

## Special Audit Committee – 26 June 2008

### Statement of Account 2007/08: Pre-Audit

#### Summary of report

This report presents the Statement of Accounts, subject to external audit, for the financial year 2007/08 in accordance with the Accounts & Audit Regulations 2003, as amended 2006.

#### Recommendations

1. Approve the pre-audit Statement of Accounts attached at Appendix 1 in order that they may be placed on deposit for public inspection for 20 working days commencing 24.07.08.
2. Note that the Statement of Accounts will be submitted for external audit on 27.06.08, following approval by Audit Committee.
3. Note **Appendix 1** for detailed slides relating to analysing the accounts

**James Walsh – CFO**

**25 June 2008**

#### Governance

Councils must produce annual accounts in line with the Account & Audit Regulations 2003, as amended 2006 and in a timely fashion on an annual basis.

As at 31.03.08 the draft statement of accounts shows aggregate general fund services (including earmarked reserves) to have an overall surplus of £0.831m against a budget of £212.924m. This has resulted in net general reserves of £7.776m as at 31.03.08. These figures are subject to external audit and may require routine adjustments. The audit of the Authority's accounts commences on 02.07.08 and is expected to be completed by mid August.

Under s10 of the Accounts & Audit Regulations 2003 as amended 2006, a draft statement of accounts must be approved by a resolution of a committee of the Council prior to the document being placed on deposit for public inspection and has to be signed and dated by the person presiding at the committee giving approval.

Under s16 of the Audit Commission Act 1998 the Authority's external auditor will be available for one day from 9.00am on 21.08.08 for any local government elector or their representative to question him about the accounts or make any objections. The statement of accounts will therefore be available for inspection for the period 24.07.08

to 20.08.08 inclusive. A public notice to this will shortly be placed in the local newspapers.

## **Contents of the statement**

### 1.1 The explanatory forward

This explains the most significant matters reported in the accounts. It provides an overview of the statement and comments on any major influences on the council's income, expenditure and cashflow. An explanation of the contents of the document is included, describing their purpose and relationship between the various sections. Total expenditure and income is also summarised and compared with budget.

### 1.2 The statement of responsibilities

This section describes the council's responsibilities for the statement under local government legislation and other requirements. It also outlines the Chief Financial Officer's legal and professional responsibility for the accounts.

### 1.3 The annual governance statement

The Accounts & Audit Regulations 2003 as amended 2006 require the Council to publish a statement detailing compliance with the local code of corporate governance and its effectiveness over the financial year. This statement is wide ranging and includes the level of assurance provided by the local code on corporate governance, the main features of the corporate governance arrangements, financial management and arrangements for the management of risk. In addition the authority must conduct an annual review of the effectiveness of its system of internal control including the system of internal audit.

### 1.4 The financial statements

This section details the main accounts the council maintains as follows:

#### 1.4.1 The income and expenditure account

This shows the detail of the Authority's revenue costs for 2007/08 compared with 2006/07. The summary income and expenditure account is displayed under four separate sections: net cost of services; net operating expenditure; amounts to be met by Government and local taxpayers; and the net surplus or deficit for the year.

#### 1.4.2 Statement of movement on the general fund balance (SMGFB)

The income and expenditure account shows the council's actual financial performance for the year. The authority is required to raise council tax on a difference accounting basis. As such this reconciliation statement summarises differences between the outturn on the income and expenditure account and general fund balance.

#### 1.4.3 The balance sheet

This shows the council's assets, liabilities and other balances as at 31.03.08. These figures include all the authority's activities except the pension fund, trust funds and similar funds administered by third parties. A series of notes to the balance sheet explain capital expenditure and disposals, leasing and capital financing.

#### 1.4.4 Statement of total recognised gains and losses (STRGL)

This statement brings together all the gains and losses of the council for the year and shows the aggregate increase in its net worth. In addition to the surplus generated on the income and expenditure account, it includes gains and losses relating to the revaluation of fixed assets and re-measurement of the net liability to cover the costs of retirement benefits.

#### 1.4.5 The cashflow statement

This shows the movement of cash into and out of the Authority throughout the year.

#### 1.5 The collection fund

This statement summarises the council's transactions relating to council tax, national non-domestic rates and precepts.

#### 1.6 Other financial accounts - trusts and scholarships

This relates to gifts and bequests made to and held or administered by the authority. These are accounted for separately from the council's income and expenditure account and balance sheet.

#### 1.7 The statement of accounting policies

This lists all significant accounting policies including that the accounts have been prepared according to CIPFA's Code of Practice and relevant Statements of Recommended Practice (SORPs).

#### 1.8 Glossary of terms

This section provides explanations of the terms used throughout the statement of accounts.

### **Resource and legal considerations**

The reparation of annual accounts and allied audit issues comprises a major aspect of the finance service plan each year and is budgeted for, as is the respective external audit fee.

## **Performance management and risk management issues**

The 2007/08 outturn provides a sound, stable financial foundation to effect service delivery and continue to drive service improvement. As part of the council's performance management system, managers are set many targets, one of which is to deliver their service targets within the cash limited budget. This has been demonstrated overall in 2007/08, although some services did overspend.

## **Equality implications**

Improving ease of understanding of the accounts is intended to make the annual statement of accounts more readily accessible to the general public. The accounts will be available, on request in different formats, for example, hard copy, soft copy via the web site, Braille and in different languages.

## **Consultation**

The report is prepared in consultation with various managers and executive directors.

## **Background papers**

Various financial working papers, statutory and other guidance.

## **Author**

# Statement of Accounts

**2007/08**

**Subject to Audit**

**Walsall Council**

## **Approval of the accounts**

Section 10 of the Accounts and Audit Regulations 2003, amended 2006 requires that the Statement of Accounts be approved by a resolution of a committee of the council and signed by the chair of the said committee.

Section 3(12) of the council's constitution delegates this power to the Audit Committee. A special meeting of this committee was held 26 June 2008 and the pre-audit draft Statement of Accounts for 2007/08 were received and approved.

**Signed:**.....

**Dated:** 26 June 2008

**Councillor D Turner**  
Chair, Audit Committee

## Section 1 Explanatory Foreword

### 1. Introduction

These accounts set out the financial results of Walsall Council's activities for the year ended 31 March 2008. The council manages its affairs to ensure the economic, efficient and effective use of resources and to safeguard its assets. This is vital if the council is to continue to play a leading role in the life of Walsall and provide high quality services for the benefit of all its citizens. The task is shared by all members and officers under the leadership of the cabinet and corporate management team. The chief financial officer has a particular role in ensuring financial stewardship.

This statement of accounts is prepared in accordance with the CIPFA Code of Practice on Local Authority Accounting which requires that the accounts present fairly the financial position of the council. Suitable accounting policies have been employed and applied consistently. Where necessary, prudent judgements and estimates have been made which comply with the Code. The council keeps proper and up to date accounting records, maintains effective internal control and risk management systems and takes reasonable steps for the prevention and detection of fraud and other irregularities.

This section aims to explain the main information in the statement of accounts and give an overview of the council's financial performance.

### 2. Reporting requirements for the 2007/08 accounts

The Statement of Recommended Practice (SORP 2007) is issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) and is statute imposed. This year includes some major changes to local authority financial statements. These changes are intended to make the financial statements easier to read and bring them more in line with practices in the private sector, enabling taxpayers to gain a greater understanding of council finances. These changes include:

- The introduction of a revaluation reserve
- The loss of the capital financing account and fixed asset restatement account, being replaced by a capital adjustment account
- Introduction of the new financial reporting standards (FRS) for financial instruments, FRS25 – Financial Instruments: Presentation and Disclosures, FRS26 – Financial Instruments: Recognition and Measurements, FRS29 – Financial Instruments: Disclosures.

The above changes have no effect on the net budget requirement or council tax.

These changes are not required to be applied retrospectively. Therefore these changes have only been applied from 1 April 2007 onwards.

To ensure comparatives are meaningful as required under FRS 28 *Corresponding Amounts*, presentational changes have taken place within the 2007/08 accounts. These changes do not affect council tax or general fund balances. These changes are presentational within the main financial statements. They became necessary after analysis linked with SORP 2007. The principal amendments relate to earmarked reserves, Government grants unapplied and capital adjustment account (including capital financing account and fixed asset restatement account).

### 3. Explanation of the statements

This statement of accounts summarises the council's finances for the financial year 2007/08 (1 April 2007 to 31 March 2008). The statement includes the following information:

#### **Income and expenditure account (page 29)**

This statement reports the net cost for the year of all functions for which the council are responsible. It also details how this has been financed from council tax, national non-domestic rates and general Government grants. This statement is in line with accounting practices employed in the private sector. These practices are covered by UK Generally Accepted Accounting Practices (UK GAAP), the financial framework for accounting.

#### **Statement of movement on the general fund balance (page 30)**

This statement shows items of income and expenditure that are defined by legislation, as being required in calculating the council tax requirement, but cannot be included in the income and expenditure account if this is to remain UK GAAP compliant. It also shows the council's general fund balances at year end.

#### **Statement of total recognised gains and losses (STRGL) (page 32)**

This statement reports gains and losses that are not reflected in the income and expenditure account. It includes movements on revaluations of fixed assets and pension fund assets and liabilities.

#### **Balance sheet (page 33)**

This statement is a snapshot of the council's financial position as at 31 March 2008. It shows the council's assets, liabilities, balances and reserves at that date. Assets include land and buildings, investments and monies owed to the council. Liabilities include money owed to creditors and long term loans.

#### **Cashflow statement (page 35)**

The cashflow statement summarises the total cash movements during the year for revenue and capital purposes.

#### **Notes to the core financial statements (page 36)**

These notes provide additional information to assist in the understanding of the income and expenditure account, statement of movement on the general fund balance, balance sheet, statement of total recognised gains and losses and cashflow statement.

#### **Collection fund and associated notes (page 75)**

This account reflects the statutory requirement for billing authorities to maintain a separate collection fund that collates all the transactions relating to a billing authority's national non domestic rates and council tax. The account demonstrates how resources have been distributed to precepting authorities and to the council's own general fund.

#### **Trust and scholarship accounts (page 79)**

These accounts reflect the activities during the year on gifts and bequests made to, held or administered by the council.

#### **Statement of accounting policies (page 81)**

This section explains the main accounting policies the council has used to produce the figures in the accounts. The general principles are those recommended by the Chartered Institute of Public

Finance and Accountancy (CIPFA). They ensure accounts from different public sector organisations are consistent and comparable.

#### 4. An overview of the council's financial performance in 2007/08

During 2007/08 the Audit Commission rated all authorities in the country through a Comprehensive Performance Assessment (CPA). Walsall Council was rated a 3 star authority (CPA rates authorities from zero to four stars). The council scored 3 out of 4 for its Use of Resources, including a score of 4 for financial standing – a key element of the CPA. The council's performance improvement agenda is detailed in the sustainable community strategy and the council's corporate plan.

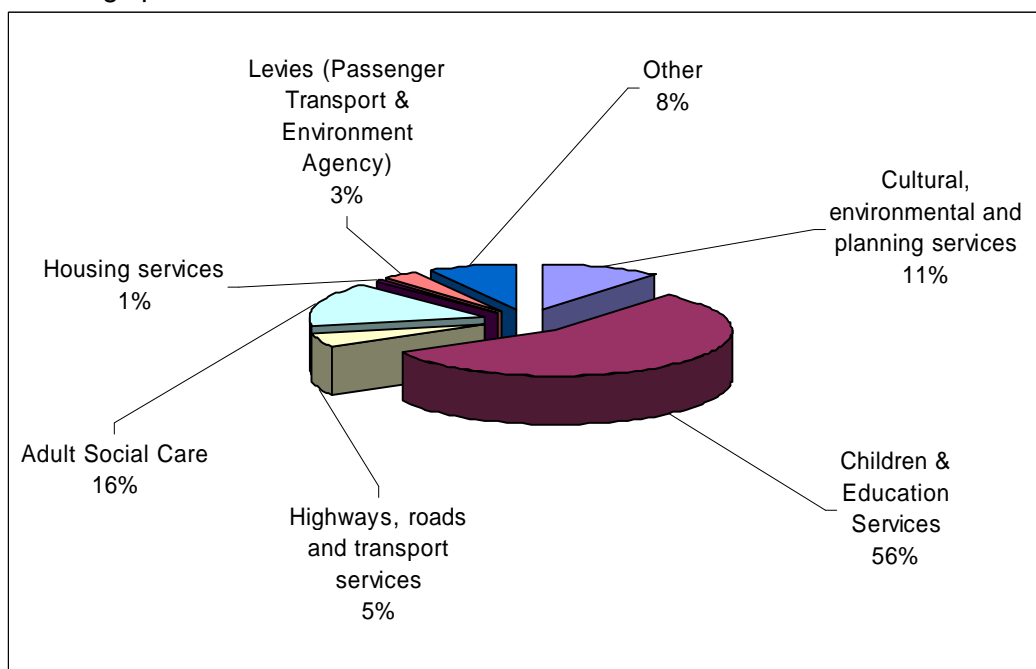

Council expenditure is divided into two broad categories: revenue and capital. Revenue is day to day spending on items such as salaries and wages, purchase of equipment, services and materials, and the heating and lighting of premises. Capital expenditure relates to the purchase of major items such as land and buildings, and the construction of essential infrastructure such as roads.

##### Revenue expenditure

On 26 February 2007 council approved a net budget of £212.924 million (including levies) representing an increase of 4.4%, equivalent to £8.946 million of additional net expenditure over 2006/07 (£203.978 million).

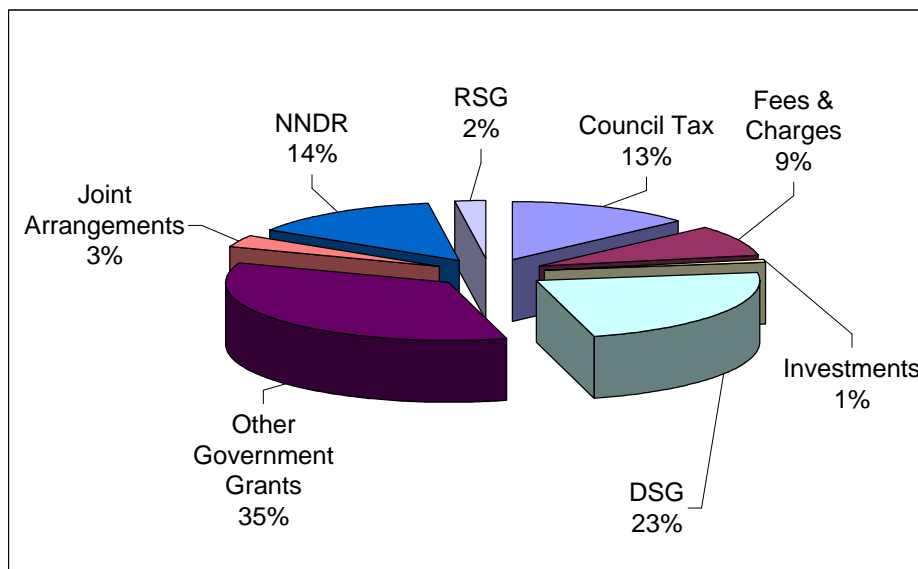

The total net expenditure for services prior to statutory adjustments is shown on the income and expenditure accounts. This shows that there was a deficit of £29.471 million for 2007/08. After statutory adjustments, such as the removal of depreciation, impairments and FRS17 entries in relation to pensions costs are applied the council shows an overall surplus for the general fund of £0.831 million for the year. This comprises of a net service under spend of £0.756m, after the transfer of earmarked reserves, plus a movement of £0.075m for amounts held for specific purposes no longer required. This gives a general fund balance of £7.776 million.

This total net expenditure for the council can be split between different services as is displayed in the pie chart below. This shows that 50% of the council's expenditure is on education with a further 24% being spent on social care.

**Walsall Council  
Statement of Accounts 2007/08**

This expenditure is funded by Government grants (including dedicated schools grant), fees and charges, joint arrangements and council tax. The split of these sources of funding is displayed in the pie chart below.

**Dedicated schools grant**

The dedicated schools grant (DSG) is funding from the Department for Children, Schools and Families (DCSF) for the sole purpose of providing an education service. The total grant received by Walsall Council in 2007/08 was £166.212 million (£156.923 million in 2006/07).

**Reserves and balances**

Overall during 2007/08 there was a net contribution to general fund revenue reserves of £0.831 million against a planned deduction of £0.961 million. The balance on the general fund at the end of 2007/08 stands at £7.776 million (£6.945 million in 2006/07). The table below summarises the surplus or deficit in the year for the council's general fund and collection fund.

	2006/07 Deficit/(Surplus) £m	2007/08 Deficit/(Surplus) £m
General Fund (see page 30)	(1.685)	(0.831)
Collection Fund (see page 75)	(0.945)	0.361

**Capital expenditure**

The council continues to have a successful approach to maximising external funding and has made match funding arrangements to a range of capital schemes completed in partnership with external bodies.

The council spent £52.154 million on capital expenditure in 2007/08, compared with the budgeted spend of £66.820 million. The following table provides details of capital expenditure during 2007/08.

Capital	Budget £m	Actual £m	Variance £m
Mainstream projects funded by supported borrowing and capital receipts	24.478	21.439	3.039
Prudential projects	7.755	3.469	4.286
Non mainstream projects funded by grants	34.587	27.246	7.341
<b>Total</b>	<b>66.820</b>	<b>52.154</b>	<b>14.666</b>

The table below summarises how capital expenditure was split over different assets. It also details how this expenditure was financed. Further details are given in note 18 page 49.

<b>Capital expenditure</b>	<b>2007/08</b>	<b>Capital financing</b>	<b>2007/08</b>
<b>Type of asset</b>	<b>£m</b>	<b>source</b>	<b>£m</b>
Other land and buildings	15.530	Borrowing	10.313
Vehicles and equipment	2.607	Prudential borrowing	12.844
Infrastructure	14.571	Capital receipts	1.605
Community assets	0.649	Capital grants and contributions	28.607
Non operational assets	9.994	Revenue	(0.207)
Other capital outlay	0.000	Capital expenditure awaiting reimbursement	(1.008)
<b>Total capital expenditure re fixed assets</b>	<b>43.351</b>	<b>Total capital financing</b>	<b>52.154</b>
Intangible assets	0.001		
Deferred charges	8.802		
<b>Total capital expenditure</b>	<b>52.154</b>	<b>Total capital financing</b>	<b>52.154</b>

Deferred charges arise when capital expenditure is incurred on assets not owned by the council and which therefore cannot be added to the council's asset register and balance sheet. Examples are grants made to owner occupiers of private houses to carry out improvements. This expenditure is charged to revenue with a corresponding release from the capital adjustment account to ensure there is no impact on council tax.

### **Treasury management**

Walsall Council has a successful treasury management strategy that has continued to maximise investment income and minimise interest payments without undue or inappropriate exposure to financial risk.

At 31 March 2008 the council's external long term borrowing was £263.409 million (£247.869 million on 31 March 2007). Of this, £27.865 million represents debt owed to Dudley MBC for the former West Midlands County Council debt. Walsall Council's consolidated rate of interest for 2007/08 was 4.62% (4.4% in 2006/07).

During 2007/08 the council received £6.066 million (£3.848 million in 2006/07) of investment income. This was at an average rate of 5.87% (4.91% in 2006/07). This is in addition to £1.297 million (£1.484 million in 2006/07) interest income from other sources.

The significant increase in the rate of return for investments is due to the council's sound treasury management during a period of volatility in the money markets. This followed the American sub-prime mortgage crisis in September, highlighted by the public problems of Northern Rock.

### **Partnerships**

The council transferred the provision of schools related local education authority (LEA) services to an external organisation, Education Walsall, in December 2002. The council however continues to be the LEA. The original contract came up for renewal and following a tender exercise Education Walsall was awarded the contract to provide these services commencing on 1 August 2008. The length of this contract is for 12 years.

The council currently has two Private Finance Initiative schemes (PFIs) in operation. A public lighting PFI in partnership with Amey Highways has replaced most of the street lights in the borough. Amey are now in a 25 year period during which they will maintain the street lighting on

**Walsall Council**  
**Statement of Accounts 2007/08**

the council's behalf ending 2028. This initiative is funded by a contribution from the council's revenue budget and a special grant from central Government. Further details of this PFI can be found in the street lighting strategy "Lighting up Walsall" available on the Walsall Council website ([www.walsall.gov.uk/lightingup\\_walsall.pdf](http://www.walsall.gov.uk/lightingup_walsall.pdf)).

