facility, whether free or on a buy back basis, will be reviewed at least every three years, even if the agreement lasts longer.

8.3.2 Additional services other than those included in a service level agreement will be available to schools. Any such additional service, provided on an adhoc basis, may be charged at a different rate than that included within their SLA.

8.4 Teachers' Pension

The governing bodies of schools which provide payroll services should submit an annual return of salary and service to the LA. Governing bodies must also ensure that details of Additional Voluntary Contributions (AVCs) are passed to the authority within the time limit shown in the AVC Scheme. The standard text for this is in Annex 6.

9 PFI/PPP (Private Initiative/Private Public Partnerships) CLAUSES

Schools should be aware of the existence of PFI's (Private Finance Initiatives) whereby the Council's existing capital programme might be supplemented by this further Government initiative to support capital schemes. The Central Government supply of such 'notional credits', as they are known, is limited on an annual basis.

The initiative for such schemes may be generated by the Government, a school or Council itself. However, from each source formal Council approval is required as each scheme entails certain contractual elements and upon final completion will have an operational effect on a school's revenue budget. Communication is paramount in what is considered to be a two way experience which can have far reaching consequences for the Council's finances overall.

The authority has the power to charge a school's budget share amounts agreed under a PFI/PPP agreement entered into by the governing body of a school.

10 INSURANCE

10.1 Insurance cover

Where funds for insurance are delegated to any school, the LA may require the school to demonstrate that cover relevant to the LA's insurable interests, under a policy arranged by the governing body, is at least as good as the relevant minimum cover arranged by the LA if the LA makes such arrangements, either paid for from central funds or from contributions from schools' delegated budgets. The LA will have regard to the actual risks which might reasonably be expected to arise at the school in question in operating such a requirement, rather than applying an arbitrary minimum level of cover for all schools.

The limits below are provided as a guide for schools. Individual circumstances may mean that some of these limits are too low for some schools.

Business Interruption	A minimum of £1,000,000 and an Indemnity Period of at least 24 months.
Contract Works	£500,000 minimum, but this may be inadequate for a capital project such as an extension. This limit will need to be considered on a school by school basis.

Money Limit	The sum covered needs to be adequate to meet the maximum amount of cash and cheques held by the school at any one time.
Fidelity Guarantee	£250,000 to £500,000 for schools with larger budgets.
Employers' Liability and Public/Products Liability	At least £10,000,000 for each risk class Schools with more than 500 pupils are recommended to have a Public Liability Indemnity of £20,000,000. Schools with more than 40 employees are recommended to have an Employers Liability Indemnity of £20,000,000.
Governors' liability	£1,000,000
Libel and Slander	£1,000,000
Legal Expenses	£250,000

A school seeking to make its own insurance arrangements is responsible for contacting the LA's insurance team to determine the correct level of cover required. (See also 6.2.6)

11 MISCELLANEOUS

11.1 Right of access to information

A comprehensive financial advice, guidance and support service is available to all schools managing their own budgets, through a team of experienced officers. These officers also have a monitoring role on behalf of the LA.

Information on finance and operations is fundamental to the good management of a school. It is important that schools control their finances adequately so that they may determine whether they are achieving their financial plans, and in so doing, meeting with their overall educational objectives.

The Council is required to produce accounts in accordance with statutory requirements and statements of standard accounting practice. Therefore Governing Bodies will be required to keep sets of accounts and maintain internal budgetary control systems in order to produce accurate financial records relating to its overall expenditure.

The Council has a monitoring role to ensure that schools are managing effectively, the resources delegated to them. For schools who continue to use the Council's local financial facilities and support services monitoring will be undertaken during regular school visits.

Schools who choose to operate systems outside those offered by the Council will be required to submit financial information and reports termly (except for VAT reclaim proformas, which are required on a monthly basis), in order to ensure that the Council's statutory responsibilities are met and financial probity assured.

11.2 Liability of governors

Under the terms of section 50(7) of the Act, governors of maintained schools will not incur personal liability in the exercise of their power to spend the delegated budget share provided they are acting in good faith. The carrying out of fraudulent acts is an example of behaviour which is not in good faith. However, breaches of the scheme or rejection of Council advice as to financial management are not necessarily in themselves failures to act in good faith.

11.3 Governors' expenses

Under s. 50(5) of the Act, only allowances in respect of purposes specified in regulations made under section 19 of the Education Act 2002 may be paid to governors from a school's delegated budget share.

