Janice Rowley
Paul Gordon

Prof. Simon Brake
Chief Supt. Andy Parsons

Walsall Council

PROUD OF OUR PAST OUR PRESENT AND FOR OUR FUTURE

Current thinking

- To note the progress made to date, the priorities identified and the further engagement planned.
- To note the draft 'commitments' made by partner organisations and consider whether these adequately reflect the aspiration and scale needed to bring about meaningful progress on the three priority areas over a 12 month period.
- To consider how simple but effective governance could be put in place to oversee delivery of the Walsall Plan.
- To commit to taking the final refreshed Walsall Plan and commitments through their internal governance structures.

Current thinking

- JSNA refresh
- Engagement to date
 - Police, Housing, Walsall College, One Walsall, WMBC Corporate Management Team, Safer Walsall Partnership, HWBB Development Session Overview Scrutiny, Health and Social Care Scrutiny, Strategic Partnership Group
 - See handout for further engagement planned
- Agreement to move towards fewer priorities that are 'SMART'
 - **S**pecific; **M**easureable; **A**ttainable; **R**elevant; **T**imely
 - Tangible - delivery within a 12 month time frame
 - Cross cutting across all partners
- 3 priorities
 - Reducing violence
 - Walsall on the move  Wellbeing in Walsall
 - Development of a Walsall Town Centre

Developing the offers from partners

- At HWBB devt session, partners were asked to consider an offer for each priority that they could commit to
- Handouts describe some work we have started
 - Grouping offers up
 - Attempting to make them SMART
- **Request:**
 - All partners consider how they may further refine their offers for January 22nd 2019 HWBB development session
 - Start to consider governance of HWBB
 - All partners consider any internal governance arrangements to take their offers through