Another PFI relates to St Thomas More School. The contractor has designed and built the school and will finance and operate it over a 25 year period ending 2029. This initiative is funded by a contribution from the school's governing body, Department for Children, Schools and Families (DCSF) grant, a contribution from the Diocese and a special grant from central Government.

**Pensions accounting**

Walsall Council participates in the West Midlands Metropolitan Authorities Pension Fund which is administered by Wolverhampton City Council. In 2003/04 the introduction of FRS17 – retirement benefits – changed the way local authorities account for pension costs. The result of this change is that there is a shortfall of £290.519 million as 31 March 2008 (£207.485 million at 31 March 2007) between the forecast cost of future pensions and the value of the assets currently within the pension fund. The forecast pension payments will be paid out over a period of many years during which time the assets will continue to generate returns towards funding them. In addition future changes in the equity market will also adjust the value of the fund assets.

## Section 2 Statement of Responsibilities

### Walsall Council's responsibilities

Under the Accounts and Audit Regulations 2003 as amended by the Accounts and Audit (Amendment) Regulations 2006, the audit committee is required to approve the statement of accounts. The chief financial officer (CFO) has a duty to make arrangements for the proper administration of the council's financial affairs, to ensure economic, efficient and effective use of its resources and to safeguard its assets.

### The chief financial officer's responsibilities

Walsall Council's chief financial officer is James T Walsh. This officer is responsible for the administration of the council's financial affairs including the preparation of the statement of accounts. The purpose of the statement of accounts is to show in financial terms the performance of the council during the year and to present fairly the financial position as at 31 March 2008.

In preparing the statement, the chief financial officer has:

- Adopted and consistently applied suitable accounting policies
- Made reasonable and prudent judgements and estimates
- Complied with legislative requirements and the Statement of Recommended Practice (SORP 2007) on Local Government Accounting in Great Britain
- Applied the accounting concept of a "going concern" by assuming that the authority's services will continue to operate for the foreseeable future

In addition, proper and up to date accounting records have been maintained and reasonable precautions taken to prevent and detect fraud and other financial irregularities.

### Certification by the chief financial officer

I certify that the statement of accounts presents fairly the position of Walsall Metropolitan Borough Council as at 31 March 2008, and its income and expenditure for the year ended 31 March 2008.

James T. Walsh ACMA  
Chief Financial Officer  
June 2008

## Section 3

# Annual Governance Statement 2007/08

### 1. Scope of responsibility

This statement is given in respect of the 2007/08 statement of accounts for Walsall Council. Walsall Council is responsible for ensuring that its business is conducted in accordance with the laws and proper standards, and that public money is safeguarded and properly accounted for, and used economically, effectively and efficiently. Walsall Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, Walsall Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and includes arrangements for the management of risk.

Walsall has approved and adopted a Code of Governance, which is consistent with the principles of the CIPFA/SOLACE Framework *Delivering Good Governance in Local Government*. A copy of the code is on our website or can be obtained from the Monitoring Officer or Chief Finance Officer. This statement explains how Walsall Council has complied with the code and also meets the requirement of regulation 4(2) of the Accounts and Audit Regulations 2003, as amended by the Accounts and Audit (Amendment) (England) Regulations 2006 in relation to the publication of a statement on internal control.

### 2. The purpose of the Governance Framework

The governance framework comprises the systems and processes, and culture and values, by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether these objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of Walsall Council's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at Walsall Council for the year ended 31 March 2008 and up to the date of approval of the annual report and statement of accounts.

### 3. The Governance Framework

The Council acknowledges its responsibilities in ensuring the following key elements of the governance arrangements including the system of internal control are in place and this statement provides further information on how it achieves this, including:

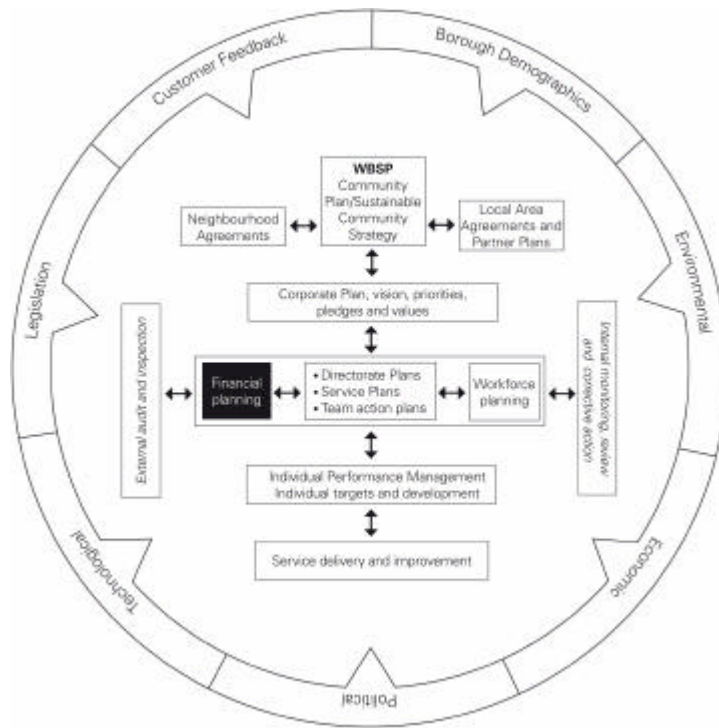

- Identifying and communicating the authority's vision and intended outcomes for citizens and service users, reviewing the vision and its implications for the authority's governance arrangements

- Establishing and monitoring the achievement of the Authority's objectives, including measuring the quality of services for users
- Establishing clear channels of communication with the community and stakeholders, ensuring accountability and open consultation
- The facilitation of policy and decision making;
- Ensuring compliance with established policies, procedures, laws and regulation, including how risk assessment is embedded in the activity of the Authority, how leadership is given to the risk management process, and how staff are trained or equipped to manage risk in a way appropriate to their authority and duties;
- Defining and documenting the roles and responsibilities of the executive, non-executive, scrutiny and officer functions of the council;
- Developing, communicating and embedding codes of conduct and defining standards of behaviour
- Undertaking the core functions of an Audit Committee;
- Whistleblowing and receiving and investigating complaints from the public
- Identifying and supporting development needs of members and senior officers
- Financial management of the Authority and its reporting;
- Ensuring the economical, effective and efficient use of resources and for securing continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness;
- Performance management of the Authority and the reporting of performance management;
- Incorporating good governance arrangements in respect of partnerships and other group working.

The internal control environment and governance framework is an integral part of the Council's corporate integrated planning and performance framework (CIPPF).

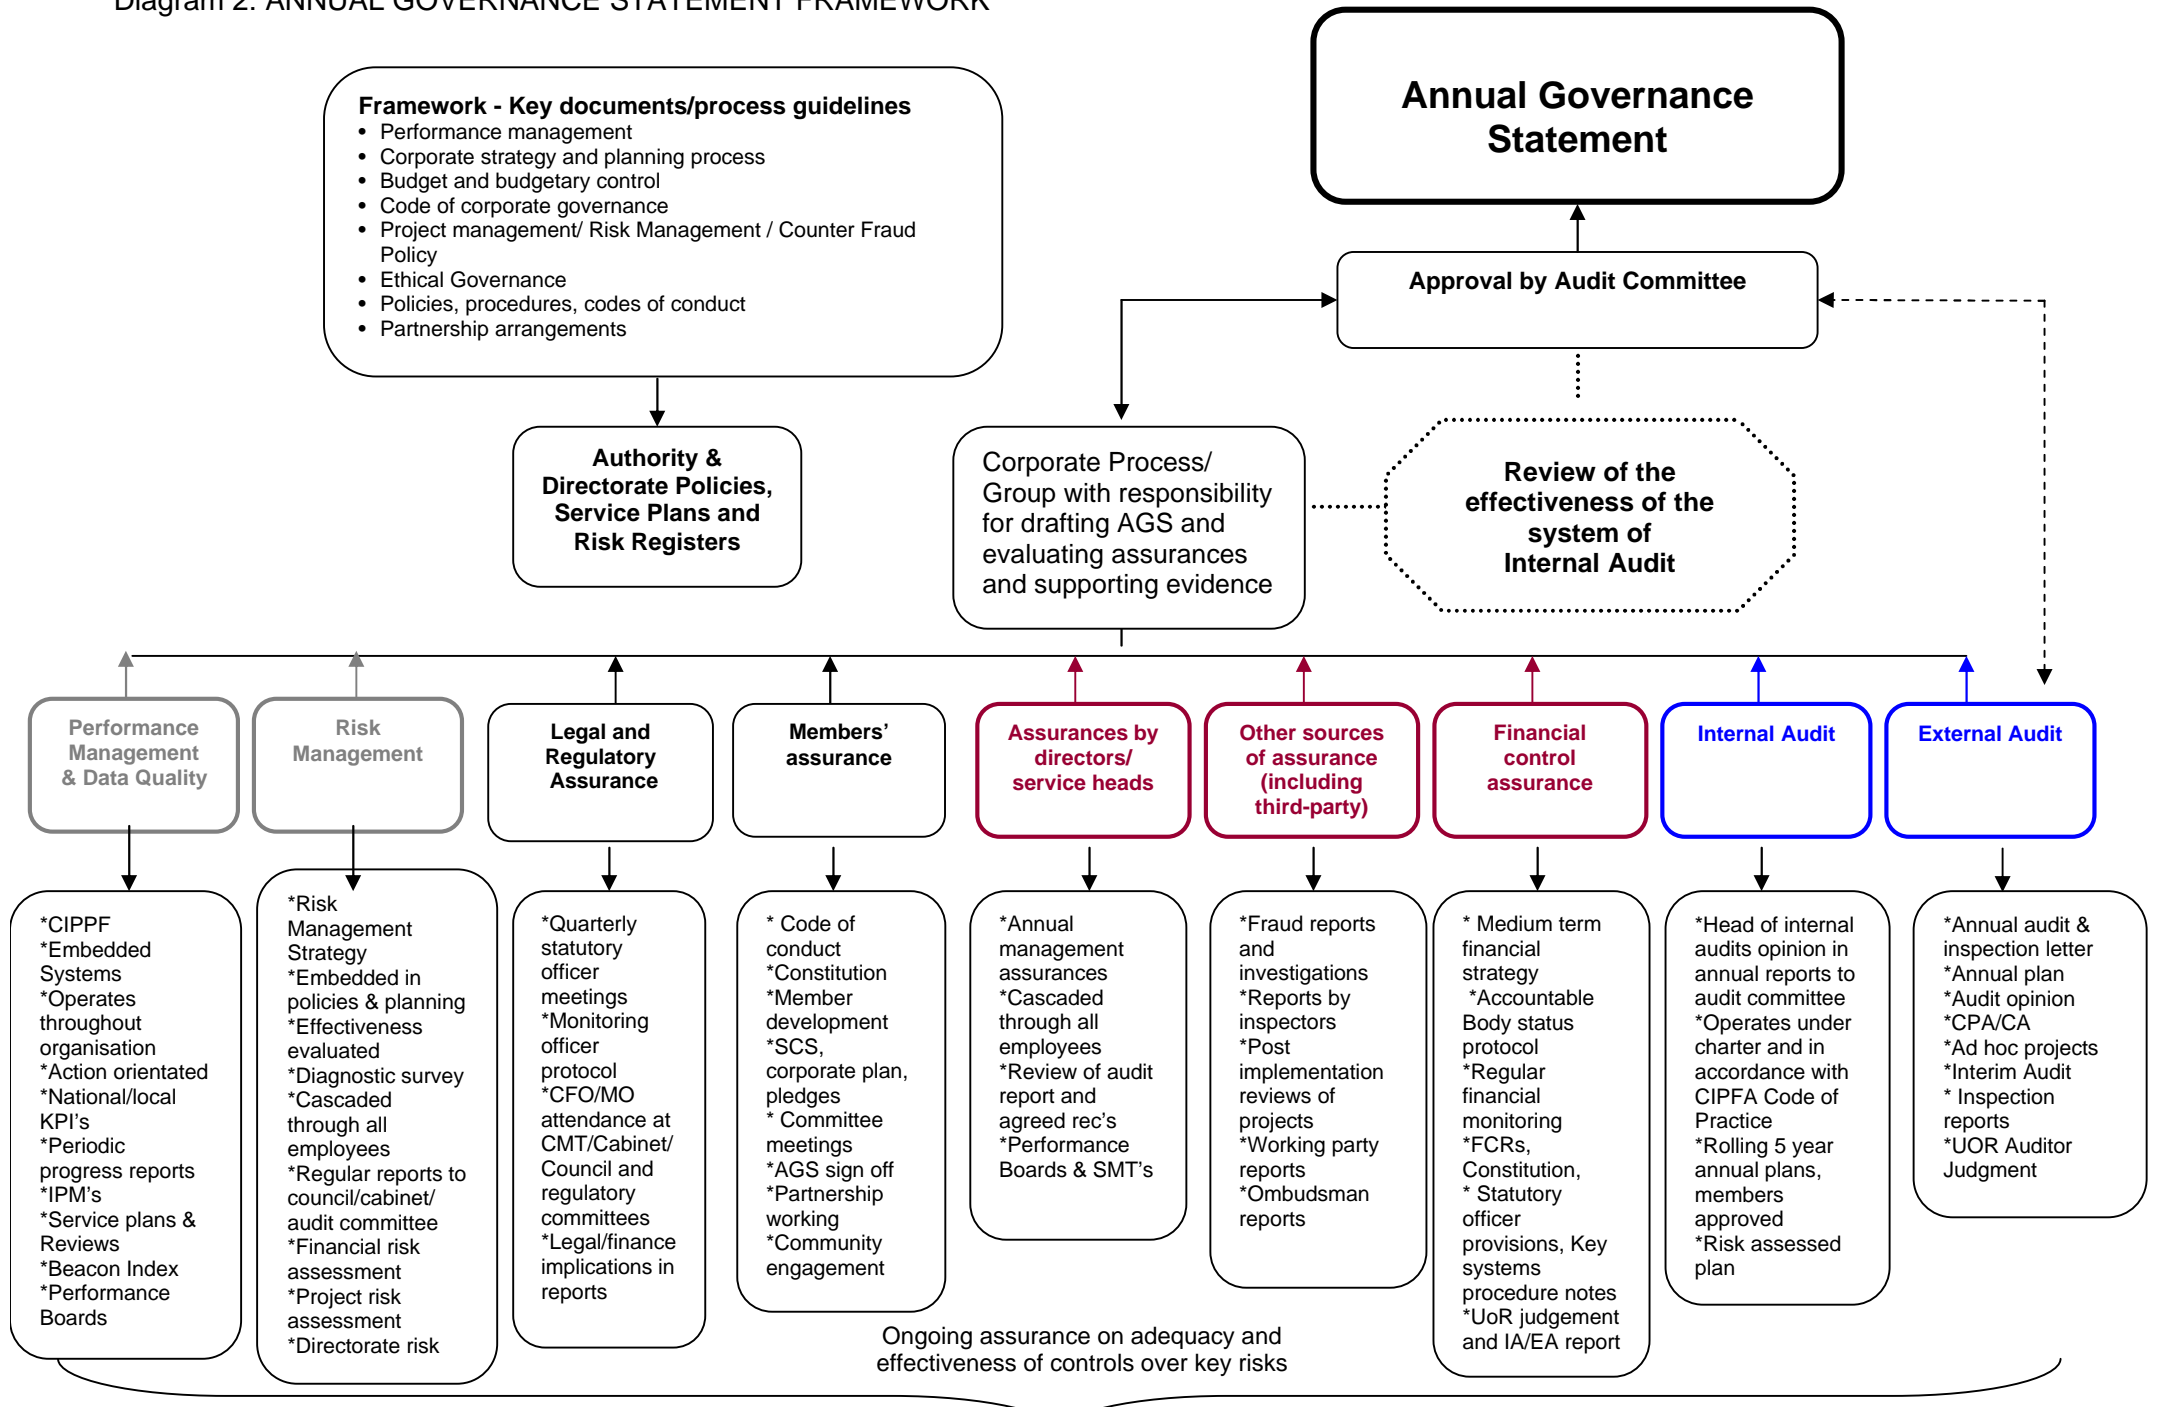

The CIPPF (diagram 1 overleaf) comprising financial, performance, risk, communication and political management processes shows how services are designed, delivered, measured and performance managed, and shows how services and activities are regularly measured and monitored to enable effective decision making, helping to ensure the Council delivers efficient, customer focussed services that provide value for money.

Diagram 1: The CIPPF

The governance framework consists of regular management information, financial and contract rules, established financial, budgetary, personnel and other procedures, a performance management framework, community and corporate planning, management supervision in accordance with the corporate individual performance management (IPM) framework, a comprehensive risk management strategy and process, project management methodology and a system of officer and member delegation and accountability and codes of conduct. Diagram 2 shows the overall governance framework which is discussed in more detail in this section.

Diagram 2: ANNUAL GOVERNANCE STATEMENT FRAMEWORK

The council acknowledges its responsibility for ensuring that effective governance arrangements, including an effective system of internal control (including financial control), are maintained and operated in connection with the resources concerned. Any system of internal control, including internal financial control can provide only reasonable and not absolute assurance that assets are safeguarded, that transactions are authorised and properly recorded, and that material errors or irregularities are either prevented or would be detected within a timely period. Development and maintenance of the system is undertaken by managers within the Council.

In particular, the system includes the following key elements:

- A sustainable community strategy, setting out ambition, objectives and priorities of the council and key partners, developed following extensive consultation with the community and stakeholders. – linked to corporate and service plans.
- A comprehensive risk management strategy and framework, operating at both strategic and operational levels;
- A risk assessed Internal Audit programme which is planned in advance to cover all major systems of internal control and which is based on a risk assessment of key systems and controls;
- A comprehensive financial strategy, including budget management and control framework, supported by financial procedures and guidelines underpinning sound financial management, reporting and standing;
- An approved Constitution, including financial and contract rules and a scheme of delegations and decision making processes of the council;
- Clear targets to measure financial and other performance through a comprehensive performance management framework, linked to service plans and the corporate plan;
- The preparation of regular performance and financial reports to managers, executive directors, Corporate Management Team (CMT) and elected members which indicate actual expenditure against targets and highlight remedial action, where required;
- Clearly defined capital expenditure strategy and guidelines;
- Project management principles adopted as the methodology for all projects, requiring all projects to be managed using the same underlying principles and regular reporting of progress to CMT and directorate performance boards;
- Continued use of an accountable body status protocol in relation to partnership working to ensure that activities are administered consistently and robustly across the Council;
- Regular performance boards which receive, consider and assess service plans, PIs, financial planning and project management processes to influence and drive continuous improvement;
- Clear HR and other policies and procedures, including Codes of Conduct (member and officer), whistle blowing policy and an anti-fraud and anti-corruption policy and strategy;
- Standards Committee, Audit Committee, scrutiny function and other regulatory committees;
- Member and officer development strategy and individual development planning processes;
- Statutory Monitoring and Chief Finance Officers ensuring the council operates within existing legislation and statutory guidance;
- Comprehensive communication and consultation arrangements both internally and externally;
- Lead member for risk management;

There are a number of key elements of the governance framework and internal control environment which ensures the Council is able to monitor and manage the achievement of its objectives. These are included in the Council's published overarching strategies and plans including; the sustainable community strategy; the corporate plan; the Beacon Index; medium term financial strategy, corporate budget plan, capital strategy, risk management strategy and directorate strategy documents.

These documents set out the Council priorities, vision and key pledges. They are supported by directorate, service and team plans, which contain detailed targets and performance indicators to support the achievement of Council objectives. A comprehensive performance management framework exists which operates throughout the Council, and performance is reported to senior management teams through the established performance boards model, CMT, Cabinet, and to relevant scrutiny and performance panels on a regular planned basis.

The Council's commitment to continuous improvement is evidenced in our latest Corporate Assessment outcome (CA). The Council recognises that it cannot achieve this without community and partner engagement. It is committed to working with partners through the Walsall Borough Strategic Partnership (our Local Strategic Partnership), and with the community and partners, through the established Local Neighbourhood Partnerships.