Payment of any other allowance is not permitted.

Schools are also barred from payment of expenses duplicating those paid by the Secretary of State to additional governors appointed by him to schools under special measures.

Where delegation has been withdrawn, or where a school is yet to receive a delegated budget, the LA may delegate the necessary funds to allow governors' expenses to be met, where appropriate. The level of such allowances is set by the LA.

11.4 Responsibility for legal costs

Legal costs which are incurred by the LA, because the governing body did not accept the advice of the LA when it was reasonable to do so, may be re-charged to a school's delegated budget. This provision includes costs of being involved in legal actions and also costs awarded against the LA.

Where there is a conflict of interest between the LA and the governing body, the governing body should obtain independent legal advice using its own budget share unless otherwise agreed by the LA.

(See also section 6)

The effect of this is that a school cannot expect to be reimbursed with the cost of legal action against the Authority itself (although there is nothing to stop an Authority making such reimbursement if it believes this to be desirable or necessary in the circumstances).

11.5 Health and Safety

The Health and Safety at Work Act 1974 places specific responsibilities on employers to ensure the health, safety and welfare of their employees and of other persons using their premises. In the case of Educational Establishments these persons include pupils, students, contractors, parents and other site users and visitors.

The statutory responsibility for health and safety is substantially unchanged by Local Management. The Authority, or in voluntary aided and foundation schools, the governing body, (see Health and Safety Responsibilities and Powers (DfES 2001), available on the Health and Safety section of the WELL) will retain the primary responsibility as the employer under the Health and Safety legislation.

In light of these responsibilities the Authority has in place a policy for health and safety provision and as such governing bodies have a duty to comply with the policy when spending their school's budget share. For further detail refer to the FRAS guidelines or contact a Health and Safety adviser at WCS Serco.

11.6 Right of attendance for Chief Finance Officer

The scheme requires governing bodies to permit the Authority's Head of Finance, or any officer nominated by the Head of Finance, to attend meetings of the governing body at which any agenda items which relate to issues of probity or overall financial management and as such are relevant to the exercise of his or her responsibilities. The LA will give notice of such attendance unless it is impractical to do so.

11.7 Delegation to new schools

The Authority is empowered to delegate selectively and optionally to the governing bodies of new schools which have yet to receive delegated budgets.

11.8 Optional Delegation

Where a school exercises an option to receive delegated funding for an item, that option may only be exercised once a year, prior to the financial year in question. The LA must be notified by the 1st December.

This relates to optional delegation for insurance and meals funding and optional devolution of admissions funding.

11.9 Monitoring Special Educational Needs

The LA will require all schools to use their best endeavours in spending their budget share to secure appropriate provision for Special Educational Needs. The LA will consider exercising its statutory responsibility to suspend delegation in the event of a school significantly failing to adequately meet its responsibility in relation to the provision of Special Educational Needs, but this would not normally relate to an individual pupil.

11.10 'Whistleblowing'

The procedures to be followed by persons, working at a school or school governors, who wish to complain about the financial management or financial propriety at the school can do so using the LA's whistleblowing policy. The guidelines are detailed in Annex 4 of the Scheme.

11.11 Child Protection

The Authority recognises that there is a need to release staff to attend child protection case conferences and other related events; however, schools are required to fund any costs incurred.

11.12 Interest on Late Payments

Currently no interest is charged on late payments.

12 Responsibility for Repairs and Maintenance

12.1 The LA expects the following categories of work to be financed from the school budget, roofing, flooring, ceilings, internal and external walls, window and doors, sanitary services (includes kitchen), mechanical services, electrical services, and external work.

12.2 As required by regulation, the LA has delegated all funding for repairs and maintenance to schools. The devolved formula capital allocation is for use to add to the highest priority items identified within a school's development plan i.e. urgent condition work. For these purposes, expenditure may be treated as capital only if it fits the definition of capital used by the LA for financial accounting, in line with the CIPFA Code of Practice. Walsall Council does not use a de-minimus limit on either capital or revenue spending.

12.3 Illustrative examples of capital expenditure items in line with the government interpretation of the CIPFA code of practice are included at Annex 3. For voluntary aided schools, the liability of the Authority for repairs and maintenance (albeit met by delegation of funds through the budget share) is the same as for other maintained schools, and no separate list of responsibilities is necessary for such schools. However, eligibility for capital grant from the Secretary of State for capital works at voluntary aided schools depends on the de minimus limit applied by the DfE to categorise such work, even though the LA does not use a de minimus limit.

