**Quorum:** 3 members of the Board

## The Relevant Authorities (Disclosable Pecuniary Interests) Regulations 2012

### Specified pecuniary interests

The pecuniary interests which are specified for the purposes of Chapter 7 of Part 1 of the Localism Act 2011 are the interests specified in the second column of the following:

| Subject                                           | Prescribed description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Employment, office, trade, profession or vocation | Any employment, office, trade, profession or vocation carried on for profit or gain.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Sponsorship                                       | <p>Any payment or provision of any other financial benefit (other than from the relevant authority) made or provided within the relevant period in respect of any expenses incurred by a member in carrying out duties as a member, or towards the election expenses of a member.</p> <p>This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Regulations (Consolidation) Act 1992.</p>                                                                                                                                                          |
| Contracts                                         | <p>Any contract which is made between the relevant person (or a body in which the relevant person has a beneficial interest) and the relevant authority:</p> <p>(a) under which goods or services are to be provided or works are to be executed; and</p> <p>(b) which has not been fully discharged.</p>                                                                                                                                                                                                                                                                                                      |
| Land                                              | Any beneficial interest in land which is within the area of the relevant authority.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Licences                                          | Any licence (alone or jointly with others) to occupy land in the area of the relevant authority for a month or longer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Corporate tenancies                               | <p>Any tenancy where (to a member's knowledge):</p> <p>(a) the landlord is the relevant authority;</p> <p>(b) the tenant is a body in which the relevant person has a beneficial interest.</p>                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Securities                                        | <p>Any beneficial interest in securities of a body where:</p> <p>(a) that body (to a member's knowledge) has a place of business or land in the area of the relevant authority; and</p> <p>(b) either:</p> <p>(i) the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body; or</p> <p>(ii) if the share capital of that body is more than one class, the total nominal value of the shares of any one class in which the relevant person has a beneficial interest exceeds one hundredth of the total issued share capital of that class.</p> |

## **Schedule 12A to the Local Government Act, 1972 (as amended)**

### **Access to information: Exempt information**

#### **Part 1**

#### **Descriptions of exempt information: England**

1. Information relating to any individual.
2. Information which is likely to reveal the identity of an individual.
3. Information relating to the financial or business affairs of any particular person (including the authority holding that information).
4. Information relating to any consultations or negotiations, or contemplated consultations or negotiations, in connection with any labour relations matter arising between the authority or a Minister of the Crown and employees of, or office holders under, the authority.
5. Information in respect of which a claim to legal professional privilege could be maintained in legal proceedings.
6. Information which reveals that the authority proposes:
  - (a) to give any enactment a notice under or by virtue of which requirements are imposed on a person; or
  - (b) to make an order or direction under any enactment.
7. Information relating to any action taken or to be taken in connection with the prevention, investigation or prosecution of crime.
8. Information being disclosed during a meeting of a Scrutiny and Performance Panel when considering flood risk management functions which:
  - (a) Constitutes a trades secret;
  - (b) Its disclosure would, or would be likely to, prejudice the commercial interests of any person (including the risk management authority);
  - (c) It was obtained by a risk management authority from any other person and  
its disclosure to the public by the risk management authority would constitute a breach of confidence actionable by that other person.

## Agenda

1. Apologies
2. Substitutions (if any)
3. Declarations of interest
4. Minutes – 16 November2020 (enclosed)
5. **Local Government (Access to Information) Act, 1985 (as amended):**  
To agree that the public be excluded from the private session during consideration of the agenda items indicated for the reasons shown on the agenda.

## Questions

6. To receive any questions

(All questions will have been submitted at least 7 clear days before the meeting Answers will be provided at the meeting - no supplementary questions will be allowed).

## Information

7. Walsall Covid-19 data
  - Report of Director of Public Health (enclosed)
8. Covid-19 and Flu Vaccination Update
  - Report of Director of Public Health (enclosed)

## Assurance

9. Walsall Local Outbreak Plan Update
  - Report of Director of Public Health (enclosed)
10. Test, Trace and Isolate –

11. Communication with residents
  - Presentation from Interim Director of Communications, Marketing and Brand

- o 0 o -

## **Health and Wellbeing Board (Local Outbreak Engagement Board) Sub-Committee**

**Monday 16 November 2020 at 4.00 p.m.**

### **Virtual meeting via Microsoft Teams**

*Held in accordance with the Local Authorities and Police and Crime Panels (Coronavirus) (Flexibility of Local Authority and Police and Crime Panel Meetings) (England and Wales) Regulations 2020; and conducted according to the Council's Standing Orders for Remote Meetings and those set out in the Council's Constitution.*