The Council's constitution was revised during 2006/07 and sets out how the Authority operates and refers to required procedures to be followed to ensure all activity is transparent and accountable to the local community. This includes a scheme of delegation and contract and financial rules, which set out the control environment in which the Council operates.

A key aspect of the system of internal control is the identification of key risks to the organisation and key controls needed to mitigate these risks. Comprehensive, embedded and effective performance and risk management arrangements are fundamental to demonstrating good governance.

The Council has an established comprehensive risk management framework, designed to identify, evaluate, manage and where possible, mitigate, risks to the Council in delivering its objectives. There is an ongoing programme of reporting and review of both strategic and operational risks, and this extends to an assessment of risks in service planning, financial planning and major projects and partnerships.

Strategic risks are identified, evaluated, incorporated into a corporate risk register and reported on a quarterly basis to senior management and CMT. This includes risk management action plans produced for each key strategic risk. Cabinet also receives reports on risk management. The risk management strategy is reviewed annually by Cabinet and is subject to examination by the Audit Committee as part of its established regulatory activities. Audit Committee have their own risk register and receive regular reviews on this.

Each directorate has identified directorate risks and work continues to ensure that the management action plans arising from these take proper account of the balance of risk and resources to ensure that appropriate and proportionate action is put in place. Service plans include a risk management section. Financial risks are assessed regularly and as part of the annual budget process and regular reporting of the financial position. A corporate financial risk assessment informs the medium term financial strategy and the level and appropriateness of general and other reserves. Each directorate has a risk champion and all individual posts are risk assessed within the Council and are subject to annual review. Risk workshops are held to ensure risk champions and those involved in the assessment and management of risk are appropriately trained. An elected member has lead responsibility for risk management.

Arrangements for the provision of Internal Audit are contained within the Council's constitution. The Council, via its statutory Chief Finance Officer (CFO) must ensure that there is an adequate and effective system of Internal Audit of the Council's accounting records and of its systems of internal control as required by the Accounts and Audit Regulations 2003, as amended in 2006.

The Constitution states that:

- The Chief Internal Auditor has the right to report directly to the Chief Executive, Executive Directors and elected members when this is appropriate, as well as routinely reporting to the CFO and operational managers;
- Internal Audit operates in accordance with the CIPFA Code of Practice for Internal Audit in Local Government in the United Kingdom under the day-to-day control of the Chief Internal Auditor who acts independently;
- The Internal Audit service plans and prioritises its work through a combination of assessment and review of the Council's service provision, corporate governance arrangements, risk management processes and key internal control systems, supplemented by a programme of fraud and irregularity/consultancy work and scheduled visits to Council establishments;
- The annual work plan is endorsed by CMT and the Audit Committee. Reports, including an assessment of the adequacy of control and action plans to address weaknesses, are submitted promptly to Executive Directors, senior managers, school heads and chairs of governors as appropriate. Quarterly progress reports are submitted to the Council's Audit Committee for review purposes;
- The Chief Internal Auditor is required to report annually on his opinion in respect of the overall adequacy and effectiveness of the Council's internal control environment.

A comprehensive system of performance monitoring and reporting is in place at service management, executive management and member level. This includes regular reports to scrutiny and performance panels and Cabinet. Regular reports are also presented to senior management and CMT using the performance board model. A corrective action planning process is in place for all indicators not achieving target and progress is continually monitored.

Executive Directors and Assistant Directors are required to provide an annual assurance statement that the governance framework and internal controls are operating effectively with their directorates, are subject to review, and where control weaknesses are identified, to put in place remedial action in a timely manner, and as agreed with audit.

The Audit Committee receives reports on the implementation of agreed internal and external audit recommendations/actions, and on risk management and seeks to ensure agreed recommendations are actioned and managed within directorates. The Committee has a regulatory function in respect of the system of internal control and its effectiveness and the work of the Committee includes the review of the statement of internal control and its approval.

#### **4. Review of Effectiveness**

Walsall Council (via Audit Committee) has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of the effectiveness is informed by the work of the executive managers within the authority who have responsibility for the development and maintenance of the governance environment, the Chief Internal Auditor's annual report, and also by comments made by the external auditors and other review agencies and inspectorates.

The process that has been applied in maintaining and reviewing the effectiveness of the governance framework is set out below.

Cabinet, CMT and senior officers monitor the effectiveness of the governance framework through receiving regular monitoring reports on performance management, financial management and risk management, including progress against key objectives and targets and corrective action planning; the overall financial position; updates on performance in relation to management of key risks to the organisation; and receive regular reports via Audit Committee on the internal control mechanisms in place and their effectiveness. In addition, CMT, the Leader and elected members, via the Audit Committee formally consider and approve the AGS annually. Executive and assistant directors each provide an assurance statement that the governance framework and

internal controls were operating effectively in 2007/08, were subject to review and where there were significant internal control issues, these were being rectified.

The review of the effectiveness of the system of internal control is informed by the work of the Chief Internal Auditor and his annual report on the overall adequacies of the internal control environment. In respect of the 2007/08 financial year, the following opinion has been given by the Chief Internal Auditor;

*“In my opinion, formed solely on the basis of the work undertaken by Internal Audit and its partner organisation in 2007/08, and the positive action taken and confirmed as having been taken, by managers to implement agreed actions, Walsall Council’s overall system of internal control facilitates the effective exercise of the Council’s functions and provides a satisfactory level of assurance regarding the effective, efficient and economic exercise of the Council’s functions.*

*Control weaknesses were identified during the 2007/08 financial year and were reported as such to the relevant managers. The opinion as to the level of assurance that can be placed on the system of internal control is based on evidence provided by managers to auditors confirming that they had implemented or agreed to implement agreed report action plans in the areas for which they are responsible.”*

During 2007/08 audit reviews were undertaken of the key financial systems and also other financial and non financial systems and processes that contribute to the Council’s overall corporate governance arrangements. In addition, fraud and irregularity work was undertaken by the Internal Audit service during the year. None of the cases were material in the context of the statement of internal control. Internal Audit have acknowledged that the Council’s key financial systems are operating satisfactorily.

Further detail on control weaknesses are identified in section 5.

The Accounts and Audit (Amendment) Regulations 2006, introduced in 2006/07 a new requirement for the Council to conduct a review of the effectiveness of its system of Internal Audit.

A self-assessment document was produced by the Chief Internal Auditor in respect of the effectiveness of Internal Audit, assessed against the CIPFA Code of Internal Audit Practice and recent CIPFA guidance. The self-assessment and supporting evidence was reviewed independently by senior officers. The system of Internal Audit was assessed as satisfactory overall.

The effectiveness can further be evidenced by the:

- External auditors’ annual review of Internal Audit work to ensure that work can be relied upon (which will be reported to Audit Committee on 23 June 2008);
- Quality assurance controls put in place by the Chief Internal Auditor and his managers, in managing and delivering the Internal Audit service in accordance with the CIPFA code of practice and including such areas as discussion/agreement to the risk based audit plan and carrying out/reporting upon the audit review;
- The role of the Audit Committee in endorsing Internal Audit’s work plan and in their regular review and scrutiny of audit performance and;
- The regular review of Internal Audit work by the CFO including meetings with the Chief Internal Auditor;
- The monthly corporate services performance boards which review performance of directorate activity (including Internal Audit);
- A high performance and achievement level against targets, including a 96% delivery of the annual audit plan in 2007/08;
- High level of satisfaction received from auditees based on satisfaction surveys returned following completion of each audit assignment.

The Audit Commission undertook a comprehensive review of the Internal Audit service during 2006/07 and 2007/08. Their report concludes, amongst others, that the audit service is staffed with appropriately experienced and qualified officers and work is of a good standard. The Audit Commission is able to place reliance on Internal Audit work which is directly relevant to their Code of Audit Practice responsibilities. Some areas for improvement were noted and recommendations made. These issues had however, previously been identified by Internal Audit during their recent self assessment exercise undertaken as part of annual review of the effectiveness of the system of Internal Audit, a requirement under the Accounts and Audit (Amendment) Regulations 2006.

Audit Committee has a regulatory role in terms of receiving reports on the effectiveness of the system of internal control through receipt and consideration of Internal Audit quarterly reports and a sample of completed audit reports are selected for further detailed review and scrutiny. In addition, Internal Audit has a 5 year strategic risk assessed plan which has been endorsed by CMT and Audit Committee.

The functions of the Standards Committee are determined by statute and the Constitution. Standards Committee have a role in ensuring and promoting good ethical conduct. A revised Member Code of Conduct was received and approved by Standards Committee in 2007/08 and a new process introduced in October 2007 reporting on complaints against members.

The Constitution clearly sets out the role of officers and members, including the three statutory posts of the chief finance officer (S151 officer), head of paid service and monitoring officer. In 2007/8, quarterly statutory officer's meetings were introduced to review and oversee and ensure statutory provisions are being adhered to.

The Council recognised the need to formalise its arrangements with a variety of 'partner' bodies where it is classed as the 'accountable body'. Accountability agreements have been developed and are in operation, for a number of these, such as New Deal, tPCT, Walsall Town Centre Partnership and a WBSM Memorandum of Agreement. This ensures all parties to each arrangement are clear about their respective responsibilities so that services can be planned and delivered in a cost effective way which continues to ensure good governance arrangements. The Audit Commission in the Corporate Assessment (CA) 2008 highlighted key partnership working as a strength, with some areas for improvement in terms of working with the voluntary/community section. The Council has recognised and put in place arrangements, via a Partnership Governance Group to address the need to strengthen its governance arrangements in respect of partnerships. The group is due to present a partnership toolkit in 2008/09.

The review of effectiveness is also informed and evidenced by the following;

- The current CPA score of 3 and "improving well" (maximum score is 4) for Walsall.
- Corporate assessment 2008 - which praised the council for strong community engagement, priority setting, financial, risk and performance management arrangements.
  - *"Improvement trends in PIs compare well with others"*
  - The beacon index quarterly report *"provides a good overview of corporate performance"*
  - *"Good financial management and planning"*.
  - *"There is a sustained focus on VFM"*.
  - Further the GT interim audit highlighted *"financial reporting is an area of strength"*.
  - *"Public satisfaction has increased"*
- In addition, CA 2008 reported that *"there is clarity among both officers and councillors about respective roles and responsibilities, enabling effective leadership"* and *"Investment in the capacity of councillors is effective."* In addition, take up of training is high.

- The overall use of resources (UoR) score of 3 out of 4 (based on a more challenging criteria than the previous year), which focuses on financial management but also links to the strategic management of the Authority.
- The council's arrangements in respect of performance and risk management have been identified as robust.
- A maximum score of 4 for the category of risk management within the overall UoR rating for both 2006 and 2007. The UoR auditors' judgement 2007/08 stated *"The council is particularly strong in managing its significant business risks"*.
- A maximum score of 4 for the category of financial standing for both 2006 and 2007.
- The Council has continued to be assessed as "improving well" in the annual direction of travel assessment.
- The work of the Council's external auditors with the June 2008 Annual Audit and Inspection letter, including the provision of an unqualified opinion on both the 2006/7 accounts and the Council's use of resources (value for money).
- The Interim Audit June 2008 also states that *"High level controls operating at the council are adequate, with few deficiencies noted."*
- CSCI and Supporting People Inspections in 2007/08 which highlighted underperformance in adult social care and supporting people provision. *"Improvements in Adults SC have been identified but implementation of plans to address these is recent although some PIs are now showing improvement."* *"Council has identified under performance prior to the (supporting people) inspection and has responded to outcomes with a robust improvement plan"*. Robust action plans are in place which are being managed and reported.
- Data quality arrangements were scored as 3 (good).

Some governance and control weaknesses were identified by external audit/inspections, including the need for further improvements in the management of payroll processes, grant claims, the need to prioritise a disaster recovery/business continuity plan in ICT, improving voluntary sector infrastructure and relationships to improve capacity to contribute to delivery, improved and more consistent scrutiny, more effective management of sickness absence and concerns about the capacity for the council to deliver its objectives because ICT Legal and HR support is underdeveloped..

In addition the district auditor's report on the employment tribunal found that some of the council's arrangements for managing its staff and complying with legislation did not operate effectively. There were some weaknesses in the procedures and some procedures were not applied. However he also indicated that there was no evidence of widespread failures in the council's governance arrangements (see below).

A review of managers assurance statements identified an unplanned late overspend position was reported which has led to a review of use of codes and I-proc in that area and action being taken to ensure full compliance in the future.

The Council has introduced a Local Code of Governance which was approved by Audit Committee on 3 April 2008 and Standards Committee on 16 June 2008. Work is in hand to embed this over the next financial year. Review of the Code against the CIPFA/SOLACE framework (Appendix 4) highlighted some areas of omission (partnership protocol and need for awareness training).

The review of effectiveness also covered the work undertaken in 2007/08 to address the significant control weaknesses identified in the 2006/07 SIC including:

- 1) Payroll and personnel system – significant progress has been made on implementing internal audit recommendations, and significant assurance has now been obtained, although there remain some areas of weakness to be addressed.

- 2) Sure Start grant schemes - further work followed by a follow up audit report submitted to Audit Committee in April 2008. Problems with sure start claims were reported, but "these were significantly fewer than issues raised in previous years and officers have clearly taken action to address many of the problems previously identified" and are no longer classed as significant.
- 3) The District Auditor was concluding the investigation into the Peter Francis employment tribunal case at the point of writing the 2006/07 statement. The report was considered by Council on 27 September 2007 and an action plan agreed which has been substantially implemented. The action plan covered improvements in procedures, guidance and training on employment law, DDA, HR procedures, a member protocol, further publication of the whistle blowing policy, introduction of statutory officers meetings quarterly, a review of the grievance policy, etc. The action plan was led by an ED.

We have been advised on the implications of the result of the review of the effectiveness of the governance arrangement by the Audit Committee, and a plan to address weaknesses and ensure continuous improvement of the system is in place.

## **5. Significant Governance Issues**

The Council acknowledges that the identification, analysis and management of risks for the delivery of the Council's objectives are key to maintaining an effective system of internal control. It is also recognised that there remains a further need to fully embed the internal control procedures across the organisation.

The officers who drafted this AGS, evaluated assurances and supporting evidence, concluded the effectiveness of the governance framework, including the system of internal control is satisfactory overall.

The work above identified that although in most audit assignments the processes examined were generally working satisfactorily, system weaknesses were identified in some services including local area agreements, coroner service, mental health and learning disability teams, primary schools, contractors final accounts/system work and computer reviews. A number of high priority suggested improvements were made during the year to address control weaknesses and all were agreed for implementation by managers.

An area of weakness specifically mentioned in the AGS relates to final contractor accounts. 12 accounts were reviewed and 6 were given a limited or no assurance rating opinion and considered to have been poorly managed. Suggestions for improvement were agreed by managers.

Five contract systems were also reviewed, including a single review of payments to 30 major creditors, and of these reviews three were given an overall limited rating opinion. Many of the problems encountered are historical and relevant managers are actively addressing system improvements with the assistance of procurement, ICT, legal and internal audit officers.

Whilst internal and external audit has indicated that there are adequate IT controls in place overall, limited assurance opinions were reported for ICT change management, acquisition and disposal of information assets, IT governance and Oracle CRM. Managers have agreed report actions, and indicated that actions have been or will be implemented by agreed deadlines.

The Interim Audit report (June 2008) highlights that the target for implementation of Internal Audit's recommendations is set at 90%. Performance against this target has been below 80% during the year. Internal Audit has identified instances where recommendations claimed, by service management, to be implemented are, in fact, outstanding. This limits the effectiveness of

the Audit Committee's monitoring of the internal control environment. Further detailed reporting and assurance requirements from senior managers will be presented to Audit Committee during 2008/09 to assist them in fulfilling their governance responsibilities.

Scrutiny was highlighted as making a good contribution in some areas, but further development is needed. Its overall impact is variable and not consistently effective in focusing on underperformance or actively challenging the executive.

Action plans are in place for each of the above control weakness and follow up management and audit action is taken on each. Consultation is progressing with the Scrutiny Working Group on how scrutiny can be more consistently effective.

Executive and assistant directors have further provided assurance that all internal control weaknesses identified have action plans in place, which are being robustly managed and implemented. Assurance follow up will be sought from managers in 2008/09 that these have been addressed and progress will be reported to Audit Committee. Specific areas for improvement are highlighted in the Chief Internal Auditors Annual Report, which have been taken into account as part of this review and will be considered by Audit Committee on 23 June 2008 prior to consideration, review and approval of the Annual Governance Statement.

We propose over the coming year to address the above matters to further enhance our governance arrangement. We are satisfied that these steps will address the needs for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.

<b>(1.814)</b>	<b>30.306</b>	<b>(Surplus) or deficit for the year</b>			<b>29.471</b>

\* Within 2006/07 comparatives there have been adjustments. Walsall Council have re-classified interest payments within the I&E for comparative purposes as covered within FRS 28.

## Statement of movement on the general fund balance (SMGFB)

The income and expenditure account shows the council's actual financial performance over the year, measured in terms of resources consumed and generated over the last twelve months. However the authority is required to raise council tax on a different accounting basis, the main differences being:

- Capital investments are accounted for as they are financed rather than when the fixed assets are consumed
- The payment of a share of housing capital receipts to the Government scores a loss in the income and expenditure account but is met from the usable capital receipts balance rather than council tax
- Retirement benefits are charged as amounts become payable to the pension fund and pensioners, rather than as future benefits are earned.

The movement in general fund balance shows whether the council has over or under spent against the council tax that it raised for the year, taking into account the use of reserves built up in the past and contributions to reserves earmarked for future expenditure.

This reconciliation statement summarises the differences between the outturn on the income and expenditure account and the general fund balance. Further details are provided overleaf.

2006/07			2007/08
Net Expenditure	Restated Net Expenditure*		Net Expenditure
(1.814)	30.306	(Surplus) or deficit from income and expenditure account	29.471

\* 2006/07 comparatives have been amended within the I&E and therefore corresponding entries have been made in the SMGFB in line with FRS28. There is no change to the council's reserves.

## Statement of total recognised gains and losses (STRGL)

This statement brings together all the gains and losses of the council for the year and shows the aggregate increase in its net worth. In addition to the surplus generated on the income and expenditure account, it includes gains and losses relating to the revaluation of fixed assets and re-measurement of the net liability to cover the costs of retirement benefits.

2006/07			2007/08

<b>11.430</b>	<b>26.534</b>	<b>Total recognised (gains) and losses for the year</b>	<b>99.954</b>

\* Other gains and losses under 2006/07 comparisons have been restated in line with comparability as covered under FRS 28. The entries of £15.104m within other gains and losses relate to the establishment of a Government grants unapplied account. The remaining £0.300m relates to adjustments within ear marked reserve balances dating back to 2005/06.

Please see note 38 on page 64 for further details of these movements.

\* Within 2006/07 comparatives there have been adjustments. Walsall Council has re-classified £15.105m to Government grants unapplied account to reflect the unapplied nature of those grants at the balance sheet date. There have been further adjustments under FRS 28, as the nature of the PFI reserve has now been treated as a revenue reserve transferred from capital reserves.

## Cash flow statement

Cash inflow occurs when cash receipts exceed cash payments and cash outflow where cash payments exceed receipts.

## Section 5 Notes to core financial statements

### 1. Prior period adjustments

In order for the council to comply with changes within SORP 2007 a number of adjustments have been made that have impacted on the comparative figures for 2006/07 in the 2007/08 Statement of Accounts. All changes have been made in accordance with FRS28 – Corresponding Amounts. These adjustments are:

- The restating of the STRGL in light of a review of last years accounts
- The movement of capital grants unapplied from net worth to long term liabilities
- The removal of PFI from capital grants to earmarked reserves

In addition to these changes, new accounting policies have been introduced in response to changes introduced by SORP 2007. These changes are:

- The charging of capital expenditure that does not enhance an asset (non-added value) to the income and expenditure account in light of new guidance
- Removal of fixed asset restatement account and capital financing account to be replaced with the capital adjustment account
- Introduction of the revaluation reserve
- Introduction of new requirement from accounting for financial instruments through the incorporation of FRS25, 26 & 29 as discussed in note 47 – financial instruments.