12.4 The LA can retain monies centrally for the repair and maintenance of kitchens and kitchen equipment in schools which have not had school meals delegated.

13 Extended Schools and Community Facilities

- 13.1** Governing Bodies of schools may now choose to provide a range of community facilities or services to the benefit pupils, their families and the local community.

Schools which choose to exercise the power conferred by s.27 (1) of the Education Act 2002 to provide community facilities will be subject to a range of controls. First, regulations made under s.28 (2), if made, can specify activities which may not be undertaken at all under the main enabling power. Secondly, the school is obliged to consult its authority and have regard to advice from the authority. Thirdly, the Secretary of State issues guidance to governing bodies about a range of issues **connected with exercise of the power, and a school must have regard to that.**

However, under s.28(1), the main limitations and restrictions on the power will be those contained in the Scheme for Financing Schools made under section 48 of the School Standards and Framework Act 1998 as amended by paragraph 2 of Schedule 3 to the Education Act 2002. This amendment extended the coverage of schemes to include the exercise of the powers of governing bodies to provide community facilities.

Schools are therefore subject to prohibitions, restrictions and limitations in the scheme for financing schools.

This section of the scheme does not extend to joint-use agreements; transfer of control agreements, or agreements between the Authority and schools to secure the provision of adult and community learning.

- 13.2** Where there is evidence of mismanagement of community facilities funds the LA will consider the suspending the governing body's right to a delegated budget.

Consultation with the LA – financial aspects

- 13.3** Section 28(4) of the Education Act 2002 requires that before exercising the community facilities power, governing bodies must consult the LA and have regard to advice given to them.

- 13.4** Schools should seek advice from Walsall Children's Services Serco School Finance Team, in respect of financing procedures well before formal consultation commences.

- 13.5** The LA will respond and provide advice within a reasonable time following receipt of the consultation material. In response to this, schools should subsequently inform the LA of their actions taken. The LA will not levy a charge for any advice.

The information to be provided to the LA should include:

- a business plan, covering at least three financial years which must demonstrate the financial viability of each activity and details of the assumptions on which the budget plan has been based, particularly in regard to income
- details of governor's consultation with staff, parents, the local community and other stakeholder groups
- details of the activity being considered
- staffing details including number, hours, pay rates
- operational information such as when the provision will be available – times, weeks etc

In the first instance the documentation should be forwarded to the School Finance Team, Walsall Children's Services Serco

Funding agreements

13.6 The provision of community facilities in many schools may be dependent on the conclusion of a funding agreement with a third party which will either be supplying funding or supplying funding and taking part on the provision. A very wide range of bodies and organisations are potentially involved.

13.7 In relation to funding agreements with third parties (as opposed to funding agreements with the Authority itself) proposed draft agreements should be submitted to the LA for comments and advice. Draft agreements will form part of a formal consultation with LA and schools are expected to have regard for any advice given. The LA does not have general power for veto of these agreements, however, if an agreement has been or is to be concluded against the wishes of the LA, or has been concluded without informing the LA, which in the view of the Authority is seriously prejudicial to the interests of the school or the Authority, that may constitute grounds for suspension of the right to a delegated budget.

13.8 Other prohibitions, restrictions and limitations

While the LA has no right of veto to either funding agreements with third parties or for other uses of the community facilities power, there may be instances where the LA has reason to believe that a proposed project carries significant financial risk. In such instances the LA will require the governing body to make arrangements to protect the financial interests of the LA by either providing the activity through a limited company formed for the purpose, or by obtaining indemnity insurance for risks associated with the project, as specified by the LA.

Supply of financial information

13.9 Financial information relating to community facilities is now to be included in returns made by schools under the Consistent Financial Reporting (CFR) Framework. New CFR codes have been created to record specific information.

In order for the LA ensure the financial viability of an activity, schools are required to submit, as part of their governor's agreed formal budget plan and by the 1st June, their planned income and expenditure in connection with said activity.

In addition to formal budget plans a further financial statement, showing the actual income and expenditure for the activity for the period 1st April to 30th September and, on an estimated basis, for the next six months i.e. 1st October to 31st March, will be also be required.