**Present:** Councillor S. Craddock (Chair)  
Dr. A. Rischie, Clinical Commissioning Group (Vice-Chair)  
Manjit Dehal, One Walsall  
Mr. D. Fradgley, Walsall Healthcare NHS Trust  
Mr. S. Gunther, Director of Public Health  
Dr. M. Lewis, Walsall Healthcare NHS Trust  
Councillor I. Robertson

**In attendance:** Councillor M. Bird, Leader of the Council  
Dr. U. Viswanathan, Consultant in Public Health Medicine  
Mrs. E. Thomas, Public Health Intelligence Manager  
Mr J. Elsegood, Interim Director of Communications

### **Welcome**

At this point, the Chairman opened the meeting by welcoming everyone to the Local Outbreak Engagement Board and explained the rules of procedure and legal context in which the meeting was being held. He also directed members of the public viewing the meeting to the papers which could be found on the Council's Committee Management Information system (CMIS) webpage.

### **32/20 Apologies**

There were apologies from Chief Superintendent Parsons.

### **33/20 Substitutions**

There were no substitutions for the duration of the meeting.

### **34/20 Declarations of interest**

There were no declarations of interest.

## 35/20 Minutes

**Resolved** (via roll call)

**That the minutes of the meetings held on 6 and 20 October 2020, copies having been sent to each member of the Sub-Committee, be approved and signed as a correct record.**

## 36/20 Local Government (Access to Information) Act, 1985

There were no items to be considered in private session.

## 37/20 Walsall Covid-19 data

Councillor Craddock introduced the Council's Public Health Intelligence Manager Mrs. E. Thomas, who presented a dashboard report which provided an overview of the current situation for Walsall looking at potential symptoms, number of confirmed cases and the number and pattern of deaths in Walsall. She presented the most up to date information at the meeting.

(see annexed)

The meeting was informed that cases were increasing in Walsall with 1100 new positive cases in the last seven days. Community transmission was evident across the borough. Transmission was predominately taking place between friends and family in households.

The Director of Public Health reported that cases were rising exponentially across the region. It was important to minimise social contact with others to prevent the spread of the virus.

Dr. Lewis reported that hospital occupancy was approaching the levels of the first outbreak earlier in the year. Routine work was being reduced and staff plans remodelled to create additional capacity. However, he noted that it was important that those who needed urgent care should seek it as hospital capacity was being retained in this area. Mr. Fradgley reported staff sickness was increasing as the virus was more prevalent in the local community.

Dr. Rischie reported that all GP practices had stocks of flu vaccinations and work was ongoing to deliver them. However, he noted that there was still work to do to meet delivery targets.

A discussion took place on lateral flow tests. The Director of Public Health explained that these were being piloted and outlined potential uses and benefits.

A question was raised about 'Long Covid', meaning those who were chronically ill after testing positive for Covid-19. Mr Fradgley explained that

the hospital had a 12 week programme for short term rehabilitation to support people and understand their needs. After this a Long Covid Pathway had been developed to support patients with, for example, respiratory and physiotherapy needs.

A discussion took place on the development of a Covid-19 vaccine. The Director for Public Health highlighted that work was ongoing to develop and approve a vaccine. Plans were being made for delivery through the NHS beginning in December.

In closing the item the Chairman highlighted the importance of the local community following government guidance and to avoid gathering in large groups.

**Resolved:**

**That the report be noted.**

#### **38/20 Walsall Local Outbreak plan actions and progress on delivery**

Dr.U. Viswanathan introduced the report updating the Board on the Local Outbreak Management Plan actions, as attached at Appendix 1 to the report, and work that had been undertaken to support care homes and schools.

(see annexed)

She highlighted the service provided by the Health Protection team helpline and the work taking place to engage with schools and care homes.

**Resolved:**

**That the report be noted.**

#### **39/20 Test, trace and isolate**

Dr. U. Viswanathan introduced the report updating the Board on the actions being taken by the local test, trace and isolate team.

(see annexed)

She reported that contact tracing capacity was due to be tripled and had been successful at preventing outbreaks. The Chair questioned why the RAG rating for contact tracing software was amber and sought to understand when it would be complete? Dr. Viswanathan explained that since the publication of the report this work had now been completed.