These adjustments are not retrospective with the exception of that for non-added value. This means that the 2006/07 comparatives in the 2007/08 statement of accounts have not been adjusted for the changes other than that for non-added value expenditure.

### 2. Audit costs

In 2007/08 Walsall incurred the following fees for audit and inspection services.

2006/07 £m	Type of fee	2007/08 £m
0.169	Grant claims	0.091
0.088	Inspections	0.050
0.226	Audit of accounts	0.403
0.000	Other work	0.000
<b>0.483</b>	<b>Total</b>	<b>0.544</b>

### 3. Trading account summary

The individual performance of each of the trading accounts included within the income and expenditure account is as follows:

2006/07			2007/08		
(Surplus)/ deficit £m	Restated £m		Income £m	Expenditure £m	(Surplus)/ deficit £m
1.116	1.909	Internal support services	(3.131)	3.612	0.481
(0.084)	(0.084)	Markets	(0.720)	0.636	(0.084)
1.498	1.498	Cleaning and caretaking	(5.423)	6.799	1.376
1.186	1.546	Catering	(2.381)	4.238	1.857
<b>3.716</b>	<b>4.869</b>	<b>Total</b>	<b>(11.655)</b>	<b>15.285</b>	<b>3.630</b>

The comparatives for 2006/07 have been adjusted to take account of the change in SORP for non-added value expenditure.

In order to satisfy the requirements of competition law, recharges for internal work done by trading operations following competition with the private sector have been priced to include a cost of capital recovery. SORP does not permit charges for cost of capital to be debited to trading accounts. As a result, the accounts for markets shows a surplus of £0.084m (£0.084m in 2006/07) that would be reduced to £0.071m (£0.071m in 2006/07) if cost of capital was charged.

#### 4. Dedicated schools grant

The council's expenditure on schools is funded by grant monies provided by Department for Children, Schools and Families, the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the schools budget. The schools budget includes elements for a restricted range of services provided on an authority wide basis and for the Individual Schools Budget (ISB), which is divided into budget shares for each school. Over and under spends on the two elements are required to be accounted for separately. The council has not supplemented the Schools Budget from its own resources this year.

2006/07 comparative figures have been amended from those previously published following consultation with DCSF resulting in schools contingency budget and expenditure moving from ISB expenditure to central expenditure.

Details of the deployment of DSG receivable for 2007/08 are as follows:

2006/07			Schools Budget funded by dedicated schools grant	2007/08		
Central Budget £m	ISB £m	Total £m		Central Budget £m	ISB £m	Total £m
(14.860)	(141.986)	(156.846)	Original grant allocation to schools budget for current year in the council's budget	(17.910)	(149.930)	(167.840)
(0.077)	0.000	(0.077)	Adjustment to finalised grant allocation	1.628	0.000	1.628
<b>(14.937)</b>	<b>(141.986)</b>	<b>(156.923)</b>	<b>DSG receivable in year</b>	<b>(16.282)</b>	<b>(149.930)</b>	<b>(166.212)</b>
14.719	141.016	155.735	Actual expenditure in year	15.338	147.454	162.792
<b>(0.218)</b>	<b>(0.970)</b>	<b>(1.188)</b>	<b>Over/(under) spend in year</b>	<b>(0.944)</b>	<b>(2.476)</b>	<b>(3.420)</b>
0.000	0.000	0.000	Planned top-up funding of ISB from council resources	0.000	0.000	0.000
0.000	0.970	0.970	Use of schools balances brought forward	0.000	2.476	2.476
0.000	0.000	0.000	Over/(under) spend from prior year	(0.218)	0.000	(0.218)
<b>(0.218)</b>	<b>0.000</b>	<b>(0.218)</b>	<b>Over/(under) spend carried forward to next year</b>	<b>(1.162)</b>	<b>0.000</b>	<b>(1.162)</b>

#### 5. Discretionary expenditure

Section 137 of the Local Government Act 1972 as amended allows councils to make contributions to certain charitable funds, not-for-profit bodies providing a public service and mayoral appeals. Financial and legal support given to these bodies amounted to £0.426m (£0.441m in 2006/07).

## 6. Publicity expenditure

As allowed by section 5(i) of the Local Government Act 1986 the council has spent the following on publicity.

2006/07 £m	Publicity	2007/08 £m
0.725	Recruitment advertising	0.630
0.060	Public and legal notices	0.048
0.677	Other advertising and publicity	0.685
<b>1.462</b>	<b>Total</b>	<b>1.363</b>

## 7. Members allowances

The allowances paid to elected members of the council were:

2006/07 £m	Type of allowance	2007/08 £m
0.646	Basic allowances	0.675
0.169	Special responsibility	0.181
<b>0.815</b>	<b>Total</b>	<b>0.856</b>

## 8. Officers Emoluments

The breakdown of employees (including teachers) whose remuneration, excluding pension contributions, during 2007/08 was £50,000 or more in bands of £10,000 is shown below.

2006/07	Remuneration band	2007/08
105	£50,000 - £59,999	147
20	£60,000 - £69,999	49
21	£70,000 - £79,999	19
9	£80,000 - £89,999	11
2	£90,000 - £99,999	7
2	£100,000 - £109,999	1
0	£110,000 - £119,999	1
4	£120,000 - £129,999	3
0	£130,000 - £139,999	0
0	£140,000 - £149,999	0
1	£150,000 - £159,999	0
0	£160,000 - £169,999	1
<b>164</b>	<b>Total</b>	<b>239</b>

## 9. Local Authorities (Goods and Services) Act 1970

Under the Local Authority (Goods and Services) Act 1970 the council is allowed to provide goods and services to other public bodies. Under this Act the council has received income for services supplied as shown in the table below.

2006/07 £m		2007/08 £m
0.017	Beechdale Community Housing Association	0.017
0.026	Starting Point	0.024
0.007	Black Country Connexions	0.006
0.566	Serco/Foundation Schools	0.610
0.001	Black Country Supply Service	0.003
0.352	Walsall Housing Group	0.047
0.102	Walsall Alliance of Tenant Management Organisations	0.102
0.000	Walsall college	0.262
0.000	Dartmouth youth centre	0.014
0.000	Walsall regeneration company	0.001
<b>1.071</b>	<b>Total</b>	<b>1.086</b>

## 10. PFI

The council is currently undertaking two Private Finance Initiative schemes. These are St Thomas More school and public lighting.

### St Thomas More

This PFI reached contractual close in 2001/02. As a result a new secondary school was built in Willenhall. The contractor will operate this school for an anticipated period of 25 years.

The facilities were made available from April 2003. The table below shows the predicted payments to the contractor over the life of the agreement.

Year	£m
2003/04 (year one actual)	1.703
Year 2 to 5 of the agreement	7.635
Year 6 to 10 of the agreement	10.771
Year 11 to 15 of the agreement	12.366
Year 16 to 20 of the agreement	14.196
Year 21 to 25 of the agreement	16.298
<b>Total</b>	<b>62.969</b>

### Public Lighting

The council together with partner Amey Highways has now completed 6 years of a 25-year Public Lighting PFI contract for the replacement and maintenance of the council's lighting stock. The contractor completed the core investment by September 2004. The objective to light the borough in a uniform manner to British and European standards has been achieved. The table overleaf details the predicted payments to the contractor over the life of the agreement.

Year	£m
Year 1 of the agreement	1.827
Year 2 to 5 of the agreement	12.633
Year 6 to 10 of the agreement	21.745
Year 11 to 15 of the agreement	26.230
Year 16 to 20 of the agreement	31.693
Year 21 to 25 of the agreement	47.325
<b>Total</b>	<b>141.453</b>

### Consultancy costs

The council incurs costs relating to the provision of consultancy services to assist in the PFI procurement process. These are treated as revenue expenditure within the year. Details by project are shown in the following table.

2006/07 £m	PFI project	2007/08 £m
0.000	Street Lighting	0.025
<b>0.000</b>	<b>Total</b>	<b>0.025</b>

## 11. Related parties

The SORP requires the disclosure of any material transactions with related bodies that are not disclosed elsewhere in this statement of accounts. Examples of related parties include central Government, local authorities, other public bodies, subsidiary and associated companies, joint venture partners, pension fund and members.

### Central Government

Receipts in respect of revenue support grants and national non-domestic rates are shown on the income and expenditure account (page 29). Other grants that are received by the council are analysed elsewhere in this statement (notes 35 and 36, page 62).

### Local authorities

Please refer to note 9, page 39 within this statement.

### Other public bodies

Precepts are levied on the council by the West Midlands Police Authority and the West Midlands Fire and Civil Defence Authority. A levy is raised against the council by the West Midlands Passenger Transport Executive (WMPTE).

In addition to these precepts and levies the following amounts have been paid over to these organisations:

2006/07 Net Expenditure £m		Income £m	2007/08 Expenditure £m	Net Expenditure £m
0.205	West Midlands Police Authority	(0.158)	0.970	0.812
0.036	West Midlands Fire and Civil Defence Authority	(0.017)	0.072	0.055
0.619	WMPTE	0.000	0.548	0.548
<b>0.860</b>	<b>Total</b>	<b>(0.175)</b>	<b>1.590</b>	<b>1.415</b>

Grants have been made to Walsall tPCT of £0.678m through the Neighbourhood Renewal Fund.

### **Associated companies**

Please refer to note 12, page 41 within this statement.

### **Joint venture partners**

The only partners that can be classified under this heading are the pooled budgets with the local primary care trust. Please refer to note 14, page 43 within this statement.

### **Pension fund**

Please refer to note 32, page 57 within this statement

### **Members**

All members' pecuniary and non-pecuniary interests are open to public inspection required by the Local Government and Housing Act 1989. The register has been examined and records of payments to and receipts from all organisations contained therein have been checked. There were no transactions between the council and organisations detailed in the register. Details of allowances paid to members are shown in note 7 on page 38.

### **Chief officers**

The Local Government Act 1972 details a code of conduct for the disclosure of interests by chief officers. The register has been examined. There were no transactions with the organisations listed.

### **Council officers**

Council officers are required to declare any interests under section 117 of the Local Government Act 1972. The register has been examined and records of payments to and receipts from all organisations contained therein have been checked. The council has made payments to organisations in which officers have an interest of £0.428m and there have been no receipts.

### **Other organisations**

The council has made grants to voluntary organisations amounting to £4.017m. Whilst some individual grants are not of a material value to the council, in certain instances this would represent a significant element of funding to the voluntary organisation without which it would be unable to carry out its activities. In addition to grants to voluntary organisations, grants of £0.525 million have also been made to Education Walsall through the Neighbourhood Renewal Fund.

## **12. Associated company interests and holdings**

### **Birmingham International Airport**

Birmingham Airport Holdings (BAH) was incorporated on 4 February 1997, and commenced trading on 26 March 1997. The BAH group accounts incorporated Birmingham International Airport Ltd, Euro-Hub (Birmingham) Ltd, Birmingham Airport Developments Ltd and First Castle Developments Ltd. The principal activity of the group is the operation and management of Birmingham International Airport and the provision of facilities and services associated to those operations.

The main ordinary shareholders of BAH are the seven West Midlands District Councils who together own 49% of BAH's 320 million ordinary shares of £0.01 each. Walsall Council owns 4.8% of these shares. Airport Group Investments Ltd own 48.25% of ordinary shares with the remaining 2.75% forming an Employee Share Trust. The shareholders agreement provides for the districts to cast their 49% vote at company main board and general meetings in one block. The vote of 75% ordinary shareholders is required for certain major decisions of the company.

**Walsall Council**  
**Statement of Accounts 2007/08**

The districts together own all £15.4m of BAH's 6.31% preference shares (Walsall Council owns £1.53m) which are cumulative and irredeemable.

Airport Group Investments Ltd, a limited company owned by Ontario Teachers' Pension Fund and Australia's Victorian Funds Management Corporation, completed the purchase of the shares of Aer Rianta International (The Irish Airports operator) and Macquarie Airports (UK) No. 2 Ltd, representing 48.25% of BAH's total ordinary shares, in September 2007 for a total of £420m.

The 2007/08 financial extract shown below is from the pre-audit accounts of BAH.

2006/07 £m		2007/08 £m
109.129	Turnover	109.951
254.434	Net assets	263.089
17.068	Profit before taxation	19.717
12.070	Profit after taxation	22.897

To obtain a copy of the latest financial accounts for Birmingham Airport Holdings please contact the airport at the address shown in section 9 page 100.

### 13. Building Control Account

The Building (Local Authority Charges) Regulations 1998 require the disclosure of information regarding the setting of charges for the administration of the building control function. However, certain activities performed by the building control unit cannot be charged for, such as providing general advice and liaising with other statutory authorities. The statement below shows the total cost of operating the building control unit divided between the chargeable and non-chargeable activities.

2006/07			2007/08		
Chargeable £m	Non-chargeable £m	Total £m	Chargeable £m	Non-chargeable £m	Total £m
<b>Expenditure</b>					
0.277	0.110	0.387	0.405	0.115	0.520
0.016	0.005	0.021	0.019	0.006	0.025
0.078	0.013	0.091	0.005	0.010	0.015
0.090	0.070	0.160	0.034	0.035	0.069
<b>0.461</b>	<b>0.198</b>	<b>0.659</b>	<b>0.463</b>	<b>0.166</b>	<b>0.629</b>
<b>Income</b>					
(0.472)	0.000	(0.472)	(0.453)	0.000	(0.453)
0.000	(0.006)	(0.006)	0.000	(0.001)	(0.001)
<b>(0.472)</b>	<b>(0.006)</b>	<b>(0.478)</b>	<b>(0.453)</b>	<b>(0.001)</b>	<b>(0.454)</b>
<b>(0.011)</b>	<b>0.192</b>	<b>0.181</b>	<b>0.010</b>	<b>0.165</b>	<b>0.175</b>

This account must break even over each three-year period. The net position over the three years 2005/06 to 2007/08 was a small deficit of £0.009m. The breakdown of this is shown below.

Year	Outturn £m
2005/06	0.010
2006/07	(0.011)
2007/08 (pre-audit)	0.010
<b>3 year (surplus) / deficit</b>	<b>0.009</b>

## 14. Pooled Budgets

Section 31 of the Health Act 1999 allows partnership arrangements between NHS bodies and local authorities in order to improve and co-ordinate services.

The council, in association with Walsall teaching Primary Care Trust (the tPCT), has established both an integrated health and social care service for adults with learning disabilities, and an integrated community equipment service with pooled fund arrangements. Each partner makes a contribution to a pooled budget with the aim of focusing services and activities for service users. The health and social care service pooled budget shows an underspend of £0.360m in 2007/08 (£0.277m overspend in 2006/07). The integrated community equipment service shows an overspend of £0.918m in 2007/08 (£0.158m overspend in 2006/07). The details for these accounts are as follows:

2006/07 Total £m	Pooled fund memorandum account – integrated health & social care for adults with learning difficulties	Cash £m	2007/08 Grant £m	Total £m
<b>Expenditure</b>				
1.630	Integrated team	1.398	0.300	1.698

## **15. Local Area Agreements and associated local strategic partnerships**

The council is a participant in a local area agreement (LAA). This is a partnership with other public bodies involving the pooling of Government grants to finance work towards jointly agreed objectives for local public services. In 2007/08 the LAA has completed the second year of its three year agreement.

The LAA is the delivery plan for the first three years of the draft Sustainable Community Strategy (SCS). It must contain up to 35 indicators and targets which are agreed with Government.

The indicators are chosen from the National Indicator Set and, therefore, the LAA sits at the heart of the new local performance framework. They provide much greater clarity about the relationship of national and local priorities, a reduction and rationalisation of national performance monitoring, and greater financial flexibility.

Government will measure the Partnership on progress against these targets and potentially reward grant will be paid for success in achieving the basket of LAA indicators.

In Walsall an open and inclusive process has been applied across the Partnership to select 25 indicators which have been put to Government Office West Midlands (GOWM) for agreement. The indicators have been selected on the basis that they:

- have a direct impact on the priorities set out in the draft SCS;
- are cross-cutting;
- and are delivered in partnership

The LAA partners are:

- Aaina Women's Centre
- Accord Housing Association
- Advantage West Midlands
- Ashram Housing Association
- Black Country Chamber of Commerce
- Black Country Consortium
- Breathing Space Ltd
- Bromford Housing Association
- Caldmore Housing Association Limited
- Community Empowerment Partnership Board
- Education & Business Partnership
- Education Walsall
- Government Office for the West Midlands
- Groundwork Black Country
- Health and Social Care Partnership Board
- Heantun Housing Association Limited
- Jobcentre Plus
- Learning & Skills Council
- Local Neighbourhood Partnerships
- Mercian Housing
- Multi Faith Forum
- New Deal For Communities
- SERCO
- St Paul's Enterprises Ltd
- Steps to Work
- Strategic Walsall Borough Partnership (SWBP)

- The Prince's Trust
- The Vine Trust
- University of Wolverhampton
- Walsall College
- Walsall Council
- Walsall Endeavours
- Walsall Football Club
- Walsall Hospitals NHS Trust
- Walsall Housing Group
- Walsall Lifelong Learning Alliance
- Walsall NHS Hospital Trust
- Walsall Primary Care Trust
- Walsall Regeneration Company
- Walsall tPCT
- Walsall Training Providers
- Walsall Voluntary Action
- West Midlands Fire Service
- West Midlands Police
- Walsall Housing Group (WHG)
- Walsall Housing Regeneration Agency (WHRA)

Walsall Council acts as the accountable body for the LAA. This means that the council is responsible for managing the distribution of grant paid by Government Office to the partners involved, but the council does not determine which bodies are due payment. This is determined by the Local Strategic Partnership. The council therefore acts as agent to the partnership and has therefore not recognised the full amount of LAA Grant in its financial statements, only that element which is to be spent by the council in delivering its services.

The total amount of LAA grant for revenue purposes received by the local strategic partnership is £6,692,429 including £128,835 carry forward from 2006/07. In addition to this the council received £1,363,857 LAA grant for capital purposes. This therefore gives total LAA income of £8,056,286. Of this the council received £7,381,931 of this total to fund LAA target based activities led by it's own services including the carry forward from 2006/07.

As accountable body the council is potentially responsible for repaying to the Government any element of grant that is found to have been misused by its partners. Systems are in place for distributing grant that are designed to limit the possibility of this happening. It has not been necessary to recognise any contingent liabilities for possible repayments and no provision has been made for any such eventuality.

## 16. Movement in fixed assets

Movements in the council's tangible operational fixed assets are shown in the following table.

	<b>Operational fixed assets</b>				
	<b>Infra-structure</b>	<b>Land and Buildings</b>	<b>Vehicles, plant and equipment</b>	<b>Community assets</b>	<b>Total</b>
	<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>

Additions	0.420	0.000	1.613	0.000	2.033
Disposals	0.000	(7.220)	0.000	0.000	(7.220)
Restatements	0.000	4.413	0.000	0.000	4.413
Revaluations	0.000	0.003	0.000	0.192	0.195
Expenditure for capital purposes	14.151	15.530	0.994	0.649	31.324
<b>Total movements</b>	<b>14.571</b>	<b>12.726</b>	<b>2.607</b>	<b>0.841</b>	<b>30.745</b>
Depreciation in year	(4.003)	(15.324)	(1.156)	0.000	(20.483)
Impairment due to economic consumption	0.000	(0.296)	0.000	0.000	(0.296)
Impairment not due to economic consumption	(14.151)	(9.855)	(0.994)	(0.649)	(25.649)
<b>Net Book Value as at 31 March 2008</b>	<b>65.156</b>	<b>703.384</b>	<b>4.048</b>	<b>13.950</b>	<b>786.538</b>
<b>Accumulated depreciation as at 31 March 2008</b>	<b>(54.532)</b>	<b>(78.396)</b>	<b>(4.007)</b>	<b>0.000</b>	<b>(136.935)</b>

£13.950m of community assets represents the value of art works being held by the authority in the New Art Gallery (£11.808m), Leather Museum (£0.750m) and Walsall Museum (£1.200m). This year an addition has been made to include the civic regalia (£0.192m).

Movements in the council's tangible non-operational fixed assets are shown in the following table.