Lastly, information detailing the financial position at year end will be required and must be included in the schools CFR outturn statement each year.

- 13.10** If the LA, on giving notice to the school, believes there to be cause for concern as to the school's management of the financial consequences of the exercise of the community facilities power, then the school will be required to supply a financial statement every three months and, if the Authority sees fit, to require the submission of a recovery plan for the activity in question.

Audit

- 13.11** Schools are required to grant access to the school's records connected with exercise of the community facilities power, in order to facilitate internal and external audit of relevant income and expenditure.
- 13.12** In concluding funding agreements with other persons pursuant to the exercise of the community facilities power schools are required to ensure that such agreements contain adequate provision for access by the Authority. In order for the Authority to satisfy itself as to the propriety of expenditure on the facilities in question, this includes access to the records and other property of those persons held on the school premises, or held elsewhere insofar as they relate to the activity in question.

Treatment of income and surpluses

- 13.13** Schools may retain all net income derived from community facilities except where otherwise agreed with a funding provider, whether that be the LA or a third party.
- 13.14** Where a surplus has been accumulated then this may be carried over from one financial year to the next as a separate community facilities surplus, or, subject to the agreement of the Authority at the end of each financial year, transfer all or part of it to the budget share balance. In this instance and in case there is a future requirement to offset a subsequent community facilities deficit, the main budget share should be separately identified.

- 13.15** If the school is a community or community special school, and the Authority ceases to maintain the school, any accumulated retained income obtained from exercise of the community facilities power reverts to the Authority unless otherwise agreed with a funding provider.
- 13.16** Where there is a deficit on community facilities and the LA needs to recover funds to meet third party liabilities, it will do so from any accumulated community facilities surplus. If there are insufficient funds to meet the deficit and as the liabilities are part of the expenses of the maintaining school, the deficit will be recovered from the governing body

Health and safety matters

- 13.17** Walsall's scheme extends any health and safety provisions of the main scheme to the community facilities power.
- 13.18** It is the governing body's responsibility for the costs of securing Criminal Records Bureau clearance for all adults involved in community activities taking place during the school day. Governing bodies would be free to pass on such costs to a funding partner as part of an agreement with that partner.

Insurance

- 13.19** In principle the insurance issues arising from use of the community facilities power are the same as those which already arise from non-school use of premises. It is the responsibility of the governing body to ensure adequate arrangements are made for insurance against risks arising from the exercise of the community facilities power, taking professional advice as necessary. Such insurance should not be funded from the school budget share. (Details of insurance arrangements for community facilities should be included in the formal consultation material).
- 13.20** The LA may undertake its own assessment of the insurance arrangements made by a school in respect of community facilities in order to protect itself against possible third party claims. If the local authority judges those arrangements to be inadequate, it will make arrangements itself and charge the resultant cost to the school.
- 13.21** A school seeking to make its own insurance arrangements is responsible for contacting the LA's Insurance Team to determine the correct level of cover required before finalising arrangements.

Taxation

- 13.22** Schools should seek the advice of the LA and the local VAT office on any issues relating to the possible imposition of Value Added Tax on expenditure in connection with community facilities, including the use of local authority VAT reclaim facility. Expenditure from funds obtained directly by schools from private (or central

government) sources is not covered by the VAT reclaim facility. Full details are contained in the FRAS guidelines for schools.

- 13.23** If any members of staff employed by the school or LA in connection with community facilities is paid from funds held in a school's own bank account (whether a separate account is used for community facilities or not) the school will be liable for payment of income tax and National Insurance, in line with HMRC rules. Payments to staff for hours worked, travel etc should not be made directly to individuals but should be made via the school's payroll provider.
- 13.24** Schools are required to follow LA advice in relation to the Construction Industry Scheme where this is relevant to the exercise of the community facilities power.