**Resolved:**

**That the report be noted.**

#### 40/20 **Communication with residents**

Mr. J. Elsegood, Interim Director of Communications, Marketing and Brand, gave a presentation updating the Board on the communication campaigns with how these linked with high level decisions, reinforced messages about the current lockdown and the next steps. He also highlighted now questions to the Board could be submitted.

(see annexed)

Following a question Mr. Elsegood explained that regular email updates were provided to 60,000 local residents. Ms. Dehal highlighted how One Walsall was using its networks to get messages to its members.

**Resolved:**

**That the report be noted.**

The meeting terminated at 5.00p.m.

## Local Outbreak Engagement Board

3<sup>rd</sup> December 2020

### Walsall Covid-19 Dashboard

#### 1. Purpose

The 'Walsall Covid-19 dashboard' provides a weekly update of data in relation to potential symptoms, confirmed cases and deaths. Where applicable, it compares Walsall with Local Authorities across the region for benchmark purposes.

#### 2. Recommendations

- 2.1 That member's note the latest data presented in the dashboard and the highlights listed below
- 2.2. That members use, promote and direct other users to the dashboard accordingly

#### 3. Report detail

***Latest summary highlights:***

1. ***Following a first of over 1,000 positive cases over 7 days previously, cases have reduced and a rate of 339.8 per 100,000 population. Comparing Walsall with our Black Country neighbours (Dudley, Sandwell and Wolverhampton), Walsall ranks 2<sup>nd</sup> highest behind Sandwell.***
2. ***Deaths attributable to Covid-19 have increased in recent weeks - the importance of abiding by the government guidance is paramount.***
3. ***Widespread community transmission continues across the borough as a whole – the importance of abiding by the government guidance is paramount.***

**Background:**

- The 'Walsall Covid-19 dashboard' is a two sided dashboard refreshed weekly (usually on a Tuesday) to provide timely data and can be sourced on the WalsallCouncil website [HERE](#) and clicking on the dashboard link
- Its purpose is to offer a brief overview for the Walsall borough and includes:

***Potential symptoms and confirmed cases:***

- Trends of positive cases

- Figures on potential symptoms
- Numbers of cases for Walsall and neighbouring Local Authorities
- Rates per 100,000 population for Walsall and neighbouring Local Authorities

*Mortality: distribution and incidence:*

- A map of deaths by Middle Super Output Area at a point in time (MSOA – a Census defined geography with a similar number of people and households. There are 39 MSOAs in Walsall).
  - Charts presenting deaths over time and where they are occurring – ‘care home’ or ‘hospital’
  - Peak mortality comparator across the region.
- There are also contact details highlighted for the Health Protection Team who, along with other Public Health staff and some provider staff, cover the on call phone line / email from 8am until 8pm, 7 days per week.  
[Walsall.healthprotection@nhs.net](mailto:Walsall.healthprotection@nhs.net) 01922 658065
  - Comments and feedback are welcome from users of the dashboard, and further amendments/tweaks will be made to ensure the intended audience get the most from it.

#### 4. Conclusion

Continue to utilise the ‘Walsall Covid-19 dashboard’ on a regular basis to help gauge the latest situation, and feedback suggestions for possible future improvements.

#### Background papers

The following data sources have been used to collate the dashboard:

[PHE Coronavirus Tracker](#)

[NHS Digital](#)

[ONS Weekly Registered Deaths](#)

## Local Outbreak Engagement Board

03 December 2020

### Flu and COVID19 Vaccination Update

#### 1. Purpose

This report is an update on the flu vaccination and plans for COVID vaccination in Walsall.

#### 2. Recommendations

- 2.1 That, subject to any comments Board Members may wish to make, the update report on flu and COVID vaccination in Walsall be noted.

#### 3. Report detail

- 3.1 The flu vaccination in Walsall continues to be delivered to schedule. The current uptake of flu vaccination is available in Appendix A.

The key developments have been summarised below.

#### Flu vaccination

- Relative to the corresponding period of last year, Influenza vaccination in the over 65's is approximately 10% higher this year. However, it should be noted that the vaccination campaign commenced earlier this year.
- Vaccination of pregnant women who are not otherwise at clinical risk, and in pregnant women overall is lower this year than at this time last year. However, uptake in pregnant women who are also at clinical risk is higher than in the 2019/20 season ending October.
- Flu vaccination has been actively promoted to the residents and staff in care homes.
- Plans are in place for offering flu vaccination to homeless people in the near future.