### Valuation of fixed assets

The freehold and leasehold properties in the categories other land and buildings, and investment properties have been valued by an internal valuer S D Law MRICS, the council's Estate and Asset Manager, on the following bases in accordance with the Royal Institute of Chartered Surveyors' Appraisal and Valuation Standards. A 5 year rolling programme is in place to update the asset values, and also whenever a permanent material change occurs in value arising from market forces, physical alterations, or a change in categorisation or classification occurs. Not all of the properties are inspected as this is not practicable and is not considered necessary for the purpose of the valuation.

Operational properties, i.e. those used to provide a service, have been valued on the basis of Existing Use Value, or in the case of specialised properties by the depreciated replacement cost method.

Plant and equipment, where appropriate, is included in the valuation of the buildings.

Investment properties have been valued on the basis of market value. Incomplete capital works, valued at cost, are included within assets under construction on the balance sheet; the balances are transferred to the appropriate category on completion of the works. Properties declared surplus to requirements are also included within non-operational assets.

The sources of information and assumptions made in producing the valuations are set out in a valuation report. The definitions of the valuation bases are set out in the RICS Valuation Standards (6<sup>th</sup> edition).

Community assets (e.g. parks) and infrastructure assets (e.g. roads) have not been valued but are included at historic cost, net of depreciation, in accordance with SORP 2007.

Intangible assets such as purchased software licences are included at historic cost and amortised over a reasonable period, usually 5 years.

## 17. Analysis of fixed assets

The analysis of fixed assets specifies assets owned by the Council and reflected in the Balance Sheet, as opposed to services established in buildings that are not included in the Council's asset register. Therefore, 11 Voluntary Aided primary schools and 3 Voluntary Aided secondary schools occupying sites not included within the asset register have been excluded from the current analysis.

Asset	31-Mar-07	31-Mar-08	Asset	31-Mar-07	31-Mar-08

0.241	Direct revenue funding	(0.207)
<b>69.207</b>	<b>Total financing</b>	<b>52.154</b>

The split of this expenditure between services is shown below.

2006/07 £m	Services	2007/08 £m
25.043	Children and young people	17.574
32.644	Regeneration and neighbourhood services	24.798
10.456	Social care and supported housing	9.066
1.064	Corporate services	0.716
<b>69.207</b>	<b>Total financing by service</b>	<b>52.154</b>

The following details the split of expenditure for deferred charges.

2006/07 £m	Deferred Charges	2007/08 £m
8.216	Improvement grants	5.594
1.358	Children and young people	0.762
4.664	Regeneration and neighbourhood services	2.446
<b>14.238</b>	<b>Total</b>	<b>8.802</b>

## 19. Capital contracts

The council has ongoing commitments on capital schemes. These are summarised by directorate below.

2006/07 £m	Services	2007/08 £m
3.709	Children and young people	4.392
12.624	Regeneration and neighbourhood services	5.488
0.577	Social care and supported housing	3.685
0.024	Corporate services	0.224
<b>16.934</b>	<b>Total</b>	<b>13.789</b>

## 20. Operating and Finance Leases

### Operating leases

The council has a number of operating leases for vehicles. These are shown below:

2006/07		Asset leased	2007/08	
Number of assets	Lease charges £m		Number of assets	Lease charges £m
74	0.171	Vans	66	0.164
3	0.061	Cesspit emptiers	3	0.061
66	0.273	Tipper trucks	67	0.255
12	0.065	Minibuses	19	0.061
5	0.017	4x4 vehicles	5	0.013
4	0.006	Saloons/estate cars	4	0.006
6	0.098	Sweepers	15	0.091
34	0.282	Welfare vehicles	28	0.213
11	0.037	Gritters & Gritting bodies	11	0.032
3	0.002	Construction Plant	1	0.003
33	0.460	Refuse collection vehicles	33	0.484
4	0.013	Trailers	19	0.031
2	0.011	Mobile libraries	2	0.013
0	0.000	Agricultural Machinery	4	0.010
2	0.002	Rhino Patcher	2	0.003
0	0.004	Mayoral Car	1	0.009
3	0.005	Tractors	3	0.005
	0.369	Leased equipment		0.283
<b>262</b>	<b>1.876</b>		<b>283</b>	<b>1.737</b>

The committed payments next year for assets on an operational lease are shown in the table below. These are split into those commitments that expire next year, those between the second and fifth years (shown individually) and those longer than five years.

2006/07 Committed payments £m	Year commitment ends	2007/08 Committed payments £m
1.075	2008/09	1.075
0.768	2009/10	1.031
0.378	2010/11	0.378
0.000	2011/12	0.038
0.000	2012/13	0.000
0.000	2013/14 or later	0.000
<b>2.221</b>		<b>2.522</b>

### Finance leases

The council effectively holds a leisure centre at Oak Park under a finance lease. The council anticipates paying an annual peppercorn rental of £1 per annum.

The following table is an analysis of assets and lease charges held under finance leases.

2006/07		Asset leased	2007/08	
Number of assets	Lease charges £m		Number of assets	Lease charges £m
0	0.000	Leisure centre	1	0.000
<b>0</b>	<b>0.000</b>		<b>1</b>	<b>0.000</b>

The book values and depreciation for finance leases are as follows;

	Finance Leases (Buildings) £m	Total £m
Gross book value	0.000	0.000
Accumulated depreciation as at 31 March 2007	0.000	0.000
<b>Net book value as at 31 March 2007</b>	<b>0.000</b>	<b>0.000</b>
Movements in 2007/08		
Additions	0.000	0.000
Depreciation	0.000	0.000
<b>Total movements</b>	<b>0.000</b>	<b>0.000</b>
<b>Net book value as at 31 March 2008</b>	<b>0.000</b>	<b>0.000</b>

The authority has no obligations under finance leases;

2006/07 Committed payments £m	Year commitment ends	2007/08 Committed payments £m
0.000	2008/09	0.000
0.000	2009/10	0.000
0.000	2010/11	0.000
0.000	2011/12	0.000
0.000	2012/13	0.000
0.000	2013/14 or later	0.000
<b>0.000</b>		<b>0.000</b>

During 2007/08 the council has not taken out any additional finance leases.

## 21. Net assets employed

This table outlines how the net assets of the authority, excluding pensions and collection fund, are utilised in the provision of its services split between core functions and foundation schools.

2006/07 £m	Restated £m		2007/08 £m
519.560	504.455	General fund	489.676
108.783	108.783	Foundation schools	107.881
<b>628.343</b>	<b>613.238</b>	<b>Total</b>	<b>597.557</b>

## 22. Long term debtors

These represent the amounts owing to the council which are being repaid over various periods longer than one year.

2006/07 £m		2007/08 £m
0.132	Other local authorities	0.124
1.726	Probation	1.664
9.021	Waste disposal co-ordination	8.861
0.392	Mortgages	0.302
0.038	Other long term loans – employee car loans	0.000
<b>11.309</b>	<b>Total</b>	<b>10.951</b>

## 23. Stock and work in progress

The table shows the value of stock and work in progress held by the authority to assist in the delivery of its services

2006/07 £m		2007/08 £m
	<b>Stock</b>	
0.008	Disinfestation stores	0.010
0.029	Reprographics	0.020
0.011	Small tools and plant	0.010
0.001	Stationery	0.004
0.152	Trading operations	0.112
0.519	Miscellaneous	0.515
0.016	Foundation Schools	0.000
<b>0.736</b>	<b>Total</b>	<b>0.671</b>

## 24. Debtors due within one year including Bad Debt Provision

The table below shows the amounts owed to the council for which payments have not been received by 31 March 2008, but which should be paid within one year.

2006/07 £m		2007/08 £m
7.685	Capital Debtors	6.234
27.172	Government Departments	15.854
0.587	Other local authorities	0.828
7.501	Council tax	8.170
2.130	National non-domestic rates	1.931
0.535	Housing rents	0.535
20.871	Other	24.398
<b>66.481</b>	<b>Sub-total</b>	<b>57.950</b>
(7.565)	Provision for bad debt	(9.654)
<b>58.916</b>	<b>Total</b>	<b>48.296</b>

Within other debtors £0.946m is included for property charges within Social Care and Inclusion. The council recognises that although these are correctly classified as debtors due within one year, events beyond the control of the authority make it probable that a proportion of these will be settled beyond that timeframe.

### Provision for bad debt provision

The council makes provision for outstanding debt which it anticipates will not be recovered. The split of the provision is found in the table below.

2006/07 £m	2007/08 £m
(3.745) Council Tax	(4.396)
(0.381) NNDR	(0.361)
(3.439) Other debtors	(4.897)
<b>(7.565) Total</b>	<b>(9.654)</b>

## 25. Landfill Allowance Trading Scheme (LATS)

The landfill allowance trading scheme has been operating since 1 April 2005 after being introduced by the Waste and Emissions Trading Act 2003. This allows local authorities in England and Wales to trade landfill allowances between each other. So a council that does not fully use their allowance can sell it at a market price to any council who has gone over their allowance. If any authority is still over their allowance at this point they are required to pay a penalty charge to the Department for Environment, Food and Rural Affairs (DEFRA). Councils are allowed to carry this amount over into the following year. However, the scheme has a number of years where any remaining allowances are required to be written off. The first of these is 31 March 2009. This will mean that in 2008/09 Local Authorities are unable to carry forward any remaining allowances.

The council has received allowances for 2007/08 of 73,444 tonnes. The estimated biodegradable municipal waste landfill usage is 42,052 tonnes. It has not bought or sold any allowances in the year or during the reconciliation period. DEFRA has advised that the average traded value for 2007/08 has been £5.00 per tonne.

Income and Expenditure Account	Gross Income £m	Gross Expenditure £m	Net Expenditure £m
<b>Net Cost of Service</b>			
Cultural, Environmental and Planning Services	1.722	(1.686)	0.036
<b>Balance within General Fund</b>	<b>1.722</b>	<b>(1.686)</b>	<b>0.036</b>

	Prior years £m	2007/08 £m	Total £m
Current Asset – Landfill Usage Allowance	0.821	0.367	1.188
Provision – liability to DEFRA for landfill usage	(0.690)	(0.210)	(0.900)
Earmarked reserve balance	(0.131)	(0.157)	(0.288)
<b>Net total</b>	<b>0.000</b>	<b>0.000</b>	<b>0.000</b>

## 26. Cash at bank

2006/07 £m	2007/08 £m
2.586 Cash in hand/bank	3.180
(10.104) Cash overdrawn	(4.643)
<b>(7.518) Total</b>	<b>(1.463)</b>

See cash flow statement (page 35) and note 34 (page 62) for further detail.

## 27. Creditors payable within one year

The following table identifies the council's major creditors payable within 12 months.

2006/07 £m	2007/08 £m
(2.127) Capital creditors	(2.974)
(11.167) Government departments	(10.153)
(3.911) Other local authorities	(3.054)
(2.003) Council tax	(1.848)
(0.929) National non-domestic rates	(1.148)
(30.467) Other	(38.132)
<b>(50.604) Total</b>	<b>(57.309)</b>

## 28. Provisions

The following table shows the movement during the year of the provisions maintained by the council. The movements will have been charged or generated from the appropriate headings in the net cost of services. These represent provisions for future expenses in respect of liabilities incurred in relation to the year under review. The expected timing of any resultant transfer of economic benefit is not possible to state due to the nature of each provision.

2006/07 £m	2007/08 £m
(1.219) Government grant	(0.507)
(2.677) Insurance fund	(2.071)
(0.639) Section 117	(0.404)
(0.958) Other	(0.404)
<b>(5.493) Total</b>	<b>(3.386)</b>

### Government grants

Walsall holds a provision of £0.005m to cover costs relating to the transitional protection on housing benefits. Further calculations and assessments are due to be carried out by Department for Works and Pensions (DWP) during 2008/09.

In addition Walsall holds £0.502m (nil in 2006/07) for a possible clawback on the 2006/07 subsidy claim by DWP. Again Walsall is waiting for details of the assessment.

### Insurance provision

The council has an established insurance fund to cover excesses on claims. Outstanding claims amount to £4.073m. However, based on claims settlement profiles, projected settlements are estimated at £2.071m for which a provision is held to cover this.

### Section 117

Section 117 of the Mental Health Act 1983 applies to people who have been detained in hospital under Sections 3, 37, 45A, 47 or 48 of the Mental Health Act 1983. Under this Section the Health Authority and Social Services have a duty to provide aftercare services until they are both satisfied that services are no longer required, at which point aftercare could cease. The Council would have charged for aftercare as part of normal charging procedures.

In July 1999 the High Court held that charges could not be made for aftercare services, including accommodation, provided under Section 117 of the Mental Health Act 1983. This judgment was upheld on appeal in July 2000.

The Local Government Ombudsman, in a Special report in 2003, advised that people who have paid for Section 117 aftercare are entitled to restitution with interest. In addition it advised Local Authorities to put mechanisms in place to identify those persons improperly charged, or improperly deprived of financial assistance, and to establish arrangements for reimbursing them or their estates.

The Local Government Ombudsman guidance, although not law, should be followed. If it is not followed the Council would be at risk of claims for which it has no defence. Should a successful complaint be filed against the Council, the instruction would be to make restitution to the client in the form of repayment. Walsall Council have provided for this liability within other provisions.

### Other

In addition to the above provisions Walsall holds £0.404m (£0.958m in 2006/07) for other costs where the expected timing of any resultant transfer of economic benefit or future events can not be accurately predicted.

## 29. Deferred liabilities

The deferred liabilities represent deferred interest for LOBO stepped rate loans. These are to offset future higher interest costs due to stepped interest where the rate goes from a lower rate to higher rate.

2006/07 £m		2007/08 £m
(0.169)	Deferred income	0.000
(0.737)	Deferred LOBO interest	(0.628)
<b>(0.906)</b>	<b>Total</b>	<b>(0.628)</b>

## 30. Deferred Government grants and contributions

When a Government grant or any other contribution has been applied to the financing of capital expenditure on fixed assets, a balance is established representing a deferred credit to be released to revenue to set off the depreciation that might be charged on the assets. If this is not possible then the grant is written off fully to the income and expenditure account.

2006/07 £m		2007/08 £m
(32.440)	Balance brought forward	(31.862)
	<b>Movement on Government Grants Deferred</b>	
(30.619)	Grants received in year	(28.759)
31.197	Amounts credited to reconciliation to general fund in 2007/08	23.501
<b>(31.862)</b>	<b>Balance carried forward</b>	<b>(37.120)</b>

## 31. Government grants unapplied

These are grants that the council has received but have not yet been applied against the assets relevant to them.

2006/07 Capital Grants £m		2007/08 Capital Grants £m
(4.885)	Balance brought forward	(15.105)
(32.000)	Capital grants received during the year	(35.044)
29.022	Applied against schemes	27.061
(7.242)	Capital debtors movement	1.008
<b>(15.105)</b>	<b>Balance carried forward</b>	<b>(22.080)</b>

## 32. Retirement benefits

### Teachers' pension scheme

Teachers employed by the council are members of the teachers pension scheme, administered by Capita Teachers' Pensions on behalf of the Department of Children, Schools and Families. It provides teachers with defined benefits upon their retirement, and the council as the local education authority (LEA) contributes towards the costs by making contributions based on a percentage of member's pensionable salaries.

In 2007/08 the council paid £12.668m (£11.880m in 2006/07) to Teachers' Pensions in respect of teachers' pension costs which represents 14.1% (14.1% in 2006/07) of teachers' pensionable pay. This includes those contributions in respect of the foundation schools (formerly grant maintained).

With regard to the teachers' pension scheme, there were no contributions remaining payable at the year end.

The scheme is a defined benefit scheme. Although the scheme is unfunded, Teachers' Pensions uses a notional fund as the basis for calculating the employers' contribution rate paid by local education authorities (LEAs). However it is not possible for the council to identify a share of the underlying liabilities in the scheme attributable to its own employees. Therefore for the purpose of this statement of accounts it is accounted for on the same basis as a defined contribution scheme.

The council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These benefits are fully accrued in the pensions liability described below under Local Government Pension Scheme.

### Liability due to local government reorganisation

The council is liable to pay costs of additional benefits awarded as part of the 1974 reorganisation of local government. In 2007/08 the council paid £0.023m (£0.017m in 2006/07) to Staffordshire County Council for these costs. The anticipated future liability for these benefits is approximately £0.080m.

### Local government pension scheme

#### Participation within schemes

As part of the terms and conditions of employment of its officers and other employees, Walsall Council offers retirement benefits. Although these benefits will not be payable until the employees retire, the council has a commitment to make payments that need to be disclosed at the time that employees earn their entitlement.

**Walsall Council**  
**Statement of Accounts 2007/08**

Walsall participates in the West Midlands Metropolitan Authorities Pension Fund, which is administered by Wolverhampton City Council. This is a funded defined benefit scheme, meaning that the authority and employees pay contributions into a fund, calculated at a level intended to balance the pension fund's liabilities with investment assets.

In addition to this scheme the council is responsible for all pension payments relating to previous added years awarded and the mandatory costs it has incurred for allowing premature retirement, together with related increases, in relation to teachers pensions. This is an unfunded scheme meaning that there are no investment assets built up to meet the pension liability, and cash has to be generated to meet actual pension payments as they fall.

Transactions relating to retirement benefits

The council recognises the cost of retirement benefits in the net cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However the charge the council is required to make against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the statement of movement on the general fund balance.

The following transactions have been made in the Income and Expenditure account and Statement of Movement on the General Fund Balance during the year:

<b>West Midlands Authorities Pension Scheme</b>			<b>Unfunded Teachers Pension Costs</b>	
<b>2006/07</b>	<b>2007/08</b>		<b>2006/07</b>	<b>2007/08</b>

<b>26.200</b>	<b>27.947</b>	<b>Net charge to income and expenditure account</b>	<b>0.804</b>	<b>0.776</b>
		<b>Statement of Movement on the General Fund Balance</b>		
(8.611)	<b>(8.464)</b>	Reversal of net charges made for retirement benefits in accordance with FRS17	0.340	<b>0.388</b>
<b>17.589</b>	<b>19.483</b>	<b>Actual amount charged against general fund balance for pensions in the year</b>	<b>1.144</b>	<b>1.164</b>

Assets and liabilities in relation to retirement benefits

The underlying assets and liabilities for retirement benefits attributable to the council at 31 March 2008 are as follows:

	West Midlands Authorities Pension Fund		Unfunded teachers pension costs		Total	
	2006/07 £m	2007/08 £m	2006/07 £m	2007/08 £m	2006/07 £m	2007/08 £m
Estimated liabilities in scheme	(645.656)	(727.852)	(13.850)	(14.838)	(659.506)	<b>(742.690)</b>
Estimated assets in scheme	452.021	452.171	0.000	0.000	452.021	<b>452.171</b>
<b>Net asset/(liability)</b>	<b>(193.635)</b>	<b>(275.681)</b>	<b>(13.850)</b>	<b>(14.838)</b>	<b>(207.485)</b>	<b>(290.519)</b>

The liabilities show the underlying commitments that the council has in the long term to pay retirement benefits. The total liability of £290.519m has a substantial impact on the net worth of the authority. It reduces the overall net worth to £305.344m. However statutory arrangements for funding the deficit means that the financial position of the authority remains healthy:

- The deficit on the West Midlands Metropolitan Authorities Pension Fund will be made good by increasing employer contributions over the remaining working life of employees, as assessed by the scheme actuary on a triennial basis
- Finance is only required to be raised to cover the unfunded teachers' pensions when the pensions are actually paid.

Employee contributions are being increased from 1 April 2008 in addition to employer contributions to ensure adequate funding of future pension liabilities given the increase in life expectancies.

Basis for estimating assets and liabilities

Liabilities for both the West Midlands Metropolitan Authorities Pension Fund and the unfunded teachers' pension costs have been assessed by Mercers Human Resource Consulting Ltd, an independent firm of actuaries. The assessment has been on an actuarial basis using the projected unit method, an estimate of the pensions that will have to be paid in the future, using mortality rates, salary levels etc. The estimates for the West Midlands Metropolitan Authorities Pension Fund have been based on the latest full valuation of the scheme as at 31 March 2007.