Banking

- 13.25** A number of options are available to schools in Walsall, including the maintenance of separate bank accounts for budget share and community facilities, or dependant on the community facilities operating in school, have one account that provides adequate internal accounting controls to maintain separation of funds.
- 13.26** Banking arrangements are restricted to those arrangements as contained in section 3 of the scheme, except that provision requiring that a mandate show the LA as owner of the funds in the account, should exempt the community facilities funds from that if they are in the same account as the budget share.
- 13.27** **Schools are reminded that they may not borrow money without the written consent of the Secretary of State.**

Misc	<ul style="list-style-type: none"> • Provision of walls, fencing, gates and ancillary buildings as part of major project, including disabled access. 	<ul style="list-style-type: none"> • Maintenance and repair of all perimeter/boundary/retaining walls, fencing and gates.
Drainage	<ul style="list-style-type: none"> • Drains, soakaways, inspection chambers and sewage plant as part of new projects 	<ul style="list-style-type: none"> • Maintenance and repair of drains, gullies, grease traps and manholes between buildings and main sewers. Clearing of the above and unblocking as necessary.
Open Air Pools	<ul style="list-style-type: none"> • Structure, hygiene/safety in new build • Heating mains, gas mains, water mains, electricity mains, renewal of any above. 	<ul style="list-style-type: none"> • Hygiene, clearing, maintenance and repairs, including replacement parts. Simply energy saving systems. • Annual servicing.

Note

This illustrative list is the DCSF interpretation of the CIPFA Code of Practice and Local Authorities should refer to the Code when defining capital and revenue.

Annex 4

Confidential Reporting Policy

(Whistle Blowing)

1. Introduction

All of us, at one time or another have concerns about what is happening at work. More often than not, these concerns are relatively minor and can be easily resolved. However, when those concerns are about unlawful conduct, financial malpractice or dangers to the public or environment, it can be difficult to know what to do. Confidential reporting or 'whistle blowing' is about helping people to raise legitimate concerns or worries about the council's activities and practices. Walsall Council has adopted this policy to make it possible for anyone who works for the council, including temporary and agency staff, and those providing goods and services to the council, who have serious concerns, to come forward and voice those concerns. These issues will be taken seriously and treated on a confidential basis.

2. What is the policy for?

The council has introduced this policy to:

- Encourage employees to feel confident in raising serious concerns regarding malpractice
- Provide avenues for employees to raise those concerns and receive feedback on any action taken
- Ensure that employees receive a response to their concerns and that they are aware of how to pursue them if they are not satisfied
- Reassure employees that they will be protected from possible reprisals or victimisation if they have reasonable belief that they have made any disclosure in good faith.

3. Who does the policy apply to?

The policy applies to all those working for the council, including temporary and agency staff, and those contractors working for the council on council premises; it also covers suppliers and those providing services under a contract with the council in their own premises

4. What kinds of area are covered

The policy is intended to cover the following areas of concern:

- Conduct which is an offence or a breach of the law
- Disclosures related to miscarriages of justice
- Health and safety risks, including risks to the public as well as other employees
- Damage to the environment
- Unauthorised use of public funds
- Possible fraud and corruption
- Sexual, physical or verbal abuse of clients
- Any other unethical conduct or improper conduct

Or it may be something that:

- Makes an employee feel uncomfortable in terms of known standards
- Is against the council's policies and practices

This policy is not intended to replace the customer corporate complaints, employee grievance or other established council procedures.

5. When to raise a concern

Under section 13 of the 'Code of Conduct for Employees', where they become aware of or suspect that unauthorised activity is taking place, there is a duty for employees to report such wrongdoing.

Employees may however, be worried about raising such issues or may want to keep the concerns to themselves, perhaps feeling that it is none of their business or that it is only a suspicion. Additionally there might be a feeling that raising the matter would be disloyal to colleagues, managers or the organisation. There is also the danger of saying something but finding out the wrong person has been notified or that the issue has been raised in the wrong way.

Walsall Council has put this policy in place to enable employees to raise their concerns about such malpractice at an early stage and in the right way. We would rather that the matter was raised when it was a concern rather than wait for proof.

Employees are encouraged to use this policy if ever there is an occasion when an issue is troubling or is of concern. The whistle blowing policy is primarily for concerns where the interests of others or the council itself are at risk.

6. Our Assurances to you

Safety

The Corporate Management Team is committed to this policy. Any employee raising a genuine concern under this policy will not be at risk of losing their job or suffering any form of retribution as a result. Provided it is an act of good faith, it does not matter if an employee is mistaken. Of course this assurance is not extended to anyone who maliciously raise a matter they know is not true.

Confidentiality

We will not tolerate the harassment or victimisation of anyone raising a genuine concern. However, we recognise that someone might want to raise a concern in confidence under this policy. If an employee asks to have their identity protected, it will not be disclosed without their consent. If the situation arises where we are not able to resolve the concern without revealing an employee's identity (for instance because their evidence is needed in court) this will be discussed fully with them as to whether and how we can proceed.