## **COVID Vaccination**

- Plans are being drawn up for the roll out of the COVID vaccines in the near future.
- It is likely that the vaccination will be made available in phases; the first phase is likely to prioritise the elderly and vulnerable groups and health care workers. There are approximately 91,000 eligible people in Walsall who will be offered vaccine in Phase 1.
- A 13 week programme of vaccination is being drawn up and will commence in early to mid-December to offer vaccine to phase 1.
- Potential sites are being explored for mass vaccination and community sites (PODs). In addition, vaccination will also be offered from the acute hospital for healthcare workers.
- There are plans to develop a model for roving delivery of vaccination to people who are homebound or in care homes.
- A programme of communications and engagement with the public to promote the uptake of the COVID 19 vaccine and combat vaccine hesitancy is underway.

**Appendix A**  
**Influenza Vaccine Statistics for Target Groups in Walsall.**

Table 2: Uptake in Adult Target Groups:

| <b>% Uptake Ending Oct 2020</b> |                             |                                            |                                                  |                                              |                             |
|---------------------------------|-----------------------------|--------------------------------------------|--------------------------------------------------|----------------------------------------------|-----------------------------|
| <b>65 and over</b>              | <b>65 and over: At-Risk</b> | <b>16 years to under 65 years: At-risk</b> | <b>Pregnant and NOT IN a clinical risk group</b> | <b>Pregnant and IN a clinical risk group</b> | <b>Total Pregnant Women</b> |
| <b>68.4</b>                     | <b>72.3</b>                 | <b>35.8</b>                                | <b>18.4</b>                                      | <b>38.4</b>                                  | <b>20.7</b>                 |

The table above illustrates the uptake of Influenza vaccine by key target groups in Walsall.

Nationally, these figures stand at:

**72.9%** in 65+ year olds

**37.8 %** in under 65 at clinical risk

**30.8%** in pregnant women

Table 3: Uptake in Adult Target Groups in comparative period last season

| <b>% Uptake ending October 2019</b> |                                            |                                                  |                                              |                             |
|-------------------------------------|--------------------------------------------|--------------------------------------------------|----------------------------------------------|-----------------------------|
| <b>65 and over</b>                  | <b>16 years to under 65 years: At-risk</b> | <b>Pregnant and NOT IN a clinical risk group</b> | <b>Pregnant and IN a clinical risk group</b> | <b>Total Pregnant Women</b> |
| <b>58.6</b>                         | <b>28.8</b>                                | <b>25.5</b>                                      | <b>34.4</b>                                  | <b>26.4</b>                 |

Relative to the corresponding period of last year, Influenza vaccination in the over 65's is approximately 10% higher this year. However, it should be noted that the vaccination campaign commenced earlier this year.

Vaccination of pregnant women who are not otherwise at clinical risk, and in pregnant women overall is lower this year than at this time last year. However, uptake in pregnant women who are also at clinical risk is higher than in the 2019/20 season ending October.

This year, preschool children (ages 2-3) and all primary school-aged children are being offered the vaccine. Uptake data are not comparable with the corresponding period of the 2019/20 season due to the changed eligibility criteria.

Table 3: Uptake in Child Target Groups:

| <b>% Uptake ending October 2020</b>                |                                               |
|----------------------------------------------------|-----------------------------------------------|
| <b>Aged 2 years to 10 years<br/>- All Patients</b> | <b>Aged 2 years to 10 years<br/>- At Risk</b> |
| <b>7.9</b>                                         | <b>13.9</b>                                   |

National child uptake data will be available at the end of November to enable comparison with national average and regional neighbours.

## **Local Outbreak Engagement Board**

**03 December 2020**

### **Local Outbreak Management Plan Update**

#### **1. Purpose**

This report is the performance report of the Local Outbreak Management Plan.

#### **2. Recommendations**

- 2.1 That, subject to any comments Board Members may wish to make, the performance report of the Local Outbreak Management Plan be noted.

#### **3. Report detail**

- 3.1 The Coronavirus Outbreak Management Plan continues to be delivered to schedule. The details are available in Appendix A.

The key developments have been summarised below against the themes within the plan.

