

10 November 2022

Council Plan Markers of Success Quarter 1

Ward(s) All

Portfolio(s): All

Report:

The new Council Plan was published In May 2022 and continues to present Walsall's intention to focus on the five priorities, which were first introduced in the 2018/21 publication.

These priorities are underpinned by 10 outcomes (two outcomes per priority) and each outcome has two Markers of Success (two markers per outcome).

These 20 Markers of Success are the tools to measure performance throughout 2022/23, which informs the Council, Walsall residents and businesses and provides data/information to review and monitor throughout the year.

Attached at Appendix 1 is a report to Cabinet from 19 October 2022 highlighting quarter 1 performance at achieving the markers of success for the current Council Plan.

A presentation will be provided at the meeting to add further detail and explanation for Members.

Recommendation:

That Members receive the presentations provided at the meeting, ask questions and consider if there are any areas they wish to make recommendations on or follow up at future meetings.