Remember that if an employee does not disclose who they are, it will be much more difficult for us to look into the matter or to protect their position or to give them feedback. Accordingly while we consider anonymous reports, this policy is not well suited to concerns raised anonymously.

7. How we will handle this matter

Once an employee has told us of their concern, we will look into it to assess initially what action should be taken. This may involve an internal inquiry or a more formal investigation. In any case, within ten days, the employee will be written to with:

- An acknowledgement that the concern has been received
 - An understanding of the concern that has been reported
 - An indication of how the matter will be dealt with
 - An indication of any initial enquires that have been made
 - Information on staff support mechanisms
 - Notification of any further investigations that will take place and if not, why not
- Where appropriate the matters raised may:
- Be investigated by management, Internal Audit, or disciplinary process
 - Be referred to the external auditor
 - Form the subject of an independent enquiry

- Be referred to the police

The amount of contact between the officers considering the issues and the employee will depend on the nature of the matters raised, the potential difficulties involved and the clarity of the information provided. If necessary, the council will seek further information from the employee. Where any meeting is arranged, off-site if an employee wishes, they can be accompanied by a union or professional representative or a friend.

When someone raises a concern they might be asked to consider how the matter might best be resolved. If someone has a personal interest in the matter we ask that they tell us of this concern at the outset.

While the purpose of this policy is to enable us to investigate malpractice and take appropriate steps to deal with it, we will give anyone raising a concern as much feedback as we possibly can. If requested, we will confirm our response in writing. Please note, however, that we will not be able to divulge the precise action we take if this infringes a duty of confidence owed by us to someone else.

8. How to raise a concern internally

Step 1

Employees with a concern about malpractice should hopefully feel able to raise it with their manager. This can be done verbally or in writing. The more information that can be supplied, including dates, times, details and names, the greater the opportunity to establish the facts. Although employees are not expected to prove beyond doubt the truth of the allegation, they will need to demonstrate to the person contacted that there are reasonable grounds for their concern.

Step 2

In instances where anyone feels unable to raise the matter with their manager for whatever reason, please raise the matter with:

- | | |
|--|--------------|
| ➤ Chief Internal Auditor | 01922 652831 |
| Executive Directors | |
| Children's | 01922 652756 |
| Neighbourhood | 01922 653203 |
| Regeneration | 01922 652004 |
| Resources | 01922 652910 |
| Social Care & Inclusion | 01922 652700 |
| ➤ Head of Human Resources &
Development | 01922 655600 |

Step 3

In instances where someone has followed these channels and they still have concerns, or if they feel that they cannot discuss it with any of the above, please contact:

Chief Executive, Walsall Council, The Civic Centre, Darwall Street, Walsall WS1 1TP

Such concerns should be made in writing, marking your letter private and confidential. Alternatively you can telephone on 01922 652000

On line reporting

An **on line notification form** is available on the internal audit intranet page to enable concerns to be reported in a secure and confidential manner.

Social Services Employees

Social Services has built on the corporate policy in respect of its need to be especially vigilant in protecting the interests of vulnerable clients and operated a statutory complaints procedure for all complaints relating to service users receiving a service. In the first instance, such complaints should be directed to the Customer Care Team, Social Care and Inclusion, Tameway Tower, 6 Floor, East Wing, Bridge Street, Walsall WS1 1JZ (tel th 01922 650487).

9. Independent Advice

Employees can also seek external advice from the following: the external auditor; their trade union; the Citizens Advice Bureau; the relevant professional body or regulatory organisation; the police or "Public Concern at Work" (020 7404 6609).

Employees should specify that they want to raise this matter in confidence so that the appropriate arrangements can be made.

10. External Contacts

We hope this policy gives employees the reassurances they need to raise such matters internally. However, if an employee feels unable to raise a concern through internal channels, the council would rather employees raise their concern with an appropriate external regulator than not raise it at all.

Remember, malpractice affects everyone and is unacceptable.

Blowing the whistle on it is one way of stamping it out – for good.

Annex 5

Teacher Pension Scheme

In order to ensure that the performance of the duty on the Authority to supply Teachers Pensions with information under the Teachers' Pensions Regulations 1997, the following conditions are imposed on the Authority and governing bodies of all maintained schools covered by this Scheme in relation to their budget shares.