The following actuarial assumptions have been made:

	West Midlands Authorities Pensions Fund		Unfunded teachers pension costs	
	2006/07	2007/08	2006/07	2007/08
Rate of inflation	3.10%	3.60%	3.10%	3.60%
Rate of increase in salaries	4.85%	5.35%	N/A	N/A
Rate of increase in pensions	3.10%	3.60%	3.10%	3.60%
Discount rate	5.40%	6.10%	5.40%	6.10%
Take up of option to convert annual pension into retirement grant	50.00%	50.00%	N/A	N/A

The unfunded teachers' pensions have no assets to cover their liabilities.

**Walsall Council**  
**Statement of Accounts 2007/08**

The assets in the West Midlands Metropolitan Authorities Pension Fund are valued at fair value, principally market value for investments and consists of the following categories, by proportion of the total assets held by the fund:

	<b>West Midlands Authorities Pensions Fund</b>			
	<b>2006/07</b>	<b>2006/07</b>	<b>2007/08</b>	<b>2007/08</b>
	<b>%</b>	<b>£m</b>	<b>%</b>	<b>£m</b>

### 38. Movement in reserves

The council maintains a number of reserves in the balance sheet. Some are required to be held for statutory purposes, some are required to comply with proper accounting practices and others have been set up voluntarily to earmark resources for future spending plans.

Reserves	Balance 01-Apr-07 £m	Net Movement in year £m	Balance 31-Mar- 08 £m	Purpose of reserve	Further details of movements within note
General fund	(6.945)	(0.831)	(7.776)	Resources available to meet future unbudgeted running costs for council services	40
Collection fund	(0.914)	1.239	0.325	Balance on council tax/NNDR	41
Other earmarked reserves	(32.144)	(9.191)	(41.335)	Resources set aside for specific purposes	42
Useable capital receipts	(9.583)	(3.656)	(13.239)	Proceeds of fixed asset sales available to meet future capital investments	45
Deferred capital receipts	(2.623)	0.533	(2.090)	Proceeds from fixed assets sales that are being repaid over a length of time	46
Capital Financing Account	(288.425)	288.425	0.000	Store of capital resources set aside to meet past expenditure	44
Fixed Asset Restatement Account	(273.518)	273.518	0.000	Store of gains on revaluation of fixed assets	44
Capital Adjustment Account	0.000	(529.705)	(529.705)	Capital resources set aside to meet past capital expenditure	44
Revaluation Reserve	0.000	(1.480)	(1.480)	Balance of gains on revaluations on fixed assets	43
Pensions reserve	207.485	83.034	290.519	Balancing account to allow inclusion of pensions liability in the balance sheet	32
Available-for-sale reserve	0.000	0.000	0.000	Store of gains/losses on revaluation of assets not yet realised through sale	n/a
Financial instruments adjustment account	0.000	(1.932)	(1.932)	Balancing account to allow for statutory requirements/proper accounting practice for borrowings/investments	47
<b>Total</b>	<b>(406.667)</b>	<b>99.954</b>	<b>(306.713)</b>		

Further analysis of movement in year of the council's reserves is shown below. This forms the basis for the statement of total recognised gains and losses (STRGL).

	I&E (surplus)/ deficit	(Gain)/ loss on revaluation	Actuarial (gain)/ loss on pensions	(Surplus)/ deficit on collection fund	Other (gains)/ losses	Total movements
	£m	£m	£m	£m	£m	£m
General fund	29.471	(7.194)	0.000	0.000	(23.108)	(0.831)
Collection fund	0.000	0.000	0.000	1.239	0.000	1.239

<b>Total</b>	<b>29.471</b>	<b>(5.731)</b>	<b>74.958</b>	<b>1.239</b>	<b>0.017</b>	<b>99.954</b>

## 39. Contingent assets and liabilities

### Contingent assets

The council has no contingent assets to report in respect of the 2007/08 statement of accounts.

### Contingent liabilities

As detailed in the accounting policies in respect of pension costs, employers' pension contributions are subject to triennial revaluation. Fluctuations in future valuations are not quantifiable and therefore no provision for any increase has been made.

In respect of the Black Country Consortium there is a contingent liability relating to a review into two specific procurement exercises by the Government Office for the West Midlands. The final outcome of this review is still to be announced but any financial impact on the council is expected to be limited.

There is ongoing work to gather all relevant evidence for European grant funding. Due to the number of organisations awarded grants by the council and the time span between award and the request for data submission, there is a risk that not all are able to provide the necessary quality of evidence required. The consequence of this may be that the council is required to repay part of

the grants that have been awarded. In such circumstances the funds will be requested from the grant recipient wherever possible. It is not possible to predict with certainty the level of residual liability that this may place on the council.

HM Customs and Revenue have written to Walsall Council in relation to visits to the council's premises on 28 and 29 January 2008. An assessment of £408,772 was made. £320,148 relating to New Deal has been disputed. HMCE advise on 15 April 2008 they are still seeking information regarding this matter. There is the potential for alteration of the assessment to both increase or decrease this based on further HMCE investigation. Any liability incurred by the council could potentially be offset against New Deal.

#### **40. General fund reserve**

General reserves are available for the council to use at its discretion. The council maintains a minimum level of general reserves as a "working balance" to protect the council against a range of possible circumstances. The value of the working balance is calculated based on a risk assessment. Excess general reserves are sometimes used to reduce the overall net spending of the council prior to the setting of the council tax, but only for one-off expenses. The framework relating to general reserves is set out in the council's medium term financial strategy.

<b>2006/07</b>		<b>2007/08</b>
<b>£m</b>		<b>£m</b>
(5.260)	Balance brought forward	(6.945)
(1.685)	Transfer to/(from) general fund (see statement of movement on the general fund balance pg 30)	(0.831)
<b>(6.945)</b>	<b>Balance carried forward</b>	<b>(7.776)</b>

#### **41. Collection fund reserve**

See additional statements section, note 2, page 76 for further details.

#### **42. Earmarked reserves**

The table below shows amounts set aside for future use. These may only be used for the specific purposes they are intended for.

<b>2006/07</b>		<b>2007/08</b>
<b>£m</b>		<b>£m</b>
(0.474)	Nursery schools (net)	(0.333)
(6.386)	Primary schools (net)	(6.464)
(0.973)	Secondary schools (net)	(2.796)
(1.458)	Special schools (net)	(2.175)
(1.394)	Foundation schools (net)	(1.831)
(0.579)	College of continuing education	(0.384)
(6.976)	Private finance initiative	(8.154)
(13.904)	Other council earmarked reserves	(19.198)
<b>(32.144)</b>	<b>Total</b>	<b>(41.335)</b>

The reserves for schools represents the amount of unspent delegated budgets available to individual schools and the college of continuing education and are not generally available to the council for any other expenditure.

### 43. Revaluation reserve

This reserve has been established in line with proper accounting practices. It records the accumulated net gains on fixed assets held by the authority.

2006/07 £m	2007/08 £m
0.000 Opening balance	0.000
0.000 Upward valuations	(1.284)
0.000 Disposals	0.000
0.000 Omissions from register	(0.193)
0.000 Impairment losses due to clear economic benefits	0.000
0.000 Impairment losses not due to clear economic benefits	(0.003)
0.000 Depreciation	0.000
<b>0.000 Closing balance</b>	<b>(1.480)</b>

The Revaluation Reserve replaces the Fixed Asset Restatement Account (FARA) in accordance with SORP 2007. The Revaluation Reserve has then been included in the Balance Sheet with a zero opening balance. The closing position on the Reserve at 31 March 2008 therefore only shows revaluation gains accumulated since 1 April 2007.

### 44. Capital adjustment account

This account outlines all the movements due to the financing of capital expenditure.

2006/07 £m	2007/08 £m
0.000 Opening Balance	0.000
0.000 Depreciation/Amortisation in year	20.849
0.000 Impairments in year	3.378
0.000 Disposal costs	7.739
0.000 Use of capital receipts	(1.605)
0.000 Deferred charges	8.802
0.000 Direct revenue funding of capital	0.207
0.000 Revenue provision for repayment of debt	(9.281)
0.000 Capital grants and contributions	(16.258)
0.000 Reversal of non-added value	25.649
0.000 Transfer from Fixed Asset Restatement Account	(273.518)
0.000 Additional transfer from Capital Financing Account	(295.667)
<b>0.000 Closing balance</b>	<b>(529.705)</b>

This account has been introduced by SORP 2007 through the merging of two former accounts, the Fixed Asset Restatement Account (credit of £273.518m at end of 2006/07) and Capital Financing Account (credit of £288.425m at end of 2006/07). To provide comparatives for 2006/07 we have included both the table for the capital financing account and fixed asset restatement account overleaf. These show the transfer to the capital adjustment account in 2007/08.

2006/07 £m	Capital Financing Account	2007/08 £m
(320.029)	Opening Balance	(288.425)
	<b>Revenue resources set aside in 2006/07</b>	
(10.355)	Capital receipts financing capital expenditure	0.000
(0.241)	Direct revenue funding of capital	0.000
(5.532)	Provision for repayment of external loans	(7.242)
33.495	Appropriations	0.000
14.237	Write off of deferred charges	0.000
	Transfer to Capital Adjustment Account	295.667
<b>(288.425)</b>	<b>Closing balance</b>	<b>0.000</b>

2006/07 £m	Fixed Asset Restatement Account	2007/08 £m
(294.680)	Opening Balance	(273.518)
	<b>Revenue resources set aside in 2006/07</b>	
6.098	Revaluation & restatement of fixed assets	0.000
15.064	Disposal of fixed assets	0.000
0.000	Adjustment for non owned assets	0.000
0.000	Non added value	0.000
0.000	Transfer to Capital Adjustment Account	273.518
<b>(273.518)</b>	<b>Closing balance</b>	<b>0.000</b>

#### 45. Useable Capital Receipts

The balance in this account represents the total proportion of capital receipts, grants and contributions available to finance capital expenditure in future years, after setting aside statutory amounts for the repayment of debt.

2006/07 Capital Receipts £m		2007/08 Capital Receipts £m
(15.247)	Balance brought forward	(9.583)
(1.841)	Other external funding	0.000
(3.458)	Capital receipts received during the year	(5.328)
10.355	Applied against schemes	1.605
0.539	Used to finance debt	0.000
0.069	Defrayed on sold properties	0.000
0.000	Set aside: capital receipts used	0.067
<b>(9.583)</b>	<b>Balance carried forward</b>	<b>(13.239)</b>

## 46. Deferred capital receipts

Deferred capital receipts are amounts derived from sales of assets which will be received in instalments over an agreed period of time.

2006/07 £m	2007/08 £m
(0.392) Mortgages	(0.302)
(2.231) Other deferred capital receipts	(1.788)
<b>(2.623) Total</b>	<b>(2.090)</b>

## 47. Financial instruments

SORP 2007 requires local authority accounts to fully comply with FRS 25-Financial instruments: disclosure and presentation, FRS 26-Financial instruments: recognition and measurement and FRS 29-Financial instruments: disclosure. This has resulted in new accounting policies that are detailed in the statement of accounting policies.

### Categories of financial liabilities and assets

The table below outlines the different categories of borrowing (liabilities) and investments (assets) that are disclosed on the face of the balance sheet.

2006/07			2007/08	
Long term £m	Current £m		Long term £m	Current £m
15.000	44.074	Loans and receivables	20.000	71.180
6.705	0.000	Available for sale financial assets	6.705	0.000
0.000	0.000	Unquoted equity investment at cost	0.000	0.000
<b>21.705</b>	<b>44.074</b>	<b>Total investments</b>	<b>26.705</b>	<b>71.180</b>
(247.869)	(0.287)	Financial liabilities at amortised cost	(263.409)	(0.342)
0.000	0.000	Financial liabilities at fair value through profit and loss	0.000	0.000
<b>(247.869)</b>	<b>(0.287)</b>	<b>Total borrowing</b>	<b>(263.409)</b>	<b>(0.342)</b>
<b>(226.164)</b>	<b>43.787</b>	<b>Total net borrowing</b>	<b>(236.704)</b>	<b>70.838</b>

### Financial instrument gains and losses

The table overleaf shows the gains and losses due to financial instruments that have been recognised in the income and expenditure account and statement of total recognised gains and losses.

	Financial Liabilities		Financial Assets				Total	
	Liabilities measured at amortised cost		Loans and Receivables		Available-for-sale assets

#### Fair value of financial assets and liabilities

For any financial liabilities that the council holds at amortised cost and loans and receivables (which are also held at amortised cost), there is a requirement to disclose the fair value of these financial instruments. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments using the following assumptions:

- Prevailing estimated interest rates at 31 March 2008 for loans from PWLB and other loans receivable and payable based on the time left remaining on the instrument.
- No early repayment or impairment is recognised.
- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate fair value.
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

2006/07			2007/08	
Carrying Amount £m	Fair Value £m		Carrying Amount £m	Fair Value £m
(97.282)	(97.282)	PWLB loans	(113.283)	(122.959)
(28.421)	(28.421)	Other Local Authority Debt	(27.865)	(27.865)
(0.166)	(0.166)	Individuals	(0.155)	(0.155)
(122.287)	(122.287)	Private sector loans	(122.448)	(136.531)
<b>(248.156)</b>	<b>(248.156)</b>	<b>Financial liabilities</b>	<b>(263.751)</b>	<b>(287.510)</b>
15.000	15.000	Long term investments	20.000	20.689
44.074	44.074	Short term investments	71.180	72.349
<b>59.074</b>	<b>59.074</b>	<b>Financial assets</b>	<b>91.180</b>	<b>93.038</b>

For financial liabilities the fair value is higher than the carrying amount because the council's loan portfolio includes a number of loans where the interest rate is lower than the rates available for similar loans at the balance sheet date. This commitment to pay interest below current market rates increases the amount the authority would have to pay if the lender requested or agreed to early repayment of the loans.

#### Premiums and Discounts incurred through early redemption of borrowing

As part of the council's treasury management strategy over the years, a number of loans have been redeemed or rescheduled. Prior to SORP 2007 the council was able to amortise any premium or discount incurred due to this early redemption over the life of any replacement loan.

From 1 April 2007 SORP requires council's to account for these in line with FRS25 – financial instruments: presentation and disclosure, FRS26 – financial instruments: recognition and measurement, and FRS29 – financial instruments: disclosures. This means that any premium or discount that the council still has on its balance sheet needs to be written off to the income and expenditure account. As a result of the potential impact on council tax that this would have Government have introduced legislation, the Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2007, that minimises the impact that the introduction of these financial standards have.

Councils are allowed to write back the premiums and discounts to the balance sheet through the statement of movement on the general fund balance. This has resulted in a new balance sheet account, the Financial Instruments Adjustment Account. Any premium can be amortised over the period of the replacement loan or the remaining term of the replaced loan whichever is the greater. Discounts can be amortised over the period of the replacement loan or 10 years whichever is the shorter.

The following table shows the effect of applying SORP to premiums and discounts within the income and expenditure account and the statement of movement on the general fund balance.

2006/07 £m		2007/08 £m
	<b>Income and expenditure account</b>	
(1.194)	Interest payable and similar charges	(3.407)
<b>(1.194)</b>		<b>(3.407)</b>
	<b>Statement of movement on the general fund balance</b>	
0.000	Amount debited/credited to the income and expenditure account recognised under statutory provisions relating to premiums and discounts on the early repayment of debt	2.735
<b>(1.194)</b>	<b>Net surplus / (deficit) to reserves</b>	<b>(0.672)</b>

The movements in balances for premiums and discounts contained within the Financial Instruments Adjustment Account are shown below.

<b>2006/07</b>		<b>2007/08</b>
£m		£m
(1.556)	Opening balance	(0.932)
0.000	Adjustment for new accounting requirements	(1.854)
0.000	Write on of discounts received	0.000
1.263	Amortisation of discount	1.423
(0.639)	Amortisation of premiums	(0.569)
<b>(0.932)</b>	<b>Closing balance</b>	<b>(1.932)</b>

### **Nature and extent of risks arising from financial instruments**

To manage risks associated with treasury management activities the council follows an approved set of Treasury Management policies and undertakes monitoring of prudential and local indicators in line with the prudential code. These are incorporated in the annual Treasury Management Strategy. The 2007/08 strategy was approved by council on 26 February 2007. A Treasury Management Panel has been established with a mandate to review all treasury management activities. Treasury Management advisors are employed to ensure the council has prompt access to relevant information advice. This is particularly important in relation to the credit ratings of other organisations

The risks are:

- Credit risk – the possibility that other parties might fail to pay amounts due to the authority
- Liquidity risk – the possibility that the authority might not have funds available to meet its commitments to make payments
- Market risk – the possibility that financial loss might arise for the authority as a result of changes in such measures as interest rates and stock market movements.

#### Credit risk

Credit risk arise from banks and financial institutions, as well as credit exposures to the council's customers. Deposits are only made with those banks and financial institutions which are on the council's lending list. This is reviewed on an annual basis and is based on independent credit ratings. The authority has a policy of lending out only up to £15m of its surplus balances to all A rated institutions, up to £5m to B institutions and up to £3m to the remainder of the top 40 building societies

The following table summarises the council's potential maximum exposure to credit risk, based on experience of default and uncollectability over the last five financial years.

	<b>Amount at 31 March 2008</b>	<b>Historical experience of default</b>	<b>Estimated maximum exposure to default and uncollectability</b>
	£m	%	£m
Short term deposits with banks and institutions	71.175	0.000	0.000
Bonds	n/a	n/a	n/a
	<b>71.175</b>	<b>0.000</b>	<b>0.000</b>

No credit limits were exceeded during the reporting period.

The authority does not allow credit for customers and allowing 30 days for payments £5.9m is past its due date for payment. The past due balance can be analysed by age as follows:

2006/07		2007/08
£m		£m
3.093	One month to one year	2.604
0.641	One to two years	1.035
0.454	Two to three years	0.552
0.152	Three to four years	0.330
0.314	Four to five years	0.144
0.955	More than three years	1.224
<b>5.609</b>	<b>Total</b>	<b>5.889</b>

#### Liquidity risk

The council is able to raise funds from the Public Works Loan Fund. This means that the council has not got a significant risk that it would not be able to raise finance to meet its commitments under financial instruments. However the council does face a risk that it may have to replenish a significant proportion of its borrowing at a time when interest rates were unfavourable. To ensure that this does not happen careful monitoring and planning is carried out in line with the treasury management strategy of the maturity dates of the council's loan portfolio. To ensure that the targets are not breached careful planning of the taking of new loans and possible early repayment of existing loans takes place. This done by the Treasury team in conjunction with the Treasury Management Panel.

The table below outlines the maturity profile of the council's financial liabilities.

2006/07			2007/08	
PWLB	Other		PWLB	Other
£m	£m		£m	£m
0.000	0.300	Less than one year	0.000	0.472
0.000	0.024	Between one and two years	0.000	0.056
0.000	0.056	Between two and three years	0.000	0.029
0.000	0.029	Between three and four years	0.000	0.005
0.000	0.005	Between four and five years	0.000	0.029
97.281	150.461	More than five years	113.283	149.877
<b>97.281</b>	<b>150.875</b>	<b>Total</b>	<b>113.283</b>	<b>150.468</b>

All trade and other payables are due to be paid within one year.

#### Market risk

##### Interest rate risk

The council has minimised its risk to interest rate movements through the use of fixed rate investments both short and long term. In addition the council does not have any variable rate borrowing although there is a potential risk through our use of LOBO. These are Lender Option Borrower Option loans where after a fixed amount of time the lender has the option to vary the interest rate. If this happens the borrower has the option to terminate the loan agreement without any penalty. At present the council has £122m invested in these loan instruments. At 31 March 2008 the council had three bonds whereby the lender has the right to exercise the option to vary the rate or call for the loan to be repaid in 2008/09. However, it is felt that this is not likely to happen because the rate of the bond compares favourably with current interest rates. The option date profile for these loans is as follows:

2006/07 £m		2007/08 £m
5.000	Within one year	0.000
50.000	Between one and two years	15.000
15.000	Between two and three years	35.000
0.000	Between three and four years	20.000
15.000	Between four and five years	20.000
37.000	More than five years	32.000
<b>122.000</b>	<b>Total</b>	<b>122.000</b>

Although these actions have minimised the council's interest rate risk, the council would still be impacted by any movement in interest rates. As an example a rise in interest rates would have the following effects on the council.

