DATE: 26 June 2018

### CORPORATE FINANCIAL PERFORMANCE – QUARTER 4 PRE-AUDIT OUTTURN POSITION FOR 2017/18

Ward(s) All

Portfolio: Councillor Nawaz - Children's Services and Education (Pre May 2018)  
Councillor Wilson – Children's and Health and Wellbeing (From May 2018)

#### Summary of report

The pre-audit revenue outturn for 2017/18 for Children's Services based on the financial performance for the financial year 2017/18 is a revenue overspend of **£1.457m**, (net of the use of corporate and service reserves) prior to the approval of revenue carry forwards. £0.190m revenue carry forwards have been requested to Cabinet for approval. If approved, the pre-audit revenue outturn for Children's Services will be **£1.647m**. Without the use of corporate and service reserves and implementation of the in year action plan, the overspend would be **£5.345m**.

Regular reports were prepared during 2017/18 for the Education and Children's Services Overview and Scrutiny Committee which contained the services for the whole of the Children's Services directorate. From May 2018, services within Children's directorate are now split between the Education Overview and Scrutiny Committee and the Children's Services Overview and Scrutiny Committee. For services under the remit of this committee the pre-audit revenue overspend is £1.367m. For completeness, the pre-audit revenue overspend for Education Services not under this committee is an overspend of £0.280m. This gives a total overspend for Children's Services of **£1.647m**.

The total capital programme for the directorate is **£16.990m** with a pre-audit outturn of **£10.414m** as at the end of the financial year 2017/18. Carry forwards totalling £6.399m have been approved leaving an overall under spend of **(£0.175m)**. This is due to an under spend associated with investment not required in year returned to the corporate centre to fund other Council capital schemes in line with Council policies. The Children's Services Capital outturn for 2017/18 is summarised in table 7.

#### Reason for Scrutiny

To inform the Panel of the pre-audit outturn position for 2017/18 for services within their areas of responsibility.

#### Recommendation

1. To note the revenue and capital pre-audit outturn for the financial year 2017/18 for services under the remit of the Children's Services Overview and Scrutiny Committee.
2. To note the actions taken to address the areas of overspend.

#### Background papers

Various financial working papers.

## **Resource and legal considerations**

The Council is required to set a balanced budget and requires services to operate within their approved budget allocation. Any variances are required to be managed as far as is reasonably possible. The revenue and capital financial monitoring is reported quarterly to Overview and Scrutiny Committees along with corrective action plans when variances arise. All accounting entries are undertaken in line with the required corporate and statutory accounting guidance and standards.

## **Citizen impact**

Resource allocation is aligned to service activity and is undertaken in accordance with the Council's corporate plan priorities.

## **Environmental impact**

Services within the remit of this overview and scrutiny committee have a direct influence and impact on the environment.

## **Performance management**

Financial performance is considered alongside service targets. Managers are required to deliver their service targets within budget, wherever possible. Corrective action plans are put in place to mitigate overspends where possible, with any remaining variances against budget identified in the report.

## **Equality Implications**

Services consider and respond to equality issues in setting budgets and delivering services. Irrespective of budgetary pressures, the Council must fulfil equal opportunities obligations.

## **Consultation**

Consultation was undertaken as part of the budget setting process and throughout the financial year on the financial position and reporting thereof.

- 1.6 Included within the approved budget for 2017/18 are £3.555m of approved savings/cost reductions relating to Children's Services. An update on the achievement of these has been reported monthly to CMT as part of the corporate financial performance report. Any savings/cost reductions that were not achieved in year were required to have alternative actions identified and were managed closely through the relevant service management teams and in liaison with the relevant portfolio holder. £3.332m of approved savings have been delivered in full.