#### **Preventing Outbreaks and responding proactively**

- The public health on call team continues to respond to an extremely high number of enquiries; we have seen a 5 fold increase in enquiries since the summer. The complexity of the enquiries has also increased since the summer.
- The capacity of the public health on call team continues to be increased to meet demand; the Walsall school nursing team is also supporting the on call response.
- We are continuing to engage with schools proactively; we also respond to about 120 requests for help from schools every week.
- We have initiated proactive engagement with parents.

#### **Testing and contact tracing**

- The contact tracing team continues to work with COVID positive clients who have escalated to Walsall Public Health from the National Test and Trace system; they have identified and prevented several outbreaks as a result.
- The capacity of the contact tracing team is being increased to meet demand; we are initiating welfare checks for COVID positive cases to support them to self-isolate.
- Plans are being developed to roll out mass testing in the near future.
- Plans are also being developed for a coronavirus vaccination programme.

### **Surveillance and data**

- The public health intelligence team reviews data at the neighbourhood level on a daily basis.
- We are working with Walsall Healthcare Trust to review data on COVID positive admissions.

### **Engaging Partners and communities**

- Compliance with self-isolation advice appears to have dropped; we are stepping up engagement with communities to combat this through the newly appointed COVID champions and are recruiting voluntary sector partners to support this initiative.
- The council continues to support local businesses to understand and comply with COVID guidelines

### **Governance and Programme Co-ordination**

- Walsall continues to hold place based Incident Management Team meetings to engage with partners across the borough. Two sub cells have been set up to address
  - Mental wellbeing
  - Communications

## Local Outbreak Engagement Board

03 December 2020

### Test, Trace and Isolate Update

#### 1. Purpose

This report is an update on the Test, Trace and Isolate initiative in Walsall.

#### 2. Recommendations

- 2.1 That, subject to any comments Board Members may wish to make, the update report on the Test, trace and Isolate initiative in Walsall be noted.

#### 3. Report detail

- 3.1 The Test, trace and Isolate work in Walsall continues to be delivered to schedule. The details are available in Appendix A.

The key developments have been summarised below.

#### Testing for Coronavirus

- Uptake of PCR testing continues to match regional and national levels
- Testing uptake continues to be somewhat lower in younger age groups, men and BAME groups but active communication messaging continues to promote the benefits and importance of testing.
- There continue to be three operational Local Testing Sites at Walsall Town Hall, Darlaston Community Centre and the University of Wolverhampton.
- The Mobile Testing Unit continues at Wakes Ground Car Park in Willenhall and has the most activity to date.
- Plans are being drawn up for the roll out of lateral flow testing. It is anticipated 10k tests per week will be available to begin with, increasing to 28k and a targeted approach will be adopted across the region focusing first on core workers and the vulnerable.

## **Contact Tracing**

- Contact tracing in Walsall on the 9<sup>th</sup> of September. They have contact traced about 1400 individuals to date; at present they trace about 25 individuals a day.
- Walsall council continues to offer local contact tracing to support the national programme for those cases where the National programme has failed to make contact; they have identified and prevented several outbreaks as a result.
  - Wedding at a private residence resulting in 40 positive cases
  - Cases linked to a nursing home
  - Cases admitted to hospitals
- The team have been successful in contacting previously uncontactable people by tracking down their correct contact details.
- The capacity of the contact tracing team is being increased to meet demand and maximise the number of people who are traced.
- The contact tracing team have initiated welfare checks for COVID positive cases midway through the isolation period to support them to self-isolate.

## **Support for self-isolation**

## Appendix A

### Coronavirus Testing in Walsall

Persons tested and cases diagnosed per 100,000 population and positivity per week in Walsall, West Midlands and England (5<sup>th</sup> May 2020 to 13<sup>th</sup> November 2020).

PHE data shows that cases are rising at a faster pace than England & the West Midlands, whilst testing numbers per 100,000 population remain comparable. Positivity for Walsall although greater than both regionally and nationally, does appear to have plateaued.

## Contact tracing data

**Contacts by exposure/activity setting and current contact tracing outcome in Walsall (May 28 2020 to November 17 2020)** *Data has been collected by NHS Track & Trace (NTAT)*

*Unknown exposure: data on exposure/activity setting has not been provided. Uncontactable cases: insufficient contact details provided to contact the person. Failed contact tracing: contact tracing team attempted but did not succeed in contacting an individual*