- Borrowings at a fixed rate – the fair value of the borrowings would fall
- Investments at a fixed rate – the fair value of the investments would fall

Our borrowings are not carried at fair value so any nominal gains or losses in fair value on fixed rate borrowings would not have an impact on either the income and expenditure account or the statement of movement on the general fund balance. This also applies to our fixed rate investments. As such the notional effect on borrowing and investments if interest rates had been 1% higher on 31 March 2008 would be:

- Notional decrease in fair value of fixed rate investment assets
- Notional decrease in fair value of borrowings

The impact of a 1% fall in interest rates would be as above but with the movements reversed.

#### Price Risk

The council does not normally invest in equity shares. However the council does hold both preference and ordinary shares in Birmingham Airport Holdings Limited to the value of £6.705m (ordinary shares of £5.174m and preference shares of £1.531m). As such the council is subject to any losses arising from movements in the price of these shares. The council obtained these shares as a result of the privatisation of Birmingham Airport on 4 February 1997.

These shares are classified as 'available for sale', meaning that all movements in price will impact on gains and losses recognised in the statement of total recognised gains and losses. A general shift of 1% in the general price of shares (positive or negative) would thus have resulted in a £0.067m gain or loss being recognised in the STRGL for 2007/08

#### Foreign exchange risk

The council has no financial assets or liabilities denominated in foreign currency. As such the council is not exposed to any risk from movements in exchange rates.

## **48. Events after the balance sheet date**

Walsall's accounting policy outlines that assets will be re-valued every 5 years. Due to unforeseen circumstances a number of assets were not valued within that time frame. However, since 31 March 2008 work has been ongoing to update all assets past the 5 year mark. The revaluation required for these assets is c£1.5m. While this value is insignificant in terms of Walsall's asset base, this disclosure is in accordance with FRS 21 and is seen as a non-adjusting event.

## 3. Income from business rates

### Income collectable

Under the arrangements for uniform business rates, the council collected non-domestic rates for the Walsall area which are based upon local rateable values multiplied by a national uniform rate. The total rateable value for business rate purposes at 31 March 2008 was £165.955 million (£166.035 million 2006/07). The total amount, less certain relief and other deductions, is paid to a central pool (the NNDR pool) managed by central Government which, in turn, pays back to authorities their share of the pool based upon a standard amount per head of the local adult population. Under these arrangements, the amounts included in these accounts can be analysed as follows:

2006/07 £m		2007/08 £m
(70.929)	Gross amount payable to the NNDR pool Non-domestic rates	(71.220)
0.034	(Add)/deduct Transitional relief	(0.306)
1.253	Less Bad debts written off / Provision for bad debts	0.402
11.031	Allowances and other adjustments	10.553
<b>(58.611)</b>	<b>Income from business ratepayers</b>	<b>(60.571)</b>
0.372	Less costs of collection allowance	0.366
<b>(58.239)</b>	<b>Net income to pool</b>	<b>(60.205)</b>

#### National non-domestic rate multiplier

The national non-domestic rate multiplier set annually by the Government is the rate in the pound by which the rateable value is multiplied to produce the annual rate bill for a property. For 2007/08 the multiplier is £0.444 (£0.433 in 2006/07). The small business multiplier is £0.441 (£0.426 in 2006/07).

#### 4. Calculation of tax base

The council tax base represents the number of properties in the borough expressed as band D properties assuming a 98.5% collection rate. The council tax base for 2007/08 was as follows:

Band	Weighting	Number of dwellings on valuation list	Discounted value for council tax purposes	Band D equivalent
A	6/9	49,356	41,948	27,539
B	7/9	24,668	22,082	16,917
C	8/9	16,540	15,090	13,212
D	1	9,519	8,834	8,701
E	11/9	5,294	4,911	5,912
F	13/9	2,216	2,077	2,956
G	15/9	722	661	1,085
H	18/9	53	33	66
		<b>108,368</b>	<b>95,636</b>	<b>76,388</b>

## 5. Income due from council tax

The council set a council tax of £1,382.77 (£1,330.90 2006/07), including precepts for the Police Authority and the Fire and Civil Defence Authority based upon a tax base of 76,388 band D equivalent properties. This reduced tax base (see note 4) reflects assumptions made for discounts, relief to students, changes in the register and non-payment. The actual amounts credited to the collection fund can be analysed as follows:

2006/07		2007/08
£m		£m
102.344	Gross council tax due (Adjusted for changes in banding)	105.844
(22.751)	Less benefit awarded	(22.395)
<b>79.593</b>	<b>Total</b>	<b>83.449</b>

## 6. Organisations which make a precept or demand on the collection fund

The precepts and demands are those payments requested by public authorities at the beginning of the year to fund their net budgets.

2006/07		2007/08
£m		£m
91.327	Walsall Metropolitan Borough Council	95.246
6.662	Police	6.987
3.286	Fire and civil defence	3.394
<b>101.275</b>	<b>Total</b>	<b>105.627</b>

## Trust and scholarship accounts

These accounts relate to gifts and bequests made to, held or administered by the council.

The capitals sums have been invested in statutory securities and in the case of most funds administered by Children, ICT and Procurement Services (CIPS) and Corporate Services. The interest is used to provide grants and prizes. The council currently administers 5 trusts:

- S W Tame Fund for the purposes of prizes at Joseph Leckie School
- Joseph Leckie Memorial Fund for the provision of scholarships
- Joseph Leckie Trust for the provision of scholarships
- Walsall Agricultural Fund for the provision of a prize fund
- Barr Beacon Trust for the provision and maintenance of open spaces

During 2007/08 Joseph Leckie transferred its assets and liabilities to an external charity, W F Croft.

### 1. Income and expenditure account

	Expenditure	Income	Net expenditure	
	£	£	2007/08 £	2006/07 £
<b>CIPS</b>

## Section 7

# Statement of accounting policies

### 1. General Principles

The statement of accounts summarises the council's transactions for the 2007/08 financial year and its position at the year end of 31 March 2008.

It has been prepared in accordance with the Code of on Local Authority Accounting in the United Kingdom 2007 – A Statement of Recommended Practice (the SORP), including applicable Statement of Standard Accounting Practice (SSAP) and Financial Reporting Standards (FRS).

The accounting conventions adopted is historical cost, modified by the revaluation of certain categories of tangible fixed assets.

### 2. Accruals of Income and Expenditure

The revenue accounts of the council are maintained on an accruals basis in accordance with SORP and FRS18 (Accounting Policies). In particular:

- Fees, charges and rents are accounted for as income at the date the council provides the relevant goods or service.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the supply date and when the supplies are used, they are carried as stock on the Balance Sheet.
- Works are charged as expenditure when they are completed, before which they are carried as works in progress on the Balance Sheet.
- Interest payable on borrowings and receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where income and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Income & expenditure are credited and debited to the relevant service revenue account, unless they properly represent capital receipts or capital expenditure.

### 3. Provisions

Provisions are required for any liabilities of uncertain timing or amount that have been incurred.

Provisions are required to be recognised when:

- (i) the local authority has a present obligation (legal or constructive) as a result of a past event
- (ii) it is probable that a transfer of economic benefits will be required to settle the obligation, and
- (iii) a reliable estimate can be made of the amount of the obligation.

A transfer of economic benefits or other event is regarded as probable if the event is more likely than not to occur. If these conditions are not met, no provision is recognised.

The obligation can be 'constructive' (e.g. the authority has publicly expressed an intention to do something, and other parties have acted in expectation of this).

Provisions are charged to the appropriate service revenue account in the year that the authority becomes aware of the obligation, based on the best estimate of the likely settlement. When payments are eventually made they are charged to the provision set up in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes more likely than not that a transfer of economic benefits will not be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service revenue account.

Where some or all of the payment required to settle a provision is expected to be met by another party (eg from an insurance claim), this is only recognised as income in the relevant service revenue account if it is virtually certain that reimbursement will be received if the obligation is settled.

The treatment outlined above is in line with FRS12 (Provisions, contingent liabilities and contingent assets).

#### **4. Bad Debt Provision**

The authority maintains bad debt provisions for any potential non payment of debtors. At present the authority has the following bad debt provisions:

- Sundry Debtors
- Non sundry debtors
- Collection Fund

Each of the bad debt provisions is calculated using an estimation of what percentage of debt will be repaid on a year by year basis. The percentages are reviewed each year and based on past collection rates.

#### **5. Contingent liabilities and assets**

Contingent liabilities are not recognised in the Statement of Accounts but are disclosed within the notes if there is a possible obligation that may require a payment or transfer of economic benefits.

Contingent assets are not recognised in the Statement of Accounts but are disclosed within the notes if the inflow of a receipt or economic benefit is probable.

Both of these policies are in line with FRS12 (Provisions, contingent liabilities and contingent assets).

#### **6. Reserves**

The council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts in the Statement of Movement in the General Fund Balance. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account in that year to score against the Net Cost of Services in the Income and Expenditure Account. The reserve is then appropriated back into the General Fund Balance statement so that there is no net charge against council tax for the expenditure. The reserves held by the authority are:

## Revenue reserves

- General Fund reserve
- Collection Fund reserve
- Earmarked reserves

## Capital reserves

- Capital adjustment account
- Revaluation reserve
- Financial Instruments adjustment account
- Available-for-sale financial instrument reserve
- Deferred capital receipts
- Useable capital receipts reserve
- Pensions reserve

Certain reserves are kept to manage the accounting processes for tangible fixed assets and retirement benefits and that do not represent usable resources for the council – these reserves are explained in the relevant policies below.

## 7. Government Grants and Contributions (Revenue)

Whether paid on account, by instalments or in arrears, Government grants and third party contributions and donations are recognised as income at the date that the authority satisfies the conditions of entitlement to the grant/contribution, there is reasonable assurance that the monies will be received and the expenditure for which the grant is given has been incurred. Revenue grants are matched in service revenue accounts with the service expenditure to which they relate. Grants to cover general expenditure (eg Revenue Support Grant) are credited to the foot of the Income and Expenditure Account after Net Operating Expenditure.

## 8. Retirement Benefits

Employees of the council are members of two separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Children, Schools and Families (DCSF)
- The Local Government Pensions Scheme, administered by Wolverhampton City Council.

Both schemes provided defined benefits to members (retirement lump sums and pensions), earned as employees worked for the council.

However, the arrangements for the teachers' scheme mean that liabilities for these benefits cannot be identified to the council. The scheme is therefore accounted for as if it were a defined contributions scheme – no liability for future payments of benefits is recognised in the Balance Sheet and the education service revenue account is charged with the employer's contributions payable to teachers' pensions in the year.

### The Local Government Pension Scheme

The local government scheme is accounted for as a defined benefits scheme as per FRS17 (Retirement benefits) and SORP:

- The liabilities of the West Midlands Metropolitan Authorities Pension Fund attributable to the council are included in the Balance Sheet on an actuarial basis using the projected unit method – ie an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 6.1% (based on the weighted average of spot yields on AA rated corporate bonds).
- The assets of the West Midlands Superannuation pension fund attributable to the council are included in the Balance Sheet at their fair value:
  - quoted securities - mid-market value
  - unquoted securities - professional estimate
  - unitised securities - average of the bid and offer rates
  - property - market value
- The change in the net pensions liability is analysed into seven components:
  - Current service cost – the increase in liabilities as result of years service earned this year – allocated in the Income and Expenditure Account to the revenue account of services for which the employees worked.
  - Past service cost – the increase in liabilities arising from current year decisions whose effect relates to years service earned in earlier years – debited to the Net Operating Expenditure in the Income and Expenditure Account as part of Non Distributed Costs.
  - Interest cost – the expected increase in the present value of liabilities during the year as they move one year closer to being paid – debited to Net Operating Expenditure in the Income and Expenditure Account.
  - Expected return on assets – the annual investment return on the fund assets attributable to the council, based on an average of the expected long-term return – credited to Net Opening Expenditure in the Income and Expenditure Account.
  - Gains/losses on settlements and curtailments – the result of actions to relieve the council of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited to the Net Cost of Services in the Income and Expenditure Account as part of Non Distributed Costs.
  - Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – debited to the Statement of Total Recognised Gains and Losses.
  - Contributions paid to the West Midlands Metropolitan Authorities Pension Fund – cash paid as employer's contributions to the pension fund.

Statutory provisions limit the council to raising council tax to cover the amounts payable by the council to the pension fund in the year. In the Statement of Movement on the General Fund Balance this means that there are appropriations to and from the Pensions Reserve to remove the notional debits for the cash paid to the pension fund and any amounts payable to the fund but unpaid at the year-end.

### **Discretionary Benefits**

The council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the awards

and accounted for using the same policies as are applied to the Local Government Pension Scheme.

## **9. VAT**

Income and expenditure excludes any amounts related to VAT as all VAT collected is payable to HM Revenue and Customs and all VAT paid is recoverable from it.

VAT however should be included in income and expenditure accounts, whether of a capital or revenue nature, only to the extent that it is irrecoverable.

## **10. Intangible Fixed Assets**

Expenditure on assets that do not have physical substance but are identifiable and controlled by the council (eg software licences) is capitalised when it will bring benefits to the council for more than one financial year. The balance is amortised to the relevant service revenue account over the economic life of the investment to reflect the pattern of consumption of benefits.

## **11. Tangible Fixed Assets**

Tangible fixed assets are assets that have physical substance and are held for use in the provision of services or for administrative purposes on a continuing basis.

### **Recognition**

Expenditure on the acquisition, creation or enhancement of tangible fixed assets is capitalised on an accruals basis, provided that it yields benefits to the council and the services that it provides for more than one financial year. Expenditure that secures but does not extend the previously assessed standards of performance of assets (eg repairs and maintenance) is charged to revenue as it is incurred.

Fixed assets recognised under finance leases are accounted for using the policies applied generally to Tangible Fixed Assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

### **Measurement**

Assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use. Assets are then carried in the Balance Sheet using the following measurement bases:

- Investment properties and assets surplus to requirements – lower of net current replacement cost or net realisable value
- Land and buildings, vehicles, plant and equipment – lower of net replacement cost or net realisable value in existing use
- Infrastructure assets and community assets – depreciated historic cost

Net current replacement cost is assessed as:

- Non-specialised operational properties – existing use value
- Specialised operational properties – depreciated replacement cost
- Investment properties and surplus assets – market value

Assets included in the Balance Sheet at current value are revalued where there have been material changes in the value, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. (Exceptionally, gains may be credited to the Income and Expenditure Account where they arise from the reversal of an revaluation loss previously charged to a service revenue account.)

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

### **Impairment**

The values of each category of assets and of material individual assets that are not being depreciated are reviewed at the end of each financial year for evidence of reductions in value.

Where on revaluation there has been a decrease over the previous carrying amount an impairment loss has occurred. It should be considered whether the loss has been caused by clear consumption of economic benefits and any such loss should be recognised in the Income and Expenditure Account. The amount of the decrease in value not associated with a clear consumption of economic benefit should be recognised in the Statement of Total Recognised Gains and Losses until the asset's carrying amount reaches its depreciated historical cost and taken to the Revaluation Reserve; and thereafter in the Income and Expenditure Account.

Where an impairment loss is charged to the Income and Expenditure Account but there were accumulated revaluation gains in the Revaluation Reserve for that asset, an amount up to the value of the loss is transferred from the Revaluation Reserve to the Capital Adjustment Account.

### **Disposals**

When an asset is disposed of or decommissioned, the value of the asset in the Balance Sheet is written off to the Income and Expenditure Account as part of the gain or loss on disposal. Receipts from disposals are credited to the Income and Expenditure Account as part of the gain or loss on disposal (ie netted off against the carrying value of asset at the time of disposal). Any revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to mortgages given to former tenants who purchased their properties under the Right to Buy scheme (75%) is payable to the Government. The balance of the receipts is required to be credited to the Useable Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the Statement of Movement on the General Fund Balance.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangement for capital financing. Amounts are appropriated to the Capital Adjustment Account from the Statement of Movement on the General Fund Balance.

### **Depreciation**

Depreciation is provided for on all assets with a determinable finite life (except for investment properties), by allocating the value of the asset in the Balance Sheet over the periods expected to benefit from their use.

Depreciation is calculated on the following bases:

- Buildings – straight line allocation over the life of the property as estimated by the valuer (usually 10 to 80 years)
- Vehicles, plant and equipment – straight line allocation over the life of the property as estimated by the valuer (usually 5 to 10 years)
- Infrastructure - straight line allocation over 25 to 35 years
- Community assets – are assets that the authority intends to hold in perpetuity, that have no determinable useful life, and may have restrictions on their disposal. As such these are held at their historic cost and incur no depreciation.

Where an asset has major components with different estimated useful lives, these are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

### **Grants and contributions**

Where grants and contributions are received that are identifiable to fixed assets with a finite useful life, the amounts are credited to the Government Grants Deferred Account. The balance is then written down to revenue to offset depreciation charges made for the related assets in the relevant service revenue account, in line with the depreciation policy applied to them.

## **12. Charges to Revenue for Fixed Assets**

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding fixed assets during the year:

- Depreciation attributable to the assets used by the relevant service
- Impairment losses attributable to the clear consumption of economic benefits on tangible fixed assets used by the service and other losses where there are no accumulated gains in the Revaluation Reserve against which they can be written off
- Amortisation of intangible fixed assets attributable to the service

The council is not required to raise council tax to cover depreciation, impairment losses or amortisations. However, it is required to make an annual provision from revenue, known as the minimum revenue provision, to contribute towards the reduction in its overall borrowing requirement (equal to at least 4% of the underlying amount measured by the adjusted Capital Financing Requirement). Depreciation, impairment losses and amortisation are therefore replaced by revenue provision in the Statement of Movement on the General Fund Balance, by way of an adjustment transaction with the Capital Adjustment Account for the difference between the two.

## **13. Deferred Charges**

Deferred charges are created when capital expenditure has been incurred but does not result in the creation of a tangible fixed asset. The purpose of this is to enable it to be funded from capital resources rather than to have an impact on that year's council tax. Expenditure that can be classed as deferred charges is defined by the SORP, Local Government Act 2003 and associated capital financing regulations. They include grants to other persons (such as housing renovation grants and disabled facilities grants) and bodies for capital expenditure purposes, and amounts

(including provisions for back-pay under the pay-review) that the Secretary of State has given direction should be capitalised.

The SORP requires the authority to amortise the charge over an appropriate period consistent with the consumption of economic benefits controlled by the authority. The authority's policy is to write out the entire expenditure to the Income and Expenditure Account in the year it takes place. To ensure that no impact is made on council tax, this expenditure is then reversed out through the Statement of Movement on General Fund Balances by a transfer to the Capital Adjustment Account.

## **14. Leases**

### **Finance Leases**

The council accounts for leases as finance leases when substantially all the risks and rewards relating to the leased property transfer to the council in line with SSAP21 (Accounting for leases and hire purchase contracts).

Rentals payable are apportioned between:

- A charge for the acquisition of the interest in the property (recognised as a liability in the Balance Sheet at the start of the lease, matched with a tangible fixed asset – the liability is written down as the rent becomes payable), and
- A finance charge (debited to Net Operating Expenditure in the Income and Expenditure Account as the rent become payable).

Fixed assets recognised under finance leases are accounted for using the policies applied generally to Tangible Fixed Assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

### **Operating Leases**

Leases that do not meet the definition of finance leases are accounted for as operating leases. Rentals payable are charged to the relevant service revenue account on a straight line basis over the term of the lease, generally meaning that rentals are charged when they become payable.

## **15. Overheads and Support Services**

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Best Value Code of Practice 2007 (BVACOP). The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core – costs relating to the council's status as a multi-functional, democratic organisation.
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and any depreciation and impairment losses chargeable on non-operational properties.

These two cost categories are defined in BVACOP and accounted for as separate headings in the Income and Expenditure Account as part of Net Cost of Services.

## 16. Financial Liabilities

Financial liabilities are initially measured at fair value and carried at their amortised cost. Annual charges to the Income and Expenditure Account for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. For most of the borrowings that the council has, this means that the amount presented in the Balance Sheet is the outstanding principle repayable and interest charged to the Income and Expenditure Account is the amount payable for the year in the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to Net Operating Expenditure in the Income and Expenditure Account in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Income and Expenditure Account is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Income and Expenditure Account, regulations allow the impact on the General Fund Balance to be spread over future years. The council has a policy of spreading the gain/loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. For discounts receivable, Local Authorities (Capital Financing and Accounting) (Amendment)(England) Regulations 2007 (SI 2007/573) limit this to a maximum of 10 years. The reconciliation of amounts charged to the Income and Expenditure Account to the net charge required against General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Statement of Movement on the General Fund Balance.