The conditions only apply to governing bodies of maintained schools that have not entered into an arrangement with the Authority to provide payroll services.

A governing body of any maintained school, whether or not the employer of the teachers at such a school, which has entered into any arrangement or agreement with a person other than the Authority to provide payroll services, shall ensure that any such arrangement or agreement is varied to require that person to supply salary, service and pensions data to the Authority which the Authority requires to submit its annual return of salary and service to Teachers' Pensions and to produce its audited contributions certificate. The Authority will advise schools each year of the timing, format and specification of the information required. A governing body shall also ensure that any such arrangement or agreement is varied to require that Additional Voluntary Contributions (AVCs) are passed to the Authority within the time limit specified in the AVC scheme. The governing body shall meet any consequential costs from the school's budget share.

A governing body of any maintained school which directly administers its payroll shall supply salary, service and pensions data to the Authority which the Authority requires to submit its annual return of salary and service to Teachers' Pensions and to produce its audited contributions certificate. The Authority will advise schools each year of the timing, format and specification of the information required from each school. A governing body shall also ensure that Additional Voluntary Contributions (AVCs) are passed to the Authority within the time limit specified in the AVC scheme. The governing body shall meet any consequential costs from the school's budget share.

Annex 6

Notice of Concern – Example Areas of Concern

Outlined below are examples of actions/behaviour which may lead the LA to believe the issue of a Notice of Concern is required. It should be noted the list is not exhaustive.

- Failure to meet statutory deadlines and requirements
- Failure to implement internal audit recommendations within prescribed timescale
- Failure to supply the LA with documentation required to enable the LA to undertake its statutory monitoring duties within appropriate timescale
- Failure to take appropriate action to safeguard the financial position of the LA or the school
- Audit report with limited or no assurance,
- Failure to meet requirements laid down in the scheme
- Failure to recover from licensed deficit within agreed time frame
- A school's outturn statement for the previous three financial years reflects a deficit at year end
- Concerns raised by the governing body in regard to the effectiveness of the financial decisions being made by the leadership team of the school
- The LA has concerns in regard to the effectiveness of the financial decisions being made by the leadership team of the school and/or governing body

Annex 7

Responsibility for redundancy and premature retirement costs

This guidance note summarises the position relating to the charging of voluntary early retirement and redundancy costs. It sets out what is specified in legislation and provides some examples of when it might be appropriate to charge an individual school's budget, the central Schools Budget or the local authority's non-schools budget.

Section 37 of the 2002 Education Act says:

(4) costs incurred by the local education authority in respect of any premature retirement of a member of the staff of a maintained school shall be met from the school's budget share for one or more financial years except in so far as the authority agree with the governing body in writing (whether before or after the retirement occurs) that they shall not be so met

(5) costs incurred by the local education authority in respect of the dismissal, or for the purpose of securing the resignation, of any member of the staff of a maintained school shall not be met from the school's budget share for any financial year except in so far as the authority have good reason for deducting those costs, or any part of those costs, from that share.

(6) The fact that the authority have a policy precluding dismissal of their employees by reason of redundancy is not to be regarded as a good reason for the purposes of subsection (5); and in this subsection the reference to dismissal by reason of redundancy shall be read in accordance with section 139 of the Employment Rights Act 1996 (c. 18).

The default position, therefore, is that premature retirement costs must be charged to the school's delegated budget, while redundancy costs must be charged to the local authority's budget. In the former case, the local authority has to agree otherwise for costs to be centrally funded, while in the latter case, there has to be a good reason for it not to be centrally funded, and that cannot include having a no redundancy policy. Ultimately, it would be for the courts to decide what was a good reason, but the examples set out below indicate the situations in which exceptions to the default position might be taken.

Charge of dismissal/resignation costs to delegated school budget

If a school has decided to offer more generous terms than the authority's policy, then it would be reasonable to charge the excess to the school:

If a school is otherwise acting outside the local authority's policy

Where the school is making staffing reductions which the local authority does not believe are necessary to either set a balanced budget or meet the conditions of a licensed deficit

Where staffing reductions arise from a deficit caused by factors within the school's control

Where the school has excess surplus balances and no agreed plan to use these

Where a school has refused to engage with the local authority's redeployment policy

Charge of premature retirement costs to local authority non-schools budget

Where a school has a long-term reduction in pupil numbers and charging such costs to their budget would impact on standards