## **Appendix - Looked After Children Outturn Position as at 31 March 2018**

### Context

- Between 2010 and 2012, LAC numbers and associated costs were seeing a decline however following an Ofsted inspection and subsequent inadequate judgement suggesting thresholds for children entering the care system being too low, these numbers began to significantly increase.
- By 2014/15, LAC numbers and the associated costs had increased to 620 (circa 140 LAC since Ofsted) and cost circa £14.3m (£2.8m above the available budget).
- Since 2014/15, the total LAC numbers have continued to increase, albeit at a more gradual rate (from 620 in 2014/15 to 644 currently), however the associated costs and overspend in CSC have increased significantly during this period. A combination of more care dependant complex children, limited lower cost internal placements, increased dependency on higher cost external placements and undelivered savings/cost reductions over recent years have all contributed to this position.
- As part of recent budget setting processes, investment of circa £6.6m has been necessary in LAC placements in order to fund cost pressures and support what remains a volatile, demand driven service.
- It should be noted that the forecast position reported in year is calculated based on the number and mix of Children at a point in time and is adjusted for identified and anticipated moves. With regard to budget setting, this takes a similar approach and includes the number/mix for a full year plus an estimated cost increase following a review of historical growth.
- The Council's key priority that Children are safe from harm, happy and learning well with self-belief, and support to be their best, is a key driver of resource allocation, with significant investment being made into children's social care. The costs of LAC are high. This is set within a context of continually decreasing resources available to fund existing council services and hence a need to identify opportunities within the council for large-scale transformation, leading to more efficient and effective practice and services. A key theme of the transformation programme is "safely reducing the numbers of looked after children", recognising that it is in everyone's interest that families are enabled to stay together safely and to reduce the number of children coming into (and staying in) care.
- The budget setting process attempts to balance known demand and pressures, with expected demand growth. It risks assesses these assumptions and this informs the level of balances set aside to deal with uncertain or unknown events.
- The graph and table presented below summarises both the available budget and the costs associated with looked after children placements since 2010/11 along with the budget position.

## Pre-audit Outturn 2017/18

The yearend overspend is **£2.284m** prior to any mitigating action and use of reserves. This includes cost reductions already achieved (Table 4). A corporate reserve was agreed to offset the overspend associated with 11 complex case children. This results in a net overspend of **£1.911m**.

## **CSC Action Plan**

Efforts continue to be made to control the number and cost of Looked after Children, this includes:

- The 4 year transformational programme aims to safely reduce the number of Looked after Children through Intelligence, prevention, securing early permanence, increase foster care capacity and capability, commissioning, brokerage, placement and sufficiency, internal residential and workforce. The main 4 aims are:
  - Effective services to enable families to stay together and reduce the number of children coming into the care system
  - Faster exit from care into permanency either by returning children home, through Special Guardianship or via adoption
  - Efficient services that meet the needs of LAC and their families and offer better value for money (Effective social work model and better value from placements)
  - Strengthen financial controls to ensure effective financial management
- Children services working with a significant number of families to ensure that children remain with their families if possible. Implementation of multi-agency protection plans, the establishment of the Edge of Care Team and the introduction of a Gateway Panel are all in place to support this goal.
- Checks on whether decisions taken are correct and necessary continue to be carried out via the courts, Independent Reviewing Officers and case file audits taken together, these processes indicate that children are only in care when necessary and the thresholds in Walsall are correct.
- Finding suitable adopters and progressing children's cases through the approval and court processes, aimed at reducing number of children in care. Work is in place to review process and timescales for adoption to ensure effectiveness.
- Working to replace current Care Orders with ones that do not require continued Social Work involvement such as Special Guardianship Orders. The number of LAC could reduce markedly, allowing resources to be better targeted at preventative strategies.
- A fortnightly Children's Services Strategic Group is in place, chaired by the Assistant Director and attended by Children's Social Care and Safeguarding teams, to implement strategies aimed at reducing LAC and monitoring their impact. A Key element to this work is preventing children coming into care and once in, enabling them to be removed from care safely and quickly. This strategic Group is to broaden and become a Council wide Group with membership and support from across the Council.
