

Local Outbreak Engagement Board

03 December 2020

Local Outbreak Management Plan Update

1. Purpose

This report is the performance report of the Local Outbreak Management Plan.

2. Recommendations

- 2.1 That, subject to any comments Board Members may wish to make, the performance report of the Local Outbreak Management Plan be noted.

3. Report detail

- 3.1 The Coronavirus Outbreak Management Plan continues to be delivered to schedule. The details are available in Appendix A.

The key developments have been summarised below against the themes within the plan.

Preventing Outbreaks and responding proactively

- The public health on call team continues to respond to an extremely high number of enquiries; we have seen a 5 fold increase in enquiries since the summer. The complexity of the enquiries has also increased since the summer.
- The capacity of the public health on call team continues to be increased to meet demand; the Walsall school nursing team is also supporting the on call response.
- We are continuing to engage with schools proactively; we also respond to about 120 requests for help from schools every week.
- We have initiated proactive engagement with parents.

Testing and contact tracing

- The contact tracing team continues to work with COVID positive clients who have escalated to Walsall Public Health from the National Test and Trace system; they have identified and prevented several outbreaks as a result.
- The capacity of the contact tracing team is being increased to meet demand; we are initiating welfare checks for COVID positive cases to support them to self-isolate.
- Plans are being developed to roll out mass testing in the near future.
- Plans are also being developed for a coronavirus vaccination programme.

Surveillance and data

- The public health intelligence team reviews data at the neighbourhood level on a daily basis.
- We are working with Walsall Healthcare Trust to review data on COVID positive admissions.

Engaging Partners and communities

- Compliance with self-isolation advice appears to have dropped; we are stepping up engagement with communities to combat this through the newly appointed COVID champions and are recruiting voluntary sector partners to support this initiative.
- The council continues to support local businesses to understand and comply with COVID guidelines

Governance and Programme Co-ordination

- Walsall continues to hold place based Incident Management Team meetings to engage with partners across the borough. Two sub cells have been set up to address
 - Mental wellbeing
 - Communications

Appendix A

Test, Trace and Isolate Action Plan Update

Throughout our activities, we will strive to include Inequalities Reduction learning into our approaches. Decisions will be recorded on Action Log, include data, evidence base, community engagement and learning from national sources.

Key

Complete	
On track	
Delayed with mitigations	
Not started	

1. Prevent Outbreaks and Respond Proactively

	BRAG Status	Completion Date
Schools		
Guidance developed and disseminated	100%	Complete
Engagement Activities, webinars and Heads meetings carried out – primary, secondary, nurseries and childminders, school cleaning teams, school transport. - Children’s Services Summer Activities and children’s residential homes	Ongoing	Live
Modelling PPE requirements for LA maintained schools	100%	Complete