Where a school is closing, does not have sufficient balances to cover the costs and where the central Schools Budget does not have capacity to absorb the deficit

Where charging such costs to the school's budget would prevent the school from complying with a requirement to recover a licensed deficit within the agreed timescale

Where a school is in special measures, does not have excess balances and employment of the relevant staff is being/has been terminated as a result of local authority or government intervention to improve standards

Costs of new early retirements or redundancies can also be charged to the central part of the Schools Budget if the Schools Forum agree and the local authority can demonstrate that the "revenue savings achieved by any termination of employment are equal to or greater than the costs incurred". The Schools Forum must agree to any increase in this budget over the previous financial year. If the Schools Forum does not agree with the local authority's proposal, then the authority can appeal to the Secretary of State. The Schools Forum would also be involved if the additional expenditure resulted in a breach of the central expenditure limit, whereby central expenditure increases faster than the Schools Budget as a whole. An example of where a charge to the central Schools Budget might be appropriate would be a school reorganisation. A reorganisation involving the closure of a number of schools would be likely to result in savings because there would be a reduced amount being allocated through the formula for factors such as flat rate amounts to all schools or floor area. If the savings in the formula exceeded the ongoing costs of the VER/redundancy then this would qualify.

It would be possible to consider savings at an individual school level as well, but this needs to be carefully managed so that there are clear ground rules in place for applications, recommendations and approval. It may be sensible to agree criteria for eligibility which are consistent with the general approach as to when costs should be centrally funded. It is important that the local authority discusses its policy with its Schools Forum. Although each case should be considered on its merits, this should be within an agreed framework. It may be reasonable to share costs in some cases, and some authorities operate a panel to adjudicate on applications.

There are clearly difficulties in setting a budget, whether inside or outside the Schools Budget, at a point prior to the beginning of the financial year before schools have set their budgets and made staffing decisions. Local authorities can only make a best estimate of what may be needed, based on past experience, local knowledge of the financial position of individual schools and the context of that year's funding settlement. There are dangers in raising expectations that costs will be met centrally if the budget is set too high, and so an alternative would be to keep the budget tight and use contingency or schools in financial difficulties budgets if there is an unexpected need for staffing reductions and it is not appropriate for delegated budgets to fund VER/redundancy costs. To achieve best use of resources, local authorities should also have an active redeployment policy, to match staff at risk to vacancies.

One of the permitted uses of the contingency is where "a governing body has incurred expenditure which it would be unreasonable to expect them to meet from the school's budget share" while local authorities are also allowed to retain funding for schools in financial difficulties "provided that the authority consult the schools forum on their arrangements for the implementation of such support."

For staff employed under the community facilities power, the default position is that any costs must be met by the governing body, and can be funded from the school's delegated budget if the governing body is satisfied that this will not interfere to a significant extent with the performance of any duties imposed on them by the Education Acts, including the

requirement to conduct the school with a view to promoting high standards of educational achievement. Section 37 now states:

((7)Where a local education authority incur costs—

(a)in respect of any premature retirement of any member of the staff of a maintained school who is employed for community purposes, or

(b)in respect of the dismissal, or for the purpose of securing the resignation, of any member of the staff of a maintained school who is employed for those purposes, they shall recover those costs from the governing body except in so far as the authority agree with the governing body in writing (whether before or after the retirement, dismissal or resignation occurs) that they shall not be so recoverable.

(7A)Any amount payable by virtue of subsection (7) by the governing body of a maintained school in England to the local authority may be met by the governing body out of the school's budget share for any funding period if and to the extent that the condition in subsection (7B) is met.

(7B)The condition is that the governing body are satisfied that meeting the amount out of the school's budget share will not to a significant extent interfere with the performance of any duty imposed on them by section 21(2) or by any other provision of the Education Acts.

(9)Where a person is employed partly for community purposes and partly for other purposes, any payment or costs in respect of that person is to be apportioned between the two purposes; and the preceding provisions of this section shall apply separately to each part of the payment or costs.

Annex 8

Timetable of Key Documents

Document	Date
- Provided to schools from LA/Education Walsall	
Section 251 Education Budget Statement in schools	31 March
Closedown Monitoring reports to schools from LA	3 May
- To be submitted by schools to LA / Education Walsall	
All schools –	
Properly Assigned Sums (PAS)	31 March
Formal Budget Plans	1 June