The treatment outlined above is in line with the SORP and FRS25 (Financial instruments: disclosure and presentation), FRS26 (Financial instruments: recognition and measurement) and FRS29 (Financial instruments: disclosures).

For stepped rate loans (i.e. LOBO's – Lender Option Borrower Option loans) taken prior to 9 November 2007, Walsall Council has applied regulation 30E of the Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2008 SI2008/414. This allows local authorities to continue with their established method of calculating interest on these loans prior to the introduction of SORP 2007; either charging just the interest or creating a provision to enable the smoothing of interest over a defined period set by the authority. Walsall's method, in line with the above regulation, is to charge the interest paid in year with an adjustment to smooth the interest up to the first option date where the new interest rate is unknown

## 17. Financial Assets

Financial assets are classified into two types:

- Loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market
- Available-for-sale assets – assets that have a quoted market price and/or do not have fixed or determinable payments

### Loans and Receivables

Loans and receivables are initially measured at fair value and carried at their amortised cost. Annual credits to the Income and Expenditure Account for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the council has made, this means that the amount presented in the Balance

Sheet is the outstanding principle receivable and interest credited to the Income and Expenditure Account is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the Income and Expenditure Account.

Any gains and losses that arise on derecognition of the asset are credited/debited to the Income and Expenditure Account.

### **Available-for-sale Assets**

Available-for-sale assets are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Income and Expenditure Account for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (eg dividends) is credited to the Income and Expenditure Account when it becomes receivable by the council.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- Instrument with quoted market prices – the market price
- Other instruments with fixed and determinable payments – discounted cash flow analysis
- Equity shares with no quoted market prices – independent appraisal of company valuations

Changes in fair value are balanced by an entry in the Available-for-sale Reserve and the gain/loss is recognised in the Statement of Total Recognised Gains and Losses (STRGL). The exception is where impairment losses have been occurred – these are debited to the Income and Expenditure Account, along with any net gain/loss for the asset accumulated in the Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the Income and Expenditure Account.

Any gains and losses that arise on the derecognition of the asset are credited/debited to the Income and Expenditure Account, along with any accumulated gains/losses previously recognised in the STRGL.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

The treatment outlined above is in line with the SORP and FRS25 (Financial instruments: disclosure and presentation), FRS26 (Financial instruments: recognition and measurement) and FRS29 (Financial instruments: disclosures).

## **18. Stocks and Work in Progress**

Stocks are included in the Balance Sheet at the lower of cost and net realisable value. Work in progress is subject to an interim valuation at the year end and recorded in the Balance Sheet at cost plus any profit reasonably attributable to the works.

## **19. Private Finance Initiative (PFI)**

PFI contracts are agreements to receive services, where the responsibility for making available the fixed assets needed to provide the services passes to the PFI contractor. Payments made by the council under a contract are charged to revenue to reflect the value of services received in each financial year in line with FRS5 (Reporting the substance of transactions).

## **20. Events after the balance sheet date**

These are events that have happened after the balance sheet date, 31 March 2008. There are two types of event and it depends on its nature as to its treatment within the statement of accounts.

If the event is an adjusting event (one that has a material economic effect on the council and was known about at the balance sheet date) then the statement of accounts have been adjusted accordingly. Details about any such event have adjusted any effected notes accordingly.

If the event is indicative of conditions that arose after the balance sheet date then this is an un-adjusting event. For these only a note is included within the statement of accounts identifying the nature of the event and estimates of the financial effect (unless this can not be estimated reliably where upon a statement saying this is included).

## **21. Group Accounts**

SORP 2007 requires local authorities to examine their relationships with other organisations. This is with a view to checking whether the council needs to prepare group accounts because of another organisation being classified as a subsidiary or associate. The method for determining this is laid out in the SORP which the authority follows.

## **22. Landfill Allowance Trading Scheme (LATS)**

In 2005/06 the Landfill Allowances Trading Scheme was introduced. Under this scheme local authorities are given an allowance of tonnes of refuse that may be disposed of by landfill. Disposal in excess of this incurs a financial penalty payable to the Department for Rural Affairs (DEFRA). Alternatively allowances may be purchased from other local authorities who do not plan to use all of the allowances made available.

The Council did not trade any allowances in 2007/08 but has recognised the value of the assets and liabilities. The 2007/08, 2006/07 and 2005/06 LATS allowances have been recognised on the balance sheet as an intangible current asset, offset by the current liability to DEFRA for landfill usage. The current liability has been classified as a provision following the SORP, FRS12 (Provisions, contingent liabilities and contingent assets) and the proposed UITF Abstract Emission Rights.

The LATS income has been credited to the Income and Expenditure Account and the value of spare allowances moved to an earmarked reserve.

All allowances and liabilities are re-valued each year at the lower of cost or net realisable value.

## Section 8

# Glossary of terms

### A

**Accounting period:** the period of time covered by the accounts, normally twelve months commencing on 1 April. The end of the accounting period i.e. 31 March is the balance sheet date.

**Accounting policies:** within the range of possible methods of accounting, a statement of the actual methods chosen locally and used to prepare these accounts.

**Account and Audit Regulations 1996 / 2003 and 1 April 2006:** the current sets of regulations which detail the accounts needed, how they should be published, the right of electors, and the conduct of the annual statutory audit.

**Accruals basis:** the method of including amounts in accounts to cover income or expenditure attributable to an accounting period but for which payment has not been received or made by the end of the accounting period. This is based on the concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

**Agency Services:** work carried out by one party on behalf of another.

**AGS:** Annual governance statement

**Amortised:** reducing the value of a deferred charge in an accounting period. The reduction in value transferred from the balance sheet to the income and expenditure account.

**Appropriations:** transferring of an amount between specific reserves in the income and expenditure account.

**Asset:** something of value which is measurable in monetary terms owned by the council and is convertible to cash..

**Audit Commission:** statutory body which oversees the conduct of local authority statutory (external) audits.

### B

**Bad (and doubtful) debts:** debts which may be uneconomic to collect or unenforceable.

**Balances:** the reserves of the authority, both revenue and capital, which represent the accumulated surplus of income over expenditure on any of its funds.

**Balance Sheet:** a statement of the recorded assets, liabilities and other balances at the end of an accounting period.

**Billing authority:** Walsall Council is the billing authority responsible for the collection of council tax and non-domestic rates. The council tax includes amounts for precepting authorities – the West Midlands Fire & Civil Defence and Police Authorities.

**Budget:** a statement of the council's expected level of service expressed as an amount of spending over a set period, usually one year.

**BVACOP:** Best Value Accounting Code of Practice. An accounting code that applies to all local government with the aim of standardising categorisation of spend and accounting practices.

## C

**Capital Adjustment Account:** financing of capital expenditure passes through this account.

**Capital expenditure:** expenditure on the acquisition of a fixed asset or expenditure which adds to and not merely maintains the value of existing fixed assets.

**Capital receipts:** the proceeds from the sale of a fixed asset, or the repayment of an advance made by the council.

**Capitalised:** transferred from revenue to capital.

**Cash and cash equivalents:** this comprises cash in hand, cash overdrawn and short term investments which are readily convertible into known amounts of cash.

**Cashflow:** movement in money received and paid by the council in the accounting period.

**CIPFA:** Chartered Institute of Public Finance and Accountancy. The professional body that oversees accounting practice within public bodies.

**CIPFA/LASAAC Code of Practice on Local Authority Accounting:** the Statement of Recommended Practice applicable to preparing the accounts.

**CIPFF:** Corporate integrated planning and performance framework

**CMT:** Council management team – the most senior management team within the council.

**Collection Fund:** a statutory account which billing authorities have to maintain for the collection and distribution of amounts due in respect of council tax, non-domestic rates and residual community charge ("poll tax").

**Community assets:** assets that the council intends to hold in perpetuity, have no determinable finite useful life and in addition may have restrictions on their disposal. Examples of community assets are playing fields and parks.

**Consistency:** the concept that the accounting treatment of like items within an accounting period and from one period to the next should be the same.

**Consolidated:** added together with adjustments to avoid double counting of income, expenditure or to avoid exaggeration, e.g. debtors, creditors as a result of trading between services within the council which are reported on as a whole in the section on consolidated financial accounts.

**Contingent Assets:** potential assets at the balance sheet date which depend on the occurrence or non-occurrence of one or more uncertain future events. The assets should be included in the balance sheet where it is probable that a loss will be incurred which can be estimated reasonably accurately at the time the accounts are prepared. Otherwise, where the contingencies are likely to be material, the fact that they exist should be disclosed as a note to the accounts.

**Contingent liabilities:** potential liabilities at the balance sheet date which depend on the occurrence or non-occurrence of one or more uncertain future events. The liabilities should be included in the balance sheet where it is probable that a loss will be incurred which can be estimated reasonably accurately at the time the accounts are prepared. Otherwise, where the contingencies are likely to be material, the fact that they exist should be disclosed as a note to the accounts.

**Council tax:** a banded property tax which is levied on domestic properties throughout the country. The banding is based on estimated property values as at 1 April 1991. The level of tax is set annually by each local authority for the properties in its area.

**Council tax benefit:** financial assistance available to residents on a low income who are liable for council tax. The majority of the cost to the council of these benefit payments is reimbursed by central Government grant.

**Corporate & Democratic Core:** defined elements of support service costs which are not chargeable to services, sub-divided into Democratic Representation and Corporate Management.

**Corporate management:** those activities and costs which provide the framework for services to be undertaken and information required for public accountability.

**CPA:** Comprehensive Performance Assessment

**Credit liabilities:** forms of credit scored against the capital resources of the council.

**Creditors:** amounts owed by the council for work done, goods received or services rendered to the council during the accounting period, but for which payment has not been made by the balance sheet date.

**Current assets:** assets which are easily converted to cash e.g. stock and debtors.

**Current liabilities:** liabilities which are easily converted to cash e.g. creditors

## **D**

**Debtors:** amounts due to the council which relate to the accounting period and have not been received by the balance sheet date.

**DCLG:** Department for Communities and Local Government – responsible for Government policy and advice on community affairs and local Government.

**DCSF:** Department for Children, Schools and Families – responsible for Government policy and advice in connection with education and the social welfare of children and families.

**DDA:** Disability Discrimination Act

**Deferred capital receipts:** amounts derived from the asset sales which will be received in instalments over a period of a year (e.g. mortgages on the sale of council houses).

**Deferred charges:** expenditure which may properly be spread over more than one year but which does not result in, or remain matched with, tangible assets. An example of a deferred charge is the cost of local government reorganisation, the effects of which have performance over more than the immediate accounting period.

**Deferred government grants:** government grants for capital items which are written down over the life of the asset.

**Deferred liabilities:** these are liabilities which are payable beyond the next year at some point in the future or paid off by an annual sum over a period of time, e.g. deferred purchase arrangements.

**DEFRA:** Department for Environment, Food and Rural Affairs. Responsible for Government policy and advice on environmental, agricultural and rural issues.

**Democratic Representation & Management:** all aspects of members' activities including service policy making and more general activities relating to governance and representing local interests.

**Depreciation:** the loss in value of an asset due to age, wear and tear, deterioration or obsolescence.

**Diocese:** an administrative territorial unit administered by a bishop i.e. Bishop of Lichfield.

**DWP:** Department for Work and Pensions

## **E**

**Earmarked reserves:** these reserves represent the monies set aside that can only be used for a specific usage or purpose.

**ED:** Executive Director

**Environment Agency:** statutory body responsible for land drainage and water quality. The council pays a levy in respect of its share of the cost of the Environment Agency's activities in the midlands regions.

**Exceptional:** material items which arise from events or transactions that fall within the ordinary activities of the council and which by virtue of their size or incidence need to be disclosed separately to give a fair presentation of the accounts.

**Expenditure:** costs incurred by the council for goods received, services rendered or other value consumed during the accounting period, irrespective of whether or not any movement of cash has taken place.

## **F**

**Finance lease:** a lease that transfers the risk and rewards of ownership of a fixed asset to the lessee. Such a transfer of risk and rewards may be presumed to occur if at the inception of the lease the present value of the minimum lease payments, including any initial payment, amount to substantially all the fair value of the leased asset.

**Financial instrument:** Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

**Fixed asset restatement account:** a reserve which records the total of unrealised gains and losses in fixed asset values at the end of the accounting period through, for example, revaluation of the assets.

**Fixed assets:** tangible assets which have value to the council for more than one year, e.g. land, buildings, equipment.

**Free from material misstatements:** the accounts have no significant items which are incorrect, summarised or presented in an inappropriate or misleading manner.

**FRS:** Financial Reporting Standard. Accounting standards that apply to all accounts unless there is legislation or a SORP covering that area.

## **G**

**General Fund:** the main revenue account of the council, which brings together all income and expenditure other than recorded in the Housing Revenue Account, PSE accounts and the Collection Fund.

**Government support / grants:** assistance by Government and inter-Government agencies and similar bodies, whether local, national or international, in the form of cash or transfer of assets to an authority in return for past or future compliance with certain conditions relating to the activities of the authority.

## **H**

**Historical cost:** the actual cost of assets, goods or services, at the time of their acquisition.

**Housing benefits:** financial assistance paid to tenants on a low income to help pay their rent and service charges.

**HR:** Human Resources

## **I**

**ICT:** Information and communication technology

**Impairment:** Downward revaluation due to the consumption of economic benefits

**Income and expenditure account (I&E):** reports the net cost of the council for the year and details how this has been financed.

**Income:** amounts due to the council in respect of services performed, taxes levied or grants receivable during the accounting period, irrespective of whether or not any movement of cash has taken place.

**Infrastructure assets:** fixed assets that are inalienable, expenditure on which is recoverable only by continued use of the asset created. Examples of infrastructure assets are highways and footpaths.

**Investment properties:** interests in land and/or buildings in respect of which construction work and development have been completed and which are held for their investment potential rather than for operational purposes, any rental income being negotiated at arm's length.

**Investments:** items such as company shares, other securities and money deposited with financial institutions (other than bank current accounts).

**IPM:** Individual Performance Management, the framework Walsall Council uses to manage individual performance and assess training and development needs.

**I-proc:** The council's electronic procurement system

**IT:** Information technology

## **L**

**Leasing:** a method of acquiring the use of an asset by paying a rental for a specified period of time, rather than purchasing it outright.

**Liabilities:** amounts due to individuals or organisations which will have to be paid at some time in the future.

**LOBO:** Lenders Option Borrowers Option. A form of loan that has option dates. These are dates where the lenders has the ability to change the interest rate. If this happens the borrower then has the option of either continuing the loan or redeeming it in full without any penalty.

## **M**

**Material:** the concept that any omission from or inaccuracy in the statements of account should not be large enough to affect the understanding of those statements by a reader.

**Minimum revenue provision:** the minimum amount which must be charged to an authority's revenue accounts and set aside as a provision to repay external debt. It is calculated by applying a prescribed percentage of outstanding debt.

## **N**

**National Non-Domestic Rates:** a tax levied on business properties, sometimes known as Business Rates. An NNDR poundage is set annually by the Government. Rates based on properties' rateable values are collected by billing authorities and paid into a national pool. The proceeds are then redistributed by central Government as a grant to local authorities in proportion to adult population.

**Net book value:** the amount at which fixed assets are included in the balance sheet, i.e. their historical cost or current value less the cumulative amounts provided by depreciation.

**Net realisable value:** the open market value of the asset in its existing use (or open market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

**Non-added value:** Capital expenditure that does not create a pound for pound increase in the value of an asset.

**Non-operational assets:** fixed assets held by the council but not directly occupied, used or consumed in the delivery of services. Examples of non-operational assets are investment properties and assets that are surplus to requirements pending sale or redevelopment.

## **O**

**O/C bonds:** On call bonds

**OLA:** Other local authority

**Operating lease:** a lease where the risks and rewards of ownership of a fixed asset remain with the lessor. Such a lease will be for a fixed period which is significantly less than the useful economical life of the asset.

**Operational assets:** fixed assets occupied, used or consumed by the council in direct delivery of those services for which it has either statutory or discretionary responsibility.

## **P**

**PFI:** Private finance initiative

**Precept:** a levy determined by one authority which is collected on its behalf by another e.g. Walsall Council collects Police and Fire Authority precepts.

**Presents fairly:** summarised without misleading or aggregating items best explained as separate amounts.

**Prior year adjustments:** material adjustments to the accounts of earlier years arising from changes in accounting policies or from the correction of fundamental errors. They do not include normal recurring corrections or adjustments of accounting estimates made in prior years. The prior period adjustments are allowed for comparative purposes under FRS28.

**Provisions:** amounts set aside in the accounts for liabilities or losses which are certain or very likely to occur but where there is uncertainty as to the amounts involved or the dates on which they will arise.

**Prudential Code:** The current system on financial controls for capital financing introduced on 1 April 2004 that local authorities are required to operate by.

**Public Works Loan Board (PWLB):** a central Government agency which lends money to local authorities at lower rates than those generally available from the private sector. Local authorities are able to borrow a proportion of their requirements to finance capital expenditure from this source.

## **R**

**Replacement cost:** cost of replacement of an asset at the balance sheet date.

**Reserves:** amounts set aside in the accounts to meet expenditure which the council may decide to incur in future period, but not allocated to specific liabilities which are certain or very likely to occur. Earmarked reserves are allocated to a specific purpose or area of spending. Unallocated reserves are often described as balances, and usually arise as unplanned surpluses of income over expenditure.

**Revaluation:** The increase or decrease in an assets value following valuation by a suitably qualified person.

**Revenue contributions:** method of financing capital expenditure directly from revenue.

**Revenue Support Grant:** a central Government grant paid to each local authority to help to finance its general expenditure. The distribution of the grant between authorities is intended to allow the provision of similar standards of service throughout the country for a similar council tax levy.

**Ring-fenced:** this refers to the statutory requirement that certain accounts such as the Collection Fund must be maintained separately from the General Fund.

## **S**

**SOLACE:** Society of local authority chief executives

**SORP:** Statement of Recommended Practice applicable to preparing the accounts. This usually pays reference to accounting standards (FRS, SSAP UITS) and modifies them for a particular industry i.e. Local Government.

**Statement of movement on the general fund balance (SMGFB):** This statement shows items of income and expenditure that are defined by legislation, as being required in calculating the council tax requirement, but under UKGAAP can not be included in the income and expenditure account.

**Statement of total recognised gains and losses (STRGL):** This statement reports gains and losses that are not reflected in the income and expenditure account. It includes movements on revaluations of fixed assets and pension fund assets and liabilities.

**Stocks and Stores:** raw materials and consumable items which the council has procured to use on a continuing basis and has not been used by the end of the accounting period.

**SSAP:** Standard Statement of Accounting Practice. Accounting standards that apply to all accounts unless there is legislation or a SORP covering that area.

**Supported Borrowing:** The level of borrowing that the authority receives funding for from central Government to support capital expenditure.

**Suspense:** accounts where transactions are not allocated, e.g. as income, expenditure or balances, at the time of writing up the accounts for publication.

## T

**tPCT:** Teaching Primary Care Trust.

**Trust funds:** funds administered by the council on behalf of minors and others for such purposes as prizes, charities and specific projects.

## U

**UITF:** Urgent Issue Task Force. These are abstracts that are accounting standards that apply to all accounts unless there is legislation or a SORP covering that area.

**UKGAAP:** United Kingdom Generally Accepted Accounting Practices. Accounting regulations adhered to in the UK.

**Unsupported Borrowing:** Borrowing taken out in the year by the authority in addition to supported borrowing. The council is required to finance this borrowing itself through savings made and council tax.

## W

**WATMOS:** Walsall Alliance of Tenant Management Organisations. A registered social landlord in Walsall that was created as a result of the large scale voluntary transfer of all the council's housing stock.

**WCVS:** Walsall Council for Voluntary Services.

**WHG:** Walsall Housing Group. A registered social landlord in Walsall that was created as a result of the large scale voluntary transfer of all the council's housing stock.

**Work in progress:** the cost of work done up to a specified date on an uncompleted project.
